### Takes No Action

NEW YORK, June 21.—No action was taken by directors of the Radio Corporation of America meeting here on a dividend on preferred "A" stock.

"We talked of nothing but disarmament," said Mr. Gibson. "Categorical and strange as it may seem, it is true."

This development came on the heels of a meeting between Premier Eduard Herriot of France and Mr. Gibson at Morges last midnight.

Reports were widespread that United States was formulating a decision to cancel war debts if the European nations fell in line with her disarmament proposals but there was no foundation for this belief. There was some ground, however, for belief that the United States has indicated her willingness to re-open the war debts question if Europe agrees with her disarmament proposals. Yet Premier Herriot and Mr. Gibson, so far as could be learned, had made no progress.

## NOT MANY AT FIGHT

Small Gate Expected at Sharkey-Schmeling Bout Tonight

NEW YORK, June 21:—One of the smallest crowds to witness a championship bout in recent years is expected tonight at Madison Square Garden's Long Island Bowl when Max Schmeling defends his world's heavyweight boxing title against Jack Sharkey, the Boston gob, who has already made several unsuccessful attempts to lift the crown.

It is anticipated that the gate will run between \$200,000 and \$400,000. The bowl has capacity for 75,000 but it is not expected more than 50,000 persons will attend.

Both Schmeling and Sharkey were reported last night to be in superb condition for the renewal of the dispute which started two years ago when Schmeling captured the crown from the American sailor following the abdication of Gene Tunney.

Sharkey predicted that he would knock-out the German before the fight was far advanced. He will receive ten percent of the net gate.

## Lambie Pitches One-Hit Shutout Over Empress

Pitcher Also Led His Team's Attack With Three Singles—Gurvich Got Only Empress Hit

Last night's baseball fixture between Empress and Sons of Canada was all Lambie as the Canuck's pitching ace stood the Empress murderers' row on their ears allowing only one hit to shut them out, 7-0. He also collected three hits in four trips to the plate to lead his team on the attack. Gurvich made a single for the Empress which was the only thing that marred a perfect game for Lambie.

With a strong wind blowing most of the time, Lambie used his smoke ball to good advantage and struck out 10 opposing batters. Jack Nelson pitched for Empress and allowed 10 hits but his support was rather wobbly at critical moments and most of the Sons' runs were scored on errors. Doug Stalker and Hibbard contributed a bit of comedy relief when they collided in the outfield when going after a high fly ball which either player could have got had the other not been there.

As a result of the victory for the Sons, they are now tied with Empress for first place with four victories and three defeats each.

### BUY AT HOME

A number of Prince Rupert merchants are sponsoring a buy at home movement which has in itself great possibilities of development. By supporting our own merchants when they use us well we can make Prince Rupert an important centre. By sending our money away we can bleed the home town dry and nobody will make any progress. All depends upon the citizens.

Prince Rupert is now at the parting of the ways. She is fighting bravely for a right to exist and she needs all the support we can give. Many who are being fed and clothed from salaries paid by the people of the city send practically the whole of it away to fatten the people of the south or east. This should stop. People who wax rich at the expense of Prince Rupert citizens should have the decency to spend at least a fair proportion of their money here. If they find they cannot do it, there are other people who would be glad to do so.

Prince Rupert merchants are giving good values for the price they charge for their goods and they are worthy of the fullest possible support.

### PATIENCE NOT A VIRTUE

The Stewart News, edited by a stalwart Conservative, H. W. M. Rolston, has the following front page editorial article under the heading: "Have We Got a Government?" "Patience it is said is a virtue, perhaps so, but sometimes the necessity for it can be overdone. Here in Stewart we waited patiently all winter for the opening of spring, trusting that with it work would be renewed as an unemployment relief measure in extending the Bear River Road, for which expensive camps suitably located were built last fall, and fully equipped. Tools and every sort of implement for the employment of about 150 men were purchased and are still available. There is several miles of side hill and flat ground where nothing but saws and axes, picks and shovels are required to make a road, plus, of course, manpower.

"Spring came, the snow went, the ground is bare, the camps used as boarding houses all winter are still used for the same purpose. The men housed therein, being fed up with nothing to do but eat and sleep, have made gardens and beautified their camp, still waiting orders to proceed at least a few days each month with the work of extending the road. Week after week has passed and still nothing is done, still the same petrifying inaction. Still the taxpayers are forced under penalty of having their life's work sold for taxes, to pay taxes to keep from 100 to 200 men, sitting on top of a job to be done, in idleness. Is it any wonder that there is dissatisfaction in the country? Is it remarkable that people ask, 'have we got a government, or is it just a tax collecting agency?'"

### LAUSANNE

Most of the world powers today are realizing the fact that no nation can live to itself and prosper. There has to be co-operation. The result is that the nations are showing a quite different attitude toward the big outstanding questions and the result should be mutually beneficial. Even if little is accomplished at this conference, the future is full of hope for a better understanding all round. Premier MacDonald is a good man to lead a new world movement along strictly modern lines.

**City Council Backs Mazzei**

Commissioner of Police Asked to Issue Him New Automobile Driver's Licence

The city council last night, on motion of Ald. Macdonald, seconded by Ald. Black, decided to ask the commissioner of provincial police to renew the driver's licence of Pasty Mazzei of this city providing Mazzei is able to pass a written examination which is required. The council substituted this motion for one by Ald. Casey and Ald. Rudderham which would have sought full information from the government regarding police court convictions against Mazzei which led to the cancellation of his driver's licence about a year ago.

The action on the part of the council came following a decision by the superintendent of provincial police that he could not issue a licence to Mazzei in view of the fact that he had been convicted six times under the Motorvehicle Act, four times for driving to the common danger.

In the course of discussion on the matter, Ald. Casey engaged in one of his characteristic denunciations of the provincial police and its methods.

**Commissioner of Health Removed**

City Council of Seattle, By 7 to 2 Vote, Backs Up Action of Mayor Dore

SEATTLE, June 21:—The city council, by a vote of 7 to 2, backed Mayor John F. Dore yesterday in his removal of E. T. Hanley as city health commissioner.

No action has yet been taken in regard to the mayor's nomination of Otto G. Rolph as city engineer.

Miss Fanny McLaren R.N. returned to the city on yesterday afternoon's train from a week-end trip to her home at Terrace.

# you wouldn't accept a WHITE ELEPHANT as a gift.

You know the story, of course, how the Eastern Potentate gave to the vizier he wanted rid of a white elephant. The vizier, in turn, couldn't get rid of it—couldn't pass it on. He had to keep it until finally the cost of feeding and housing the sacred animal and its retinue of attendants broke him.

Although you wouldn't accept a white elephant in a gift, maybe, though, you never realized that each time you send good northern money away to a mail order house for goods you might buy more easily at home, you are presenting a WHITE ELEPHANT to your own town!

Spent at home, your money would help give employment to the city's sons and daughters, would help rent vacant stores and encourage building new ones.

Spent at home, your money would mean more ratepayers and more taxpayers thus making your own rates and taxes less. Your money spent at home, by increasing the volume of local business, would tend to keep prices down to the minimum, to your own consequent benefit. Your money spent at home would increase the amount of cash in circulation locally and would eventually come back to you with increase.

It seems hardly good business for local people to provide wages for other cities by buying there when their neighbors are unemployed. Figure it out for yourself! A little thought will convince you that by sending your money out of town, you are paying wages to the retinue of a white elephant, while your own servants—the local merchant—go unpaid. Which, in the end, seems ridiculous!

## United States Ship to Visit Prince Rupert

## RELIEF OF WORKLESS

Demands Presented to City Council Last Night—Special Meeting to Be Held

A delegation from the Prince Rupert Unemployed Association consisting of Charles Chapman, T. W. Murphy, W. Pawchuk and W. Mahoney appeared before the city council last night to present a number of suggestions pertaining to the welfare of single and married unemployed men as well as the needy generally. In the course of a rather lengthy discussion between members of the delegation and the council, demands were presented on behalf of the unemployed for no evictions of unemployed from their dwelling places for failure to pay rent, free clothing for men working on direct relief and free medical and dental attention. It was also suggested to the council that vacant houses reverted to the city might be made available for the shelter of the unemployed. The delegation also requested the council to further press upon the governments for relief of the single unemployed men, particularly in regard to clothes.

Intimating to the delegation that the city was without funds to do more on behalf of the unemployed than it was now doing, Mayor Orme expressed the belief that the only hope now seemed to be in the possibility of getting assistance from the citizens individually. It was possible that the citizens might find it possible to assist in at least a limited way in providing clothing for the needy. The fact of the matter was such that a point might soon be reached where the city would find it impossible to contribute its share to relief further. Meantime, the city stood ready to make further representations to the government as had already been done repeatedly in the past.

W. Mahoney criticized the city for making large payments to the bankers when there was misery among the citizens. He charged both the city and government with not playing the game so far as the unemployed were concerned.

Ald. Macdonald and Ald. Casey participated in a lengthy debate which ensued. Ald. Casey believed that, money or no money, it was the responsibility of the city to at least provide clothes for the needy.

Tempest in City Council Over Recommendation of City Engineer Regarding Phye Building

There was a slight tempest at last night's meeting of the city council when Ald. Pillsbury, chairman of the board of works, presented a report to the council stating that the city engineer had found the Phye building on Third Avenue, which was recently visited by fire, unsafe and recommending that it be demolished.

Ald. Collart objected to the report on the grounds that the matter should have been first taken up with him as agent for the property. He thought that some one was putting his nose in where he had no business. The fact of the matter was that preparations were already being made to demolish the building although he (Mr. Collart) was still endeavoring to persuade the owner of the property to rebuild.

Ald. Pillsbury agreed to drop the recommendation on Ald. Collart's assurance that the building would be demolished promptly.

## ADVERTISE

"Ah!" you say, "But that's all very well. I'm only a small man and can't afford it." That's the reason the small man remains a small man. The big men in business today did not become big by hiding their light under a bushel, they advertised, and ADVERTISED, and ADVERTISED. Advertising is as necessary to a "sick" business as the doctor's services are to a sick person. And it will find the money to pay its own bills, if done judiciously, from the increased volume of increased profits. Start with a small appropriation
