## BRITISH BUDGET IS PRESENTED TO HOUSE OF COMMONS

### Finances Of Old Land Have At Last Been Balanced With Handy Margin To Spare---Chamberlain

Income Taxes Are Not Decreased and Beer Imposts Remains the Same—Tribute Paid By Chancellor of Exchequer to Model Set By Lord Snowden Last Fall

LONDON, April 19:—Great Britain has balanced the budget with a surplus of 796,000 pounds (nearly \$4,000,000 at par), Rt. Hon. Neville Chamberlain, Chancellor of the Exchequer, informed Parliament in his budget speech today. There will be no decrease in income taxes and the beer tax will remain at its present level. Only a few taxation changes are proposed.

"Lord Snowden, who presented the budget in September, gave the country a model of severe, salutary finance," said the Chancellor of the Exchequer, "and today we have the satisfaction of reporting that his anticipations have been fulfilled." Mr. Chamberlain said that the estimates had been realized with a surplus of £9,000,000 better than Lord Snowden expected to get.

Revival of trade and employment within the past few months gave Great Britain reason to hope that the worst of her economic depression was over, the Chancellor added.

### CONFESSION NOT MADE

Anticipated Development in "Honor Murder" Trial Does Not Materialize

HONOLULU, April 19:—Lieut. Thomas H. Massie, at yesterday's session of the "honor murder" trial, failed to make the anticipated confession that he alone was responsible for the killing of the native youth who attacked Mrs. Massie and in connection with whose killing four defendants are charged with murder. Lieut. Massie, while admitting that he had threatened the native with his gun, declared that he had no recollection of actually shooting.

### WOULD HAVE BIG CHANGE

Northern Province Endorsed By Burns Lake Newspaper to Get Justice

The Burns Lake Observer is out with an editorial article endorsing the idea of a new province for the northern part of British Columbia and Alberta in interests of primary producers. It says:

"More and more we are becoming convinced of the necessity of a realignment of the two western provinces, or else the creation of a new province embracing the northern half of British Columbia and Alberta. Let those who advance the argument that we have too many provinces now, boost the amalgamation of the south of the two western provinces (perhaps Saskatchewan should be included also) into one province and the north into another. The names would be easy to arrive at. Let the south be called British Alberta and the north Northern Columbia—but let us not split upon a name.

"In every matter that comes up the north is ignored or deliberately slapped down. Now the Royal Commission on harbors has suggested that northern interests be sacrificed and Vancouver and the railroads "subsidized" at the expense of the whole farming community and area of the Peace River.

"This new Canadian empire is to be put under tribute to the railroads and to Vancouver harbor, so the report suggests. The report on the Peace River railway outlet developed along similar lines and evidence is not wanting that, if the great financial interests have their way, the north will develop only when and if it may be exploited to pay the interest charges on southern investments. That an agitation for a new alignment of provincial boundaries is about twenty years too late, we admit, and we doubt if much will come of it until this present system breaks of its own inertia—an inertia aggravated by the

**MAKES PEOPLE CRITICAL**

The rather difficult merchandising times have had the effect of making people rather critical of everything. Those who spend money want to be sure that they get value for the money they pay out.

The critical spirit enters into advertising more than anything else. Newspapers have to show their advertisers that they have the circulation. It is not sufficient to claim a large circulation. Advertisers are all from Missouri and must be shown.

The circulation books of the Daily News are open to any advertisers for inspection at any time. The circulation manager is glad to have visitors call when the boys are leaving on their rounds so that they may see the papers they take and check up the numbers. The circulation is audited by an expert who comes to Prince Rupert at great expense and who knows how to find weak points in circulation records. He checks the number of papers issued against the invoices of newsprint purchased. He examines the books and receipts and orders and makes tests which are infallible. This auditor is sent by the large manufacturers and the important newspapers of Canada and the United States in order to guarantee the purchasers of advertising against fraud.

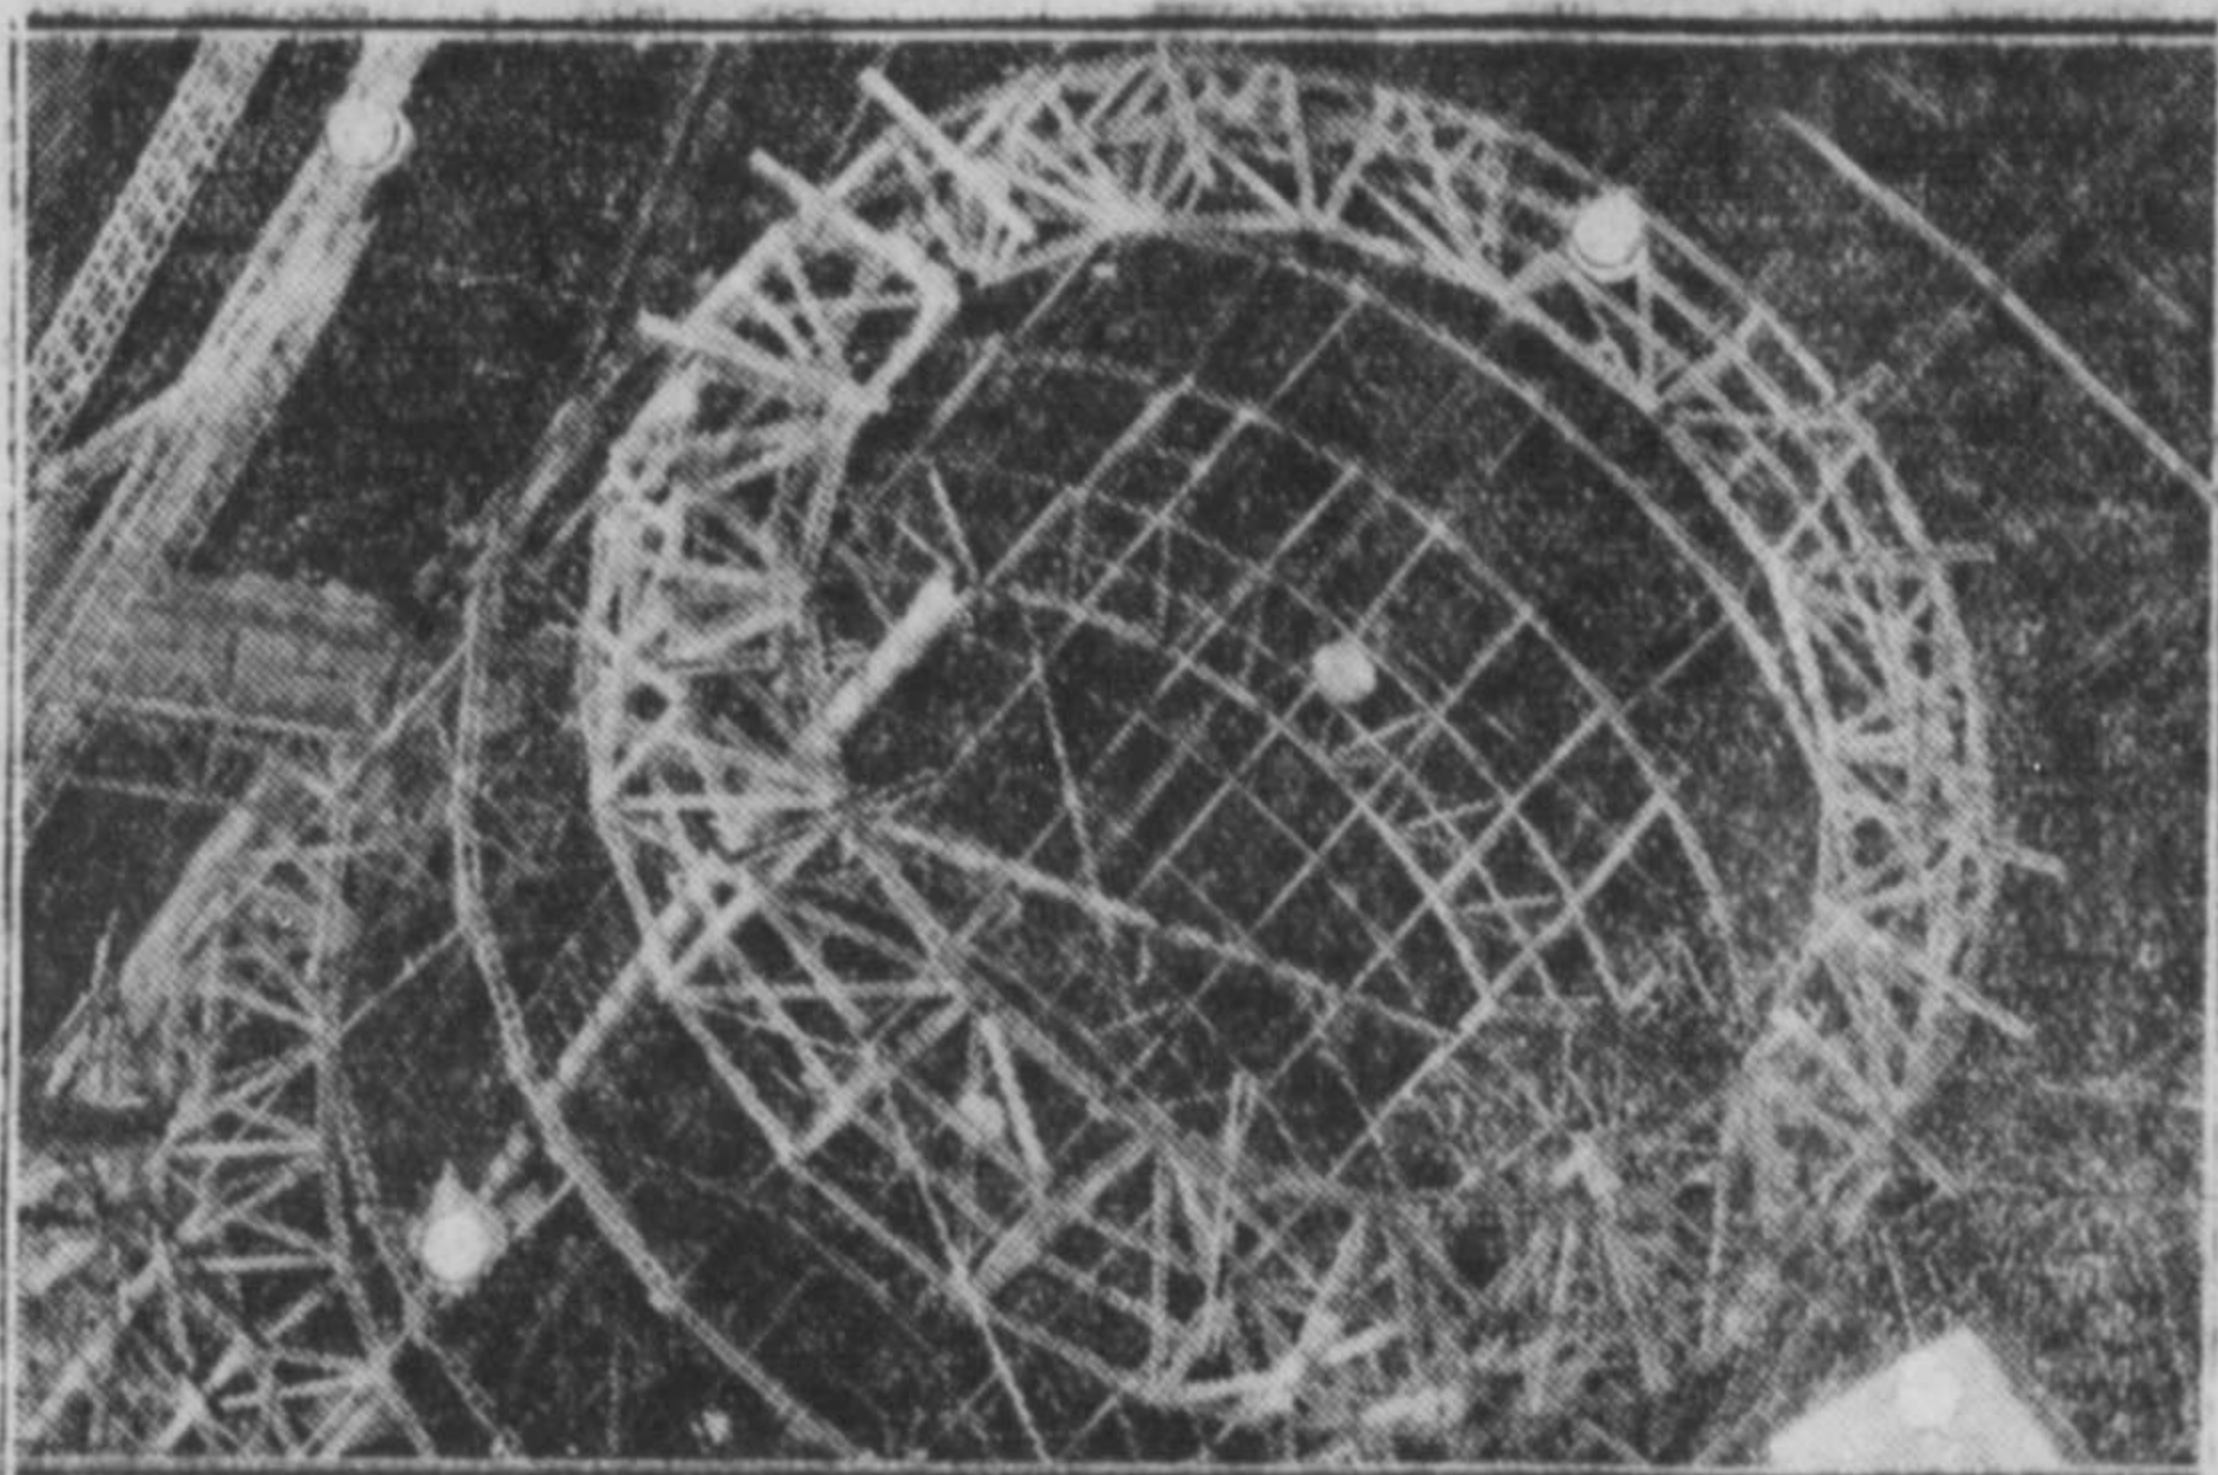

In buying advertising it is paid circulation that really counts. The person who is not sufficiently interested in a publication to pay for it is not worth much to the advertiser. Yesterday the paid circulation of the Daily News in Prince Rupert was 1065, the remainder of the 2,925 being mailed to out of town points or sold on the train. Those interested in out of town circulation can see the lists. The circulation of the Daily News is no secret. Investigation is invited by any who are buying advertising.

**BURDEN ON CITY**

The shifting of the social service charges on to the city will prove a very considerable tax burden. It means an added tax of three mills on the present land values of the city so it is easy for any taxpayer to figure out for himself what it means to him.

In the past these social services have been paid by the provincial administrations but the present provincial government is so financially involved that it has used every possible means of shifting the burden to other shoulders. Also doubtless there is the idea that if the people more directly interested have to pay the bills they will be more careful of expenditures along these lines.

**The Budget is Presented—Gibb Report Enormous Document—Presentation to Sir Joseph Stamp**

Wednesday, April 6

The galleries were literally jammed when the House opened after prayers on Wednesday and it is interesting to note the effect the budget has on many people. I was introduced to two ladies who told me they had not missed the hearing of a budget for some twenty-five years. All eyes were turned on the Honorable E. N. Rhodes who, up till a few months ago, had been

minister of fisheries but is now occupying the high position of minister of finance. As one who has listened to the Honorable the Prime Minister bring down a budget and compared the speech with that of the Honorable E. N. Rhodes, I would say that the one brought down by Mr. Rhodes was more carefully prepared in every detail and was a more concise statement, or at least easier of interpretation to the average member, than that brought down by the Honorable, the Prime Minister.

It is really wonderful what a mass of figures was produced and given to the House in the short space of one hour. Estimates have been slashed, taxes have been raised, in an endeavor to meet the economic conditions which we find ourselves in today and of course introduced in a great endeavor to balance the budget. One striking fact was noted and that was that no changes were made in the tariff.

This, it is understood, is being left until after the economic conference, to which event practically the whole world is looking forward. It is the hope of every member at least, irrespective of party, that some good may accrue from this great event, not only in Canada alone but for the rest of the world.

The Honorable Mr. Ralston moved immediately after Mr. Rhodes sat down the adjournment of the debate until Monday next which means he is the first to take up the discussion and reply from the Liberal point of view, to the budget address.

The rest of the day was taken up in further discussions regarding the proposed reduction of 10% in salaries. Mr. Gardiner, Leader of the U.F.A. group, moved an amendment, the effect of which would mean that judges, army and naval forces and governor-generals would be included amongst those receiving the 10% cut. It will be remembered that these three groups are made exempt under the act as introduced by the minister of finance and a great deal of discussion has centred around these groups, it being felt by all members of the Opposition, and expressed by some of the government side, that judges and members of the naval and military forces should not be placed in a class by themselves at this time. The heaviest attack, however, has been made against the judges. This discussion lasted until 6 o'clock when the debate was adjourned by Mr. Rhodes.

Thursday, April 7

On Thursday the information was elicited from the Minister of Finance that a cheque to cover the Dominion's share of municipal expenditure in British Columbia in connection with relief work had been sent to that province by wire on Monday last. It is to be hoped that the provincial government will not now any longer delay the payments of relief monies to the various municipalities. Some bills were introduced and passed including an act respecting kerosene oil, boards

of trade amendment, patent act, amendment to the excise act, juvenile delinquents act, Yukon quartz mining act, opium and narcotic drug amendment and an act in connection with debts due to the crown. To pay the civil service, Mr. Rhodes brought in an interim supply bill, asking for one-sixth of the total amount necessary for the year. This estimate was for an amount of over \$33,000,000 and passed through in the exact time of nine minutes.

The rest of the day was taken up in committee of supply, pensions and national health still occupying the greater part of the time. It is a relief to any minister when his estimates are finally passed and Honorable Dr. Murray MacLaren could not help smiling as the last of his estimates passed through. The Minister of Justice was next. It was during this time that the Honorable Mr. Guthrie made a statement regarding Bagley, who escaped from the Oakalla provincial jail and whom the minister said, is a somewhat notorious character. It appears he was released for deportation after serving six and a half years of his term. He was deported, the minister said, but subsequently came back to Canada by some way or other. The House adjourned at 11 o'clock, still in the midst of estimates.

Friday, April 8

Although the week had been one of great activity, Friday was a very tame day, the day being occupied with estimates in connection with marine and fisheries. The long report of Sir Alexander Gibb, who came over from the Old Country and surveyed the principal ports of Canada at the request of the Prime Minister, was laid on the table. It is such a voluminous report and contains so many maps and charts that it is not the intention of the government to have copies of this report made, which means that any members interested in this report will have to go through the report for themselves and take their own extractions. This is the most exhaustive report that has been laid in the House for some time and there is a feeling that many of the recommendations contained therein will be embodied in legislation, whether this year or next, however, is not quite certain. He makes one sweeping assertion, however, in that report, recommending that outside of Montreal and Vancouver, most of the capital expenditure of harbor commissions should be written off. The ports should be nationalized, a central commission appointed in Ottawa to take the place of local harbor commissioners, each port to have its own manager with an advisory board. These are some of the recommendations made in that report.

After the estimates of the Minister of Marine had been passed, estimates in connection with trade and commerce were taken up. The Minister of Marine came in for some criticism regarding the matter of raising the fee to two dollars for radio licenses. It is evident from the

statements made by the minister that the government is receiving considerable revenue, in excess of what they are spending, in connection with radio and it was felt by many members that the increase from \$1 to \$2 was uncalled for, although, if all the money collected were to be put back for improvement of radio service no great objection would be taken to this, but objection would be taken if the intention of the government was for revenue purposes only.

An interesting event took place on Friday when a luncheon was given by the Honorable the Prime Minister at 1 o'clock, in honor of Sir Josiah Stamp. This was attended by practically all the members of the House of Commons, members of the Senate, and many other notable men. Sir Josiah Stamp is one of the most outstanding economists in the British Empire. It will be remembered he paid a visit to Canada last year and gave his services without reward in connection with wheat and grain futures. His address was a masterpiece and one would have liked if it were possible to obtain a verbatim report of the many statements he made in connection with the affairs of the Empire and with economic questions generally. His final note was in regard to the Imperial Conference to be held here this summer. He pointed out, to the great gathering that, in his opinion, if anything is to come out of it, there must be giving as well as taking. He never knew a one-sided bargain to pan out well.

**THAT ALL-TIRED-OUT FEELING SHOWS NEED OF SPRING TONIC**

**Benefited Users Advise Others to Restore Health With Dr. Williams' Pink Pills as They Have Done**

There is a definite medical reason for that Springtime "all-tired-out feeling." The system is suffering from oxygen starvation; the blood has been thinned and deoxygenated by winter living conditions, so that it isn't carrying the amount of oxygen required by the body tissues. That's why people are languid, listless, and easily fatigued at this season of the year. They are in need of a reliable proven blood builder which will quickly correct this condition.

Thousands have found the answer in Dr. Williams' Pink Pills. This proven remedy actually creates new red blood, and invigorates and purifies the blood stream so that it again carries energizing oxygen throughout

the system, banishing the lassitude and fatigue.

Mrs. Elizabeth Clarke, Hastings, Ont., writes: "I use Dr. Williams' Pink Pills in the Spring, when one naturally feels run-down after our long Winter. Last Spring I was feeling weak and easily tired. I took Pink Pills with the result that I have had splendid health since."

"I always take Dr. Williams' Pink Pills in the Spring to build me up for the hot weather. I cheerfully recommend these Pills as the best of health-builders," writes Mrs. L. Hupman, Summerville Centre, N.S.

"I keep Dr. Williams' Pink Pills in the house all the time and take them every Spring as a tonic," writes Miss Anna Murphy, St. Odilon, Que.

"Try Dr. Williams' Pink Pills and experience for yourself the new strength and vigour they will bring you. At your drugist's in the new glass container, 50c a package.

He said no one could control the complex economic machine with its psychological influence, such as hypnosis of fear on the one side and the mad rush to get rich overnight on the other. These were instances of fluctuating psychology, indicating how the delicate mechanism may be upset and pointed out as a final warning that the moral fibre of the world should prove equal to its scientific achievements. He was presented, on behalf of the govern-

ment, with a beautiful candelabra, suitably engraved, as a lasting memento from the Canadian people for the work he performed. One-half of this country last year. It is interesting to note, he said that he was somewhat of a gainer by his visit to this country of a daughter-in-law, which would unite him still further with this great country of ours.

**SPENDING TO SAVE... THROUGH**

**Advertising**

Not many of us, these days, are troubled with so much money that we cannot spend it. But we are interested in spending the money we have, to get the most out of it.

One way—and not a new way, either—is to make a budget. Put down, week by week, the money that comes in. Put down beside it, week by week, the money that goes out. So much for food, so much for clothing, so much for rent. So much for giving, and for luxuries.

**Where Advertising Helps**

It won't always be easy, of course, to stay within the budget. That's where advertising helps you. Advertisements in this newspaper tell you how much rugs, butter, breakfast foods, dishes, homes, automobiles will cost, before you go shopping! They point out ways to save money. They show you how to cut a little here, a little there. And each day, they tell about new inventions, new products, new ways of doing things, that help make this life of ours very much worth living!

WOULD HAVE BIG CHANGE

(Continued from Page 1)

uneconomic lines which we have travelled in the past and which becomes more intense as new methods are proposed and put into effect to continue and bolster up the mistakes of the past.

"We are not fighting for Prince Rupert, we are fighting for the farmer on the farm, who, in his stern, fight against world conditions must have the cheapest routes which will carry his produce to the world market. Nevertheless Prince Rupert will come into her own some day. With her splendid harbor and strategic position which cuts 500 miles off the water route to the Orient, she has the future with her.

But in all discussions the interest of the primary farm producer is overlooked, and in the increasingly heavy competition he must have the cheapest possible rate in order to get his commodities on the world market. It may help the railroads, on the face of it, to force a long haul and collect a big tariff therefor, but in this way they are killing the goose that lays the golden egg, and making the producers' existence impossible."

## CUBS NOW TAKE LEAD

Philadelphia Drops From Supremacy in Both National and American Leagues

BROOKLYN, April 19.—The Phillies, shut-out by a score of 8 to nothing by the Brooklyn Dodgers yesterday, finally fell from the leadership of the National League. Chicago Cubs, by defeating the world champion St. Louis Cardinals, moved into first position.

The leadership in the American League also changed hands yesterday when the Philadelphia Athletics dropped into second place by losing a 15-7 slugging match to the Washington Senators who moved back into the lead along with New York Yankees who, with the Boston Red Sox, had an idle day.

The Detroit Tigers are also tied now with the Yankees and Senators for second place.

Yesterday's scores:

### National League

Chicago 3, St. Louis 1.  
Pittsburg 0, Cincinnati 5.  
Boston 7, New York 1.  
Philadelphia 0, Brooklyn 8.

### American League

## CUBS WIN SOFTBALL

Defeat Pirates By Score of 5 to 0 in High School League

In yesterday's softball game at the High School, the Cubs took the Pirates into camp to the tune of 5 to 0. This game leaves the Pirates in the cellar position in the league standing.

In the first two innings, the batters of both sides were retired in quick order. But in the third, the Cubs brought in two runs and three men crossed the plate in the fourth. The Pirates, although they often had men on bases, were not able to bring them home. In the fifth inning the Pirates tried gallantly to bring in a run but the Cubs played a superior brand of ball.

The victory for the Cubs was due to strong fielding and heavy hitting. The Pirates, as a team, played rather raggedly, making many field errors.

The teams were as follows:  
Cubs—Davies, rf.; Church, c.; Willisroft, ss.; Moxley, p. (capt.); Obata, lb.; Fulton, lf.; Fav, cf.; Hanson, 2b.; Stinech, 3b.; Ross, rss.  
Pirates—A. Walters, lb.; Kanaya, c.; Nakamoto, ss. (capt.); Ivanson, lf.; N. Allen, 2b.; Santurbane, 3b.; Cromp, lf.; Postulo, c.; Obachina, rss.; Kirkendall, rf.; W. Smith, rf. Umpire, C. Smith.

## SPORT NOTES

Oldsters of ringdom are now classing Billy Petrolle with the great, great ones of the past, writes Frank Menke. And the youngsters are rating him as the keenest minded ringman of this generation. New York, which is always loath to accept from the middle west any fighters as really worth while until they have rocked the Empire State building with on-blow and shattered 16 other skyscrapers with 16 left jabs, has made Petrolle its hero of heroes. Vivid in their minds are those remarkable bouts featuring Petrolle against Jimmy McLarnin, King Tut, Billy Townsend, Eddie Ran and Battling Battalino; each a battle wherein he gave the most masterly exhibitions of skill, courage, cunning and punching power.

Prince George Unemployed Would Go Placer Mining—Mining Lectures at Burns Lake—Going to Placer Fields

A number of Canadians in the unemployment camps in the Prince George district, unwilling to accept the government's wage offer of \$7.50 per month and coming restive with the idle life of the camps, are considering taking advantage of the opportunity offered by the government for free prospecting. Unless some form of employment turns up, and it is to be unlikely that this will materialize, summer will find a number of the men turning to placer mining, it is expected.

**Guide to Correspondents**  
The Daily News welcomes correspondence on live topics of the day or any other subject of public interest, but letters must be brief and to the point. The long-winded correspondent has no place in modern journalism.  
Every letter must be signed by the writer, not necessarily for publication but as a matter of good faith and courtesy. All unsigned documents go to the waste paper basket. Letters of a caustic character must have the signature appended for publication.  
Letter should be written on one side of the paper only. Correspondents must avoid personalities and the language should be such as would be allowed in the ordinary rules of debate.

## "TILLIE THE TOILER" No Danger of Getting Cut Out —By Westover.

The fury of a woman scorned! I pitied but dared not warn her to be more careful about "B.O."

# The OTHER WOMAN'S STORY

ROMANCE cannot live when carelessness about "B.O."—body odour—creeps in. Men instinctively turn from the girl, women shun the man who is guilty.

To this day she hates me—blames me for stealing him away. But it was her own carelessness that cost her his love.

It removes germs too! Wash your hands often with Lifebuoy so that your finger prints will not put harmful germs on foods you eat.

### A Complexion Secret

"Don't be afraid of soap-and-water cleansing for your face," complexion authorities urge. There's no risk if the soap is as pure and bland as Lifebuoy. Work its gentle, purifying lather well into the pores at night; then rinse. See how quickly dull complexions freshen and glow with healthy radiance.

## MILK IN ITS MODERN PACKAGE

## IS MILK FROM "Contented Cows"

CARNATION is whole milk with only the natural water-content removed and nothing added. Carnation is the famous *safe-guarded* milk "from Contented Cows." That means that every precaution is taken to insure its purity at the source by the strictest cleanliness in the care and in the milking of the cows. After Carnation is evaporated to double richness the cans are then hermetically sealed to continue the protection until Carnation reaches you.

### What Expert Cooks Tell Us

Domestic Science experts have found that Carnation makes foods richer, tastier, finer in texture. They say that the "homogenized" butter-fat in Carnation makes it super-smooth. Use it in cream soups, sauces, puddings, ice cream, cocoa, candy. Enjoy its creamy double-richness in coffee, fruits and cereals—and cut your cream bills in two!

### Approved for Baby Feeding

The highest medical authorities recommend Carnation Milk as an excellent milk for babies—because of its purity, uniformity, nutritiousness, richness in vitamins and minerals, and super-digestibility.
