Fianna Fail, 68. Labor, 7. Independent Labor, 2. Government, 53. Independents and Farmers, 15. Speaker, 1. This gives Eamonn de Valera, Republican leader, and his supporters a bare majority and President Cosgrave has conceded defeat.

TO SEARCH FOR COUPLE

Partner in Nome Believes Graham and Mrs. Christofferson Are Safe

There was still no word last night of Pilot William R. Graham of Nome and Mrs. Edna Christofferson who are missing on a flight from Hazelton to Atlin. They have not been reported since Monday afternoon of last week when they were sighted at Nahlin, 100 miles south of Atlin.

Radio reports last night said that Graham's partner at Nome was not anxious as far as his safety was concerned. He had six weeks' food supply in the plane and had probably landed to await more favorable weather before proceeding on the flight.

A search plane at Atlin was yesterday awaiting an improvement in weather before taking off. There was also a plane at Burns Lake waiting to take off.

At Portland friends of Mrs. Christofferson were preparing to finance and direct a search flight which was to be started immediately.

CLEVER LANDING

Commercial Pilot Brings Ship Down After Wheel Falls Off

VANCOUVER, Wash., Feb. 23.—After a commercial plane had hopped off from here yesterday with three passengers on board, one of the landing wheels dropped off. The pilot ordered the passengers into the tail so as to keep the nose as high up as possible. The ship was landed with slight damage and passengers unhurt.

PASSING OF DIVA

Madame Johanna Gadski Passes Away in Berlin Following Injuries in Car Accident

BERLIN, Feb. 23.—Madame Johanna Gadski, noted opera singer, was injured in an automobile accident here yesterday, and died today at the age of fifty-nine.

Conflict with the world of music because of love of her native land, Germany, during the World War, definitely altered the career of Johanna Gadski, one of the foremost Wagnerian sopranos of her time.

She had the unique distinction of being a singer born abroad who achieved her fame and success in America. Coming to the United States in 1895 a comparatively unknown young singer, she rose steadily in prestige and popularity. In the midst of her war activities her connection with the Metropolitan Opera House, New York, was terminated and thereafter her appearances were confined largely to concert work.

On New Year's Eve, 1915, Madame Gadski gave a dinner at her home at which, it was reported, Otto Gortz, a German baritone, sang a part. Continued on Page 3.

WOMAN IS DROWNED

TOO HIGH A PRICE

Yesterday we expressed the opinion that British Columbia was paying too high a price for the money it is borrowing. Today we learn that Prince Rupert people who wished to invest could not get any of the bonds but that they had all been taken up by brokers who were now offering them at a higher price. They are speculating with the people's securities and already making a substantial profit.

The profits, if any, on a loan of this kind should have gone to the people. To hand out the bonds at a given price without asking for competitive bids is a Tolmie policy that is not meeting with popular approval.

NO MORE GLORIOUS VICTORIES

Until recent years it has been a habit to speak of "glorious victories" when thousands of men were killed who had no personal quarrel with those against whom they fought. They were induced to fight because the men in charge of their national affairs said it was their duty to do so. Today many people are refusing to see anything glorious about this wholesale slaughter and they look with contempt on the men who do the slaying.

There is nothing glorious about the killing in China today. It is an evidence of brutality and nothing more. It is a reversion to a past age when the young people were taught that it was wrong to kill a person against whom there was a personal grudge but quite correct to kill people against whom there was no quarrel but simply a difference of opinion in regard to national policies.

OPENING UP COAL AND OIL

The Tolmie Government has announced through the lieutenant-governor at the opening of the house that it will introduce a new policy for encouraging prospecting in coal and oil in the province. This is welcome news. If the policy is one that has any likelihood of proving effective it will be generally welcomed. We need to encourage those who will cause the utilization of our untouched resources and we feel sure the people will back the government in any reasonable policy for doing this. We shall look forward with interest to the new policy.

Dr. Wood's Laid Up For A Month With Bronchitis

TOURIST INDUSTRY

Editor, Daily News:—

British Columbia is known the world over as a producer of gold. It is one of our valuable industries, and during the last eight years lode and placer gold was produced to the value of \$32,500,000.

But have you paused to consider that the tourist industry is many, many times more valuable than the gold industry? Do you realize that tourists spent more money in this province last year than the value of all the gold produced in the province in the last eight years?

Travel agencies state that citizens of the United States are curtailing their visits abroad to a marked degree, and that the slogan "See America First" is at last having very definite results.

This summer the Olympic Games will be held at Los Angeles, and many hundreds of thousands of additional visitors will consequently be attracted to the Pacific Coast, holiday bound, with money to spend. The other Pacific Coast cities, San Francisco, Seattle and Portland are using national advertising extolling their respective attractions and inviting these strangers to visit them en route to or from the Pacific Coast.

But the Province of British Columbia, possessing numerous attractions unequalled on this continent's; with hotel accommodation and facilities unsurpassed on the Pacific Coast; with its currency at a discount of approximately 15 per cent of American currency, resulting in the money of the American tourist having a greater purchasing value here by nearly 15 per cent; with beer, wines and liquors legally obtainable, are content to sit silent with an air of smug complacency, too indifferent or too tired, or perhaps just too downright lazy, to make any effort or attempt whatsoever to acquaint these hundreds of thousands of tourists with the fact that a trip to the Pacific Coast is incomplete without a visit to British Columbia.

If the merchants and leading citizens would cease their wailing and gnashing of teeth regarding "depression" and "hard times," and take off their coats and work together for a more prosperous British Columbia, they would soon have occasion to change their mental attitude regarding local conditions.

"JUNIOR"

UNEMPLOYED STILL WAITING

Editor, Daily News:—

At long last, after many days, and in the usual style, an answer has been received by the Central Committee of the Unemployed Association, of this city, to a letter and resolution endorsed by the citizens who assembled in the Moose Hall January 10th.

The answer received from the federal government was kindly published by you, and believing that this letter also is the property of the citizens, a copy of the same is enclosed for publication.

The committee of the unemployed have digested this communication with comparative ease, and feel disposed to file it with many other similar documents emanating from the same source.

It is believed that the resolution referred to has reached its destination, the governmental waste-paper basket, the apparent receptacle of divers documents of like strain, which compels the committee of the unemployed in this city, to believe that the public meeting held on January 10th measured to a nicety the capabilities of the present government.

In closing let this committee inform the public, that the men at Cloyah Bay are still awaiting the extra shirt and other clothing promised by this procrastinating government, with the said clothing right at the camp itself awaiting sale.

Yours sincerely,
SECRETARY,
Central Committee,
Unemployed Ass'n. of Prince Rupert, B.C.
Herewith the letter referred to:
Feb. 15, 1932, Victoria, B.C.

Dear Sir:—
I beg to acknowledge receipt of resolution passed by the people of Prince Rupert, in respect to unemployment.

This resolution will receive consideration.
Yours faithfully,
(Sgd.) S. L. HOWE,
Provincial Secy.

SPORT NOTES

With her Winniepegs winning the Olympic hockey championship for Canada at Lake Placid, Winnipeg wonders today if Leap Year still holds its charm. It is a charm apart from postside marriage proposals, concerning exclusively a practice followed for two decades by Winnipeg hockey teams in the matter of Allan Cup. It has gone like this: Allan Cup winners have been produced by Winnipeg in 1912, 1916, 1920 and 1928. The only Leap Year since pre-war days that has not seen the Canadian amateur title lodged there was 1924. Sault Ste. Marie's Greyhounds were winners that spring.

This spring of Leap Year triumphs was started by the old Victorias who eliminated Eatons of Toronto, in the Dominion final in 1912. It was a repeat victory for the Vics, as they had been winners in 1911. In 1916—in the midst of the war, Winnipeg turned loose a soldier team, the 51st Battalion, which was formed to play exhibition games for patriotic purposes but which remained to down the best opposition in the country and win the Allan Cup. Joe Simpson, "Spunk" Sparrow and the Morrison boys were stars on the battalion line-up. Frank Frederickson's great Falcons, the first Canadian Olympic hockey team, were national champs in 1920. They brought Canada a world's title after defeating every team entered in the Antwerp tourney. Leap Year was not Winnipeg's year in 1924. Selkirk Fishermen won the Manitoba championship but were defeated in the Allan Cup final. But University of Manitoba picked up where the Falcons left off by winning in 1928. Andy Blair was the star of the college sextet.

It will be either Winniepegs or Native Sons who represent that city in the playdowns this spring and more than a few fans are of the opinion that Sons will defeat the Peggers when they get back from Lake Placid. With a sensational first-string forward line, made up of the flashy Lemay brothers, Tony and Albert, and Freddie Carter, Native Sons can easily skate with the Olympic representatives. Their defence system may not be as tightly-welded as that of Winniepegs but Jerry O'Brien is considered the equal of Bill Cocksburn, Peg goalie. If the fleet Sons can master their second forward set into a formidable array they may earn themselves the right to defend the Allan Cup, won a year ago by Winniepegs. In either case, Winnipeg will be represented in the playdowns. Either Pegs or Sons are capable of going some little distance this Leap Year.

CHOCOLATE CUP CAKES

- 1/2 cup shortening
- 2 eggs
- 1 cup sugar
- 1/2 cup milk
- 1/2 cup pastry flour (or 1 1/4 cups bread flour)
- 2 teaspoons Magic Baking Powder
- 1/4 teaspoon salt
- 1/4 teaspoon soda
- 1 teaspoon vanilla extract
- 2 1/2 squares unsweetened chocolate

Cream shortening; add sugar slowly; add well-beaten egg yolks. Sift dry ingredients together and add, alternately with milk, to first mixture. Add vanilla and egg melted chocolate; fold in egg whites beaten stiff. Put into greased muffin tins and bake in moderate oven at 375° F. about 25 minutes. Cover with chocolate icing.

Why Miss Lillian Loughton's Chocolate Cup Cakes are famous

"I use Magic Baking Powder," says Miss Lillian Loughton, Dietitian and Cookery Expert of the Canadian Magazine. "My successful baking results are due in large part to its freshness, uniformity, and consistent high quality."

"My own recipes are planned for Magic, and I recommend it for all recipes calling for baking powder."

Miss Loughton's high praise confirms the judgment of other Canadian dietitians and cookery experts. The majority of them use Magic exclusively, because it gives consistently better baking results.

Magic is first choice of Canadian housewives, too. It outsells all other baking powders combined.

BIG STORM HITS HERE

Torrential Rains Accompanied by Heavy Wind—No Extensive Damage is Done

Prince Rupert experienced another fierce southeast winter storm last night and this morning with torrential rain in addition to high winds. As far as could be learned no very serious damage was done by the wind although a large plate glass window in the office of P. M. Ray on Second Avenue at Second Street was blown in. Windows were also blown in at the Prince Rupert Club and at the Rex Cafe.

The Dominion meteorologist reported this morning that there had been no less than two inches of rain in the 24 hours ending 8 a.m. today.

body making a jest of the sinking of the Lusitania. This was always depicted by Madame Gadski.

Her husband, Hans Tauscher, a former captain in the German army, was tried in New York in 1916 on a charge of conspiracy to blow up the Welland Canal. He was acquitted. Later he was among the Germans who left the United States with Count von Bernstorff when diplomatic relations between the United States and Germany were severed. After the war he was permitted to return to the United States.

When her contract with the Metropolitan Opera Company expired in 1917, it was not renewed. In 1921 Madame Gadski sang in concert at Carnegie Hall, New York, the program being entirely of Wagnerian music. It caused a storm of protest from the people and press.

Madame Gadski was born at Anklam, Prussia, Germany, June 15, 1872. As a child she displayed remarkable vocal ability. For 12 years she studied with Frau Schroeder Chaloupka of Stettin, her only teacher. Walter Damrosch heard her sing in the Royal Opera House, Berlin, in 1894 and induced her to come to the United States. She made her American debut at the Metropolitan the next year as Elsa in "Lohengrin" and eventually became a popular prima donna of Wagnerian operas, most of which she learned after coming to America.

She was married to Captain Tauscher in 1893. They had one daughter, Lotte, who was her mother's constant companion.

"How do they do it?" Among your friends there's sure to be at least one smart young married couple who are the envy and admiration of all who know them. With an income that is frankly abbreviated, and with no benevolent Aunts in the offing, they still have a home that is correct and comfortable in all its appointments, a home that is admired and copied by their friends. "Yes, Jane is a remarkable little manager," will probably be the young husband's proud answer. And there is little doubt about it. THEY DO IT THIS WAY. Take a look around that home and you will find no end of well known advertised products. For Jane is an efficient little manager. She can't afford to take chances that must only be debited to "Experience." When she buys for her home she must get tried and tested and trusted products which carry an honorable name to guarantee her satisfaction. You will find that Jane is a consistent reader of the advertisements. Are you?

Bring Back Prosperity By Eating More Fish

PRINCE RUPERT PEOPLE URGED TO SUPPORT THE BIGGEST INDUSTRY THE CITY HAS BY KEEPING EVERY FRIDAY A FISH DAY AND USING THE LOCAL PRODUCT OFTEN

Prince Rupert's biggest industry is fishing. A large section of the local people are engaged directly in the industry and all others depend on the success of the fishing to keep their businesses going or to provide their salaries. For that reason it is desirable that as much fish as possible be consumed locally.

Who can help in this? Nearly every person can do something.

FISH BUYERS AND WHOLESALE DEALERS can help by making fish easily accessible to local merchants at the lowest possible price consistent with the price paid to the fishermen.

LOCAL STORE KEEPERS can help by displaying fish in their windows periodically—at least once a week—and including fish in their advertising.

HOTELS AND RESTAURANTS can help by keeping local fish well to the fore in their daily menus.

ALL HOUSEHOLDERS can help by providing a fish meal as often as possible, at least twice a week and by insuring that it be cooked and served in the most appetizing manner possible.

CITIZENS WHO ARE NOT HOUSEHOLDERS can do their part by asking for fish whenever possible and making suggestions as to methods of cooking and serving.

If Prince people lead the way, others will follow. Every pound of fish consumed locally is a help to the fishing fleet on which the city depends.

Fish produced and marketed at Prince Rupert includes Halibut, Salmon, Cod, various varieties of Flat Fish, Crabs, Shrimps, Oolachan, Herring and Kippers.

Is Your Back The Weak Point

Is Your Back The Weak Point
Then get your kidneys right by using Dr. Chase's Kidney-Liver Pills

Very few people are in perfect health. There is a weak spot somewhere. When you get tired or your system gets a little run down you feel the effects at your weak spot. If your weak spot is your back, then you may suspect that your kidneys are not in perfect order. The back aches or is weak and sore; you may have headaches; there will be dryness of the skin, pains in the limbs and disorders of the bladder. The quickest way to regulate the kidneys is by using Dr. Chase's Kidney-Liver Pills. They are bound to be effective because they arouse the action of the kidneys, liver and bowels and thereby ensure the elimination of poisons from the system.

FREDERICKS URGES LINE PEACE RIVER

Regrets That Unemployed Were Not Put to Work on This Needed Undertaking

A Peace River outlet to the Pacific Coast is its vital necessity and its right of way could have been cut during the past year by the unemployed of British Columbia, says C. W. Fredericks in an interview given the Vancouver Sun. Had the \$4,500,000 which British Columbia alone has spent on unemployment relief been allotted to that work, the thing would be done.

"I have been in Peace River 18 years," he said, "and I have watched its production increase from nothing in 1914 to its present volume."

"And another three years will see the end of this increase in production unless we can get a coast outlet, because we have expanded as far as we can expand with the railway facilities we have."

"Fort St. John district in British Columbia is 135 miles from the end of steel, and that's one of the richest parts of the whole Peace River country."

Enormous timber resources, hard coal of high grade anthracite type—these are some of the riches awaiting an outlet to the Canadian and world market, he said.

"Peace River hard coal contains three per cent more carbon than the best anthracite. Yet they are talking about closing down the country!"

"There never was a project needed so badly that offers such a wide choice of routes, any one of which at a comparatively small cost would develop sufficient freight tonnage to pay for itself, regardless of the tonnage already available in the Peace River country."

"The tonnage on timber and coal along any one of these routes is enormous."

"So far as Vancouver and British Columbia are concerned, I am sorry to say that it appears to me there has not been very much done in pressing for a coast outlet."

"There is the danger, because there is a depression, that we are going to forget the things which are productive, which would relieve the depression and would pay for themselves from the start."

Lack of Effort

Speaking of unemployment, he said, "There seems to have been a lack of organized effort to make something constructive out of a bad situation."

"Last fall in some articles I wrote I made a proposal that the unemployed be put to work by establishing a line of camps along a right of way, where the men could have cut that road out."

"Speaking personally, if you could see the conditions as we see them up there, when we pick up our newspapers and read of the unemployed put out in camps here and there and the money that is being poured out on unproductive plans, we say, if we could only take those unemployed and put them to work up there and have them do something useful, we would have our problem solved—and so would they."

February 23, 1912

Duncan Ross was the principal speaker at a meeting in the Knights of Pythias Hall last night when the provincial election campaign was opened. Delegates to attend a convention to be held next week in Vancouver were chosen in the persons of Howard Campbell, J. Piercy, J. J. Sloan, C. W. Peck, Dr. W. T. Kergin, George Frizzell, J. R. Morgan, G. R. Naden, Fred Stork, C. B. Lockhart, D. McKinnon, T. D. Pattullo, J. Y. Rochester and A. M. Manson.

The city has promised to grant the hospital board \$10,000 toward the construction of a new wing of the Prince Rupert General Hospital. The provincial government has promised \$10,000.

The city council last night agreed to grant the federal government an area 400 feet square to be used for the site of a handsome new armory which is planned to be built here.

ALDERMAN IS WOMAN

Norah Henderson of Hamilton is Quiet But Eloquent

TORONTO, Feb. 23—Alderman Norah Henderson, of Hamilton, is a slight dark young woman, with a vivid, eager face and a quick and assured way of speaking her mind. That she is eloquent was very evident when she spoke before the Heliconian Club recently. She represented herself as one of the Marthas of the world coming into the presence of the Mary of art, literature, music and drama. Her vision of the rhythm, form, color and structure of social life—the art of living—mother of all arts—was inspiring.

Alderman Hamilton described herself as one of those who listened to what poets and idealists were trying to convey—attempting no contradiction to theories often going against the grain—therefore, having the right, she maintained, to experiment in their own more humble way in aiding the greatest number: weighing and balancing, building, giving beauty to dull lives, thereby being themselves artists in rhythm. This, always, if they were sincere in endeavor.

She admitted, humorously, that as a child she had conceived a violent antipathy to aldermen. But now that she was one of the elect she was delighted to find how nice they were.

DOOM OF 'PETTING'

Picture "End of Road" Draws Big Crowds in Toronto

TORONTO, Feb. 2:—"Bride Brother," in The Mail and Empire, writes: "With 500 women turned away from its initial showing, and 1,000 men the day following, the film, 'The End of the Road,' put on at Massey Hall, under the auspices of the Social Hygiene organization, seems to be registered beyond the utmost dreams of its promoters. There have been enormous sales of literature, also. On the three days which the film was shown, the supply gave out long before the demand had been satisfied. But to those whose heart is in the work of creating a cleaner attitude towards life, the best results are shown in the influence the film has had on the young girls who have seen it. The remark of one girl, one of 10 who attended from an office staff, is typical. 'This,' she said, 'sees the end of 'petting' for me, and when I marry I shall ask for a medical certificate from the man who is to be my husband, and I shall be perfectly willing to give him one in return.' From almost total ignorance of the ravages caused by careless living, the world progressed to the point of advocating curative measures. Now it is taking a step forward; it is beginning to see the folly and the expense of attempted cure and is urging prevention. Why build the fence at the bottom of the cliff and go to all the bother of mending broken legs. Why not put the fence on top?"

Dr. Edna Guest, speaking on this subject said: "We realize that if we are to remain a healthy population, we must have more than mere technical enlightenment. We must have planned recreation as a counter attraction to the lure of the public dance hall and the luxurious automobile. It is a tribute to our Canadian mothers of today that they have a splendid healthy-minded and athletic generation to their credit. General amusements must at the 'teen age be scrapped, and an individual study of tastes and temperaments made. These are the years in which we all demand intensive recreation and hobbies, and it is the wise parent who recognizes this early and in her own quiet way decides she will be 'pilot way up on the bridge!'"

NEW STAR IN DRAMA

Helen Hayes, noted young star of Broadway legitimate, is brought to the talking picture screen for the first time in "The Sin of Madelon Claudet," current feature offering at the Capitol Theatre here. Even if the story is a little trite, Miss Hayes' sensitive acting and complete charm altogether compensate for this and the drama makes entirely delightful entertainment.

"The Sin of Madelon Claudet" is a play of the "Madame X" super tear-jerking type and it is filled with many vicissitudes. Madelon, the heroine, goes her teary way from one misfortune to another. Miss Hayes' character is touched up with numerous carefully thought out details. Her make-up, as she presents Madelon worn by age and sorrow, is extremely good. The plot was, no doubt, selected to show this new star's versatility and ability in emotional acting. In this she succeeds admirably, giving a beautiful and touching performance.

A supporting cast of unusual prominence appears in support of Miss Hayes in "The Sin of Madelon Claudet." Neil Hamilton, Lewis Stone, Jean Herscholt and Marie Prevost, all of whom are well known to movie-goers, are among the members of the cast.
