known list of passengers today, all
of whom will be welcomed to the
city.
The coming of Mr. Charles M.
Hays and his well known lieutenant
E. J. Chamberlin has been widely
heralded. Their mission it is
generally understood is in con-
nection with the Grand Trunk
Pacific assessment. An opportu-
nity may also be taken by the
party to make a trip up the line.
Accompanying the party will
be Mr. D'Arcy Tate, counsel
for the G. T. P., who is well
known in Prince Rupert from his
previous visits, and Captain Nich-
olson, the manager of the steam-
ship department for the company.
In addition to the railway mag-
nates, there will be on board the
Prince Rupert the Hon. William

Templeman, Minister of Inland
Revenue and Mines in the Federal
Government and member for Co-
mox-Atlin, of which Prince Rupert
is a portion.
Tonight while the railway mag-
nates will be closeted with the
city fathers discussing questions
of assessment, Mr. Templeman
will meet with his followers in
the McIntyre Hall, and there
discuss the situation in the larger
sphere of national politics and
policies.
It is quite a bevy of notables
that the Prince Rupert will have
on her quarter deck as she steams
into the harbor this afternoon.
The wireless telegraph stations
which keep in communication with
the vessel on her way north state
that she will not arrive until
nearly four in the afternoon.

DECK HAND ON HAZELTON MET A SUDDEN DEATH

John Brown Was Taken Ill Going Up River and Died Before Reaching Kitselas—Was Buried at the Canyon Cemetery—Kitselas News

(Special Correspondence)
Kitselas, June 6.—The steamer
Hazelton brought into port on
Saturday morning the dead body
of John Brown, one of the deck
hands employed on the vessel.
Brown has been taken suddenly
ill while on the voyage up the
river, and expired before the ves-
sel reached Kitselas. Arrange-
ments were made to have the
young man buried in the Indian
cemetery at Kitselas Canyon, the
interment taking place at 3.30
on the same afternoon.
Brown was a native of Kit-
sensglia. His sudden and un-
expected death cast a gloom over
his shipmates.

Association Appreciates Assistance of Grand Trunk Co.—Ambulance is Mentioned but Nothing Definite Done—Energetic Members

Revision of the by-laws of the
Hospital Association was the at-
traction in the municipal court
room last night. There was room
for all who attended. After the
various points of difference in the
old and new by-laws had been
discussed the revised by-laws were
adopted. They are on the lines
of the Victoria Jubilee Hospital
By-laws, and are designed to give
the directors more freedom in
carrying out the work of the
hospital than is allowed under
the old set. Mr. C. V. Bennett
prepared the revised by-laws, and
submitted them last night.

WILL HAVE RECIPROCITY IN THE GOLD CURRENCY

United States Treasury Board Orders Sub Treasurers of All National Banks That Canadian Five and Ten Dollar Pieces be Accepted at Par

(Canadian Press Despatch)
Ottawa, June 7.—The Canadian
Government has been notified from
Washington that an executive or-
der would be sent out by the
treasury department to the sub-
treasurers of all national banks,
directing that Canadian gold coins
of the denomination of five and
ten dollars are to be accepted
at par, being of the same weight

and fineness as the corresponding
American coins.
United States gold is legal tender
in Canada, and some seventy
millions of it is held in reserve
by the finance department and the
various banks.
The effect of the new order
will be to establish reciprocity
in the gold currency of the two
countries.

minster Abbey on Coronation Day.

Mention of Ambulance

Mention of the G. T. P.'s \$500
donation towards an ambulance
was made, and the question of
getting an ambulance was tenta-
tively discussed. The opinion
exists that while an ambulance
is an advantage which it would
be most desirable to have, the
avenues for expenditure in con-
nection with the hospital at present
are so numerous, and the sources
of revenue so well tapped, that
it will be difficult to attack the
problem immediately. The after
cost of the ambulance for upkeep
has to be considered as well as
the initial outlay.

WEDNESDAY, JUNE 7

THE GRAND TRUNK ASSESSMENT

Owing to the near approach of the time when the citizens will
be called upon to vote on the above question to bind the city to an
agreement covering a long period of years, and owing also to the
evident reluctance shown in certain quarters to discuss the question
with the citizens, the Daily News will print a series of editorial articles
dealing with the various aspects of the question.

In so doing, there is no desire to sway the minds of the electors
either for or against the proposed settlement. The aim will be to
state the case fairly, without prejudice, without exaggeration, and
without rhetorical appeal, letting the issues be clearly seen, and allow-
ing the facts to make their own appeal to the individual mind. Our
chief concern is not which way the electors will vote, but that the
electors may know what it is they are voting for or against.

ARTICLE No. 5.—WHY THE WATERFRONT SHOULD NOT BE EXEMPTED

The proposal to reduce the Grand Trunk Pacific's assessment
to a nominal one subject to a fixed payment of \$15,000 a year for a
term of ten years is one vitally connected with the commercial develop-
ment of the city, for the reason that the railway company's land
comprises the whole of the available water-frontage of Prince Rupert,
and this water-frontage is the only place where industries can profitably
locate.

It is a truism that cities and nations live by trade. To be a
trifle more accurate the words production and distribution of com-
modities, should be substituted for the word trade.

Of the two functions of trade, production or distribution, pro-
duction is the more important to build up a community, because it
requires more capital, has more stability, and requires more labor
and more highly skilled labor than does the work of distribution.
Prince Rupert is already a distributing point for the interior. When
the Grand Trunk Pacific is completed it will have a large increase
in its distributing work. It will become a trans-shipment point for
the trade of the East and the West. But this will never make a great
city. Factories, mills, smelters, foundries, engineering works, receiv-
ing raw materials and turning them into useful finished commodities
to be shipped by rail to the East, and by water to the Orient, these
are necessary if a large population is to come to Prince Rupert. It
is by the creation of commodities that wealth is to be created. Not
until a line of mills and factories adorn the waterfront, will there
be any positive proof that Prince Rupert will be more than a trans-
shipment point for the G. T. P. and a distributing point for the interior.

How are we to get that desired line of factories and mills on the
waterfront? By making conditions attractive to capitalists to start
enterprises there. The New England Fish Company already sees a
market for the fish products in the East, and has started work on a
large plant, in readiness for the time when the line is through. But
other companies have not seen the matter in the same light. A sugar
refinery which opened negotiations last fall with a view of locating on
the waterfront was driven away by the railway company's refusal
to sell it a site on the waterfront, or to grant a lease for a longer term
than twenty years. The plant of a sugar refinery is very expensive,
and the capitalists were driven away, not by the assessment problem
but by the refusal of the railway company to grant attractive terms.

What assurance has the city that the railway company will not
during the next five years, when it is very important to the city that
manufacturing plants should be under construction, place prohibitive
terms on their water-frontage, until such time as a large unearned
increment has accrued to the water-frontage and rack-rents can be
exact from manufacturers who must locate here? The only assurance,
the only weapon that the city can employ is to place a sufficient amount
of taxation on the water-frontage, so that it will be more profitable
for the company to sell or lease a portion of it, instead of keeping
the whole in a state of idleness.

Surrounded by timber areas, with a whole city, even to the road-
ways, built of wood, it is a strange anomaly that we should have to
import lumber into the city. There is room here for a large lumber
mill employing a large number of men in permanent employment.
Why are they not here?

Is it not because suitable terms cannot be arranged with
the railway company? And where is the economic compulsion on the
railway company to sell or lease water-frontage to a lumber company,
so long as it can carry its waterfront property at a nominal taxation,
and exact a toll on every stick of lumber brought into the city by
means of wharfage dues.

Instead of maintaining the assessment at \$7,291,000 as before,
the authorities have this year reduced the waterfront assessment to
\$2,813,500. The proposed agreement, shortly to be submitted
to the people means in effect a still further reduction to \$1,000,000.

"There is a lot of capital waiting to come into Prince Rupert,
as soon as the Grand Trunk assessment question is settled," is a state-
ment that has been freely confided about town, during the past few
months. Who originated the piece of information, no one knows.
What ground there is for the confident declaration is not known. But
if capital is waiting until the Grand Trunk assessment question is
settled before coming to Prince Rupert, it is a dead sure thing that
it is waiting to see that the question is settled right. Any kind
of a settlement, a settlement that would tie up the city's finances and
waterfront development, for instance, would not attract capital.

**BIG BODY OF GOLD ORE
FOUND AT FORT GEORGE**

**Thirty Claims Have Been Staked in Last Few Days—
Assays Run from \$8 to \$200 Per Ton—One
is Free Milling Ore**

Fort George, June 6.—To the west of Fort George townsite, and only a mile from its boundary lies a huge body of free-milling gold ore, pronounced by an expert mining man to be the largest body of ore he has ever seen in British Columbia.

The first discoverers of the mineral were A. B. Clarke and Charles Whitmeyer, who staked claims on their discovery last fall, devoting the winter to development work. They sent several samples of the ore to reputable assayers in the United States and Canada, receiving assays showing gold values from \$8 to \$200 ton.

Nearly thirty claims have been staked on the prospect and the claim-holders, many of them experienced in mining matters, have the utmost confidence in the discovery. A number of those interested will form a group and prosecute vigorous development this summer.

The fact of the ore being free-milling will make the proposition easily worked, and a large body of even \$8 ore will mean fortune to the lucky ones. Reports say there are millions of tons of the quartz in sight.

TRAINS RUNNING TO THE PASS

Residents at Tete Jaune Cache Can Hear the Blasting Going on.

Fort George, June 6.—Recent arrivals from the upper Fraser bring word that trains are now operating within seventy-five miles of Tete Jaune Cache. There has been considerable traffic over this route during the past winter, travellers taking advantage of the company's road to get through from the end of steel to the head waters of the Fraser. A couple of general stores are now doing business at the Cache and a live frontier town is springing up. The roar of the explosives on the other side of the mountain, where construction gangs of hundreds of men are at work, can be plainly heard at the Cache.

Enquire of Edmonton

Knowing that a producer gas plant is proposed for Prince Rupert to augment the present steam driven electric generating plant, Alderman Douglas mentioned at Monday night's council that Edmonton is troubled with a producer plant which owing to un-suitable coal is a sort of white elephant. He suggested that Prince Rupert should get in touch with Edmonton before investing in a producer gas plant, and the suggestion may be acted upon later.

Wants the Copper Cable

Six and a half cents per pound has been offered by F. Milloch for the 2800 lbs. of copper cable or wire which the city has for sale, delivery to be taken at the light plant. The wire is the old stuff of the B. C. Tie and Timber Co.'s.

Number Please?

Reporting to the city council the house numbering committee recommended that the tender of L. Bullock-Webster be accepted for the work of numbering the houses in Prince Rupert at the price of 20 cents per number. The recommendation was adopted.

Will Buy Scow

On the recommendation of the Superintendent of works, and after careful examination by several of the councillors the scow offered the city at a snap price last week will be purchased. It will do excellently well for the garbage dumping according to the new plan proposed, and is to be fitted up for this purpose at once.

Light on Light Plant

Messrs. Mather, Yuill & Co., have written to the city council asking to be appointed consulting engineers in connection with the proposed improvements on the light plant. Their letter is being considered by the light committee.

R. H. Thompson, city engineer of Seattle, who according to his own city press came into "a foreign land" to add a little to his income by acting as consulting engineer on the Woodworth Water-works, has sent in his little bill. It amounts to \$2607.05 including telegrams and other trifles. Engineer Thompson's letter was received and filed by the council Monday night.

NO OFFICIAL NOTIFICATION

Says Mayor Manson Regarding the Prudhomme Case

As Chairman of the Board of License Commissioners Mayor Manson remarked this morning that he had had no official notification of the granting of the Prudhomme License. This being so, he had nothing to say in reference to the possibility of the commissioners appealing the case.

Water Wanted

A water pipe is wanted on Eighth avenue near Hays Cove Circle to serve that district. The matter is being attended to by the water committee and the pipe will be placed if in the opinion of the committee there is sufficient need for it.

Extension of Leave

On the motion of Alderman Smith seconded by Alderman Clayton extension of leave for another fortnight was granted by the city council to A. W. Agnew who is up river at present.

THE COSY CORNER

DEVOTED PRINCIPALLY TO THE INTERESTS OF WOMEN

This is a little section of the paper, which from day to day will be devoted to subjects of special interest to women. Any and all of the ladies of Prince Rupert are invited to contribute to its columns, and to take part in its discussions. Suggestions and criticisms are invited by the editor. The hope is expressed that "The Cosy Corner" will fill a social need.

THE DAINY AND FASHIONABLE FICHU

and as many of the braids are wonderfully cheap, a smart hat can be turned out for very small cost.

This year, ribbon and velvet bows and stiff wings are all fashionable trimmings, and again a bow that has done duty in the winter hat can be removed and freshened so that it will look like new, but there are also cheap and effective wings and quills that make the most satisfactory of hat trimmings. Another point for the amateur milliner this season is the coloring material which will entirely transform last summer's hat from a dirty white to a lustrous cerise, black, blue or any color desired, and for a few cents a hat that looks quite new can be turned out.

RAISED DOUGHNUTS

Not Rich but a Novelty in Their Way

Raised doughnuts are not rich and are a change from ordinary fare. Take one cupful of sugar, one-quarter cupful of butter, two eggs, one pint of warm milk, one yeast cake dissolved in warm water, one-half teaspoon each of soda and salt, a dash of nutmeg. Mix with flour like soft bread dough. Let it rise over night. Turn out on a floured board, roll out one inch thick without molding, cut into rings, let rise until very light. Fry in hot fat, turning often. If these are to be kept, the quantity of butter must be doubled to half a cupful.

The Girl in Business

Neither the swelled head nor the despairing heart is of much use to the woman in business. Make good things—as good as or better than other people's—ask a fair price, so that there is a clear profit on materials and time used, and do not lose courage.

A HOSPITAL IN THE HOME

Red Cross Supplies Can Be Kept in Bathroom

Home first aid supplies can be kept in the bathroom. Besides its hot water bags, big and little, ammonia, collodion, lime-water and sweet oil, a 1 per cent solution of carbolic acid, a box of absorbent cotton and a roll of bandages should be kept at hand. With these ready for use for an accident, such as a burn or cut, may easily be treated and pain spared the victim. The acid solution is useful in all cases of injury because of its cleansing qualities. If a cut is to be treated the wound should first be washed in clear water and then dipped in the solution. After this paint it with collodion. The latter stops the bleeding and serves as a varnish to prevent the entrance of dirt.

TRIM YOUR OWN SUMMER HAT

Little Hints for the Girl Who Likes Millinery

The making of the summer hat is now quite a possible accomplishment for the most amateurish of amateur milliners, for there is every conceivable variety of straw braid to be purchased. The wire shape itself is not so easy to fashion, but often the frame of the winter hat has been covered with beaver or velvet has the right lines and is becoming. Consequently, this frame can be taken for the foundation which is to be covered with the straw braid. All that is required is careful sewing,

"Scrappy" Jack Doyle, the former New York Giant, is making good umpiring in the National league.

The owners of the Boston Nationals are quarreling among themselves, and the Rustlers continue to lose.

At the present time the Waseda University baseball team of Japan is touring America, and the Missouri University team is touring Japan.

During the past eight years the New York and the Boston American league teams have played 179 games, Boston winning ninety and New York eighty-nine games.

Manager McAleer, of the Washington team, is up against it without the services of his star pitcher, Walter Johnson. The great heaver is seriously ill in Chicago.

The Alpine club of Canada has an elaborate programme for the summer. The club house at Banff will be open from June 30 to September 15. The camp on the club grounds will be ready for occupation between the same dates and will be in operation while the club house is open. It will be available to all members.

The Gotch-Hackenschmidt match for the heavyweight championship of the world will probably develop into one of the greatest sporting events of modern times, unless the promoters are some distance off in their expectations. The Empire Athletic club believes that match will draw as much money as did the Johnson-Jeffries fight at Reno.

Thomas Shibe, representing the firm which makes the cork centre baseballs to which are attributed the phenomenal hitting which has marked the big league games this season, has denied the report from Chicago that the balls would be materially altered at once.

Hank O'Day, the veteran National league umpire, also cast doubt on the balls being the cause for the fattened batting averages. "What do they want?" He said. "Before the cry was too much pitching, now there is too much hitting. The fault lies with the pitchers. I don't remember in my years of experience a period when the pitchers were as much 'off' as they are now."

If some western promoter should get Johnson and Langford to fight on anything like reasonable terms a good crowd would be a certainty, but the champion wants more for his end than any sane promoter figures the fight is worth from a box office standpoint.

Chance of Lifetime

Packed away in F. W. Hart's big furniture store on Sixth street and Second avenue is the largest and most up-to-date stock of goods in the city. As Mr. Hart will have to move these goods while the building is being remodelled by Uncle Jerry into a handsome arcade to make a Mecca for shoppers, much of the stock of handsome furniture, crockery, glassware, etc., is being offered at remarkably low prices.

ALL IS QUIET AT VANCOUVER

Four of the Prisoners are Sentenced

(Canadian Press Despatch) Vancouver, June 7.—Four of the seven men arrested by the Vancouver police during the disturbance, following the strikes in the building trades, were sentenced to three months' hard labor without the option of a fine by the police magistrate this morning. It is expected that this will act as a deterrent from any future attempts at creating disturbance.

Not Union Men None of the men sentenced are union men, and had no part in the strike. They were men who went into the matter voluntarily, and were trying to urge the strikers on to create public disturbances.

Situation Unchanged In every other respect the situation is unchanged. The men of the building trades have the union bricklayers are out, but no attempt is being made to interfere with the non-union men at work. The street railway traffic is going on as before, and it is now looked on as unlikely that the street

TYPOS BEAT CRESCENTS

Lively Indoor Baseball Game at Auditorium Last Night

Typos put it over Crescents by 31 to 28 at the indoor baseball game played last night in the Auditorium. A crowd witnessed the game and excitement ran high. Eager to fulfill their threat and drench the squires of the sticky fluid out of existence, the Baptist boys went to it with a splash. But the ardor of the type-stickers was not to be quickly quenched. They were inked to the eyebrows, so to speak, and in fine form. In their fetching costumes the Crescents looked good, but though the printers owing to the non-arrival of their suits might have been marked here and there "wrong font," they looked a well set up take all the same, and even when apparently pied were by no means smashed. Most marked was the activity of "Small Pica" Potts, while "Italic" Waterman in a three color cover design done in two printings pleased the readers immensely. Amongst the said readers stationed in the gallery, must be mentioned "Chink" Self with his companions Messrs. Coffey and Curtain who through their gramophone horn megaphones whispered soft nothings to their favorites in the arena.

OUR LATEST INDUSTRY

Mr. C. H. Orme Installs a Plant for Making Ice Cream

For the specific purpose of making his own ice cream C. H. Orme, the well known druggist on Second Avenue, has installed an electric dynamo and up-to-date ice cream making machine in the rear of his store.

Prior to the installation of this machinery he was importing the frigid delectable from Vancouver and Seattle, but finding that by the time it got here it was not as fresh and appetising as it might be he concluded his patrons would rather have it home made producing it was made from pure cream from the local dairy company and not from the canned cream. Mr. Orme gets cream every day from the dairy company so that when you get a dish of the delicious stuff with the "fixings" you know it is the real thing in ice cream.

Uncle Jerry's New List

Carpenters are getting busy on residences all over town but even with this building activity it will be some time before the demand for dwelling houses and apartments can be supplied if it ever is, because of the number of new people arriving with the object of making homes here. My correspondence upon this subject with parties now on the outside is constantly increasing so I make an especial appeal to those having apartments and houses to rent or for sale to immediately list them with Uncle Jerry. Investigate this. "ASK UNCLE JERRY" We have also a hotel proposition worthy of consideration, several business opportunities, stores to rent, boats for sale and so forth. There has been a surprising demand recently for farm lands up the Skeena and in the Bulkley valley. We have a large amount of acreage, carefully selected, all the way from Kitselas to Francois Lake, with full descriptions of the character of the soil and so forth. The price at present is low, running from \$10 an acre up. Some of the land is partly cleared and has farm buildings on it. You should certainly look into this.
