PAYING TAXES

A number of people have already paid their taxes, in- They prevented the Invincibles · duced to do so by the offer of the city to pay six percent interest on all advance payments. While the amount is not large it is worth considering these days. It is twice the bank rate and the payment will enable the city to carry on until the bulk of the taxes are paid on August 1,

ONLY POSSIBLE COURSE

Everyone knows that both political parties accept large stopped them. The score at the end sums of money from big corporations or rich individuals of the game was 12-1. and doubtless the persons who donate in many cases ex- Molly Ellison. That was one reason for banning titles from Can- Margaret Mussallem, Jean Ritchie, ing all that came his way. ada.

Political parties always need money with which to fight political battles. Halls have to be hired, travelling expenses paid for speakers and organizers, and advertising costs money. The result is that party managers are always on the lookout for contributions which will help them place their cause before the people in an efficient and forceful manner.

The promoters of the huge Beauharnois power concern OUALITY FO donations to party funds. Senator McDougald was the sacrificial goat in connection with these funds and he has resigned from the Upper Chamber, the only possible course under the circumstances.

It is well known that one party had just as much money to spend as the other during the last election but only one was found out. Happily for the Conservatives they had a millionaire leader with a millionaire party organizer, both of whom are reported to have contributed heavily to party funds.

LEARNING TO SWIM

The swimming season is approaching and those young people who have not already learned to swim should take the opportunity which offers here. There is a good place at the Salt Lake across the harbor or at the swimming pool just across the Westview bridge. A few learn in the cold sea water at one of the beaches. The first thing to do is to get used to the water and then the strokes are easy. Most people drown because they try to climb out of the water and find that they cannot do so.

LEARNING ABOUT HOME

Some years ago the Daily News suggested that no teacher was really qualified to teach in Prince Rupert until he or she knew something of the natural history of Kaien Island. We still are of opinion that any person who does not know something about his home surroundings is not educated. He is lacking in one of the essentials. He should know at least what trees and plants and flowers grow on Kaien Island, what animals and birds may be found there and also something about the insect and marine life. A little of the history of the place might also be included and an ethnological study of the natives who were here before the city was founded.

Mr. Arnold suggested that the city was already in the hands of a receiver, the bank being the receiver, dictating the policy of the 18C city. They might as well have a public receiver.

Alderman Casey did not agree with the previous speaker. He saw a 11C great difference between owing the bank and having a public receiver. They were a whole year's taxes behind and he considered that all should strain a point to pay taxes. They would soon have an opportunity to elect a council that would really look after the affairs of the city. He thought it would be better to try to bring transportation and shipping faiclities for the port than to refuse to pay taxes.

Many Prince Rupert people send n larming with Elmer McConnell, a copy of the Daily News to their mothers in order that they may Canada enjoys unique leadership keep in touch with the activities in per capita generation of power, the city where their sons or daughters live. Some of them write that they much appreciate this.

The rate for the News mailed daily within the Prince Rupert trading district including Central British Columbia is \$3.00 per year. Outside that area or to United States or Great Britain or other British Dominions the price is \$6.00

Mouners Day SUNDAY, MAY 8

The old arms may be a little wabbly. The hands are veined from hard work and drudgery. A Life-time doesn't permit that Lady you call Mother to keep the beauty and charm of Youth.

But that is one wonderful thing about Mother-Love. It ripens with age, and as that Splendid Lady who one time carried us in her arms moves gradually into Old Age, our heart remains steadfast and loyal, and we suddenly realize that we love her better than most things in life.

And so-on Mother's Day-DO that thing you have really wanted to do all the busy days of this past year—give her some CONCRETE proof of your love and quality.

We have a fine selection

CANUCKS LIKE BUTTER

VITAMIN B IN BRAN,

Also Has "Bulk" to Further Assist Elimination, and Iron for Blood

One of the functions of Vitamin B is to help tone the intestinal tract, and promote elimination. Now, laboratory experiments show Kellogg's ALL-BRAN contains this valuable vitamin.

In addition, ALL-BRAN brings a plentiful supply of "bulk" — which provides the "ballast" needed to exercise the intestines.

This "bulk" in ALL-BRAN is similar to that of lettuce. Inside the body, it is different from the way you see it in the package. It absorbs moisture, and forms a soft mass which gently clears the intestines of wastes. Special cooking processes make ALL-BRAN finer, milder, more palatable.

Another healthful element brought by ALL-BRAN is iron. Tests show this cereal has twice as much usable iron as the same weight of

Check common constipation with its frequent headaches, loss of appetite and energy - by eating this delicious cereal. How much pleasanter than taking pills and drugs - so often habit-forming.

Just eat two tablespoonfuls daily - sufficient to overcome most types of constipation. If your intestinal trouble is not relieved this way, see your doctor.

Appetizing recipes on the red-andgreen package. Made by Kellogg in London, Ontario.

MAKES PLEA FOR MANUAL

Eric Gee Tells Rotary Club About Work in Which He Has Engaged Here

Expressing the belief that even yet it was not too late to reconsider the recent decision of the school board to abolish the Manual Trainsupervisor of technical education, would be in the city soon to take the matter up, Eric Gee, manual training instructor in the city schools, gave an interesting address on his work and its value from an educational point of view before the Rotary Club yesterday afternoon.

Mr. Gee emphasized the value of physical education, combined with formed in Canada, similar to what ister were not on speaking terms. The applause, however, was not showed how manual training promental, moral and spiritual, and fact that the two of them were mental training was the only side that Mr. King had been across the specialized. Now they were getting floor congratulating Mr. Bennett away from that. He feared that, if uncle, due to the birth of a son to work, it would be difficult to get night on the Prince George for New back to it.

exercised. The creative spirit was profit by these mistakes and to plan ahead.

In addition to the physical training, good habits were developed and appreciation of beauty of form was a spiritual outcrop. Manual training makes arithmetic practical.

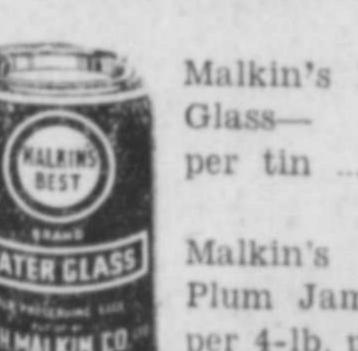

Illustrating how the boys like ago they discovered that May 24 were able to surpass others at manother work because it directed their useful manner. natural activities in a manner that could not be done in the other classes. It was not natural for any ing address. boy to sit at a desk all day.

Mr. Gee also said that he had found that boys who ranked low in their other studies and were rapidly
