#### HARD ON MUNICIPALITIES

The rumor which went around yesterday to the effect that the city council had decided to tax improvements to the extent of twenty per cent of their assessed value caused a flutter among householders and those owning buildings throughout the city. Most of the owners began to figure and found that their taxes would be increased very considerably, some doubled and others much more than doubled, if the scheme should be put through. Here is how it would work out:

The owner of a small house on a cheap lot is assessed \$200 for the lot and \$2,000 for the house. At 50 mills on the dollar his tax on the lot is \$10. He is taxed on twenty per ces of the new Ford cars gives us If it was not for party, things ent of the house value which would be \$400, the tax on the greatest satisfaction, said Mr. would be in a hopeless mess for hat amount being \$20 or just twice as much on the house Campbell, "because the entire Ford lack of criticism, Col. This may be rather an extreme case. Here is another: A defined standa." ing the best out of a government, man with a house, say in Section 2, valued at \$4000 on two lots valued at \$700 for the two, would, at 50 mills on the veloped with the deliberate intendollar, have paid \$35. Twenty per cent of his house value would be \$800 on which the tax would be \$40. The tax on his house would be a little more than the tax on his lot.

The alternative to taxing improvements is to levy a very heavy tax on lots which would mean that many owners of car with tremendous enthusiasm. that class of property would refuse to pay and the land with the announcement of the would revert to the city. The whole question is difficult prices today, we feel certain we and should be carefully studied before a decision is arrived at.

#### ONE CAUSE FOR CONDITION

One cause for the high taxes is the action of the govern- cars we known how to build at a ments in suddenly cutting off the relief employment early price it can afford in these days last winter. When this employment was cut off leaving a large number of grading jobs party finished, many of the local families had to be kept by the city, the governments paying half the cost. This laid a heavy burden on the city and ad- For Vancouverded to this is now the old age pensions which have to be paid by the city instead of the province.

When the matter is finally adjusted, doubtless the city will issue a statement explaining all these difficulties to From Vancouverthe people so that they may understand why such high taxes have to be paid. Many people are much worried at the outlook, especially in view of the notification that the federal and provincial governments will be demanding much higher taxes this year. It should be clearly stated exactly what has led to the present condition of affairs.

BARBERING, STRAWBERRY GROWING AND MERCHANDISING

In your paper of the 29th, re. Barbers. If any one can come here and make good at 50c per hair cut, good luck to him. I know one thing that these same barbers do that the retail merchants do. They want to purchase good fresh strawberries the same price as Vancouver half spoiled ones and they have so treated the up-river growers and then they want to trade goods at a high price, as today the retail merchants are more or less a joke.

As for these barbers wanting 75c for a trim around the ears. Prince Rupert is a coast town why can't Vancouver prices go here too? There is no freight or expense on a hair cut. I do not know whether these barbers eat strawberries or not but I am inclined to think they do and Vancouver ones at that.

# "How do they do it?"

Among your friends there's sure to be at least one smart young married couple who are the envy and admiration of all who know them.

With an income that is frankly abbreviated, and with no benevolent Aunts in the offing, they still have a home that is correct and comfortable in all its appointments, a home that is admired and copied by their friends.

"Yes, Jane is a remarkable little manager," will probably be the young husband's proud answer. And there is little doubt about it.

## THEY DO IT THIS WAY

Take a look around that home and you will find no end of well known advertised products. For Jane is an efficient little manager. She can't afford to take chances that must only be debited to "Experience." When she buys for her home she must get tried and tested and trusted products which carry an honorable name to guarantee her satisfaction.

You will find that Jane is a consistent reader of the advertisements. Are you?
