Sons of Freedom Nude Paraders To Be Tried By New Code Section

Penalty Up to Three Years in Penitentiary May Be Imposed—118 of Sect Appear in Nelson Court and Are Remanded

VICTORIA, May 3:—The provincial government has decided to take a firm stand in regard to the persistent disorders among the Doukhobors in the Nelson district which culminated on Sunday in the staging of a nude parade by two hundred men and women of the Sons of Freedom sect. The Doukhobors, at present in the Nelson jail following the parade, will be tried under a new section of the Criminal Code of Canada under which the maximum penalty is three years in penitentiary, it is announced. The government has decided that drastic steps must be taken to clear up the situation.

PARLEY IS CONTINUING

Sino-Japanese Peace Negotiations Not Interfered With By Bombing Incident

SHANGHAI, May 3:—In spite of the injuries sustained by some of the principal Japanese negotiators in a review-stand bombing here last week, Sino-Japanese peace negotiations were scheduled to be resumed today. Substitute delegates will act in place of those who were injured.

It was intimated yesterday that the Japanese did not hold the Chinese responsible for the bombing, having released all the Chinese who had been arrested following the incident. Seven Korean suspects are still being held, however.

Japanese officials and residents at Shanghai were strictly enjoined by their government against any move towards reprisals.

WILL BE PREMIER

Herriot Expected to Succeed Tardieu as Head of French Government

PARIS, May 3:—That Edouard Herriot, radical Socialist leader and former Premier of France, will displace Premier Andre Tardieu seemed almost conceded in political circles yesterday as a result of the run-off election on Sunday when nearly half of the seats in the Chamber of Deputies had their elections, giving a decisive majority to the Left Party. The remainder of the seats will vote next Sunday.

Depending on the final result of the voting, it is expected that Tardieu will carry on until June 1 when he would resign in favor of Herriot.

House of President of Canadian National Was Under Fire of Members

Session Was Full of Recriminations and Charges and Terms "Graft," "Breach of Trust" Etc. Were Bandied About

OTTAWA, May 3:—Recriminations and charges flew thick and fast in the House of Commons committee on railways and shipping today with such expressions as "graft," "breach of trust," etc. being bandied about. G. H. Seguin testified that, acting under orders of E. R. Decary of Montreal, when the latter was director of the Canadian National Railways, he had borrowed in August 1930 \$135,000 from the Montreal Trust Co. and with it bought an official residence for the president of the Canadian National. He had obtained the money at 6 1/2% and had leased the house to the railway company at 8 1/2%, explaining that the extra 2% was to take care of amortization of principal.

STERN MEASURES NEEDED

Stern measures are needed to deal with the Doukhobors who refuse to conform to Canadian usages and who continually defy the laws of the country. The governments have been much too easy with them in the past and it is time for a policy that will make it clear to these people that they must conform to Canadian ways, let their children receive a Canadian education and respect life and property like other Canadian people.

British people are very tolerant, but there is a point beyond which tolerance ceases to be a virtue and that point has been reached with the Doukhobors.

A STATE MONOPOLY

We take issue with Mr. Beattie of the C. P. R. who suggests that radio in Canada should be handled by a company with a federal charter and under federal control. This would be very little different from any other big company in that the holders of the majority stock would really control.

Instead of giving the monopoly to a private company we should much prefer to see the monopoly handled by the state as a separate government department or as a company the controlling stock of which is held by the state. It would be handled similar to the post office, which also is a state monopoly, or like the national railway by a board of directors appointed by the federal and provincial governments. We are inclined to favor the direct control such as that exercised by the post office department.

Very soon we shall have a system of television which will engage the attention of the broadcasters. Then it will be necessary to give Canadians the right to see their fellow Canadians as well as to greet outstanding personalities of other countries. In time radio will be used by everyone. Its defects will be cured and it will be developed and controlled to such an extent that it will be looked upon as one of the necessities of life. When such a time comes the state will undoubtedly control it and this is the best time to begin, before the vested interests have become too strong. It would be unfair to the people of the country and also to the people who might be induced to invest their money to make a false start that would have to be remedied in the near future.

STINGING THE HICKS

Stand and study the hard-bitten faces of the gamblers in charge of the gambling devices at the county fairs. Glance at the touts and cappers who assist them in their efforts to fleece the public. You then have a composite picture of the gangsters and racketeers who are presently dominating the forces of law and order in the United States. These men take a summer vacation in the fall of the year, "Out in the sticks stinging the hicks," as they term it. Yet, reputable men, directors of the county fairs, encourage them, thus selling out their neighbors for thirty pieces of silver. In the years that have passed these things have been smothered the morals of many a young man, even going so far as hiring them as "cappers" or "come-ons." Let us stop it! Refuse to countenance these adroit gamblers, and have a clean show.—Sherbrooke Daily Record.

Financial Post Wonders What is Behind Senator's Proposal Regarding Great Bear Lake Radium

Is Promoter

Personal Interest is Seen By Canadian Financial Journal in Plan For Government Monopoly

The Vergilian bromide about fearing the Greeks when they come bearing gifts applies with some force to the plan of Gen. A. D. McRae to have the radium-bearing ores of Great Bear Lake made a government monopoly for the benefit of the poor and suffering, says a Financial Post editorial. If Canada sincerely wishes to break the Belgian trust and bring down the cost of such a magnificent servant of mankind as radium it would seem that the best way to accomplish it would be to provide for the largest measure of competition and development in the extraction and handling of these radium ores so that the flooding of the market with the increased supplies would bring down the price. But apart from that, the proposal of Gen. McRae is one that will bear somewhat closer scrutiny than it has had.

Gen. McRae happens to be an important party organizer which does not seem to bear any relation to his offer. But he is also a mining promoter on no mean scale and while his speech in the Senate gives no clue to any personal interest he may or may not have in Great Bear Lake, there are historical facts that indicate that there may be more to the proposal than meets the eye.

Recalls Collapse

A scant few years ago Canada went through the most distressing experience of a mining stock boom and the subsequent collapse, in the midst of which many fortunes, large and small, were swept away and not a few individuals, some of them the reputed tools of more influential and highly placed persons, went to the penitentiary for their share in the colossal robbing of the investing and speculating public. There were many good and many bad companies organized during that period.

One of the group of companies that placed millions of shares with the people of Canada was that group that embraced the so-called Lindsley enterprises, including the Sherritt-Gordon, Ventures, Falconbridge, Dominion Explorers, etc. This same group also invested a large amount of money in mining enterprises but the investments made in actual properties and the results achieved were comparatively puny beside the enormous sums that the general public lost purchasing shares of the companies, which may have been the fault of the general public and maybe was not.

How large Gen. McRae fitted into the Lindsley group picture can not be told with any degree of accuracy except that he was a director of one of the most important of the companies. At the present time one of the Lindsley companies is very active in the Great Bear Lake area. This is Dominion Explorers, which has managed to get on the front page of the newspapers of Canada on more than one occasion. There was the time when Col. McAlpine, its chief sponsor, was lost in the Arctic after an aeroplane trip scouting for mineral lands. There was the time, too, that it endeavored to get from the Dominion government exclusive mineral rights to an enormous area west of Hudson Bay, a "grab" that was nipped in the bud.

To Create Boom

Now, when one who has been rather closely connected with this group of companies makes a suggestion of the character of the one Gen. McRae has made, the public is entitled to ask what does it really mean. Gen. McRae can hardly have been unaware that there has been a persistent effort to turn the legitimate mining operations at Great Bear Lake into the foundation for another speculative boom which would permit millions of dollars of shares to be unloaded on the public. He is astute enough surely to realize that his speech in the Senate, with its very rosy figures on ore values, was just the sort of material the stock jobbers could use to very good effect in their preying on the public.

Of course, the suspicion might be

raised that the Great Bear Lake boom has proved a flop and some of those holding claims from the Dominion government might be glad to sell them back to the Dominion government at a huge profit and thus make the expensive effort of prospecting, promoting, and selling unnecessary.

In any event Gen. McRae, because of his recent connection with mining promotion, was not, in the opinion of the Financial Post, the proper person to make the suggestion he has made. The public ought to know a lot more about the proposition before it becomes unduly enthusiastic about it.

ALMANAC OF CHURCH OUT

Great Deal of Information Regarding Lutherans Contained in Volume Just Off Press

The new Lutheran World Almanac is just off the press. It contains a mass of information about the Lutheran Church. First place is given to the church in Canada and the United States.

The new almanac says that there are more than 32,000,000 Lutherans in the world in 75,000 congregations served by 50,000 pastors. The estimated number of Lutheran adherents in North America is 20,000,000. In 1930-31 the various Lutheran Church bodies, through which the Lutheran Church of the United States and Canada expresses itself, reported 11,513 ministers in the United States and 440 in Canada, making a total of 11,953 ministers serving 15,356 congregations in the United States and 1,176 in Canada, a total baptized membership of 4,350,000.

The Canada, Newfoundland and Labrador census of population in 1921 revealed 287,466 Lutheran adherents.

The estimated number of Lutherans in South America is 1,000,000 and in Europe 60,000,000. Northern continental Europe is almost exclusively Lutheran, the Lutheran percentages being: Sweden, 99.5%; Norway, 98.5%; Denmark, 98.5%; Iceland, 99.5%; Finland, 97%; Estonia, 83%; Germany, 60%.—By request.

Over 300 millions were spent on construction in 1931.

Apple Dumplings with Magic Baking Powder

When a young housewife asks me what baking powder she should use, I say Miss De Both, director of the famous De Both Home Makers' Cooking Schools, "this is my advice: Use the best—this is pure, uniform and invariably dependable. You can't use second-rate baking powder and expect first-rate results."

"My experience with Magic has been particularly happy. I find that it never varies—that it is consistently reliable. And I know it is pure, and free from harmful ingredients."

Statements by other well-known cookery authorities give whole-hearted support to Miss De Both's judgment. In fact, the majority of dietitians and cookery teachers throughout Canada use and recommend Magic exclusively.

Apple Dumplings

1 quart flour 1 1/2 cups milk
1 teaspoon Magic Baking Powder 1/2 cup Sugar
1/2 teaspoon salt 1/2 cup Apples
2 tablespoons butter

Mix into a bowl flour, baking powder and salt. Rub in the butter. Add cold milk to make soft dough. Turn out on a floured board and roll into a sheet. Cut in squares. Peel and core the apples. Place an apple on each square of dough. Fill the core with a small piece of butter, sugar and a little cinnamon. Fold the dough over, taking care that there are no openings, as the steam inside dumplings cooks the apple while it is baking. Brush dumplings with a little cream, and place in greased pan. Bake in moderate oven at 400° F. about 40 minutes. Serve with cream or hard sauce.

MAGIC BAKING POWDER

Contains no alum. This statement on every tin is your guarantee that Magic Baking Powder is free from alum or any harmful ingredient.

SONS OF PASTORS

Forty Percent of Millionaires in This Country Children of Ministers, Says Roger Babson

Roger Babson is authority for the statement that 40% of the millionaires in the United States and Canada are sons of ministers. The daughters are not behind their brothers. A Presbyterian minister's daughter recently published a successful novel. Another is a popular contributor to the Atlantic Monthly. Others are eminent in social reform, politics and business.

The most remarkable instance is that of a Methodist preacher in London who had five daughters whom he supported and educated on less than \$800 a year. One of them became the wife of the great painter, Sir Edward Burne-Jones. Another married Sir Edward Poynter, president of the Royal Academy. The third married John Kipling and their son was Rudyard Kipling. The fourth married a Mr. Baldwin and their son was later the prime minister of England. We regret that the fifth remained unmarried.—The United Presbyterian.

WINNER IS MRS. MACEY

Writes Limerick Which is Adjudged Best in Supreme Coffee Contest

The winner in the Supreme Coffee limerick contest is Mrs. Harry Macey, Principal Hartness of the High School was asked to act as judge and he chose Mrs. Macey's verse as follows:

When in doubt as to what brand to buy,
A pound of Supreme you should try,
For the flavor is fine,
The aroma divine,
And it quenches your thirst when you're dry.

Several other limericks are highly commended and if the parties who submitted them will call at the office of Stewart & Mobley they will receive a pound of Supreme coffee each for their efforts.

A lady was asked by her guest, Why her parties excelled all the rest. She said, "Well I think, 'It's the coffee we drink, 'And of course, Supreme is the best."

There was an old fellow from Fife, Been a bachelor all of his life; Now it's plain to be seen, That he is drinking "Supreme." For he's chasing around for a wife.

A guy at his doctor's suggestion, When poor coffee had wrecked his digestion, Fell in with the scheme Of drinking Supreme, Indigestion's now out of the question.

An old man so jolly and gay, Collapsed on the street one cold day. He did not mind dying, When he heard St. Pete crying, Supreme coffee my man; step this way."

gave several coffees a test, To find out which flavor was best. A taste of each kind, Soon decided my mind, Supreme ranked first in the west.

YANKS TAKE BAD SLUMP

Lost Second Straight Game to Senators and Dropped Into Fourth Place Yesterday

NEW YORK, May 1.—Washington Senators made it two straight over the New York Yankees with an easy victory yesterday and consolidated their hold on first place in the American League while the Yankees fell to fourth place behind Detroit Tigers and Cleveland Indians who were winning over Chicago White Sox and St. Louis Browns respectively. The Philadelphia Athletics took an 11-inning victory from the lowly Boston Red Sox and climbed into sixth place ahead of the White Sox.

Boston Braves and Chicago Cubs both lost their games yesterday the former to the Phillies and the latter to the Pittsburgh Pirates, so there was no change in the battle for first place honors in the National League, the Braves still being one-half game ahead. St. Louis Cardinals were leading in an unfinished game with Cincinnati Reds and moved into sixth place ahead of the New York Giants who were dragged into the cellar with Brooklyn by losing a close decision to the Dodgers.

Yesterday's scores:

American League	
Washington 10, New York 3.	
Cleveland 6, St. Louis 5.	
Philadelphia 3, Boston 2 (11 innings).	
Detroit 5, Chicago 3.	
National League	
Brooklyn 3, New York 1.	
Pittsburg 2, Chicago 0.	
Philadelphia 7, Boston 2.	
St. Louis 2, Cincinnati 1 (unfinished).

SPORT CHAT

Little Eddie Wiseman, one of the best products in several seasons to move up to professional hockey from Al Ritchie's farm at Regina, led American League scorers last season, according to official averages released by President William F. Grant. Wiseman, star wingman of the champion Chicago Shamrocks, scored 17 goals, assisted in 17 others, for a total of 34 points. He was one point up on his forward line partner, Jack Riley, who finished with 33 points—17 goals and 16 assists. Wiseman, fleet, chunky kid who came to Chicago two years ago from the Regina Pats juniors, led the league for the greater part of the season. The third member of the Shamrocks' great front set, Don McPayden, was right behind Riley, scoring 13 goals and assisting in 17 for a total of 30 points.

Fourth was Gus Forslund, ace of Duluth Hornets, with 27 points and fifth, Shamp McPherson, St. Louis Flyer midget centre, with 26. McPherson, Toronto player, who was serving his first year in the outlaw circuit, led all scorers. He netted the puck 21 times. Wasp Campbell and Ken Dunfield, Kansas City stars, were sixth and seventh, with 23 and 22 points, respectively. Pete Ranger, of Kansas City, spent 99 minutes in the penalty box and earned the "bad man" title.

FIGURES IN SPORT

JOHN MOAKLEY, TRACK COACH

John Francis Moakley, head coach of the victorious American Olympic team in 1920, has been the "miracle man" of track and field sports at Cornell University for more than thirty years. Before going to Cornell, he was identified with Boston English High School, Roxbury Latin College, Tufts College, Brown University, University of Maine and University of Wisconsin in turn. With the opening of the present season Moakley had been a coach at Cornell for 33 years and in that time his teams had won the intercollegiate track and field championships nine times, the intercollegiate cross-country championship 17 times and had contributed to America's glory in Olympic Games and other international competitions.

John Paul Jones, former holder of the world's one-mile record, was probably Moakley's most famous pupil. Others include Tel Berna, Alma Richards, Frank Foss, Eddie Cook and Henry Russell.

Moakley was himself a runner of ability in his younger years, his athletic prime being in the days when big money prizes were held out to foot racers and it required something more than ordinary strength of character for an amateur to retain his status. Moakley trained with star professionals of his day—including Mike Murphy, Steve Farrell, Pooch Donovan, Walter Chris-

tie and Charlie Rowell—but did not compete with them. Moakley's specialty was the half-mile run although he won prizes on occasion in all events from 100-yard dash to the five-mile run, as well as being an able hurdler.

Born at Boston December 11, 1863, Moakley intended to enter Harvard University but the death of his father changed his plans and he was for a while sports writer for the Boston Post and Boston Journal. He became a member of amateur clubs and there made his records as a competing athlete. When, at the age of 28, his competing days neared a close, he identified himself with sport in other ways. He was prominent in an official capacity with sports in New England and had his first experience in coaching when, as captain of the Manhattan Athletic Club cross-country team, it devolved upon him to prepare his mates for their big races. It was not long before schools and colleges were seeking his services and for a few years Moakley combined coaching with newspaper work. He did not make college athletic coaching his chief business until 1899 when he was persuaded to accept the Cornell appointment.

Moakley is married and has two daughters. His hobbies are golf, walking, the movies and work for the Boy Scouts.

WINNERS OF FIRST HALF

Tigers Defeated Falcons To Win Play-Off in High School Softball League

The Tigers captured the honors in Monday's softball game at the High School. By defeating the Falcons eight to four, they took the first half play-off.

Taking the lead in the second inning and steadily increasing it by the last of the fifth the Tigers had a six-run lead over the Falcons. The latter put forth every effort in the last inning but were retired after scoring two runs.

The Tigers' fielding was excellent and the Falcons fielded well except in the fourth when the Tigers scored four runs.

RADIO CLUB IS WINNER

Giants Lose Another Game in East End Softball

The third game of the East End softball series, played at the Gyro Park last night, was won by the Skeena Amateur Radio Club with a score of 7-5 over the East End Giants.

The game was unsensational with minor errors on both sides. McFie did good work for the Radio boys while Gomez and Gillis stopped a good many balls. McLean and Ferguson umpired while the official score was held by Worsfold.

The Giants so far have not had the luck to win a game but, no doubt, will put it over if possible in their game on Thursday with the Seal Cove Sailors.

"I am a newspaper man and, like the majority of the boys, I smoke Turret pipe tobacco. Why shouldn't I? With a story to catch the street editions, barely a few minutes to go till 'deadline', there's no time to fuss with a pipe... and with Turret pipe tobacco one match is enough for the pipeful. It gives a cool inspiring smoke, that helps a speeding brain put punch in a story, and steady pipe enjoyment down to the last tiny golden thread... I like that about Turret pipe tobacco; also, it is as economical as it is popular."

Some Babies owe it their lives!

THAT'S what grateful mothers often write us, praising Carnation Milk for baby feeding. Famous specialists recommend it because of its purity, uniformity and safety. Carnation is heat-treated forming finest, softest curds in the baby's stomach. And homogenization breaks up the coarse fat globules into easily assimilable ones. This makes Carnation super-smooth in cookery, too. Splendid when creaming coffee and for use with fruits and cereals. Economical because double-rich.

Miss Dora Heilbroner Honored Yesterday at Home of Mrs. R. L. McIntosh

Members of the local committee of the Girl Guides' Association were guests of Mrs. R. L. McIntosh at her home, Cliffside, Fourth Avenue West, yesterday afternoon, at a farewell tea in honor of Miss Dora Heilbroner, captain of the I. O. D. E. Branch of the Girl Guides, who sailed this afternoon on the Catala for Vancouver where she is to be married shortly to William Beaumont, formerly of this city.

During the afternoon Mrs. McIntosh, who is president of the local association, and Mrs. D. C. Stuart, regent of Municipal Chapter, I. O. D. E., both spoke briefly, expressing appreciation of the work that had been done by Miss Heilbroner and regret at her departure from the city. Best wishes for the future were also extended.

Mrs. Ernest Anderson poured tea and was assisted in serving by Mrs. H. L. Landry.

Following her marriage, Miss Heilbroner will reside in Vancouver. She has been a very popular member of the younger set here and her departure from the city will be regretted by many local friends.

The fire department had a call at 8 o'clock last evening to a small house at Eighth Avenue and Funt Street occupied by Dennis Lucas, where there was a chimney fire. No damage was done.

Everlasting Punishment Is Subject

The subject of the lesson-sermon in Prince Rupert Christian Science Society on Sunday was "Everlasting Punishment."

One of the Bible texts was, "And when He had called unto Him his twelve disciples, He gave them power against unclean spirits, to cast them out, and to heal all manner of sickness and all manner of disease" (Matthew 10: 1).

The lesson-sermon also included the following passage from "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "In this Science, we discover man in the image and likeness of God. We see that man has never lost his spiritual estate and his eternal harmony."

HALLERAN HONORED

Presentation to Member of Booth School Staff Who Has Resigned

At the regular monthly meeting of the staff of the Booth Memorial School yesterday afternoon in the teachers' room, advantage was taken of the opportunity to say farewell to A. Halleran, who has resigned from the staff to go into business.

On behalf of the staff, Miss Mercer, principal, expressed the regret of all at Mr. Halleran leaving, stressing the willing co-operation that he had shown at all times and his loyalty to the school. The best wishes of all went to him in his new venture. Miss Mercer then made the presentation of a silver cake dish.

Mr. Halleran thanked the staff for remembering him in such a kindly fashion, and felt that he would always remember with pleasure the association with his colleagues and the children.

At the morning assembly the bronze medal, awarded by the Canadian Forestry Association, B. C. branch, was presented to Victor de Marco who is appointed junior forest warden for this year.

WE RECOMMEND THESE PURCHASES

In this issue you will find a number of advertisements of real interest to you.

They offer for sale a variety of products that are often enough vital necessities. Sooner or later you will have to buy many of them anyway. You will undoubtedly buy some of those we advertise.

WHY?

We recommend these heartily because we know from long experience that when a product bears the name of its maker and finds a friendly market throughout the country it must have survived the most exacting tests as to quality, desirability and Value.

In this day when a manufacturer or merchant reaches the point where he is willing to offer his wares for sale through the advertising columns of the press, you can depend upon it that it must be worth purchasing . . . because otherwise the business wouldn't last long!

Kellogg's have this patented protection

KELLOGG'S Corn Flakes are sealed in a special WAXTITE bag which is placed inside the red-and-green package. It brings the flakes direct from the toasting ovens fresh to your table. It's a patented Kellogg feature.

Some other foods have inner bags of a kind—but Kellogg's is sealed top and bottom . . . perfect protection. Compare Kellogg's. The flakes are different in appearance, taste and freshness.

Unconditionally guaranteed by W. K. Kellogg: "If you don't consider them the best corn flakes you ever ate, return the package and we will refund your money." Made by Kellogg in London, Ontario.
