The decision of the Privy Council yesterday that the Dominion Parliament has supreme control over all radio by purchase. The air is full of specifics and eulogies and to get a little music the listener is nauseated with much advertising. Even music itself is perverted to the jingle of an advertisement rhyme.

In a newspaper the reader has the option of reading the advertisements or not as he pleases but when listening over the radio there is nothing to do but tune out and try some other station. That is one reason why Calgary radio Editor, Daily News:station is so popular. There are few objectionable interruptions. Even if the music is not always very high class it is better than the terrible discord of mingling crude advertisements with good music.

For remember everything that glitters is not gold. The thing for the voters to bear in mind is that, where authority is not established and maintained by the body politic, it develops back of the creen through an invisible force exercising dominant authority without responsibility. Hence Observer and Citizen are attempting to steer the public ship into the very rocks they pretend to avoid.

Cardinals Had Easy 24 to 14 Victory Over Amazons in Ladies' League

A good card of basketball games was played in the Auditorium last evening, the Intermediate Leaguers showing the better class of ball. In a hard fought game the High School defeated Tuxis 28-22.

There was too much individual playing in the Senior game to be good basketball but, nevertheless, the game was fast and C.N.R.A. well deserved their victory over the Panthers by a score of 20-15.

In the girls' game the Cardinals, broke loose and took the leading Amazons 24-14.

In the Junior fixture the Rovers well deserved their victory over the League of Nations, 17-10.

Intermediate Game

Both teams being weakened by the absence of a few players did not stop these boys from playing fast basketball. The first hal! was very fast, both teams checking heavily and, consequently, forcing the forwards to take long shots which kept the score very low. Combination was prominent but they couldn't seem to work it under the basket for cinch shot?. The first half ended 15-10 fer High School.

The second half started with both teams determined to score. Very nice plays were centered around Walters, for the High School, who scored 16 of the side's points. The Tuxis were unable to get close enough to the basket and battered the hoop continuously with long shots to no avail. The game ended with the High School having a comfortable 6-point lead

In the second half the Panther seemed to break up and let the C.N.R.A. get behind their defence which really resulted in the C.N. R.A. winning the game. Both teams, however, were using to much dribbling and long shooting C.N.R.A .- Styles, 4; Morrison, 7; Johnson, 6; Stalker, 2; Nelson 1;

Girls' Game.

The girls game was decisived one-sided. Cardinals having it a!' their own way. The Amazons were weakened, however, by the absence of Sue Boddie, but it would have been impossible to defeat the Cardinals in any case. The Cardi nals showed a few nice combination plays which netted them . basket every time. The Amazone League of Nations played hard but the Cards put up Japanese Students a strong defence.

Victoria Krikensky of the Car- Soy Scouts dinals gave an exhibition of sensational shooting which has not been demonstrated in any of the BILLIARD nals can well thank her for 18 of their 24 points. The rest of the team, however, gave wonderful support, and made all her openings. Connie Morgan tried hard to keep the Amazons on top but found it impossible.

Natives of other villages have now intimated a wish to join the Salvation Army and the movement is receiving the fullest support from the white settlers.

Captain Kenny has now been joined by Ensign Joseph John Foster from Greenwood who, in December last, made the most arduous trip ever known up the Naas River in winter time. He has already made great progress with the work among the settlers and permission has been applied for to the Provincial Government for the temporary use of the disused public school at Seax as a citadel, and for a subsidy towards providing much needed medical

A citadel for the use of native adherents at Gitlakdamix has already been furnished and meetings there are very constant and largely attended.

Plans are now being prepared for a large gathering to take place at Fishery Bay at Easter and duiing the ollachan season, to be held in conjunction with the Church Army of the lower Naas River. In this connection the co-operation of Rev. J. Weaver. head of the Church Army at Greenville, is being asked for.

It's got to be good to be ADVERTISED

All the king's horses . . and all the king's men can't make a success out of a bad product. No amount of advertising will create a market for it. The more it's advertised, the more its defects become known.

A Good Product Well Advertised

grows as swiftly and naturally as a healthy plant. People try it and like it. They tell others. They like it. Soon that product is found everywhere . . . and its name, spread abroad by advertising, is on every tongue.

When you see something widely and consistently advertised, you can be pretty sure it's well worth having. If it weren't . . . if it didn't represent an honest and worthy value . . . the maker couldn't afford to advertise it.

Look Over the Advertisements in this Paper

Some of these names you know. Others, perhaps, are newcomers, all are entitled to your trust . . . all are here because they have potential friends bringing some new comfort or convenience. But something real to contribute to your advantage . . . your service . . . your happiness.
