# FOUND GUILTY OF MANSLAUGHTER

## GEORGE BUSHBY, PROMINENT LOCAL MAN, DIES IN SOUTH

### Eino Komo and Jalmor Issanen are Convicted By Jury in Interior

Two Men, Tried at Prince George, Fought Over Girl in Bridge River District and Beat Another Man to Death on Road—Fifteen Years in Pen

PRINCE GEORGE, May 19.—Charged with the murder of B. G. Kilkenny near the Pioneer Mine in the Bridge River district on the night of January 31, Eino Komo and Jalmor Issanen were last night found guilty of manslaughter by the jury after two hours' deliberation and were sentenced to fifteen years in the penitentiary by Mr. Justice D. A. Macdonald.

Bristol G. Kilkenny, a young American, was hit over the head with a peavie and fatally injured during a fight on the way home from a dance at Pioneer Mine on January 31. He was sent to the hospital at Kamloops and there died as a result of his injuries. Issanen and Komo, two young Finns, who had been drinking heavily and had been seen to have trouble with Kilkenny, were arrested and charged with his murder.

Crown witnesses testified that, at the dance, an altercation took place between Issanen and Kilkenny because of one of the girls, also a Finn, who refused to dance with Issanen but danced instead with Kilkenny.

After the dance the accused, by then fairly well intoxicated, followed Kilkenny along the road and were knocked down by him. Later a fight ensued during which Kilkenny was struck repeatedly over the head with a heavy cant-hook. Several of the witnesses were fairly sure that Komo and Issanen were present but could not be positive on account of the darkness.

### PARDON IS WITHHELD

Hawaiian Governor Will Not Give Honor Slayers Clear Bill—Mrs. Fortescue in New York

NEW YORK, May 19.—Mrs. Granville Fortescue arrived in New York Tuesday and was met at the station by her husband. Both flatly refused to discuss the Honolulu "honor slaying" case with newspaper reporters, intimating that their stay in New York would be but a brief one before proceeding to their home in Washington.

HONOLULU, May 19.—Governor Judd announces that he is not prepared to grant a full pardon to the four participants in the recent "honor slaying" case. He said that he had forwarded his reasons for refusing the full pardon to Secretary of State Wilbur who could make them public if he desired.

### Washington State Plan Meets With Favor in Capital

SEATTLE, May 19.—That the proposal of the Pacific Northwest for a national prosperity loan, including proceeding with the Columbia basin and general public works projects for unemployment relief, is meeting with favor in Washington is stated here. Washington representatives to Congress are backing up the proposal.

### VITAMINS DISCUSSED

O. F. Denstedt of Fisheries Experimental Station Addresses Parent-Teachers

### Halibut Liver Oil

Contains Much More Vitamin Than Cod Liver Oil, 'Tis Said

There was a large attendance at the Booth Memorial School last evening at the regular monthly meeting of the Prince Rupert Parent-Teachers' Association when Orville F. Denstedt of the scientific staff of the Prince Rupert Fisheries Experimental Station gave an interesting address on vitamins.

Mr. Denstedt spoke of the different deficiency diseases, their occurrence and the steps taken at various times to counteract these diseases, the gradual discovery of the foods that did prevent or cure them and, more recently, the discovery of substances now known as vitamins which these foods contain. Scurvy, the dread of sailors in former times, of the Crusaders, an old disease, is prevented by a diet that includes fresh vegetables, fresh fruits of their juices. Beri-beri, a disease of the nerves that may cause paralysis, affect the vocal chords or swell the joints, often resulting in death, is a deficiency disease. It was known as long ago as 2600 B.C. and, while formerly believed to be confined to the tropics, has been prevalent in northern countries such as Labrador and Norway. Beans, asparagus, tomatoes and yeast are preventatives.

Another deficiency disease is pellagra, at one time very prevalent in Italy and the Balkans. It can be cured by the use of lean meats, eggs and milk. A disease of the eyes, xerophthalmia, more often occurring in the interior of Japan, was prevalent in Denmark during the war and was traced to the lessened use of butter. Rickets, an all too common disease, among children chiefly, is due to the lack of proper bone-building material. It is very rare where the people are cattle raisers and, therefore, milk users. The use of cod liver oil is a preventative.

It was pointed out that the isolation of the particular content in these various foods as the combative of the deficiency disease was a very recent development and, even now, there are considerable (Continued on Page 2)

### CONFESSES TO MURDER

Barney West Admits He Killed Michael Essency in Dawson and Got Away With \$850

DAWSON, Y.T., May 19.—Barney West was committed for trial here yesterday on the charge of murdering Michael Essency, whose body was found in his secluded cabin here recently done to death, on April 30.

A confession, signed by West, was produced, stating that he had killed Essency with a bag of shot and a piece of lead pipe in the latter's cabin, obtaining \$850 which Essency had on the premises.

Mr. Justice C. D. Macaulay will be returning to the Yukon shortly to preside over West's trial.

William King, C.N.R. electrician, arrived in the city from the interior on this morning's train.

### William A. Eden

President of the Dominion Rubber Company, Limited, of Montreal, who was recently elected vice-president of the United States Rubber Company. He is a native of Woodstock, Ontario.

### CURTIS IS ARRESTED

Fake Negotiator For Lindbergh Baby Did Not Have Anything to Do With Kidnapping

HOPEWELL, N.J., May 19.—Col. Norman Schwarzkopf, superintendent of New Jersey State police, announced today that there is "nothing that would in any way link John Hughes Curtis with the actual kidnapping of the Lindbergh baby and the collection of ransom money."

Curtis, self-confessed fake negotiator in the case, was in jail today charged with obstructing justice.

### BROWN TO GO ALONE

New York Flyer Will Sacrifice Everything For Gas Storage on Flight to Tokyo

SEATTLE, May 19.—Nat C. Brown, the New York aviator, who is planning to leave here in about two weeks on a non-stop flight to Tokyo with a view to collecting \$30,000 posted for the flight, states that he will fly alone in his big Fokker monoplane and without radio equipment, sacrificing everything for additional fuel capacity.

Construction started on Boeing Field yesterday of an elevated runway to assist Brown's take-off with his heavily-laden machine. He will start test flights at once.

It is reported that Harold Bromley, of Tacoma, who has already unsuccessfully attempted to fly the Pacific Ocean, may enter the race too.

### Jesse Lasky Is Not Resigning

Report Emanating in New York is Denied By Vice-President of Paramount-Public

LOS ANGELES, May 19.—Jesse L. Lasky denies reports emanating in New York that he is resigning as vice-president of the Paramount-Public Corporation which he helped to organize. He admits, however, that he is taking a three-months' leave of absence, explaining that his contract does not expire until 1934 and that he has no intention of terminating it meantime.

### Wife's Health Was Reason Of Young Refusal

NEW YORK, May 19.—Chief reason for the refusal of Owen D. Young to allow his name to be offered for Democratic presidential nomination is said to be the condition of his wife's health. Mrs. Young is suffering from heart disease.

### NO FISH IN TODAY

No boats being in with catches, there was no sale of halibut on the local fish exchange this morning.

### GIANT AIR LINER ON WAY TO NEWFOUNDLAND

NEW YORK, May 19.—The big German flying boat DO-X, which had been wintering here since last August, took off this morning for Harbor Grace, Newfoundland, enroute to Constance, Switzerland, headquarters of the enormous air liner. The machine, carrying a crew of fourteen men, passed over Halifax, Nova Scotia, at 10:15 this morning.

### BABE RUTH WINS GAME

Poles Out Homer to Give New York Yankees Their Ninth Straight Victory

NEW YORK, May 19.—Babe Ruth's home run enabled New York Yankees to defeat Cleveland Indians again yesterday and score their ninth straight victory, incidentally extending their margin of American League leadership to one and a half games over Washington Senators who were losing to the St. Louis Browns.

The Chicago Cubs and Boston Braves both won their games over Philadelphia Phillies and St. Louis Cardinals respectively and there was no change in the race between the two clubs for the National League leadership.

Yesterday's Big League scores:

American League  
Detroit 2, Philadelphia 8.  
Chicago 10, Boston 13.  
St. Louis 11, Washington 7.  
Cleveland 2, New York 3.

National League  
Brooklyn 4, Pittsburg 2.  
New York 9, Cincinnati 3.  
Philadelphia 4, Chicago 6.  
Boston 5, St. Louis 3.

### Citizens' Military Camps to Reopen

Washington House Decides in Favor of Making Courses Again Available

WASHINGTON, D.C., May 19.—By a vote of 115 to 91, the House decided in favor of reopening citizen's military training camps throughout the United States.

### Head of Rupert Marine Products Passed Away In Victoria Yesterday

Was Native Son of Province and Long Outstanding in Business Affairs of Various Coast Cities—Was 63 Years of Age—Ill For Some Time

Prince Rupert was shocked on receiving the news through the Canadian Press and the Daily News this morning of the death yesterday afternoon in hospital at Victoria, where he had been a patient for some time, of George Gordon Bushby, aged 63, well known and popular pioneer business man and industrialist of the coast and for the past 11 years head of the Rupert Marine Products reduction plant with headquarters at Prince Rupert. Several months ago, Mr. Bushby had a serious illness with pneumonia from which he failed to recover completely. Some weeks ago, accompanied by Mrs. Bushby, he went south with a view to receiving further medical treatment and completing his recuperation. While it had been known that he was forced to enter hospital again in Victoria and that his condition was not satisfactory, news of his death came as a great shock to his many friends and business associates here.

A native son of British Columbia and the son of the late Hon. Arthur T. Bushby, pioneer legislator and administrator, and Agnes Bushby, George Bushby was born at New Westminster on December 24, 1867. He was though his mother the daughter of the late Sir James Douglas, first Lieutenant Governor of British Columbia.

Educated at Christ's College Finchley, England, Mr. Bushby, after spending his early boyhood in the Old Country, returned to this continent and finished his engineering studies in San Francisco, being apprenticed for four years with the Union Ironworks at the California port. Later he joined W. F. Bullen and H. F. Bullen, his brothers-in-law, in marine engineering at Victoria. For some time he was in charge of Victoria harbor submarine work for the Dominion government. Later he was salvage manager for the British Columbia Salvage Co. for some years and eventually became president and managing director of the B. C. Marine Limited, in 1898 founding the firm's branch in Vancouver under the name of B. C. Marine Engineers.

During his long residence in Victoria and Vancouver, the late Mr. Bushby was prominently identified with other industries and businesses. He was president of the Compressed Gas Co. Ltd., president of the Vancouver Forge Co. Ltd., director of the British Columbia Salvage Co. Ltd., vice-president of the Vancouver Merchants' Exchange, president of the B. C. Metals Trade Association, president of the Vancouver Employers' Association and vice-president of the British Columbia Manufacturers' Association in 1915, 1916 and 1917.

Came Here in 1921  
Coming to Prince Rupert in 1921, Mr. Bushby took over the operation of the reduction plant in Tucks Inlet in which he had become financially interested and organized the Rupert Marine Products Limited. The industry has operated more or less steadily ever since Mr. Bushby took over its direction. His characteristic enterprise and progressiveness served him in good stead here, as it had done elsewhere, and, branching out in several new directions, he made the reduction plant an important local industry. For some years he also operated an important public towage service in connection with the reduction plant.

His geniality and popularity caused the Conservative party to choose Mr. Bushby as its candidate for Skeena in the 1925 federal general election. He put up a strong fight but lost out by a comparatively small margin in a three-cornered fight to Fred Stork, the sitting Liberal member. Despite his candidature in the Conservative interest at that time, Mr. Bushby was not known as a political partisan.

Was Yacht Club Head  
During his residence in Prince Rupert, Mr. Bushby took an active interest in the affairs of the Prince Rupert Rowing & Yacht Club of which he was president two or three years ago. He was also prominent in yachting while in Vancouver and Victoria. Organizations in the south with which he was identified (Continued on Page Two)

### ESTIMATES PRESENTED

Minister of Finance Asks Commons For \$6,620,000 For Supplementary Expenditures

OTTAWA, May 19.—Supplementary estimates for the fiscal year ending March 31, 1933, totalling \$6,620,000, were tabled in the House of Commons today by Hon. Edgar N. Rhodes, minister of finance.

The estimates provide \$25,000 for the operation and maintenance of snagboats on the Fraser, Skeena and Naas Rivers.

### United Church Young People Close Season

The United Church Young People's Society held their final meeting of the season last evening in the Church Parlors with 30 members present.

Following the business period, court whist was enjoyed, Miss Edith Connery winning ladies' first and Miss Julia Thomas the consolation prize, while Roy Morrison took the men's first prize and Jack Wrathall the consolation. Refreshments were then served. The society will resume activities again in the fall.

VANCOUVER WHEAT  
VANCOUVER, May 19.—Wheat was quoted at 60% on the local exchange today.

**ANOTHER RUSSIAN PICTURE**

One of the most interesting pictures of a little part of Russia yet published is that of a young lady named Rhea Clyman, a Toronto girl, who went to that country three years ago and has been writing about what she sees. In an article in MacLean's Magazine she tries to answer the question, "Is Russia Going Capitalist?" and her story is that the country has long parted from the pure communism of the early days of the revolution.

Stalin's National Industrial policy she interprets as a confession of failure. She says that the old Marxian slogan, "He who does not work shall not eat," is replaced by the Stalin slogan, "He who cannot produce more than he eats shall not work." The guiding principle there, in spite of the revolution, still is: "Get as much as you can for yourself and see that your neighbor does not get more." Here is an enlightening paragraph:

"No one is happy or completely satisfied. Some regard the system of piecemeal bonuses and being paid according to qualifications as a return to the capitalist system. Others think it a recognition of their merits and gives them a better chance to get some of the things that they produce."

The article goes on to say that the day of trades union control is gone. The committee of workers no longer has any power. No longer are meetings allowed in working hours. When the management and control of industry was taken from the workers and placed in the hands of one man it was a blow to the pride of the men. The introduction of capitalist methods means that a man has the same fear of losing his job hanging over his head as he did in the old days with the added knowledge that if he loses this job he can't get another. Here is another interesting paragraph:

"Production has not increased at the rate the Kremlin expected and the opponents of the National Industrial Policy may still be sitting with their tongues in their cheeks. But the improvement in working discipline in the past few months is remarkable. In Soviet factories I have seen young men and women work intently for hours at a stretch without getting up to light a cigarette. I have seen them work overtime without the time and a half or free supper that Ontario law requires, just in order to finish the job on hand—an unheard-of procedure a few years back. I have seen workers rush along madly to get inside the factory gates before the last whistle blew, just as may be seen in any factory town in Canada. I have seen them hurrying at their work, impatient when their machine brok down. The N.I.P. is responsible for that."

"The past and the present are being sacrificed for the future," according to this writer. "If communist ideals and Marxian principles are not enough incentive for Russian workers, then let us try capitalist methods," said the communist leaders. "We must produce a surplus and our in-

dustries must run at a profit. We must stop coddling the workers and make them buckle down."

"Soviet labor laws are now stricter than those of Canada or the United States. Nearly all the factory workers and a great many of the office employees are on piece-work. All punch clocks and are fined if they are late. As unemployment has been abolished by the government, the trade unions do not pay any unemployment relief. You may not stay away from work unless you are ill, and even then you must produce a doctor's certificate to show that your temperature was over 99.5. In the case of those habitually suffering from malaria or fever a high temperature is not taken into account. If you infringe on the labor discipline or are found slacking at work you are fired and as there is only one employer, the state, you cannot offer your services to anyone else.

"Engineers, technicians and shop foremen, under a decree just passed, are paid according to their qualifications. If they do not produce their quota of the Plan or their norm, they are not only fined and demoted but also arrested and sometimes shot. Factory managers are not allowed credits by the banks unless they show a net profit or surplus over expenses, and no branch of industry is allowed to operate at a loss. Factory committees, except for social activities, have been abolished and the control and management are now in the hands of a one-man director, usually a communist but not necessarily so. He cannot pass the buck now. If things go badly he answers with his head.

The following incident indicates the growth of class privilege in this intensely interesting country:

"A young worker who stood beside me in the queue waiting for a bus for an hour did not voice Molotov's pacific class statements. As he stood stamping his feet, waving his arms and blowing his nose, he suddenly stopped stock still as if paralyzed when a blue-upholstered limousine with a young, clean-shaven man loling inside halted to wait for the traffic signal. The eyes of the man in the limousine met the eyes of the man waiting for the bus and the latter nodded slightly.

"There goes a clever man," the worker remarked when the car passed on. "We worked at the same bench a few years ago. He joined the party and is a director now. He has a chauffeur and a car, while I, poor fool, stand shivering an hour for a bus."

**VITAMINS DISCUSSED**

(Continued from Page 1)

differences of opinion as to the exact value of isolated vitamins and whether they are simple substances containing a type of vitamin or

whether they may contain different types of vitamins.

**Halibut Liver Oil**

Of peculiar interest to the audience was the statement that halibut liver oil contained a much greater percentage of vitamin than did the so-much advertised cod liver oil. Pilchard oil was also a very valuable source of vitamin. Mr. Denstedt also referred to the result of exposing such oils to the sunlight, whereby the oxygen causes the loss of vitamin value.

Many lantern views were used to illustrate the result of lack of the necessary vitamins and the diseases resulting therefrom.

A very hearty vote of thanks was accorded Mr. Denstedt for his extremely interesting address.

Arrangements were made at the business meeting, at which Mrs. S. V. Cox presided, for the holding of a tea and sale of home cooking on June 16 at the Booth School when the home economics and manual training departments hold their annual display of the work of the pupils. This always makes a strong appeal to the parents and friends of the children and the work this year is in every respect up to the very best standards of previous years.

Grants of money were made to the different schools to enable them to purchase sporting equipment as has been done in past years.

Mrs. A. J. Webber was soloist for the evening and delighted the audience with her very pleasing and tuneful rendering of "The Garden of Your Heart" and "Mighty Lak a Rose."

**FREE 2 WEEKS VACATION**

2 weeks holiday for 2 people

Anywhere IN CANADA

**GLORIOUS** summer vacation for two—14 days anywhere in Canada, with all expenses paid up to \$500 (or \$500 in cash, at the option of the winner). Any two people may take this wonderful trip—husband and wife, two relatives or two friends. If you live on the Prairies you may go to Toronto or Montreal, visit the home folks in the East, or spend your holiday on the breezy Pacific coast; if your home is in British Columbia, you could visit such famous resorts as Lake Louise, Banff, Jasper Park, or make a tour of Vancouver Island . . . There are so many places you could go, people you could visit, things you could do, if you could take such a trip—and you may! There are other prizes, too: Eight Second Prizes (two to each of the four Western Provinces), consisting of week-end trips for two people, all expenses paid up to \$75 (or \$75 cash at option of winner).

**JUST WRITE A SLOGAN**

Just write a Nabob Slogan, using ten words or less, about either Nabob Tea, Nabob Coffee or Nabob Baking Powder (but not all three together) write it on an Official Slogan Contest Entry Form, obtainable at your grocer's. When you get this form, read all the rules and particulars carefully, then get to work. It's easy to write a Nabob Slogan. Here's an example, the well-known Nabob Tea Slogan: "Tea as it should be" . . . Think for a few minutes, you'll easily find half a dozen suitable phrases. You might, for instance, suggest a slogan which emphasizes the unvarying high quality of Nabob Baking Powder, Coffee and Tea; or your slogan might feature the fact that the name "NABOB" represents an old-established, Western Canadian Industry. Other helpful hints and facts are given on the Official Entry Form. You need this trip! Get to work now . . . decide to enter the Contest . . . and win!

**Get Full Particulars and Entry Forms FROM YOUR GROCER NOW!**

If he cannot supply you, write direct to KELLY, DOUGLAS & CO. LTD. VANCOUVER, B.C.

Who will be the Guests of NABOB?

KELLY, DOUGLAS & CO. LTD.

**GOODWILL DAY HERE**

Pupils of Booth Memorial School assembled in the school auditorium yesterday afternoon to celebrate Goodwill Day. Miss E. M. Mercer, principal, in her introductory remarks, referred to the inception of this celebration emanating from The Hague where conferences had been held after the Great War in response to the world-wide demand that steps be taken by the various nations to prevent the recurrence of such horrors. It was felt that, if the peoples of the world knew each other better, there would be no possibility of war again. Suspicion existed among people who were not familiar with each other's ideals, thoughts and reasons for actions. With the object of familiarizing the children with the representatives of other nations, this Goodwill Day program had been arranged. The motto was "Peace on earth, goodwill to men." On a stage, decorated with the flags of many nations, were grouped many children in their national costumes. The colorful dresses and their various characteristics made a very interesting picture. Typical

ones were viewed in detail and some of the special features were noted. Later a program was enjoyed as follows: O Canada, the school. Address by the principal, Miss E. A. Mercer. Chorus, "The Homeland," the school. Norwegian Anthem and March, Norwegian Folk Dances and Norwegian March—Inger Murvold, Clara Wickdal, Annie Sorensen, Ida Slatta, Aslaug Skaland, Hjordis Skaland, Mimmy Johnson, Gunvor Skaland, Elsie Murvold, Magnhild Storseth, Edith Murvold, Lillian Skogmo, Helen Skogmo, Judith Jerstad, Elsie Johansen and Ethel Knutson. Norwegian recitation, (in Norwegian and then in English), Ethel Knutson. Ukrainian song, Kitty Kurulok. Scottish song, Helen Krause. Sword dance, Isabelle Connery. God Save the King. Other nations represented by children dressed in representative costumes were Japan, with colorful kimonos, obis, getas and zori, Malay States, Spain, Sweden, Burma, Ireland, England, Gypsy and India. The Canadian Navy was represented by Sea Cadets in uniform. The program made a marked impression on the pupils in the aud-

ience and was a valuable contribution towards making the realization of the ideal a practicable and feasible objective. **HEAD OF RUPERT MARINE PRODUCTS PASSED AWAY IN VICTORIA YESTERDAY.** (Continued from page one) entitled included the Vancouver and Terminal City Clubs of Vancouver and the Union Club of Victoria; the Jericho Country Yagabonds, Royal Vancouver Yacht and Auto Clubs of Vancouver, and Vancouver Board of Trade. In addition to yachting, motoring was another of Mr. Bushby's hobbies. In 1908, Mr. Bushby was married to Violet Carlotta Brae, daughter of the late James Allan Brae. They had one son, John Bushby, who is now abroad as a member of the crew of a Canadian National Steamships ocean freighter, and one daughter, Audrey, resident in England. The family will have the deep sympathy of many local friends. The funeral will take place in Victoria. Mr. and Mrs. T. J. Harvey left on yesterday afternoon's train for a trip to Smithers, Burns Lake and other interior points.

# Banish MILK AND CREAM BILLS WORRY

START using Carnation today. It is most economical because it gives best results in cooking and because it is much cheaper than cream. Carnation Milk is safeguarded at the source—its purity is always ensured. Cooking with Carnation is a pleasure. It is so smooth and creamy that favorite recipes turn out better, improved in taste and texture. Use it in cream soups, sauces, dressings, cocoa, ice cream, candy. Also use Carnation in place of cream.

Undiluted, it is just right for coffee, fruits and cereals. And you cut your cream bill square in two!

Approved for Baby Feeding  
The highest medical authorities recommend Carnation Milk as an excellent milk for babies—because of its purity, uniformity, nutritiousness, richness in vitamins and minerals, and super-digestibility.

That's How Good It Is!

### Twenty Years Ago

In Prince Rupert

May 19, 1912

Dr. Alfred Thompson, M. P. for Yukon, and H. S. Clements, M. P. for Comox-Alberni, arrived in the city on the Prince Rupert yesterday from Vancouver and were given a great reception at the wharf. Last night a banquet was tendered in the Central Hotel to Dr. Thompson and Mr. Clements. During the evening they also addressed a public meeting in the McIntyre Hall.

It was "amateur night" again at the Westholme Theatre when G. S. Fitzmaurice gave recitations from Robert W. Service's poems, E. W. Hunt rendered cornet solos, A. Stowell and W. Whitley sang captivating coon songs and William Oram gave humorous recitations. The farce "A Scientific Experiment" was presented by Messrs. Whitley, Stowell, Fitzmaurice and Ewitt with assistance of Misses Midge Lane and Florence Middleton.

Three hundred suffragists of both sexes attended the first dinner of the Men's League for Woman Suffrage held recently in the Hotel Marseille, New York.

### LOCAL NEWS

Miss Fannie MacLaren, R.N., arrived in the city from Terrace on this morning's train.

C. W. Homer, provincial assessor, returned to the city on this morning's train from a trip to the interior on official business.

M. P. McCaffery returned to the city on this morning's train from a business trip to Prince George, Smithers and other interior points.

### The Road To Progress

Prince Rupert will make progress if the people build up the hinterland. This week they have the opportunity to help themselves by helping the Bulkley Valley farmers. Bulkley Valley Baby Beef is on the market now. It is the choicest shipment ever made to the city and no one can make a mistake in purchasing it.

The carload arrived recently and has been distributed. Almost all the butchers in the city are carrying some of it.

Progress comes through co-operation. Today we have an opportunity to show that we are ready to co-operate with the farmers of the interior by specifying their beef when telephoning our orders. It is a simple matter but it means a great deal to the farmers.

There is no reason why British Columbia people should be fed on Alberta products when they have good things of their own produced right within their own boundaries. We have the friendliest feelings toward our sister province, but if we cannot use our own product we cannot expect others to use it. If it is good enough for export it should be good enough to use at home. By buying at home we encourage our own people, making them so prosperous that they are able to buy from us. The dollar spent on Bulkley Beef is likely to return but the dollar expended on Alberta beef is likely to remain on the other side of the Rocky Mountains. The motto then should be:

BUY BULKLEY BEEF AND THUS BUILD UP BULKLEY VALLEY FARMS

### SOFTBALL IS PLAYED

Pirates Defeat Giants in High School League, 8 to 3

Yesterday in the High School Softball League the Pirates won for the first time when they defeated the Giants with little trouble.

In the first inning the honors went to the Giants who brought in their three runs. The Pirates retaliated in the second when three men crossed the home plate. The next two innings were uneventful, neither side making any exceptional plays.

In the last inning the Pirates drove home five runs. Under this onslaught the Giants went to pieces and made numerous field errors.

The strong field support and good batting of the Pirates gained them the victory. The Giants, who usually play a strong game, were off color in the field and ragged at bat.

The batteries, for the Pirates were Kanaya and Postulo, while Dominato and Kishimoto formed the Giants' battery.

Teams were as follows: Pirates—Kanaya, p.; Ivarson, lf.; Nakamoto, ss. (capt.); Postulo, c.; N. Allen, cf.; Kirkendall, 2b.; Santurbane, 3b.; Morgan, 1b.; Vance, rf.; Walters, rss.

Giants—Mey, lf.; Smith, 3b. (capt.); S. Nakamoto, cf.; Dominato, p.; Blake, 1b.; Forbes, 2b.; Suehiro, rf.; Unger, ss.; T. Johnstone, rss.; Peachy, rss. Umpire, W. Tobey. Base Umpire, R. Tobey. Scorekeeper, R. Moxley. Reporters, W. Cross, R. Allen.

### SPORT CHAT

### FOOTBALL

Merchants vs. Can. Legion

TONIGHT - 6:45

Nova Scotia's anglers who had been nursing their fishing tackle and rubber boots for more than a month whipped the streams with a vengeance on Sunday, May 1, the opening day of the trout and salmon season. There were some, however, who were perturbed by reports in Halifax papers of Saturday stating that it was illegal to fish on the Sabbath. There was no federal law to that effect, the anglers knew, and they doubted if any such provincial law could be enforced. By Tuesday the argument was interesting, and the Halifax Daily Star that day dug up a quaint old pre-confederation law that might be construed as prohibiting fishing on the Sabbath and which has not been repealed. This law regarding the desecration of the Sabbath is to be found in Chapter 159, Revised Statutes of Nova Scotia, third series. Section 2 of the act reads:

"Of offences against religion: Any person who shall be convicted before a Justice of the Peace of shooting, gambling or sporting, or of frequenting tippling houses, or of servile labor, works of necessity and mercy excepted, on the Lord's Day, shall, for every such offence, forfeit not less than \$1.00 or more than \$8.00 and, in default of payment, shall be committed to jail for a term not less than 12 hours nor more than four days." The fact that this law, proclaimed in the pre-confederation days of pounds, shillings and pence, was made to read in dollars and appeared in the Revised Statutes of 1900 was the Star's basis for the presumption that there was some intention of keeping it as one of the laws of the province.

Then the Star did a little speculating: "It is quite specific about 'shooting' and it has been argued that 'sporting' includes fishing. 'Sporting' is a comprehensive term and, if it includes fishing, it also includes motoring for pleasure, golfing, canoeing and any other form of sport, as banned of a Sunday. If it means that, the law is archaic and should be made specific or repealed. Under the regulations of the Fisheries Act, a federal law is no prohibition of Sunday fishing, except for a local regulation regarding salmon fishing and applicable only in Restigouche County, N.B. Under this Nova Scotian pre-confederation law, still on the provincial statute books, an angler might be successfully prosecuted. He is within the federal law, but may be violating the provincial law. It is an anomalous situation. The tangle should be straightened out."

### BASEBALL MEETING

Prince Rupert Unable to Have Ketchikan Here For July 1 But May Go North For July 4

In view of the fact that the Canadian National Recreation Association plans to take a large picnic to Terrace on July 1, the executive of the Prince Rupert Baseball Association, at a meeting last night, decided that it would be inadvisable to bring a Ketchikan baseball team here for the Dominion Day celebration this year. However, if Ketchikan still desires a Prince Rupert all-star team to go there for July 4 on the basis of the \$300 guarantee which has been suggested, it was decided tentatively that the locals would make the trip with the possibility of a return series here later in the season, possibly at fair time.

The opening of the Senior League here has been now set for tomorrow evening when Sons of Canada and Empress will meet. Mayor C. H. Orme will pitch out the opening ball.

H. G. Kennedy, vice-president, was in the chair at last night's meeting in place of Ald. G. W. Rudenham, who was unable to attend.

### Basketball Is Organized at Snowshoe Town

SNOWSHOE, May 19:—A basketball team has been organized here with Miss K. Leboe as captain, Miss E. Allen secretary-treasurer and P. G. Smith, coach and manager.

### LEGION LINE UP

Canadian Legion team for tonight's City League football game will be as follows:

S. Gurvich; A. Stiles, F. Gomez; J. Greer, S. Currie, T. Haddon; T. Bussanich, J. K. Murray, C. Baple, J. Mowat and H. Parkes.

Reserves, G. Ferguson, D. Morrison, B. Hestad and B. Eide.

a high dropping shot in a capable way, Colussi and Gomez made headway and Booth was value for a goal but could not make the final drive and the ball was cleared. The game was always interesting but Booth was held scoreless.

Goal scorers were: Ivarson, 4; Wilson, 1; Santurbane, 2.

Booth—D. Blake; Eby, Ritchie; DeMarco, Gomez, Fulton; Nelson, Gillis, Colussi, Lear, McMeekin.

High—Morgan; Willisroft, Fisher; Dungate, Crompt, Faw; Nakamoto, Wilson, Ivarson, Santurbane, Christison.

Referee, W. W. C. O'Neill.

## BROWN IS CONFIDENT

Looks For Big Future For Placer  
Country North of Canadian  
National Railways

A potential second Klondike lies in the district between Ingenika River and the Atlin area of Northern British Columbia, according to M. J. Brown, prospector and representative of numerous associated interests in the placer mining field. The scene, discovered last autumn, lies 350 miles by trail north of Burns Lake and requires two months' travel on foot or three hours by air. "There has already been a lot of exaggeration about McConnell Creek," said Mr. Brown. "Stories that miners were making \$40 a day are wrong. My outfit is the only one operating at present. Some gold we took out some time ago was a cleanup from the shaft we sank to bedrock—a depth of 140 feet. But I haven't any doubt about the richness of the district. We are a closed corporation and have nothing to sell."

Mr. Brown, in reviewing the conditions, said: "The structure of the country is similar to that of the Klondike. In fact, there was a rush at McConnell Creek in 1898, but miners left them when they got news of Klondike and I believe they overlooked territory just as rich as the Klondike."

"There is virgin territory of about 900 square miles that I believe will eventually be explored properly, and I am convinced from what prospecting I have done in the north that a great placer field will be developed."

J. A. Frew was the speaker at the regular weekly luncheon of the Prince Rupert Rotary Club in the Commodore Cafe today, giving an interesting discourse on horticultural subjects. Among those present at the luncheon was W. Solway of Vancouver, executive commissioner of the Boy Scouts' Association for British Columbia and member of the Vancouver Rotary Club. G. H. Munro, president of the club, was in the chair.

## PEACE HAS MUCH COAL

Investigation shows that coal of good quality to the extent of some six hundred million tons can be easily mined from the Peace River Block of Northern British Columbia. Moreover, eighteen thousand million board feet of timber is accessible, and there are some six hundred and twenty square miles of favorable structure areas for the production of petroleum and natural gas. Of the total area of nearly twenty million acres, of which only 893,000 have been alloted, 2,230,000 are suitable for cultivation, and 11,000,000 suitable for grazing lands.

With the laying of the railway another step towards the development of Canada's wealthy northern hinterland and another contribution to the Dominion's industrial prosperity will have been made.

Waterpower. — Over 150,000 h.p. in Peace River block and a minimum of 50,000 h.p. in the three southern blocks.

Geologists report 3,630 square miles with lode mineral possibilities and 9,400 square miles of favorable area for placer gold. Other non-metallic minerals are reported "potentially important."

## Council Dodges Truro Reporters

This Time Scribes Turned Tables  
On City Fathers

TRURO, N. S., May 19:—While reporters are asked to leave the council chamber at times, the op-

posite happened at a council meeting here recently. The members of the town council were asked to leave and the four reporters present remained in possession, complete and undisputed, of the council chamber.

The matter of street paving was being considered when the street committee retired, by consent, to the engineer's office. The council

adjourned. The remaining members of the council were asked to go into the engineer's office. When they all got together the council was reassembled and the business transacted. The civic fathers came out of their retreat and one of them, returning to the council chamber, informed the waiting scribes, "that was easy," and another remarked, "You can get it from the clerk."

## SKIDEGATE

Manager Hanson of the T. A. Kelley Logging Co.'s operations at Selwyn Inlet came up in his speedboat for a brief visit to Queen Charlotte City recently. He averaged 45 miles per hour for the trip, this being the fastest time that has ever been attained by a boat on the Queen Charlotte Islands.

Children enjoy  
milk and cream  
on these delicious  
Corn Flakes

**S**ERVE Quaker Corn Flakes if you want your children to take all the milk and cream they need. The rare flavour of these crisp golden flakes tempts young appetites. Mothers know their children need no coaxing when they offer them this delicious cereal.

More subtle and enticing than other corn flakes... for the flavour is of higher quality than it is usual to put into a corn flake. Special malt, pure CANE sugar and salt of crystal purity give Quaker Corn Flakes a finer flavour. All the original crispness and flavour are preserved for you by our triple seal and wax wrapper.

Give the children all the Quaker Corn Flakes they want. Rich energy food, light and easily digestible at any time of day. Economical, too, for Quaker Corn Flakes cost less than a cent a serving. MADE IN CANADA.
