VANCOUVER, June 14: - The summer service between Vancouver and Skagway was officially opened by the Canadian National Steamhips when ss. Prince George, Capt. Neil MacLean, sailed from this port Monday evening. There was a good passenger list and it was a happy crowd who exchanged their hunireds of colored streamers with those on the farewell gallery as the ship slowly backed away from the pier with an orchestra supplying the music.

While a number of the passengers were booked to ports between | will gladly refund your Vancouver and Prince Rupert, the majority were ticketed through to Skagway. Many of the latter are leaving the ship at the northern terminus and will spend some time visiting the interior of the Yukon, Dawson. White Horse and the Lake Atlin territory.

One of the features of the first sailing was the inclusion in the passenger list of three honeymoon couples who arrived in the city on Monday from California.

The second Alaska sailing will be on Thursday evening when ss. Prince Rupert will make her maiden trip of the season.

The Canadian ace has been beaten by Wykoff, Tolan and others since the 1928 Olympics, when he sprang unheralded to international fame but he is a great competitor in the "pinches." This was brought sharply to the fore when Williams, with a sensational burst of speed, won the 100 yards at the British Empire games in Hamilton two years ago. He pulled up lame and since then has had to condition himself slowly with the Los Angeles test in view. Wykoff's condition being doubtful, Toppino, the New Orleans boy, may be the best United States bet for the "100," with either Eddie Tolan or George Simpson an outstanding 200-metre choice. The Finns, even without Paavo Nurmi, are considered outstanding in the distance races up to and including the mara-, thon. Canada, however, as well as Germany, Japan and Argentina, should furnish top-notch contenders in the long grind that brings the games to a climax.

Despite the threat of a number of foreign stars, the United States is favored to win the pole vault, high jump, discus throw and perhaps the shotput. Millions of mothers in the past 75 years have answered Yes to this question. And now more emphatically still a world-famous clinic answers Yes.

### Living proof—in millions of healthy babies

Seventy-five years ago, Gail Borden - pioneer in the movement for pure milk - gave Eagle Brand to the mothers of America. Today, Eagle Brand second only to mother's milk in easy digestibility - is known as an infant food the world over. Eagle Brand has raised more healthy babies than any other food on earth, excepting mother's milk. In practically every community in this land are healthy, sturdy boys and girls, and men and women who got their start in life on Eagle Brand. Inquire in your own community and see how these Eagle Brand ex-babies compare.

### What the scientists discovered

But newer still is the news from a world-famous baby clinic. Two physicians fed a group of 50 average babies on Eagle Brand over a period of several months - checking with closest care every detail of their health and growth. X-ray pictures of bones were taken regularly, to make sure of the way that bones were growing. Tooth development was watched. Weight and height were periodically recorded. Strength and alertness were measured. Blood tests were made . . . And those 50 Eagle Brand babies, judged by every known test, proved themselves ideally nourished.

"Ah!" you say, "But that's all very well. I'm only a small man and can't afford it." That's the reason the small man remains a small man. Advertising is as necessary to a "sick" business as the doctor's services are to a sick person.
