#### SHIPPING MAN DIES

Capt. Robert Dollar Passes Away at San Rafael, Calif., Early This Morning

Aged 88

Was Also Successful in Lumbering and Milling—Was Born at Falkirk, Scotland

SAN RAFAEL, Cal., May 16:—Capt. Robert Dollar, 88 year old veteran of the shipping and lumbering industries, died at his home here at 1:10 this morning. He had been critically ill for the past two weeks following a cold and all members of his family were at his bedside at the end.

Captain Dollar began his nautical career when he was six years old by launching a washtub on the Forth of Clyde canal in Scotland and became one of the largest individual ship owners in the world.

His actual debut in the shipping business did not come until Dollar had arrived at an age when many successful men retire from active life, yet he gained world wide recognition and virtual monopoly of the American trade on the Pacific Ocean during the years that rounded out the span of three score and ten.

Before the organization of the Dollar Steamship Company, he had conducted highly successful lumbering and milling operations in Canada, the United States and China.

Captain Dollar became known as the "Grand Old Man of the Pacific" because of his activities in fostering commercial relations with China and the Far East in general.

Captain Dollar purchased his first ship, "Newsboy," a small tub of 300 tons, as an adjunct to his lumbering operations in California, and made his first venture in the China trade with the "Arab," a 6,500 ton steamer, in 1901. By 1921 the Dollar Steamship Company had an imposing fleet and 19 offices in various parts of the world, including Japan, China, the Philippines, Straits Settlements, India, Russia and Greece.

In addition to controlling coast-wise ocean travel along the Pacific states, his steamships were the only American passenger vessels running to the Orient. He also had an important interest in passenger and freight steamship lines to Alaska. He was president of the Dollar Steamship Company, Robert Dollar Company, Admiral Oriental Company, Dollar Portland Lumber Company, Canadian Robert Dollar Company, and director of the American International Corporation, Anglo London and Paris Bank, and San Francisco Savings Bank.

He received numerous honors, including three decorations by Chinese rulers. He made many charitable bequests and established a chair of Christian Sociology at the San Francisco Theological seminary. (Continued on Page Four)

Terrorists Active Throughout Day in Capital of Flowery Kingdom—Curtailement of Mikado's Powers Among Demands Made—Government to Resign

TOKIO, Japan, May 16:—Military disorders approximating the proportions of a revolution broke out in Tokio yesterday, Premier Suyoshi Inukai dying shortly before midnight from bullet wounds inflicted by members of a group of military terrorists who entered his home and shot him. The man who shot Inukai was wearing a uniform. Throughout the day bombings were general in the city and there were numerous other casualties. By nightfall, the city was fairly quiet.

The disorders are believed to have been inspired by the Japanese Fascist party which has been demanding the overthrow of the present government and the establishment of a dictatorship. Japanese military policy in Manchuria and Shanghai has been under fire. Drastic curtailment in the powers of the Mikado are also being demanded.

Finance Minister Takahashi has been appointed temporary premier but it is expected the government will resign shortly and call a general election.

#### JESSIE MINE IS FINANCED

L. S. McGill Returns From Successful Quest in Vancouver and Goes on to Smithers

L. S. McGill, well known solicitor and mining man of Smithers who came in last night on the Catala from Vancouver and this afternoon left by train for home, announces that he has arranged for the financing of the Jessie gold mine on Hudson Bay Mountain at Smithers and that work on the property will commence within about a month. He has also arranged for an engineer to superintend the work and has opened an office for the company in Vancouver.

Arrangements have been made for the raising of \$25,000 within the next six months in Vancouver and \$6,000 has been subscribed in Smithers, \$4,000 by public subscription and \$2,000 by Mr. McGill and associates. This will give something like \$30,000 with which to do development work.

The Jessie Gold Mining Company Ltd. was incorporated by Mr. McGill three years ago but, at that time, it was not considered that conditions were right for raising money. Now there is a tendency toward betterment and the fact that Mr. McGill was successful in his quest indicates that the conditions are more suitable for ventures of this kind. The ore goes from \$10 to \$15 a ton in gold and other values in silver, lead and zinc.

The Jessie mine is on the slope of the Hudson Bay Mountain toward the town of Smithers and four and a half miles distant from that place.

The engineer engaged by Mr. McGill is W. G. Norrie-Lowenthal, formerly in charge of the Silver Standard at Hazelton. He will make a complete examination of the mine and report at an early date.

While in the south Mr. McGill gave a number of addresses on mining, one of which was at a public gathering under auspices of the B. C. Chamber of Mines which was well attended.

Many clergymen described the murder as a "moral and spiritual disaster" and urged the better-thinking people of the country to action in the crisis which faces the good name of law and order in the United States.

#### MRS. ROSE IS LAID AT REST

Interment in Fairview Cemetery Following Service Yesterday in St. Andrew's Cathedral

St. Andrew's Anglican Cathedral was crowded yesterday afternoon with friends and sympathizers desirous of paying final tributes of respect to the memory of Mrs. Florence Rose, wife of R. T. J. Rose of this city, whose death occurred last week following a lengthy illness. The service was conducted by Very Rev. James B. Gibson, dean of the Cathedral, who paid tribute to the worth of deceased and spoke words of comfort to the bereaved. Peter Lien presided at the organ for the hymns which were "Holy, Holy, Holy" and "Lead, Kindly Light."

Following the service in the Cathedral, burial was made in Fairview, a long concourse following the cortege to the final resting place. Pallbearers were Thomas Annesley, William Tucker, William Reid, Fred Dabb, J. McCandless and J. Campbell.

Numerous floral offerings were tendered, including pieces from the following:  
The Family, Mr. and Mrs. N. Mussallem, Mrs. J. W. Scott and Joe, Mr. and Mrs. G. F. Dobb, E. F. Reid, Mr. and Mrs. Peter Doherty, Mrs. F. W. #### VANCOUVER WHEAT

VANCOUVER, May 16:—Wheat was quoted at 60¢ on the local exchange today.

Meantime, the hunt for the slayer or slayers of the child continued by land and sea. Coastguard vessels stopped and searched numerous vessels off the coast while on land all clues were being followed down. A concerted drive was started to locate Salvador Spitali and other underworld characters whose assistance Col. Charles Lindbergh sought early in the search for the child and who have since dropped out of sight.

A conference was to be held at Hopewell today of all law agencies endeavoring to solve the crime to discuss an offer of assistance from the federal secret service. It is possible that the whole investigation may be brought under control of the criminal investigation department of the United States Department of Justice.

Meantime, from the nature of the ransom note which was found in the baby's room the night of the kidnaping, the belief is held that the act was the work of foreigners.

Col. and Mrs. Lindbergh yesterday addressed a letter of thanks to Dr. Condon of New York for his faithful assistance in endeavoring to deal with the kidnapers.

It was unofficially reported yesterday that Col. and Mrs. Lindbergh would be leaving about the middle of next month for France there to await the arrival of their second child.

## SEEDING IS LATE

Moderately Warm Weather Brings  
Along Growth of Wheat

WINNIPEG, May 16.—The moderately warm weather of the past week has brought growth of early sown wheat on rapidly and, in most districts, it is up about two inches, according to the weekly crop report issued by the department of agriculture, Canadian National Railways. Fields are standing thickly and plants look strong and vigorous. If the weather holds, wheat seeding will be completed early this week. In most districts coarse grains are now being sown but some farmers are waiting for weeds to germinate before sowing oats and barley.

A day of high wind velocity in Southern Saskatchewan and Southern Alberta induced considerable nervousness but no appreciable soil drifting resulted.

Seeding is generally two weeks later than in an average year but moisture conditions at the majority of points have made farmers optimistic.

Predictions, however, indicate that serious outbreaks of pale western cutworms may result in many of the more southerly districts but it is yet a little too early for the activities of these grubs. Grasshoppers are also hatching in infested areas and the warm weather which characterized the close of the week will bring many millions of eggs to maturity.

In Manitoba wheat seeding is practically completed and about half of the coarse grains have now been committed to the soil. Moisture conditions are exceptionally good in all areas and weather has been fine and warm. Along the southern subdivision grasshoppers are beginning to move and at many points poison bait mixing stations are in operation. Weeds are beginning to make their appearance but with good growing weather, grains

should be able to keep ahead of them.

**Seeding Progresses**

In Southern Saskatchewan seeding is progressing rapidly and will soon be completed although in some districts farmers have delayed seeding to burn Russian thistles. Early sown wheat is well above the ground. High winds prevailed for one day but no soil drifting occurred to damage any of the early wheat. Along the Tonkin, Yorkton, Touchwood, Minleta, Rhein, Asquith, Dodsland subdivision weather has been warm with a few scattered showers interspersed with some high winds which materially depleted surface moisture, although there is no apparent dearth yet.

Along the subdivisions comprising the Prince Albert division, weather has been ideal for all farm work. Wheat seeding is nearly completed with coarse grains getting under way. Moisture seems plentiful and growth is rapid. No damage is reported and present prospects are good.

In Alberta along the Drumheller, Oyen, Stettler, Three Hills subdivision heavy winds caused a little soil drifting at some points. This is the territory in which serious outbreaks of pale western cutworms are predicted but so far no worm activity is evident. Unless heavy rains fall within the next week or ten days it is anticipated the damage by cutworms to growing crops will necessitate a considerable amount of reseeded.

In Northern and Central Alberta conditions are good but coarse grain seeding is just beginning. Moisture is sufficient and pastures are doing well.

Reports of fine weather with seeding general come from all districts in the Peace River.

Light receipts of cattle on central stock yards have held prices about a line with those of a week ago and indications are that the prices offered for quality animals carrying good flesh will strengthen.

The hog market at the end of the week was unsettled, but should develop a firmness as the summer goes on.

## CUBS' LEAD IS REDUCED

Chicago Has Scant Margin of Half  
a Game Over Boston Braves  
In National League

CHICAGO, May 16.—It was a bad week-end for the National League leading Chicago Cubs but a very promising one for the Boston Braves who continued their victorious conquest of the west and slashed the margin of the Hornsby aggregation to a scant half game. The Braves defeated the Cubs in a close game here on Saturday and went to St. Louis yesterday to take the measure of the world champion Cardinals in no indecisive manner. The Cubs lost to the Phillies yesterday.

The only actual change in any of the positions in the Big League standings was the displacement of the Brooklyn Dodgers in sixth place in the National League by New York Giants which was accounted for by the Dodgers losing to the Reds at Cincinnati on Saturday and to the Pirates in Pittsburgh yesterday. The Giants, idle on Saturday, routed the Cincinnati Reds yesterday.

The American League leadership of the Washington Senators was cut to one and a half games over the New York Yankees. The Yanks had two shut-out victories over the week-end at Yankee Stadium, blanking the Chicago White Sox on Saturday and doing the same to the Cleveland Indians yesterday. The Senators defeated the Detroit Tigers on Saturday but dropped honors yesterday in a pitcher's battle to the St. Louis Browns.

## BOOTH WON IN SOCCER

Defeated Borden Street 3 to 1 in  
Junior League Saturday  
Afternoon

Booth and Borden staged an interesting game in the regular Junior Football League fixture on Saturday afternoon. Booth running out winner by three goals to one.

Booth won the toss and placed downhill, having the assistance of a fair wind. The east end players attacked from the start and Currie and Hong were early called on. Gomez was playing a strong game for Booth but Veitch was able to prevent any shooting till Gomez made a fine opening and beat Annesley with a shot that never gave him a chance. McGuire and Campbell got away but McGuire's parting shot went behind. Lear and Fulton were prominent and Colussi was able to add a second for Booth. Borden now staged a fine attack and Shrubbsall got clean through but lifted the ball too high and hit the cross bar whence it rebounded to be luckily cleared, a very narrow escape for Booth. Nelson went close at the other end. Lindsay and O'Neill made ground but Ritchie was safe.

Borden was not able to do much better in the second half, the Booth halves generally holding them. Bremner stopped a raid and then McMeekin shot past. Booth was attacking but the shooting was poor. Borden then took up the attack and a great shot hit the bar to go over the top. Later Blake made a good clearance from Campbell and another from Lindsay. Nelson shot weakly when he had a chance and later hung on when he should have shot. Shrubbsall got away at the other end but Blake ran out and kicked clear and soon after punched away a high bouncing shot. Booth had the better of the game till the end and Gomez added a third. Ritchie worked the ball up the field only to lose it to Houston and Lindsay got away to come in close and beat Blake for a fine goal. There was no further scoring.

Booth—Blake, Bremner, Ritchie; Fulton, Gomez, McGuire; Nelson, Munro, Colussi, Lear, McMeekin.  
Borden—Annesley, Currie, Hong; Houston, Veitch, Naylor, Lindsay, O'Neill, Shrubbsall, Campbell, McGuire.

Mrs. R. Boyd Young, who has been on a visit to Vancouver, was a passenger aboard the Catala last evening returning to her home at Port Simpson.

John W. Allen, superintendent engineer of the Dominion Fisheries, sailed by the Princess Adelaide Friday night on his return to Vancouver after a visit here and elsewhere in the district on official duties.

Henry Smith, who arrived in the city a few days ago from Stewart, left on this afternoon's train for Montreal where, on May 27, he will sail on the steamer Alauina for a visit to his native home in England.

Alex Murray of the Alberta Pool elevator staff sailed Friday night on the Princess Adelaide for Vancouver. He returned here last week from Stornoway, Scotland, to which place he accompanied the remains of William McIver, superintendent of the local elevator, for burial.

**SHIPPING MAN DIES**

(Continued from page one)

ary.  
 He made his home at San Rafael, near San Francisco and was assisted by his sons in his many interests. He was born in Falkirk, Scotland, March 29, 1844.

**Brief Education**

Dollar received a brief but fundamental education in a public school. Writing his memoirs late in life, Dollar credited his early training in thrift and temperance for his success.

With his father and brothers, Dollar went to Quebec when he was 14 and began to work in a stove factory for \$6 a month. He became a chore boy in a lumber "shanty" or camp soon afterward and in his spare time during the long winter evenings learned to figure and write. The year 1886 found him in charge of a crew of 40 men running logs down the Du Moines River, a tributary of the Ottawa, his salary being \$26 a month.

In 1874 he married and settled in Bracebridge, Ont. Two years later he adventured out on the great ice expanses in and around Georgian Bay, near Parry Sound, in order to establish new logging camps.

A search for bigger timber took him to the Marquette region in Michigan. He continued lumbering in the upper Michigan peninsula until he moved to California in 1888, and bought a timber tract in Sonoma County. In 1893 he started a mill and lumber establishment in Mendocino County, and added holdings in Washington and British Columbia.

**Active During War**

During the world war the captain turned many of his ships over to the Allies under an arrangement which permitted him to take care of his own business. His business continued to grow in the ante-bellum period and a record of his ship purchases during the years from 1921 to 1926 shows the Dollar fleets had been increased two-fold by the addition of 22 vessels.

The Dollar world passenger and freight service was inaugurated in 1924 with seven United States Shipping board boats. In 1925, he purchased five other large shipping board liners for trans-Pacific trade out of San Francisco. Early in 1926, another fleet of five shipping board boats were taken under the Dollar flag and Captain Dollar owned all the American passenger boats operating on regular schedules to the Orient.

Because of American shipping laws, many of the Dollar vessels were registered in Vancouver, B.C.

Among his lumbering interests was the lumber settlement of Dollarton on Burrard Inlet, six miles from Vancouver, where he built a model community.

**CLEAN-UP WEEK**

The City of Prince Rupert has fallen in line with other cities of Canada in organizing a Cleanup Week commencing today. It is a time when all citizens are asked to see that their premises, front and back, are spic and span with all loose cans picked up, filth cleared away and neatness and tidiness replacing slovenliness.

Citizens are also urged to repair and paint their fences, to paint the house or outbuildings if necessary and to generally keep in line with modern civilization.

Everyone knows that these are difficult times but no one can afford to look poor, even if he is poor. Much can be done at little expense to make the shop front bright, to brighten up the outbuildings or to overhaul the interior. The condition of the home has an effect on every member of the family.

Several persons were only last week making remarks about the appearance of some of the smaller stores in the city where neither landlord or tenant was willing to paint the shop front. The windows never looked really attractive where the paint on the shop front was badly worn or had a shabby appearance. The opinion expressed was that it helped business to keep the place attractive. People do not like to shop in a place that seems to be down at heel.

### Guide to Correspondents

The Daily News welcomes correspondence on live topics of the day or any other subject of public interest, but letters must be brief and to the point. The long-winded correspondent has no place in modern journalism.  
Every letter must be signed by the writer, not necessarily for publication but as a matter of good faith and courtesy. All unsigned documents go to the waste paper basket. Letters of a caustic character must have the signature appended for publication.  
Letters should be written on one side of the paper only. Correspondents must avoid personalities and the language should be such as would be allowed in the ordinary rules of debate.

## MORE CLOTHES FOR TILLIE

Keep Tillie On Her Toes  
Tillie will stand up if you paste her on cardboard before cutting out the figure. To keep it from curling, paste another piece of paper on the back of the cardboard. When it has dried, cut out close to black lines and bend back the base. Then you can dress her in her new clothes.

HERE are some more of TILLIE THE TOILER'S new clothes. At right is a smart lounging pajama suit, and in the center a new evening gown in which Mac thinks she looks stunning. The smart little jacket shown below goes with the evening gown, of course. Tillie is one of the lucky girls who can wear almost any shade, but certain colors suit her best. Which do you think they are? Make a number of tracings of the cut-outs, color them differently and try them on Tillie.  
Watch for some more of TILLIE'S new clothes tomorrow.

## Immortals and Mortals Science Church Subject

The subject of the lesson-sermon in Prince Rupert Christian Science Society on Sunday was "Mortals and Immortals."

One of the Bible texts was: "Mark the perfect man, and behold the upright; for the end of that man is peace." (Psalms 37: 37).

The lesson-sermon also included the following passage from "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "This mortal is put off, and the new man or real man is put on, in proportion as mortals realize the science of man and seek the true model."

### BASEBALL POSTPONED

The Intermediate League baseball game scheduled for yesterday between Young Sons of Canada and Young Empress was postponed on account of rain.

#### CAMP PROTEST

Editor, Daily News:—  
Last week a man in the local relief camp was sentenced to a three-month term in Okalla Prison Farm for creating a disturbance in the dining room at the camp. In the opinion of many of the unemployed this is a glaring travesty—and how!

The department of public works here has been aware for months past that the camp is in a state of perpetual discontent in regard to the rations, but nothing has been done. With a whole camp dissatisfied there is cause to investigate and remedy. It is surprising and a credit to the men in camp that there has been no serious disturbance before. Had the department investigated and removed the cause of complaint months ago, there would have been no necessity for this unfortunate occurrence. But no—for us to prefer protests through the regular channels is presumptuous on the part of parasites who are merely tolerated to exist at the pleasure of the authorities and should we be goaded into direct action either individually or collectively we become liable to imprisonment on a charge of vagrancy. The word "vagrant" applied to a worker recalls Abraham Lincoln's first speech to congress when he truthfully said: "Labor is prior to and independent of capital—without labor capital could not have existed first." Webster's dictionary defines a vagrant as a person having no visible means of support and no permanent place of abode. There are some 14 points in the Vagrancy Act in our law books. If our judges were truthful and disposed to fair play they would definitely interpret the point when our fellow workers are under accusation on this charge. On the dictionary definition a judge is falsely accusing a prisoner of something of which he is not guilty. The fact that he is a worker is fact that he has visible means of support if permitted the privilege of using the power of labor.

Without wishing to start an argument it is a fair question to ask— which is the most useful member of society, the laborer or the stock manipulator and coupon slipper who toll not nor spin? It is through no fault of ours that we have become public charges and the word "vagrant" does not apply to men in relief camps.

Fiction has nothing more grotesque than the social structure. Capital (created by labor) aided by its tool, the government (nominally appointed by the voter) conspiring to keep the working classes "on the tramp." The latter are dependent on the goodwill of an employer who can turn him loose to steal or starve as circumstance may rule.

The individual's action in the present case was no doubt hasty and done on the spur of the moment, and sentencing him will not help matters. In any event he is no worse off in jail than in Cloyah Bay camp. He will be looked after to a certain extent as far as clothing is concerned.

This latter is another grievance, camps elsewhere having been supplied. Two or three lists have been forwarded in the last five months and the only response is a request

### Spartan Athletic Club Meet After Victoria Day Now

Owing to unfavorable training conditions, the Spartan Athletic Club has been unable to hold its first meet of the season which is now postponed until after May 24 when about a dozen representatives of the club plan to visit Port Simpson to take part in a field day there.

#### ARRIVED IN PORT YESTERDAY AFTERNOON

C. P. R. steamer Princess Norah, Capt. William Palmer, arrived in port at 4:30 yesterday afternoon from Skagway and other Alaska points and sailed an hour later for Vancouver. The vessel brought 37 passengers from the north, seven of whom disembarked from the vessel here. Two passengers left here for the south on the ship.

for another list, but this is another story.  
Thanking you for the permission to voice this plea for a square deal.  
Yours very truly  
W. A. HOGG,  
Camp Secretary.

## WE RECOMMEND THESE PURCHASES

In this issue you will find a number of advertisements of real interest to you.

They offer for sale a variety of products that are often enough vital necessities. Sooner or later you will have to buy many of them anyway. You will undoubtedly buy some of those we advertise.

### WHY?

We recommend these heartily because we know from long experience that when a product bears the name of its maker and finds a friendly market throughout the country it must have survived the most exacting tests as to quality, desirability and value.

In this day when a manufacturer or merchant reaches the point where he is willing to offer his wares for sale through the advertising columns of the press, you can depend upon it that it must be worth purchasing . . . because otherwise the business wouldn't last long!
