WASHINGTON, D.C., June 15.—

Instead of seeking a new trial as was expected, Gaston B. Means, former secret service operator, who was convicted by a jury in the District of Columbia Superior Court Monday night on two counts of grand larceny of \$104,000, requested the court yesterday to pass sentence upon him as soon as possible. He will be sentenced today.

Means is liable to a term of imprisonment not exceeding twenty years and a fine not exceeding \$200.

Charles Dawes Being Boosted As Running Mate For President

Battle of Major Proportions Between Wets and Dries is Expected at Chicago—Want "Hell and Maria"

CHICAGO, June 15.—While the resolutions committee of the Republican national convention now in session here has no lack of proposals on the matters of agriculture, unemployment relief, foreign policy and economy measures, it is becoming increasingly apparent that a battle of major importance will develop on the convention floor between the wets and the dries.

With the renomination of Herbert Clark Hoover as president long since an assured fact, the selection of his running mate is by no means a foregone conclusion. The boom for former Vice-President Charles G. Dawes was gaining momentum yesterday as the need was expressed for a strong and vigorous person in the vice-presidency. Dawes would not only prove more acceptable to the anti-dries than the bone-dry Charles Curtis, the present vice-president, but his sound economy principles it is felt would be of real value in the crisis which the nation is facing.

Five hundred experienced police officers as well as numerous plain clothes men are on constant guard at the convention stadium ready to prevent any disturbances which might be attempted by radicals. There are 1150 delegates in attendance at the convention including 96 women. The West Side Stadium where the convention is being held has capacity for 25,000 persons.

Stanislaus Hausner Was Near Death When Rescued By Ship; Is Not In Shape to Talk Yet

ON BOARD SS. CIRCLE CITY, Bound For New Orleans, June 15.—Stanislaus Felix Hausner, Polish-American aviator, was near death when he was rescued by this ship last Saturday evening off the coast of Portugal from his plane on which he had drifted for eight days after having come down on the ocean while on a projected flight from New York to Warsaw. Fog was closing in and dusk was falling when the look-out on this tanker spied the object which turned out to be Hausner's derelict plane.

Either asleep or unconscious up to that time, Hausner was aroused only by the sound of the ship's siren when he rose and waved frantically. Immediately after being taken aboard, he collapsed and is not yet in a condition to talk. He was covered with cuts, bruises and sores suffered during the eight days of drifting on the ocean.

Believed to Be Little Probability of British Plan Being Adopted

LONDON, June 15.—With Italy and Germany definitely opposed to the plan, efforts are being made to win France over to support a program of naval disarmament proposed by Great Britain which would provide for an all around reduction and limitation of naval armaments during the period of the next ten years.

There is believed to be little probability of the British plan being agreed upon in which case alternative proposals of United States will be considered.

ALL ARE FOR HIGHWAY

Premier Tolmie announces that he still hopes to see the highway to Alaska built and the people of Northern B. C. will be with him almost to a man in hoping that the undertaking is successful as long as its construction does not stand in the way of other much needed work. Prince Rupert people would greatly resent having the Alaska highway built while the highway connecting this city with the interior remains almost as it was two years ago.

There is today a party of men camped at Cloyah Bay where they have been rusticated for the past many moons. They say they want to work but they do not like the rate of pay offered by the government. They say that 25c a day is an insult to any self-respecting man.

What the Daily News has been asking for the past year or so is that work shall continue on the highway in such a way as to indicate that the provincial government really wishes to see the work done. There has been enough shilly-shallying and explaining done already. What is needed now is real construction work that will enable the men to earn an honest living in an honest way. Then when this highway is completed or nearing completion will be time to discuss the Alaska project.

MANY WILL WANT TO FISH

It seems very probable that there will be a great demand for fishing licenses on the river this year. The failure of other occupations to provide a living is turning the eyes of many to the salmon as a means of securing a small stake to enable them to carry on without asking for relief. The danger is that too many will apply for licenses and that the river may be over-fished. There is prospect of a good season's sockeye catch and this should bring in a little new money to benefit the whole district.

SILVER IS DISCUSSED

Lively Debate Between Ald. Casey and Three Doughty Opponents Warned Up Meeting of Workless

Big Crowd

Plight of Both Married and Single Unemployed as Regards Lack of Clothing Reported Serious

A debate on the silver question between Ald. George B. Casey on the one hand and W. H. Montgomery, William Brown (Cloyah Bay) and W. Mahoney on the other was the main feature of a meeting of unemployed which was held last night in the Canadian Labor Defence League Hall. A crowd of between 300 and 400 persons packed the hall to the doors. The meeting waxed lively at times and warm discussions made the session one of the most interesting which the workless have held here. Charles Chapman, chairman of the Prince Rupert branch of the National Unemployed Workers' Association of Canada, presided over the meeting which lasted for more than three hours.

Judging from the applause which was accorded the speakers, Ald. Casey lost the wordy battle in the opinion of the audience. Nevertheless he put up a gallant fight and, on more than one occasion had his three veteran opponents virtually floored. With the present economic system facing a collapse, Ald. Casey urged that the stabilization of silver would probably have the effect of keeping men at work and restoring the purchasing power of the people. Every possible avenue should be explored to bring about this desirable result. In the general social system, Ald. Casey believed there would be no change at present. He did not believe the workers had either the ability or the knowledge to take over exclusive control of affairs.

W. Mahoney held that the workers were fully competent of taking over and running the affairs of the country. They would make a better job of it than the present parties in control were doing.

Clothes Needed

The meeting was primarily called to consider the position of the men in the relief camp at Cloyah Bay who are sadly in need of boots and shoes. It was decided to get in touch with Victoria direct to ascertain who was responsible for holding up the issues of clothes and boots which had long been promised and had actually been signed for by the men. A request from Government Agent Norman A. Watt to be supplied with a full history of the negotiations for clothes will also be met.

The central committee was instructed to draw the attention of the city council to the plight of married unemployed men who together with their families were without clothes. Many of the members spoke very strongly upon this subject.

In the course of a heart-to-heart talk with the audience, one of the speakers made an appeal to the single men to refuse the \$7.50 per month offer of the government and, judging by the cheers he was accorded, he evidently had the sympathy of the meeting.

The secretary, T. W. Murphy, gave an account of a recent trip to Stewart, stating that he had enrolled 107 members in a branch of the National Unemployed Workers' Association there.

A vote of thanks was accorded to Ald. Casey for his attendance and also to the Canadian Labor Defence League for use of the hall before the meeting closed with the singing of "The Red Flag."

Telephones and Lights Will Be Cut in Holidays

At the suggestion of Secretary J. O. Williamson, the school board decided last night to have the lights and telephones in city schools cut off during the forthcoming summer vacation period. It is estimated that some \$150 may be saved by taking this action. The cutting out of the utilities will be subject to approval of the fire chief. There was some discussion among members of the board as to the actual savings that would be effected by cutting out the services.

CASES ARE DISMISSED

Final Proceedings Yesterday Afternoon in Connection With Liquor Theft Charges—Police Commended

On the ground that the only evidence against Hans Berquist as to the ownership of 150 sacks of liquor which was alleged to have been stolen from Wales Island had been given in a statement by Alfred Swanson which had not been made in his (Berquist's) presence, Stipendiary Magistrate H. F. McLeod decided in provincial police court yesterday afternoon that this could not be held as evidence against Berquist so, accordingly, he dismissed the charge. In view of the evidence of Swanson that he had been forced at the point of a gun to take the liquor, the magistrate held that he had nothing to do but also discharge him.

At the opening of the afternoon session yesterday, Inspector John Macdonald, who conducted the case for the crown, felt that, despite the views of L. W. Patmore, defence counsel, to the contrary, the intentions of the two men had been established and that they should meet the charge.

Mr. Patmore, who had submitted earlier in the day that the crown had failed to establish the ownership of the liquor or that any theft had been committed, made no further comment.

The magistrate thereupon gave his decision dismissing Swanson and Berquist on account of lack of evidence to warrant their commitment.

In view of the decision given in the Swanson and Berquist cases, Inspector Macdonald stated that he did not consider it any use proceeding with the cases against Emil Bostrom, Charles Edwards and Jack Mulhern which arose out of the other two cases and, therefore, he withdrew the charges.

Stipendiary Magistrate McLeod, in discharging the three men from custody, commended the police for their work in connection with the cases. They had done everything they could in the matter and should have no regrets. They had simply been unable to obtain sufficient evidence to prove the ownership of the liquor and it had been for that reason that the cases had failed.

City Being Asked To Do Work Upon School Grounds

Examination Fees Considered Unfair

School Board Does not Think Government Should Charge Pupils Taking Tests

Chairman W. J. Greer brought to the attention of the school board last night what he considered to be an injustice particularly under existing conditions in the government charging fees for pupils taking written examinations. In many cases pupils and their parents could ill afford to pay these fees. The matter will be taken up again with a view to placing the matter before the British Columbia School Trustees' Association at its convention in the fall.

SPORT CHAT

If Canada does as well at the Los Angeles Olympic Games this summer as she did four years ago at Amsterdam, and he believes this is assured, it will be because younger athletes have made the grade, says A. E. H. (Abbie) Coe of Winnipeg, associate manager of the track and field squad. The team Abbie and Manager Bobby Kerr lead to the speedways and jump pits of California in July hasn't been selected yet but in the opinion of the Winnipeg editor-sportsman it will be stronger than the squad Canada shipped overseas in 1928. Why? At this date Abbie is sticking to generalities. "You never can tell what material will crop up at the last minute," he remarks to inquirers who seek his advance theory on the possible make-up of the new Olympic band. This is taken to mean that Abbie expects several of the younger fry to upset things in no small way at the Hamilton trials.

ATHLETICS MOVE UP

Philadelphia Joins Washington in Second Place in American League Standing

CLEVELAND, June 11 — While New York Yankees increased their margin of leadership in the American League to seven full games by defeating the Cleveland Indians by the odd run here yesterday, Philadelphia Athletics moved into a tie with Washington Senators for second place, the Macmer winning over the Tigers at Detroit while the Senators got very much the worst of it at the hands of the slugging St. Louis Browns in St. Louis.

The Cincinnati Reds and Phillies divided honors in a double-header at Philadelphia. All other National League games were rained out.

Yesterday's Big League scores:

AMERICAN LEAGUE Philadelphia 10; Detroit 1. Boston 5; Chicago 4 (eleven innings). Washington 3; St. Louis 17. New York 7; Cleveland 6. NATIONAL LEAGUE Cincinnati 5; Philadelphia 6-2. Other games rained out.

Champion

Tommy Paul of Buffalo, who was crowned featherweight champion after winning a fifteen-round decision over John Pena of Argentina, looks over the belt he won.

During his thirty-odd years in sport Abbie Coe has seen so many surprising performances, good and bad, that he considers nothing impossible and, in fact, usually expects the impossible to happen. For one thing he harbors a pet hope that Jimmy Ball, once a peerless quarter miler, will regain his 1928 form this summer and lead Canada's 400-metre men to Los Angeles. Not a few observers believe this is impossible. Abbie, preparing to play a part in his first Olympic Games, understands track athletes as few men in this country do. He was a trackman himself for a matter of 15 years and has never managed to get very far away from the game he loves since he retired from active participation.

Track was his first love and, along with lacrosse, still is his favorite. For years he was an outstanding sprinter and hurdler at Fort William, running in most of the important meets at the Lakehead and in Manitoba, and when he came to Winnipeg later developed into one of Manitoba's best all-round track and field performers. Abbie Coe is almost as well known in the Canadian newspaper world as in sports. He is day editor of the Winnipeg Free Press. Like nearly all news men he started as a reporter, working for the Fort William Times Journal and the old Fort William Herald. When he came to Winnipeg it was to resume his career with the Telegram. He was sports editor of the Telegram and later went to the Tribune before joining the Free Press staff. Abbie has been associated more closely with lacrosse, hockey and the Amateur Athletic Union of Canada than with other activities since the war. He was president of the Canadian Amateur Lacrosse Association from 1920 to 1931, taking a leading part in its reorganization a few years ago. He is past president of the Winnipeg Lacrosse Association and the Manitoba Amateur Hockey Association. A few weeks ago he was named chairman of the Senior Box Lacrosse League of Winnipeg. From his various positions in sport, Abbie has seen good athletes come and go. Here are a few of his predictions: Jimmy Ball will "come back," so will Jimmy Williams; Bert Pearson, Hamilton schoolboy, is a comer; Johnny Miles may be Canada's chief marathon hope in the games; "those kids" are going to fool everybody at the trials.

MERCHANTS WON MATCH

Home Oil Defeated 3 to 1 Last Night in Final Scheduled City League Football Game

In the final scheduled game of the City League football competition, Merchants defeated Home Oil Distributors Limited by a score of 3 to 1 last evening at the Acropolis Hill grounds. The game was featured by an incident in the first half, after the Merchants had scored their first goal off a penalty, when Captain Webster led the Home Oil players off the field in protest at a penalty decision by Referee J. A. Johnstone. After some discussion, the Home Oil players took the field again and the game continued. It was announced after the game that the Home Oil team was to be reorganized.

Webster scored the first goal for the Home Oil. Albert Dickens then scored for Merchants on the disputed penalty kick. The teams crossed over with the score standing one all.

The Merchants had the lion's share of play in the second half and soon Johnny McKay scored. Comandina made the third goal for the Merchants and the last one of the match.

INSURANCE DISCUSSED

Merits of Board and Non-Board Policies Canvassed By School Board—Gillis Favors State Plan

In the course of the passage of May accounts at the regular monthly meeting of the board of school trustees last night, there was a discussion of some length on the matter of school insurance in the course of which the merits of board and non-board fire insurance were canvassed. Trustee J. J. Gillis spoke in favor of the proposal to have insurance on public buildings carried by the state in which case profits might go toward the erection of new buildings.

Secretary J. O. Williamson informed the board that a total of \$106,500 was carried on school buildings and contents. The board would have to pay \$750 in premiums this year.

On motion of Trustees Fulton and Gillis, the secretary was instructed in future to bring to the attention of the board policies before they expired so the board may decide on future policy particularly as between board and non-board insurance.

The secretary was also requested by Chairman W. J. Greer to bring in a statement showing all particulars in connection with school insurance.

The ratepayers of the city by narrow margins of five, four and two votes respectively yesterday approved bylaws providing for telephone, city hall and electric light loans. City Clerk E. A. BARRYMORE HERE AGAIN

Noted Actor Plays Sinister Part in "The Mad Genius" at Capitol Theatre

In "The Mad Genius," middle of the week feature offering on the screen of the Capitol Theatre here, John Barrymore plays the part of a man who in his youth longed to become a great dancer but was kept from this career by his deformity—a club foot. Cherishing his ambition still, he finds an agile boy into whom he determines to pour his genius and his soul. The boy, trained by the cripple, becomes a great dancer but his happiness is sacrificed to the older man's pitiless and sinister ambition and he is only set free from this cruel dominance when the cripple is murdered.

Mr. Barrymore's acting is, as usual, excellent. He could not be more ruthless and malevolent. The supporting cast includes Donald Cook as the young dancer and Marian Marsh as a dancing girl.

Backgrounds of the Russian ballet and puppet show are striking and unusual and the photography is particularly good.

"The Mad Genius" resembles somewhat "Svengali," one of Mr. Barrymore's previous successes.

DOES YOUR BUSINESS NEED A DOCTOR?

Now, Mr. Businessman, have you ever tried to diagnose the reason for that sudden drop in profit over the figures of "last month?" If the temperature of your business alarms you there is no need for you to lose any sleep—the remedy is simple.

ADVERTISE

"Ah!" you say, "But that's all very well. I'm only a small man and can't afford it." That's the reason the small man remains a small man. The big men in business today did not become big by hiding their light under a bushel, they advertised, and ADVERTISED, and ADVERTISED. Advertising is as necessary to a "sick" business as the doctor's services are to a sick person. And it will find the money to pay its own bills, if done judiciously, from the increased volume of increased profits. Start with a small appropriation
