WASHINGTON, D.C., June 9:—The Department of Commerce has released figures showing that grain exports last week from the United States totalled 1,568,000 bushels as against 1,336,000 bushels in the previous week and 4,141,000 bushels in the corresponding week last year. Canadian grains exported last week from United States ports totalled 585,000 bushels as against 761,000 bushels the previous week while exports of flour were 71,000 barrels as against 57,000.

SCALING IS PICKING UP

Volume of Output Increasing As Season Advances Although This Year is Still Behind Last

Although not yet coming up to last year's figures, timber scaling in Prince Rupert forestry district is beginning to show a distinct increase in volume as compared with earlier months in the year. In May this year log scaling totalled 7,751,820 board feet as against 9,350,280 board feet in the same month last year. So far this year scalings have reached a total of 12,493,327 board feet as against 22,225,341 board feet in the first five months of 1931.

Spruce scalings for May this year show a considerable increase over those in May 1931.

Log scalings in May this year by species were as follows, figures for May last year also being for purposes of comparison:

	May 1932	May 1931
	Board ft.	Board ft.
Douglas Fir	21,642	8,118
Cedar	131,386	950,002
Spruce	4,140,535	3,771,004
Hemlock	2,680,142	3,690,330
Balsam	778,113	930,251
Miscellaneous		585
Totals	7,751,820	9,350,280

Timber Products
Output of timber products this year in the interior is still lagging behind that of 1931. Pole and pile production for May this year amounted to 20,197 lineal feet of which 9,387 lineal feet was in cedar and 10,800 lineal feet in hemlock.

Cordwood for this May amounted to 121 cords as against 122 cords in May 1931.

In this May 17,196 hewn jack-pine ties were counted as compared with 129,750 in the same month last year.

Third Trial For Young German Results in His Freedom Being Won

Had Faced Jury Twice Before and on One Occasion Death Sentence Was Passed—Killing Occurred Two Years Ago in Lonely North Country

KAMLOOPS, June 9:—Carl Fredericks, young German, was acquitted by a jury at the Supreme Court Assizes here yesterday afternoon on the charge of murdering his two countrymen and prospector companions, Herman Peters and Max Westphal, in the lonely Trembleur Lake country in the Omneca district in the summer of 1930. The trial here was the third

that Fredericks had faced since he was arrested nearly two years ago following the discovery by Indians of the bodies of Peters and Westphal in a rough grave several weeks after they had, apparently, been done to death.

In the first trial at Prince George the jury disagreed but in the second, also at Prince George, Fredericks was found guilty and sentenced to be hanged. Fredericks being penniless, his case was then taken up by a Vancouver charitable organization and a new trial was obtained, the venue being changed from Prince George to Kamloops.

Chief Justice Aulay Morrison was the presiding judge at the trial here.

Sir Henry Thornton

ARE GETTING TOGETHER

The governments of Great Britain and Ireland are getting together and talking over their difficulties. That is the first step to a settlement. When men meet and sit around a table with the purpose of trying to effect a settlement it is likely that they will succeed. De Valera is not feared as formerly since the country was given its Dominion status but at the same time it is very desirable that there should be friendly relations between the Irish and English people. They are so closely associated by trade relations, by marriage and by social ties in all parts of the world that it would be most unfortunate if there should be friction between the two countries. As close neighbors, England and Ireland should be very useful to each other and the best of friends.

POWER CORPORATION

The Power Corporation, with which our power company is affiliated, is having a difficult time as a result of the financial slump. Along with most other companies its stocks have depreciated and its income fallen off to a very serious extent. The result is that readjustments have had to be made.

An article published in the east tells in some detail of the difficulties and of the probability of the discontinuance of dividends on the common stock of the company. There is no suggestion that the company is in any danger but simply that its earnings are so low that the payment of dividends is not expected.

CLOSE NEIGHBORS

Every country is a near neighbor of every other country today. Even the poles have been brought within flying distance of the tropics. We know our neighbors as never before and if we are not exactly intimate with all of them we are gradually getting to know them better, to appreciate their good national qualities and take exception to the qualities that we dislike.

The difficulty is that neighbors sometimes quarrel. In the country districts in British Columbia there is often bitter enmity between various households and sometimes communities are divided into warring groups. They may not use physical violence toward each other but they take almost every other means of indicating their dislike. Such a condition does not make for enjoyment of life. Often it makes life a little hell when it might be a heaven.

When it is so difficult for individuals to get along together in small communities, it is difficult to understand how nations are going to live for generations without a fight. Doubtless they will do it in time but as each has its own set of ideals it is often difficult to reconcile them with each other.

Today the men who really do the fighting are refusing to be sacrificed by the leaders who never fight but simply sit back and direct. Mothers are refusing to bear children to be sacrificed at the whim of some ruler or leader. The glory has gone out of warfare and people see today how ridiculous it is to fight over something that may easily be settled by some less barbarous method.

Severe Headaches Pimples on Face

Miss Marie L. C. Blackwell, Gunn, Alta., writes: "For two years I suffered from severe headaches, and pimples on my face. My headaches seemed incurable, and I thought the pimples would never disappear. A friend recommended Burdock Blood Bitters, and on trying a bottle I found the headaches disappear, and I am not bothered any more with the pimples."

MEETING OF SCIENTISTS

Progress of Christian Science Movement Reported at Annual Gathering in Boston

BOSTON, Mass. June 9.—The steady progress of the Christian Science movement during a year marked by a general slowing down in human activities was emphasized here in reports presented at the annual meeting of The Mother Church, The First Church of Christ, Scientist, Members from many parts of the world—more than 6000 in all—listened to reports of the various departments of the organization, which told of steady attainment in its numerous activities.

Close at hand, in the shadow of the dome of the church edifice, members beheld an inspiring indication of this growing activity in a structural outline of steel and stone rapidly taking form into the new home of The Christian Science Publishing Society, designed to serve an increasing need for the promotion and publication of the periodicals.

Announcement was made of the election of the following officers:

President—Hon. Ralph O. Brewster of Dexter, Maine.
Clerk—Ezra W. Palmer of Brookline, Mass.
Treasurer—Edward L. Ripley of Brookline, Mass.
First Reader—Gordon V. Comer of Denver, Colo.

Second Reader—Miss Lucia C. Coulson of London, Eng.

The Honorable Ralph O. Brewster graduated from Bowdoin College and from Harvard Law School, and in 1923 received the honorary degree of LL. D. from the University of Maine. Mr. Brewster served his country during the World War, and he has served his state in various capacities, including those of Representative to the Legislature, Senator, and from 1925 to 1929 as Governor. For years Governor Brewster has been a practicing attorney in Maine.

PROTEST OF NATIVE

Editor, Daily News:—
I beg for space in your valuable paper for a subject which created a very poor opinion among our people of certain ministers of the United Church, ministers of the gospel, professing Christians, making utterances about our native people, like the Pharisee said of the Publican. And like the Pharisee and the latter, the latter's prayer will be heard before the former's, because of haughtiness and snobbery and "higher than thou" attitude prevailing among some ministers of the church, as far as our native people are concerned.

I am a native and proud of the fact and will always stand by my people. As it was the will of the Almighty that we natives be of a different color from our white fellow men, it seems to give our white fellow men the idea that we are to be looked down upon. Did our Savior, who was sent upon our sinful earth to save the world from sin, make such a discrimination? Anyone who reads his Bible at all will know the answer, and I denounce such a discrimination as parasitism, regardless of whom it may concern. Yet some of our good white neighbors do the very thing and unfortunately we hear every bit of it as we have many true friends among them. And we have many true friends among the ministry as well.

I wish to say here, that we owe a great deal to the church as a whole, because of the many true Christian missionaries that labored among us for many years; missionaries who did not enter the ministry as a means to an end but rather as a true servant of the Master, and giving up self.

We, the Skidegate Haidas, are a very proud nation. Many a white man found that out to his grief. We will not tolerate antagonistic tendencies. We are good friends when so treated and know how to behave.

It is an axiom that some white people consider that all Indians are alike. But nothing could be farther from the truth; there is as much difference between some places as between the sailing vessel and the motor boat. But by the one hundred and fifty year old Indian Act, we are deprived of our wings and not permitted to fly. Thus we are obliged to crawl along instead of taking our places as citizens of our native country, and thus we are looked down upon unjustly by some white people, even by our close neighbors.

In conclusion I thank you, Mr. Editor, for your valuable space. Yours for fair play,
M. J. WILLIAMS,
Skidegate Mission, B.C.

TELL THE PEOPLE
"Tell 'em quick and tell 'em often. Explain to folks plainly and sincerely what you have to sell. Keep everlastingly coming at them. Advertising is pretty much like shovelling a furnace. Once you stop stopping the fire goes out."—Wm. Wrigley Jr. (tf)

TAKE KLIM ALONG AND YOU'LL ALWAYS HAVE FRESH MILK!

No matter how far from the beaten track your journey takes you — how far into the bush — along untrodden trails — you can always have a supply of pure, fresh milk, if you include Klim in your dunnage.

For Klim is milk—milk in convenient powder form, from which only the water has been removed. The replacing of that water gives you pure, fresh, full cream milk again whenever you require it. Klim is compact and easily carried—a 5-lb. tin makes 16 quarts of rich milk. Klim does not sour in the dry form, even after the tin is opened.

ATHLETICS MOVE UP

Displace Detroit Tigers From Third Place in the American League—Reds Take Cellar in National

CLEVELAND, June 9.—By defeating the Cleveland Indians here yesterday, the Philadelphia Athletics advanced to third place in the American League standing ahead of the Detroit Tigers who dropped a close game to the New York Yankees at Detroit. The Washington Senators lost by a margin of one run to the Chicago White Sox at Chicago and the lead of the New York Yankees in the league standing was increased to six full games.

The three-way tie for cellar position in the National League was broken with the New York Giants going into sixth place by defeating the Cincinnati Reds who took undisputed cellar honors. The Phillies defeated the Pittsburgh Pirates and captured seventh place. The Chicago Cubs increased their margin of league leadership to one game and a-half by defeating the Brooklyn Dodgers at Brooklyn while the Boston Braves were losing to the St. Louis Cardinals in a slugfest at Boston.

Yesterday's Big League scores were as follows:

AMERICAN LEAGUE			
Philadelphia	3	Cleveland	1
New York	5	Detroit	4
Washington	2	Chicago	3
Boston	4	St. Louis	11
NATIONAL LEAGUE			
Cincinnati	2	New York	9
Chicago	7	Brooklyn	5
St. Louis	15	Boston	8
Pittsburgh	10	Philadelphia	11

HIGH WINS JR. TITLE

Senior Boys Take Second Half of Season as They Did First

In the Junior Football fixture last evening King Edward High School won over Booth Memorial School by a three to nil score after a very keenly contested game and thereby won the second half of the Junior League schedule. High School having also won the first half, there will be no play-off.

The game right from the start was well worth seeing. High was out to avenge its defeat in the last match with the east-enders while Booth was hopeful of repeating the previous win. Both teams were at full strength. The first half was evenly fought out with Gay in goal for Booth turning in a splendid game. There was no score at half time but, in the second half, Santurbane headed a first goal from a corner kick and later Wilson added two. Gay saved a penalty kick taken by Iverson.

Booth—Gay; Eby, Ritchie; Gillis, Gomez, Fulton; DeMarco, Lear, Colussi, MacDonald, McMeekin.

High—Morgan; Fisher, Nakamoto; Kirkendall, Crompt, Faw; Santurbane, Christison, Iverson, Wilson, Dugate.

For Booth School Gay, McMeekin, Ritchie, Eby, Gomez and Colussi were best while Crompt and Faw were outstanding for High School.

Final Shipment Of Free Bulls

Thirty-One Animals Placed in Interior Under Government Policy

PRINCE GEORGE, June 9:—T. G. Stewart passed through Prince George on Tuesday of this week with the fourth and last consignment of pure-bred bulls to be delivered under the Dominion government bull loaning policy this year. The last two shipments were distributed as follows: one Holstein to Telkwa; one Holstein to Quilchwan; one Shorthorn to Nadina River; three Shorthorns to Fraser Lake; two Shorthorns to McBride.

Of the 35 bulls placed with farmers in B. C. under the policy this year, 31 were located in the district lying between Red Pass and Telkwa, three at Blackpool on the Canadian National line between Kamloops and Blue River and one was placed at Brigade Lake a few miles south of Kamloops. The bulls distributed are all of outstanding merit in breeding and type and should go a long way in the improvement of the livestock of the districts in which they are located.

Canada enjoys unique leadership in fur farming production from 5,600 fur farms.

PASSING OF PAT CLUNE

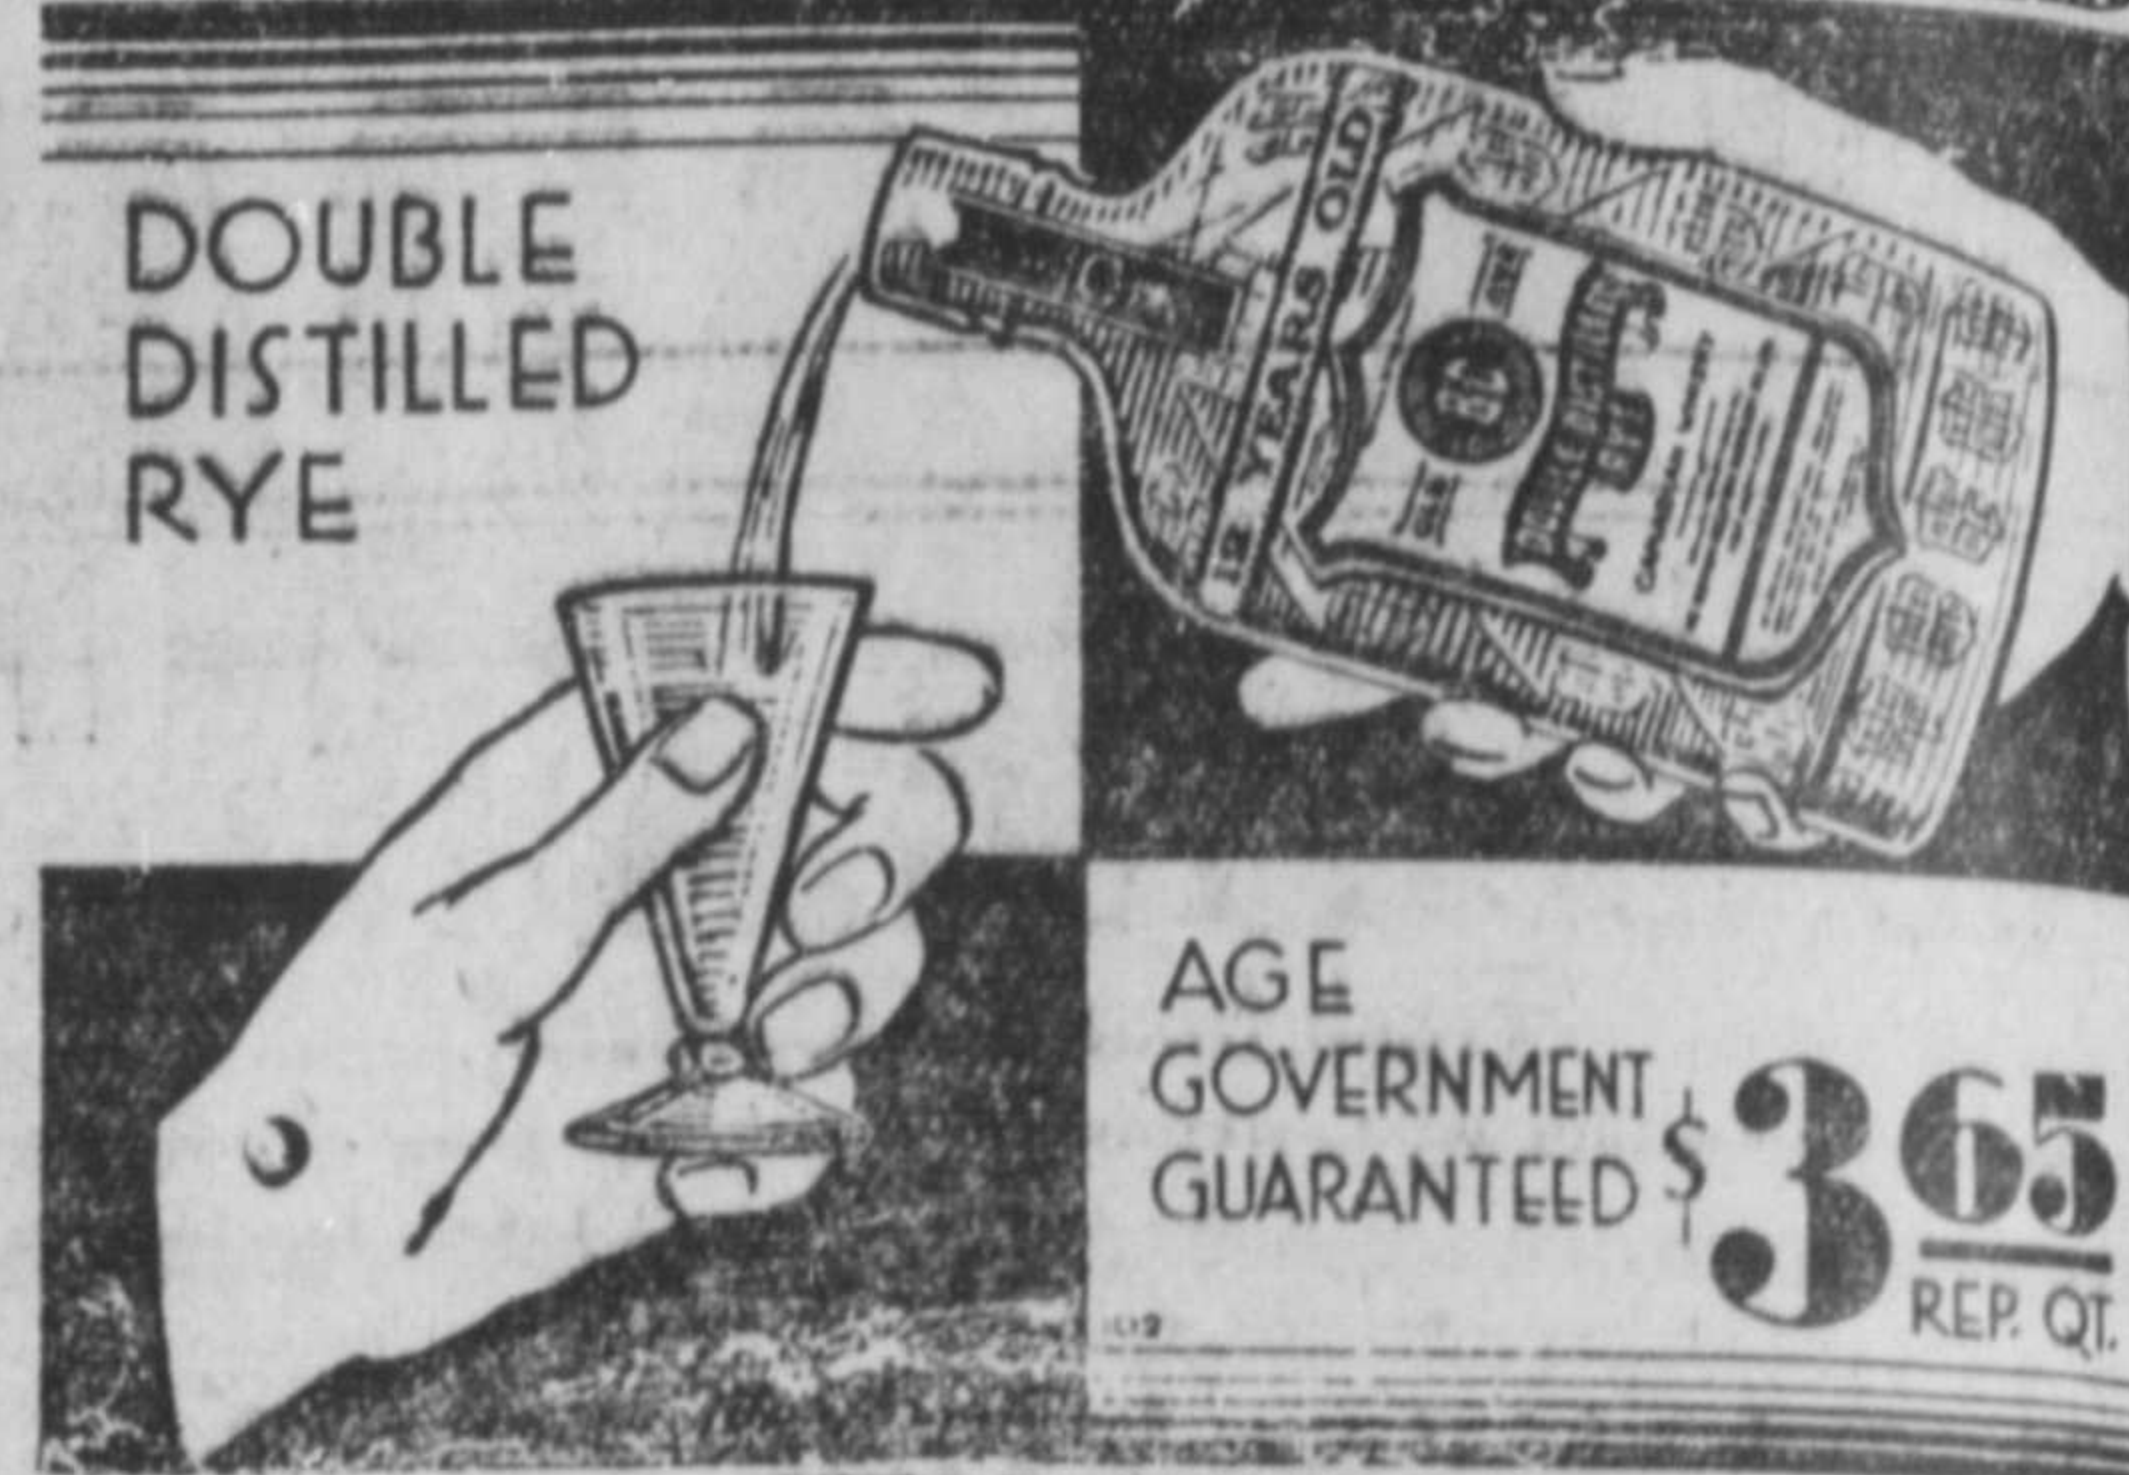

Veteran Employee of Granby Co. Dies at Anyox—Had Broken Back Years Ago But Recovered

ANYOX, June 9:—Patrick Clune, who spent 22 years in the employ of the Granby Co. as a hard rock miner, first at Phoenix and later here, passed away at the Anyox General Hospital on Tuesday of last week. The funeral took place at Alice Arm on Sunday under the auspices of the Anyox Elks' Lodge of which deceased was a charter member.

Born in Ireland 62 years ago, Mr. Clune was mining in the boundary country during the boom days of the 90's. It was in the Phoenix district in 1902 that his back was broken in an accident at the Skylark mine between Greenwood and Phoenix. Miraculously enough, he recovered from this usually fatal injury and subsequently enjoyed good health although suffering a considerable deformity. Some years after this accident he joined the Granby Co. at Phoenix and years

Guide to Correspondents
The Daily News welcomes correspondence on live topics of the day or any other subject of public interest, but letters must be brief and to the point. The long-winded correspondent has no place in modern journalism.
Every letter must be signed by the writer, not necessarily for publication but as a matter of good faith and courtesy. All unsigned documents go to the waste paper basket. Letters of a caustic character must have the signature appended for publication.
Letter should be written on one side of the paper only. Correspondents must avoid personalities and the language should be such as would be allowed in the ordinary rules of debate.

Placer Output For Last Year Was Nearly Double of 1930, Minister's Report States

Hon. W. A. McKenzie, Minister of Mines, has announced the issuance of his annual report for 1931. This report covers exhaustively the year's activities of the mineral industry of the province. In common with all industries the dollar value of the mineral production showed a heavy decline in 1931 as compared with 1930. The final figures show a value of \$34,883,181 as against \$55,391,993 in the previous year. On a quantity basis, however, Hon. Mr. Mackenzie points out that the industry operated at 80% of the 1930 rate. The decline of \$20,508,812 in value was mainly caused by much lower metal prices and lowered output of metals.

In recent years the major portion of the mineral production of the province has been in silver, copper, lead and zinc, and the demoralized condition of the markets for these metals during 1931 caused a decline in the value of the output of these four metals of over \$18,000,000. Other branches of the mineral industry therefore only declined comparatively slightly. Placer gold showed a substantial increase. The tonnage of metalliferous ore mined in the province was 5,549,103 lbs. compared with 6,803,846 tons in 1930, a decrease of 18.45%. The average gross value of the ore mined was \$496 a ton, as compared with \$6.04 a ton in 1930. The 1931 production figures are shown in the following table:

Product	Quantity	Value
Gold, Lode, oz.	146,039	\$ 3,018,894
Gold, Placer, oz.	17,176	291,992
Silver, oz.	7,524,320	2,247,514
Copper, lb.	63,194,229	5,789,363

Search For Gold
The brightest feature of British Columbia mining at the present time, comments Mr. McKenzie, is the active search for gold. Placer gold production made a substantial increase in 1931, with an output nearly double that of 1930, and a still larger figure is expected in 1932. Lode-gold production showed a slight decline in 1931, due to lessened output of by-product gold, but the plans and developments under way at straight gold mines, assure a greater output for 1932. The probability of improvement in silver price, Mr. McKenzie points out, holds hope for British Columbia mines, as the known silver reserves are considerable. Improvement in general world conditions will be necessary before base-metal mining will again show an upward trend.

The following comments explain the production figures of the different metals and minerals:
Lode-gold production, valued at \$3,018,894, shows a slight decline from the figure in 1930 notwithstanding much increased activity in this form of mining. The lessened output was mainly due to the shutting down of the Copper Mountain mine, a lowered output from Premier owing to a slightly lower-grade ore, and the closing of the Nickel Plate mine, a former consistent gold-producer. These decreases were offset in part by a much larger output from the Pioneer and increases from the Union and Reno mines.

Placer-mining had a very busy and successful year. Production amounted to \$291,992, a considerable increase over the \$152,235 recorded in 1930. Furthermore, the work carried out in 1931 indicates that placer-gold production will increase in future years. This form of mining is beginning to attract widespread attention as the undoubted possibilities and large rewards in sight are better realized. "Sniping" by individuals with pan, rocker, and small sluice provided a living for many men who otherwise would have been a charge on the community.

The silver output was 7,524,320 ounces, valued at \$2,247,514, being much below the record figure of 11,289,171 ounces produced in 1930. Most of the small silver-lead-zinc mines of the province were closed in 1930. Sullivan, Premier and Prosperity, however, all made large outputs that year, enabling a high record production to be made. Prosperity was closed early in 1931 and Sullivan and Premier were forced to curtail to some extent, these factors thereby largely causing the marked decline in the 1931 production.

Lead and zinc output from the province for some years has been mainly from the Sullivan mine of the Consolidated Company and in 1931 it was almost entirely from this mine. Due to the desire of this company to assist in world stabilization of these metals, output has been gradually lessened throughout the year. The output of lead was 248,783,508 pounds, a decrease of 22% as compared with 1930. A zinc production of 205,071,247 pounds is a decline of 17.9% from the figures for the preceding year.

Kwapil Cannot Say When United Pacific Will Start Handling Fish Co-operatively

Declaring that satisfactory progress was being made in his efforts to organize the halibut boat owners and fishermen of the coast for co-operative marketing of their product, F. J. Kwapil, head of the United Pacific Fisheries, stated this morning that he could not yet fix the date when his concern would start actually handling fish. It would not be until all preliminary organization had been perfected and plans made, he said. Mr. Kwapil, who arrived in the city yesterday morning after a tour of Alaska ports, will sail tonight by the Prince George on his return to Seattle.

DOES YOUR BUSINESS NEED A DOCTOR?

Now, Mr. Businessman, have you ever tried to diagnose the reason for that sudden drop in profit over the figures of "last month?" If the temperature of your business alarms you there is no need for you to lose any sleep—the remedy is simple.

ADVERTISE

"Ah!" you say, "But that's all very well. I'm only a small man and can't afford it." That's the reason the small man remains a small man. The big men in business today did not become big by hiding their light under a bushel, they advertised, and Advertise, and ADVERTISED. Advertising is as necessary to a "sick" business as the doctor's services are to a sick person. And it will find the money to pay its own bills, if done judiciously, from the increased volume of increased profits. Start with a small appropriation
