WELL KNOWN COUPLE WED

Miss Pauline Janette Furness Becomes Bride of Howard Robert Hibbard on Saturday Evening

The interesting marriage of known and popular loca! young couple took place quietly at Presbyterian Church, Rev. W. D. Grant Hollingworth officiating, when Miss Pauline Jeanette Furness, the eldest daughter of Mr. and Mrs. John Furness of Smithers, became the bride of Howard Robert Hibbard, only son of Mr. and Mrs. George T. Hibbard of this city. Only immediate relatives and friends were present at the marriage ceremony and attendants of the couple were Miss Helen Hibbard, sister of the groom, and Everett Leek.

Following the ceremony, a reception was held at the new home of the young couple on Atlin Avenue, Westview, numerous friends calling during the evening to ofer their best wishes and congratulations to the bride and groom Delicious refreshments were served. The usual toasts were offered and it, too. What for? Oh, to wed, responded to fittingly.

Both Mr. and Mrs. Hibbard are widely known and esteemed amid a wide circle of friends. The bride KNIGHTS OF has resided in Prince Rupert for the past three years and has been a valued member of the staff of Mrs. Parker's Ladies-Ready-to-Wear. His name principally was identified with the establishment of agricultural co-operative societies, and his work in this respect was adtries. But he also was foremost in all activities having as their aim the combination of all Irishmen for the nation's welfare irrespective of their politics or creed.

Born, October 24, 1854, the son of the sixteenth Baron Dunsany, and educated at Eton and Oxford, he went to America in 1879 at the age of 25. For several years he engaged there in cattle ranching, and never lost his connection with the United States which he visited almost every year. While fish is the product that makes Prince Rupert fa- er runs a risk of losing the article mous and on which the prosperity of the city depends, he is purchasing as well as the grain is the product on which the living of most of the country depends.

Canadian people use huge quantities of coarse grain duction if he has already contracproducts such as rolled oats, and dozens of different var- ted to buy under this plan. ieties of wheat products such as whole wheat breakfast foods and biscuits and those in which bran predominates. The use of these foods account very largely for the splendid stamina of the Canadian people. Dairy products and the individual of his independence grain products contain the vitamins which keep the body healthy and make it possible to keep free of colds and ward off infections.

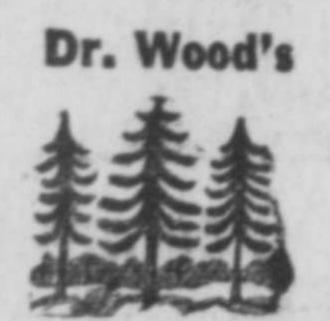

Given a happy frame of mind, a sound constitution, plenty of fresh air day and night and food of the right kind you have the basis for a happy and virile people.

We have always advocated the eating of fish for the double purpose of feeding the body with one of the best of foods and of helping the fishermen. Add to this plenty of grain foods with all the vitamins present and doctors will by the installment method. find it difficult to get rich. Starve out the doctors by using good food, fresh air, pure water and dairy products.

U. S. CONSTITUTION

It is rather difficult for Canadians to understand the United States constitution. Last week Congress defeated by a very decisive majority a measure which it had taken months for the Republican leaders to prepare. The presi- der dent and his cabinet were depending upon the Sales Tax Bill to finance the country and it was defeated. There is now nothing to do but adopt some other means of raising necessities of life. money or do without the cash. The U.S. government does not resign when it is shown that its policy is out of line interesting and very entertaining with the ideas of the people's representatives.

Had either of the British, French or Canadian governments suffered a defeat such as the setback given the U. affirmative side had won the S. administration it would immediately have resigned and asked someone else to try their hand at governing the country.

Miss McFarlane's opinion is based on a thorough knowledge of food chemistry, and on close study of food effects upon the body. On practical cooking experience, too.

Most dietitians in public institutions, like Miss McFarlane, use Magic exclusively. Because it is always uniform, dependable, and gives consistently better baking results.

And Magic is the favorite of Canadian housewives. It outsells all other baking powders combined.

You'll find Magic makes all your baked foods unusually light and tender . . . and gives you the same perfect results every time.

NEIGHBORS TALK

"I am employed in a theatre and it is a problem to make ends meet, as I help support my mother and sisters. I like to dress well but haven't very much to spend on clothes. To give the appearance of variety to my slender wardrobe I change the color of a dress or stockings as soon as the things become faded. I always use Diamond Dyes for the work-using them as dyes for dresses and as tints for stockings. I have always gotten such perfect results that our neighbors talk about the great number of

new things I have. "I learned about Diamond Dyes from our wardrobe mistress. She says she has tried all the dyes on the market but none do such splended work and are so easy to use as Diamond Dyes. I understand they are the world's most popular dyes-and

they deserve to be."

Prince Rupert Won Tournament

Ten Events to Five-Return Matches Here

The Prince Rupert badminton returned early Monday morning from a visit to Premier, having played a series of games with the Premier team, Prince Rupert winning 10 to 5 events. All the the members of the local team are enthusiastic in their appreciation of the splendid time they had as gues s of the mine town. Every minute of the trip was planned to give the Prince Rupert players a good time, which they had from the moment they stepped off sleighs (to the lady members of the party this constituted a very good time in itself) until they were back on them for the long trek down the mountain side.

Although Prince Rupert won ten of the tifteen matches played, the play in every match was close. most of the games being decided by the odd point, the point the Prince Rupert team was fortunate in getting. The final analysis of the play showed that Prince Ru pert was ahead by a score of 484 to 427.

Guide to Correspondents

The Daily News welcomes correspondence on live topics of the day or any other subject of public interest, but letters must be brief and to the point. The long-winded correspondent has no place in modern journalism.

Every letter must be signed by the writer, not necessarily for publication but as a matter of good faith and courtesy. All unsigned documents go to the waste paper basket. Letters of a caustic character must have the signature appended for publication.

Letter should be written on one side of the paper only. Correspondents must avoid personalities and the language should be such as would be allowed in the ordinary rules of

Try BORDEN'S ST. CHARLES in TEA or COFFEE

THE next time you drink tea or coffee try it with St. Charles Milk. You'll be surprised and delighted with the creamy richness that it gives. You'll be astonished that evaporated milk could taste so much like fresh, sweet cream.

St. Charles is not only good in coffee and tea but for all cooking purposes where you would normally use fresh dairy milk. St. Charles is handy to use, economical and invaluable in camping, picnicking or when you are removed from your regular milk supply.

ARLISS IS FINE AGAIN

Gifted English Actor on Screen at Capitol Theatre in "The Man Who Played God"

George Arliss, the fine English star of five of the talking screen's greatest masterpieces, is being seen at the Capitol Theatre at the first of this week in his latest dramatic. production, "The Man Who Played God," a picture inspired by Governeur Morris' well known short story of the same title.

The story of "The Man Who Played God" is that of an internationally famous musician whose life and happiness revolve around the pleasure he brings to countless thousands by the Heaven-sent gift he possesses. Fate plays strange tricks upon him, giving and taking love, presenting the world for a plaything and then taking everything away. Arliss portrays every step in the drama with a finesse rarely seen on the screen.

The musician is loved by two women. He was in love with one, a widow, played by Violet Heming. before she married another. She loves him but keeps her own coun- Latest Ford Model Will Go Before sel, believing him to be in love with a young and beautiful girl, played by Bette Davis, a beautiful newcomer to the screen.

Large Attendance Both Saturday Afternoon and Evening to Hear Resident Mining Engineer

The mining classes of Dr. Joseph C. Mandy, resident mining engineer for the provincial Department of Mines, were again followed with interest on Saturday. There were large gatherings of interested persons at both the afternoon and evening sessions.

In the afternoon, Dr. Mandy gave an interesting demonstration of soils and minerals. In the evening he gave a lecture, illuustrated by lantern slides, on the subject of ore deposits, earth structure relative to ore deposits and views of mining areas in this district.

At the conclusion of the lecture Saturday evening, L. W. Patmore moved a vote of thanks to Dr Mandy. The latter voiced appreat the council chamber having been made available as venue for the lectures.

"The principal objective in our plans toward this end was the development of an 8-cylinder engine with plenty of power yet so simply velop a car which would be a great advance over former automobile values in every respect, yet which could be built and sold at a price which would fit the average present WESTLE'S pocketbook.

"We have accomplished what we! set out to do. Next Thursday the EVAPORATED public may judge our work. Here are a few items for tween the two cars, bodies and chassis are practically the same. There will, however, be a difference in price. The V-8 will sell in the low price field which has always been dominated by the Ford car. The 4-cylinder car will sell for still less. That is our conception of our duty to the public at this time and of the service which we should render particularly in the face of present economic conditions."
