CONVENTION TO BE HELD

Gathering Called at Victoria to Protest at Reduction of Government Grants to Municipalities

The city council last night referred to the finance committee for report a resolution which had been put forward by the Saanich municipal council and approved by a number of municipal councils in the south urging that a special convention be held in Victoria some time this month for the purpose of protesting against any proposal on the part of the provincial government to reduce grants to the municipalities. The resolution was forwarded here by Mayor A. Wells Grey of New Westminster, secretary of the Union of B.C. Municipalities, who suggested that, at the same convention, other questions such as unemployment would also be probably be taken up. Resolutions from the local were invited.

While no doubt the local council was in accord with the spirit of the resolution, Ald. Pillsbury thought the matter should be referred to the finance committee since expenditure would be involved in sending of a delegate to the convention. This suggestion was agreed to by the council.

BIG FIGHT IS COMING

Most Serious Conflict Since Japanese Occupation Threatened In Shanghai

SHANGHAI, Feb. 2.—A fierce battle, promising the most severe fighting since the Japanese invasion of Shanghai, began this morning with terrific shelling of the already battered Chapei sector by Japanese artillery. Fifteen thousand Chinese troops in the Shanghai area stoutly resisted the attack and retaliated by setting fire to Hongkew, the Japanese international settlement, forcing the withdrawal of the Japanese therefrom.

Menace of fighting hung over Nanking where a strong detachment of Japanese bluejackets landed on the waterfront.

Civic Retrenchment Program Is Finally Approved By Council; Annual Saving Put at \$20,000

The city council last night gave its final stamp of approval to a program of reduction in salaries in the city services which are designed to save the city about \$20,000 on the present year's operations. No details of the program, which was settled upon by the council in private session last week, were given but it is known that cuts in the salaries of officials of from \$37.50 to \$100 per month are involved while wages for city hall and fire hall employees are cut on an average of seven to ten percent with three regular clerks and one special clerk in the city hall losing their jobs altogether.

In speaking on the matter, Ald. Casey urged that further money could be saved by making the cuts effective from the present date instead of giving notice until February 29. Ald. Casey further urged that the services of the city engineer could well be dispensed with altogether instead of retaining him at a salary of \$200 per month. There was little more than the work of building inspector to do and there were numerous competent men in the city who would undertake this for a monthly retainer of \$50. Ald. Casey moved that the services of the city engineer be dispensed with altogether. Ald. McCutcheon seconding the motion.

Ald. Pillsbury and Ald. Rudderham were strongly of the opinion that the plant and work involved required the services of a competent engineer. On the vote on the motion being called only Ald. Casey and Ald. McCutcheon favored it.

Plebiscite To Be Put Before People As Soon As Regulations Permit

Lengthy Discussion on Issue at Last Night's Meeting—Vote is 6 to 2 Against Proposal—Principles and Costs Under Review By Aldermen

By a vote of 6 to 2, the city council last night rejected the proposal of Ald. George B. Casey to terminate the agreement with the provincial police for policing of the city on June 1 and revert at that time to the system of city policing. It was agreed, however, to take a referendum on the question of provincial or city policing as soon as the necessary legal proceedings for the holding of the poll can be completed.

In opening his argument in favor of city rather than provincial policing, Ald. Casey raised a constitutional point as to the legality of failing to have police commissioners elected each year even if the police board would be inactive through the city having provincial policing.

Ald. Casey's first objection to the system of provincial policing was that it was in "direct contradiction of responsible government." The ideal democracy was that where the people had the privilege to govern themselves.

Ald. Casey charged that the police force had been changed in 1926 without his knowledge as a member of the council of that year or without the knowledge of Mayor Newton or Ald. Larsen. The first intimation they had had of it was when the subject was introduced at the meeting of the city council at which the change was put through by a majority vote. The real reason for bringing about the change at that time, Ald. Casey alleged, was to bring about the removal from the mayoralty of Mayor Newton who, it was believed, held the chief magistracy by reason of being chairman of the police commission. Mr. Newton had been able, however, to retain office until he chose to retire because he had the confidence of the people.

The excuse given for the change was that bootlegging was rampant in the city. However, he (Ald. Casey) believed there was just as much bootlegging in proportion today as there had been then.

Dictatorship Opposed

To his knowledge, Ald. Casey declared that this "dictatorship of the police" had been instrumental in driving at least one firm in the city out of business. Patsy Mazzei had been virtually driven out of town after his automobile licence had been revoked for three minor infractions of the Motor Vehicle Act. Ald. Casey also alleged that the "spiriting away" to Okalla while suspension of sentence was being sought of two boys who had been convicted of pilamping last fall was "part of the provincial police effort."

Before he would stand being put out of business because he might incur the displeasure of some policemen, Ald. Casey declared that he would want some tribunal where redress might be possible. As it was at present the chief of police was a dictator with more power than even the mayor or aldermen. He did not think the city council should stand for it.

Ald. Casey declared that the actual cost of policing the city in 1930 had been \$13,118.13 in addition to transportation and feeding

prisoners. This, he claimed, was "absolutely ridiculous and out of all proportion with the requirements." It was "extravagance of the worst form." His (Ald. Casey's) proposal was to have a force of chief and three patrolmen, the chief to be paid \$150 per month and the patrolmen about \$116 or \$117. This would amount to \$6,000 a year and, after fines had been deducted from this, the actual cost would be about \$2,800, or a saving of more than \$10,000 in comparison with the present system. Then the city would have responsible government and there would be "a court of appeal rather than a dictatorship power in the hands of persons who do not know how to use power."

Further elaborating upon his city policing scheme, Ald. Casey proposed that the fire chief should be used as a deputy police chief and members of the fire department as special constables to assist the city police whenever necessary.

**SIR HENRY AND RAILWAYS**

In an article in the Saturday Evening Post of January 23 Sir Henry Thornton has some interesting things to say about railroads. He admits that railroad people have been slow in adopting themselves to changed conditions and suggests as one means of giving service to the people that there should be busses on rails, that there should be much closer co-operation between competing lines, particularly through the standardization of equipment and the joint use and pooling of terminal and track facilities, and the elimination of unprofitable trains when they compete directly with each other.

Sir Henry makes a plea for support of the railroads which are national undertakings as against the irresponsible trucks and busses and suggests that the latter should be used as auxiliaries to the former but not in competition. He shows what a terrible thing it is to a district when the railways go out of business there and urges much closer co-operation between the railway and its employees and also between the railway and the people who use it.

When is a war not a war? See China today for the answer.

**OTTAWA SITUATION**

Parliament opens next week and it seems that there never has been a time when its meeting was dreaded as much as it is this year. The work of the federal parliament is likely to be as obnoxious as that of the legislature at Victoria. Without speaking politically we should all like to see them both abolished just now. All they can do is to increase the taxes and intimations have been given that this increase will be made ruthlessly.

The budget speech is likely to show a deficit in the Ottawa accounts of something like two hundred million dollars, half of which is in connection with the railways. There has been a tremendous falling off in income from customs dues on imports because the tariff has been raised to a point where it prevents importations.

A retrenchment policy has been adopted but on salaries and such like expenditures only a small saving can be made, just a few millions.

What then will Mr. Bennett do? He will undoubtedly increase the tax on business by means of sales or turnover taxes which will have to be paid by the consumer, for business is already hard hit by the depression and can stand no more levies. Even here in Prince Rupert the merchants are looking forward with fear and trembling to what may happen. When they have time to get their minds off Victoria they turn them to Ottawa with little comfort. If only the Ottawa parliament and the Victoria legislature could be abolished everybody would be pleased just now.

Why worry about the weather. There's plenty of timber on the island if coal is scarce.

**PLEBISCITE TO BE PUT BEFORE PEOPLE AS SOON AS REGULATIONS PERMIT.**

(Continued from Page 1)

not forgetful of the deplorable condition existing here before the provincial police took over the policing of the city. Conditions today, he believed, were infinitely better. The very circumstances of the old system made it impossible to carry out justice without making a lot of bad friends. He did not see that provincial policing constituted a violation of the principles of democracy and he did not look upon the government at Victoria as a foreign government. Before the provincial police had come in there was too much laxity and too little enforcement. As far as the pilamping cases were concerned, Ald. Linzey did not think it was fair to use these as an argument against the city detachment. Finally, the council had already tested the voice of the people on two occasions and twice they had sanctioned the provincial police. The true principles of democracy had been exercised in the taking of these expressions of public opinion. Under the circumstances he was strongly opposed to the motion.

Ald. Macdonald took the stand that, in view of the expression of public opinion when the two referendums had been taken, it would not be in the interests of democracy for the council to decide on a change without at least again consulting the public. As for economy, Ald. Macdonald could not see where a city system could be operated any cheaper than the provincial system and at the same time meet all the requirements.

Ald. Rudderham did not feel justified in supporting the motion at the present time. He, too, was in favor of an appeal to the people. Ald. Rudderham did not like the idea of paying a patrolman but \$117 per month.

Ald. Pillsbury believed that the present system was the most efficient. He did not think the council had the moral right to do away with the system without a vote of the people. He would support a plebiscite but was of the opinion that it was time enough to take it next January.

Ald. McCutcheon, seconder of Ald. Casey's motion, said that he had been always impressed that city policing was the most democratic and best system. There had been retrenchment in all other departments but nothing had been said about the police. He believed in "home rule" and that every department of the city should come under the jurisdiction of the council. He believed \$13,000 was a ridiculous cost for the policing of a city of this size. He was in favor of cutting this by fifty per cent.

**Provincial Cheaper**

Ald. Black said he would be the last to get up and support a motion which was contrary to the expressed wishes of the people. He gave figures to show that in the last three years of city policing the net cost to the city had been \$26,889.29 while in the first three years of provincial policing the net cost had been \$23,168.28 or a saving of \$3,721.01. Even if the city wanted to economize, it could on the agreement with the provincial police, he believed.

The matter of cost could be taken up with the provincial government, Ald. Collart felt. He was in accord with the views which had been expressed by speakers who were opposed to the motion.

Mayor Orme stated that he had taken the matter up before the end of last year with Commissioner J. H. McMullin from the financial angle. Major McMullin had stated that the city could have just as expensive or just as cheap a force as it wanted. It could have as many or as few men on the force as it please. At present the city was actually paying \$9200 per year for four men and a sergeant. In the first nine months of 1931 the force here had operated at a loss of \$1100. In 1930 there had been a profit of \$447. He thought it was up to the people to decide which system they wanted. As far as he personally was concerned, he was contented with either.

In the course of supplementary remarks, Ald. Casey expressed the opinion that it was easy to find excuses if one wanted to. As matters were at present, the chief of police not only ran the police force but the police court as well, Ald. Casey charged.

On the motion being put, all the aldermen but Ald. Casey and Ald. McCutcheon voted against it.

Ald. Casey immediately moved that a referendum be placed before the people on the question of policing at the earliest date legally possible.

**Man in the Moon**

Keep happy and saw wood.

Quite a number of local amateur woodcutters are out getting fuel to keep back the onslaughts of Old Jack Frost.

Eddie Clapp of Beaver Bottling Works fame is said to have joined the noble order of woodsmen of Prince Rupert. He was seen on the highway with Jim Batt, popular local halibut boat skipper looking admiringly and longingly at a big spruce tree. While they are said to have been wanting wood badly, a still, small voice whispered: "Woodman, spare that tree."

What a skate it has been! Quite a lot of the boys and a large number of girls not to say married folk have been braving the cold and enjoying the sport at Morse Creek. No noses were frozen but some are said to feel sore astern after their experiences.

Talking of slipping they say that even mayors of cities slip sometimes.

Yes, and talking about being sore, they say the city employees are about as sore as anybody must feel when some of the luxuries of life are suddenly slipped from the daily menu.

I should feel sore if someone told me I must eliminate the flapjacks and hereafter live on corn mush!

People here may sometimes be rather hungry but down on the prairies customers are said to be eating the paper plates that go under the pie.

Politicians seem to have been crowded off the front page by the little playlet being staged by Japan and China.

Some people think there's going to be war but it takes two sides to make a fight.

Japan is just telling China that if she doesn't buy her goods she'll knock the skids from under her.

sible and that nominations be called at the same time for police commissioners. This was seconded by Ald. McCutcheon and carried with only Ald. Collart voting against it. City Solicitor Jones stated that it would require 15 days' time to get the referendum before the people and the cost would probably be about \$50.

### GOVERNMENT CRITICIZED

#### Neglect Among Allegations Made in Open Letter Sent From Burns Lake to Hon. R. W. Bruhn

Protest against the administration of unemployment relief and public works in the Burns Lake district is contained in an open letter to Hon. R. W. Bruhn, Minister of Public Works, from the Burns Lake and District Workers' Welfare Association.

Neglect and favoritism are charged in a resolution passed by the 14 members of the association in the latter states.

The resolution culminates with the request that, if the government fails to provide adequate relief at uniform wages for all, "you and your conferees would observe the common rules of decency and resign immediately, in order to permit the affairs of the Province of which we wish to be proud to adjust themselves."

The letter charges that the Government has failed to pay its bills to merchants and farmers for supplies purchased, that in such work as has been done in the district in relief camps only a few favorites were paid standard wages, that the Hon. W. A. McKenzie's Unemployment Committee of the Cabinet refused to recommend the request of the Burns Lake Village for a municipal unemployment grant, and that the work done was poorly paid and executed, falling short of the relief measure it might have afforded by at least 80 per cent., and ruining instead of improving a passable road.

The letter is signed by K. Warren, president, and T. E. Taylor, secretary, of the association.

### DEATH OF EDUCATOR

#### Newton Wolverton Passes Away in Vancouver at Age of 86

VANCOUVER, Feb. 2.—Newton Wolverton, B.A., LL.D., leading Canadian educationist for fifty years, is dead here at the age of eighty six.

The late Mr. Wolverton was formerly a well known real estate and financial broker of Nelson and this city. He was president of the Sunset Mills Ltd., the Kootenay Sloane Co. Ltd. and the Pacific Investment Corporation.

Born in Oxford County, Ontario, February 5, 1846, Mr. Wolverton was educated at Woodstock College and the University of Toronto. From 1882 to 1891 he was principal of Woodstock College and from 1897 to 1908 president of Bishop College University in Marshall, Texas. Later he was superintendent of the Brandon Experimental Farm at Brandon. While there he was a member of the County Council.

Mr. Wolverton came to British Columbia in 1907 and took up residence at Nelson where he went into business and was prominent in Board of Trade affairs. Later he took up residence in Vancouver.

Predeceased by his first wife who was formerly Bella Cowie, the late Mr. Wolverton was again married in 1893 to Frances L. Matthews, Ontario. They had three sons and five daughters.

Mr. Wolverton was a Liberal and a Baptist.

### PASSING OF CHAS. DAVIS

#### Well Known Chief Engineer of Canadian National Steamships Succumbs to Serious Illness

Charles F. Davis, chief engineer of the steamer Prince George and one of the best known and most popular steamboat men on this coast, passed away at 2 o'clock this morning in the Prince Rupert General Hospital following a brief illness. On Wednesday of last week Mr. Davis, who had been sprinting work on his steamer which is in the local dry dock for annual overhaul, was taken severely ill and was at once removed to the hospital. His trouble was diagnosed as acute appendicitis with complications and an operation was performed last Thursday night but without success in saving his life.

An Englishman of about 52 years of age, the late Mr. Davis had been engineer in ships of the Grand Trunk Pacific Steamship Service later Canadian National Steamships, for upwards of twenty years. For the past few years he had been chief engineer of the ss. Prince George and before that was chief on the Prince Charles. He was well known and popular with the travelling public and his passing will be greatly regretted. He was also widely known and esteemed in Prince Rupert.

The late Mr. Davis who made his home in Vancouver is survived by a widow and two sons. Mrs. Davis is expected to arrive from Vancouver on the Prince Rupert tomorrow morning. Funeral arrangements, which are in the hands of the B. C. Undertakers, will be announced later.

### C. N. R. NOT TO BLAME

#### Thornton Disclaims Responsibility For C. P. R. Plight

ST. CATHERINES, Ont., Feb. 2.—At the same time as he apologized for his inability to talk at length on the railway situation while under review by the Royal Commission, Sir Henry W. Thornton, chairman and president of the Canadian National Railways, speaking before the chamber of commerce here recently answered recent criticism.

"I challenge the statement that the Canadian National Railways is in any sense responsible for the position of its privately owned competitor," said Sir Henry, referring to the remarks of J. T. Hackett, K.C., member for Stanstead, Que., in Toronto a few days ago. These he characterized as comment by one not particularly familiar with the subject.

"As one who has spent his life in railway work, I may with safety say that the Canadian Pacific is a credit to the Dominion of Canada and is performing a distinguished Canadian service. But I say it is no more insolvent than any other great Canadian company."

He remarked that the C. P. R.'s recent contribution to the National Service Loan was but one demonstration that it was not "trembling on the brink of insolvency."

The Canadian National Railways has spent by far a larger proportion of its capital and added since 1923 on its own lines in order to serve the people of Canada efficiently he continued in a comparison of expenditures on capital account with his privately owned competitor.

Painting the picture of a group of undernourished railways competing side by side, Sir Henry told his audience of the life blood that had to be pumped into these lines that became the Canadian National System, in order to function efficiently. In a choice between a gradual lapse into complete insolvency or the building up of an effective and efficient machine, the National system's management had chosen the latter course. His only quarrel with the Royal Commission probing the transportation system was, he said that instead of being appointed last year it should have been appointed forty years ago. Referring to the commission, he said "I believe it will suggest useful things to be done and perhaps a remedy," he praised the make-up of the Commission and said "we may as well wait patiently and with confidence for their report."

Lauds Directors

Sir Henry also paid a compliment to the National System's board of directors stating they were spending all their skill and knowledge on their important work.

"This is a time when Canada needs cooperation, support and courage and not criticism that can be construed as destructive," he went on. The present period differed from other periods of depression in the world's history only that it was purely economic rather than military or social," he said. "It would end, slowly but surely, as they had ended. We have simply got to assess our facts correctly and get a proper perspective of the situation."

Sir Henry ended with an appeal for the united support of all who are bearing the burdens of state and industry at the present time, regardless of political and social differences.

### ESTATE IS DISCUSSED

#### City Finance Committee to Investigate Value of Holdings of Late J. N. McPhee

The city council had a further report last night from City Solicitor E. F. Jones in the matter of the estate of the late Joseph N. McPhee who willed that the proceeds should go to the city of Prince Rupert to be used in providing children's playgrounds.

Mr. Jones reported that the estate included three houses in Prince Rupert which were bringing in \$60 per month, mineral claims nominally valued at \$4050 and the gasboat Shawatians valued at \$800. Total assets were placed at \$8706.42 with liabilities of \$1730. Cash in the bank amounted to \$266.42 and, after probate duties had been paid, there would be \$106 left. Mr. Jones did not see that the city had power to carry out assessment work on uncrown granted claims which might be of no value.

In connection with Mr. Jones' report, a letter was read from one of the late Mr. McPhee's partners in the Red Bluff mineral claim at Alice Arm. This partner stated that he was prepared to negotiate for the sale of his interest in the property.

After some discussion the whole matter was referred to the finance committee for report.

### NATURE FREAKS

#### Trappers From Gardner Canal Area Bring in Novel Exhibits of Natural Life

Two trappers giving the names of George and Fritz have brought into town two freaks of natural life from the Gardner Canal area.

One of the freaks are the mounted horns of a young buck, one side having two spikes and the other but one. The deer dressed ninety pounds so was probably a yearling.

The other is a white otter skin measuring five and a half feet long. White otter are a comparative rarity.

The horns and the skin can be seen at the Royal Hotel.

M. T. Lee returned to the city on this morning's train from Smithers, where he acted his Chinese interpreter in a court case.

#### Madame Lacroix's delicious CHOCOLATE LAYER CAKE

1/2 cup butter  
1 cup sugar  
2 eggs  
1 teaspoon vanilla extract  
1 cup milk  
2 1/2 cups pastry flour (or 2 cups and 3 tablespoons of bread flour)  
3 teaspoons Magic Baking Powder  
1/4 teaspoon salt

Cream butter; add sugar, a little at a time, beating until light; add beaten yolks and flavoring; add flour, sifted with salt and baking powder, alternately with milk. Fold in stiffly beaten egg whites. Bake in 3 greased layer cake pans in moderate oven at 375° F. about 20 minutes. Recipe for Chocolate Icing and Filling is in the Magic Cook Book.

### Why Magic Baking Powder is used exclusively at this Montreal School of Domestic Science

"We teach our students only the surest methods," says Madame R. Lacroix, Assistant Director of the Provincial School of Domestic Science, Montreal. "That's why I always use and recommend Magic Baking Powder. Its high leavening quality is always uniform. You get the same satisfactory results every time you use it."

And Magic Baking Powder is the unquestioned choice in the majority of cooking schools throughout the Dominion. Cookery teachers—and housewives, too—prefer Magic because of its consistently better results.

Free Cook Book—When you bake at home, the new Magic Cook Book will give you dozens of recipes for delicious baked foods. Write to Standard Brands Ltd., Fraser Ave. and Liberty St., Toronto, Ontario.

## SPORT NOTES

A preliminary indication of the number and nature of the world figure skaters who will appear next month in Montreal in the World's Figure Skating Championships has been given out by J. Cecil McDougall, president of the Figure Skating Department of the Amateur Skating Association of Canada. All of the various European, Japanese and American fancy skaters participating in the Olympic Winter Games at Lake Placid will come up to Montreal during the third week in February. Following their world's championships in Montreal, it is expected that most of the leading competitors will proceed to Ottawa to take part in the carnival of the Minto Skating Club, and from there continue to Toronto to feature in the annual carnival of the Toronto Skating Club on February 22 and 23.

Mr. McDougall, who heads the committee of the Winter Club and the Canadian Amateur Skating Association having charge of the world's figure skating championships in Montreal, has been in communication with the famous Ulrich Salchow, president of the International Skating Union, and has the names of a number of European skaters who are expected to compete. Among these are, the great Sonja Henie, lady figure skating champion of the world, petit and charming little Norwegian star;

Miss Hilde Holowsky, 14-year old skater from Vienna who is runner-up to Sonja; Karl Schaefer, Vienna, present world champion, and Gills Grafstrom, former world champion; Miss Fritzi Burger, Vienna; Dr. Gautschi, Swiss champion; Mr. and Mrs. Brunet of Paris, pair skating champions of the world; Miss Megan Taylor, 11-year old figure skating champion of Great Britain, and her runner-up, Miss Cecilia Colledge, who is of the same age.

As Canada has become increasingly successful in her attempt to gain world amateur figure skating honors, it is expected Canadian skaters will do well and even brilliantly in the ladies' and gentlemen's singles and in the pair competitions. Just who will be the Canadian skaters and whether Montreal will be represented is not yet definite, but it is probable that the Canadian entries will be similar to those at Lake Placid, though a number of extra competitors are expected from this as well as from other countries for this senior world event.

## Lord and Lady Byng Visiting Bermuda Isle

LONDON, Feb. 2.—Lord Byng, former governor-general of Canada, and Lady Byng are spending the winter in Jamaica and other West Indian Islands, and in the coming spring will honor Canada with a visit. They plan to arrive in Vancouver, coming via the Panama route, and will cross Canada to Halifax, with a few stops in the principal cities. It is planned that Lord Byng will attend the Vimy Ridge anniversary dinner in Ottawa on April 9. Instances of governors-general returning to visit Canada have been rather rare, and friends of Lord and Lady Byng are looking forward with much pleasure to their coming.

## Guide to Correspondents

The Daily News welcomes correspondence on live topics of the day or any other subject of public interest, but letters must be brief and to the point. The long-winded correspondent has no place in modern journalism. Every letter must be signed by the writer, not necessarily for publication but as a matter of good faith and courtesy. All unsigned documents go to the waste paper basket. Letters of a caustic character must have the signature appended for publication. Letter should be written on one side of the paper only. Correspondents must avoid personalities and the language should be such as would be allowed in the ordinary rules of debate.

## Someone Asked the Other Day

why the Daily News had such a large circulation in the city. It was easy to answer. The reason is because those responsible for the production of the paper put the very best they can afford into its make-up and sometimes more than they can afford. They give the people the best possible for the money.

It's worth ten cents a week to get the Waterfront Whiffs on Saturday. It's worth something to have the topics of the day discussed in an impartial and interesting manner. It's worth something to follow the adventures of Tillie the Toiler every evening. It's worth a good deal to be able to read the local advertising and to know where to buy and what price to pay.

The Daily News is a paper that is representative of the city and no one need be ashamed to send it away to their friends.

## DRAMA IS SPLENDID

James Dunn, Sally Eilers and Mae Marsh Have Leading Roles in "Over the Hill" at Capitol Theatre

"Over the Hill" now showing at the Capitol Theatre, is the first picture in which James Dunn and Sally Eilers have teamed in since their memorable "Bad Girl" and the first screen appearance of Mae Marsh in twelve years. Miss Marsh, whose name reminds one of such pictures as "The Birth of a Nation" and "Intolerance," retired from the screen at the very height of her professional career at the completion of the silent photoplay, "The White Rose."

The story of "Over the Hill" deals with a cross-section of a family, relating a double tale of romance and love. It depicts the drama, the comedy and the pathos of a mother and her growing brood, and shows vividly the defeats and the victories of a young couple starting life in a hard and hostile world.

In addition to the principals it's cast includes James Kirkwood, Claire Maynard, Edward Crandall and Olin Howland.
