U. S. HOUSE REJECTS SALES TAX BILL

RICH GOLD STRIKE MADE IN CROW'S NEST PASS COUNTRY

Two Shovels of Earth Yield Eight Dollars Of Precious Metal

Several Prospectors Get Fine Samples—Is Believed to Be Main Ore Body of Vein Which Caused Rush in 1867

CRANBROOK, March 26:—Two shovelfuls of earth yielded \$8 in gold to Albert Leland recently when he indulged in a little prospecting on Wild Horse Creek near here. Leland found the ground already staked by August Suren and the two men are now disputing for its possession.

A. Rawforth of Cranbrook has also brought in fine samples.

The opinion is widely held that it is on the main ore body of a field which yielded millions of dollars of gold in the rush of 1867 which had not yet been found.

ELKS DANCE ENJOYABLE

Last Year's Officers Hosts at Jolly Gathering Thursday Night—Interesting Novelties

A highly enjoyable dance was staged by last year's officers of the local Elks' Lodge, under the leadership of George C. Mitchell, 1931 exalted ruler, on Thursday night in the Elks' Home. There were about seventy-five couples in attendance and a fine time was enjoyed by all from 9:30 p.m. until 2:30 a.m. A splendid program of dance music was furnished by Charlie Balagno's Venetian Orchestra and, during the evening, some original novelty numbers were introduced, much to the pleasure of all.

The specialties included an exhibition dance, the Tango, by Miss Laura Frizzell and Bill Lambie; a burlesque Adagio Dance act by the Levinsky Bros., who turned out to be Bill Stone, Sam Joy and Joe Scott, and a flute and banjo duet by Johnny Saunders and Joe Arsenau. Each number was well received. There was a singing competition between the ladies and the men, the latter losing by default. Feature of the refreshments, which were served at midnight, were delicious hot cross buns.

George Mitchell was master of ceremonies and A. S. Nickerson presided at the door. Sam Joy was chairman and the refreshments committee of which George Rodger was also a prominent member.

INDIAN FINED

Jeames Mitchell, Hagwilget Indian, has been fined \$10 and costs with option of five days' imprisonment, by Stipendiary Magistrate R. L. Gale of Smithers for trapping on another man's trapline, divisional headquarters of the provincial police here have been informed. Fine and costs were paid.

ABOLITION OF GRAND JURIES

OTTAWA, March 26:—The bill providing for the abolition of grand juries in British Columbia was passed by the House of Commons on Thursday afternoon. Only the formal Royal Assent is now awaiting before the measure actually becomes law.

OBSTACLE TO BETTER TIMES

Weldon McAfee Tells Rotary Club It Is Desirable to Live Within Means

"One reason for the slowness of the financial recovery I believe is the refusal of the people to face facts and adjust themselves to the changed conditions," stated Weldon R. McAfee, in an address before the Rotary Club at its luncheon Thursday. "This refusal to face facts has been a great obstacle to a return to better times. At last, however, people are realizing it and adopting ways and means of carrying on under the changed conditions."

Mr. McAfee was one of the six hundred business and professional men who attended the dinner recently in Vancouver which was addressed by George Kidd in which the finances of the province were reviewed. He was intensely interested in the facts and figures there produced. A realization of the condition started the improvement in Britain where the value of the pound sterling is already rising and the bank rate decreasing. People had been playing politics too long.

No one could say what was the reason the economic structure was out of line, said Mr. McAfee. Doubtless it was due largely to the war and its consequent debt with victory for none. This was followed by a period of frenzied finance and then came the deflation.

In Vancouver Mr. McAfee said he met H. R. McMillan, who had just returned from a business tour of Europe. He had told of the conditions there, the outstanding feature being that Germany was on the verge of collapse.

Closing his speech, Mr. McAfee made a plea to his hearers to help in bringing about a more stable condition by living within their means. That was most important.

VANCOUVER WHEAT

VANCOUVER, March 26:—Wheat was quoted at 57 3/4c on the local exchange today.

CONGRESS BEATS SALES TAX BILL

WASHINGTON, D.C., March 26:—In one of the most spectacular political upsets in years, the general manufactures sales tax bill, principal measure sponsored by the administration after three months of preparation at the present session of Congress, was defeated by a vote of 223 to 153 by an insurgent house on Thursday. The House ways and means committee immediately went into consideration of alternative proposals and Speaker John Garner expressed hope that these would be successfully devised. President Hoover expressed keen disappointment at the rejection of the bill which would have brought \$600,000,000 annually in revenue.

The World's Finest Saddle

That gold in them there trappings—yes, and silver and rubies, too. \$20,000 was spent by Mrs. H. L. Music of Palm Springs, California, in securing the world's finest saddle, bridle and chaps. It's the work of a Hollywood artisan.

Victoria Wants Civic Clean-Up

Resignations of City Engineer and City Solicitor Among Others Demanded by Mass Meeting

VICTORIA, March 26:—Resignations of the city engineer and city solicitor were demanded by a mass meeting of seven hundred citizens here. A general clean-up in the municipal service, mainly in the interests of economy, was advocated.

Halibut Landings

DOLLAR AT 89 1-2c; POUND AT \$3.70

New York, March 26:—The Canadian dollar closed at 89 5-6c on the foreign exchange here Thursday. The British pound sterling closed at \$3.70 3/4c.

SUPPLIED INDIANS

John Myles was fined \$300, with option of three months' imprisonment, by Magistrate McClymont in city police court this morning for supplying liquor to Indians. Kenneth and Roger Powell, the two Indians involved, were each fined \$15 with option of 14 days' imprisonment. The whole party is serving time.

DAIL SITS IN APRIL

Crisis With London Does Not Hurry Plans of President Eamonn de Valera

DUBLIN, March 26:—In spite of the political crisis which is developing between the new Nationalist government and the British colonial office, President Eamonn de Valera states that he has no intention of calling the Dail Eireann, lower house of the Irish Free State, together until April 20.

Meantime, full consideration is being given by the Free State council to an ultimatum which was received this week from London in answer to certain demands made by de Valera in regard to the oath of allegiance and other matters.

De Valera today reiterated, in an interview, his government's intention to remove from the Free State constitution the oath of allegiance to the crown.

Hollywood Wins Baseball Game From Detroit

SAN DIEGO, March 26:—Hollywood team of the Pacific Coast League defeated Detroit Tigers of the American League by a score of 14 to 12 in a free-scoring baseball game here Thursday.

Archie Watt, divisional master mechanic for the Canadian National Railways, is spending the weekend here on official duties, having arrived on this morning's train from Prince George.

LECTURES COMMENCE

Dr. Mandy Holding Annual Classes For Prospectors and Mining Men

A series of lectures on mining subjects to be given by Dr. J. T. Mandy, resident mining engineer throughout the northwestern district, started here Thursday night. The lectures are a continuation of policy started two years ago by the department of mines, to hold instructional classes and lectures in mining. Lectures this year will develop the foundation laid by the former series and apply the principles expounded, with particular emphasis on local conditions in the district. Further lectures will be held this afternoon and tonight in the city council chamber. Others are planned for later in the year.

Thursday night there was a capacity audience of about seventy. Dr. Mandy stressed the importance of the mining industry to industrial progress and economic integrity of Canada. The northwestern area of B. C. was lavishly endowed with mineral resources. Prince Rupert was in the centre of this area. Development of northwest mineral resources was of vital interest to Prince Rupert as the fundaments of the city's industrial expansion and economic integrity. Prince Rupert besides being fish-conscious must also become mineral-conscious.

Dr. Mandy sketched theories and principles involved leading up to the formation of the earth as a unit of the solar system with the rocks and minerals composing the earth. He described the processes responsible for the present form of the earth since the initial solidification from bases and vapors forming the original nebula into molten magma gradually cooling to form the crust of the earth in which all minerals of economic importance are found.

Weathering and erosion and formation of sedimentary rocks were described. Disturbance of equilibrium of forces, setting up of new stresses and strains in the crust gradually increased to a point where readjustment must take place, resulting in pressures and tensions in the crust and folding and faulting of rocks and resultant cracking and fissuring of strata and mountain building.

Home of Metals

Dr. Mandy stressed that the home of metals was in igneous rocks and described how batholithic activity or later infection towards the crust of molten rock carrying the metals was of pressure importance in the formation of metalliferous concentrations known as ore deposits which were later bared to vision.

The Coast Range batholith was described and its importance stressed as the source of ore deposits of the northwestern district. Its genesis was analyzed and processes discussed that led up to the formation of this huge mass of deep-seated granitic rock complex. Processes involved that led to the formation of ore deposits from this granitic infection were described and likely areas and conditions under which they could be found by the prospector were indicated. It was further stressed that Prince Rupert was in the centre of one of the most important mineralized batholithic infections in the world and that every encouragement and assistance should be given the prospector who is a vital and important instrument in the furthering of Prince Rupert's industrial welfare.

RETURN OF BABY SOON

Meantime No Trace of Lindbergh Child, Kidnapped Weeks Ago, is Found—Rumored on Boat

BELIEVED ON SHIP NORFOLK, Vir., March 26:—Very Rev. Dean H. Dobson Peacock, who was responsible for the report that the kidnapped baby was being held on a boat in Chesapeake Bay, said today that Norfolk intermediaries, who are endeavoring to bring about the return of 20-month old Charles Augustus Lindbergh jr. to his parents, were still optimistic although there were no new developments of any kind.

HOPEWELL, N.J., March 26:—There is still no trace of the missing child of Col. and Mrs. Charles A. Lindbergh although the feeling is growing that it will soon be restored to its parents.

Renewed vigor was given the hunt on Thursday when reports were in circulation here that the missing child was in custody on a rum-runners' yacht in Chesapeake Bay, within 30 miles of Norfolk, Va., in charge of five men and a woman. There was no official comment other than the suggestion that this report was probably "on a par with similar rumors" which have been heard ever since the kidnapping. A vigorous hunt off the Virginia coast was instituted by the coastguard, however.

It is still felt by the authorities that the great amount of publicity given rumors when the kidnapping was first discovered has tended to delay the early return of the child.

Spring Schedule Now in Effect

Service of Canadian National Steamships Same as That During Winter

The spring schedule of the Canadian National Steamships between Vancouver and Prince Rupert is now in operation. SS Prince George, leaves Vancouver, north bound every Monday evening at 8 o'clock and calls at Powell River, Ocean Falls, Prince Rupert, Anyox and Stewart. She returns to her berth at the Canadian National dock, Vancouver every Saturday at 1:30 p.m.

SS Prince John is still operating on a fortnightly schedule to the Queen Charlotte Islands. She leaves Prince Rupert alternate Saturdays at 4 p.m., and calls at numerous island ports.

Princess Helen Visiting Royal Roumanian Son

BUCHAREST, Roumania, March 26:—Princess Helen, divorced wife of King Carol, came back to Bucharest Thursday from exile to visit her son, Prince Michael. She was given a warm welcome and was met at the border by 24 soldiers and the king's bodyguard and was given a royal salute.

Miss Allén Patmore, daughter of L. W. Patmore of this city, arrived in the city on this morning's train from her school teaching duties at Terrace to spend the Easter holiday season at her home here.

DAILY EDITION Saturday, March 26, 1932

MR. PATTULLO'S POLICY

In view of the fact that T. D. Pattullo is leader of the Liberal party and undoubtedly will be premier if the Tolmie Government is beaten at the next election, his recent declaration of policy is important to every person in British Columbia. Added to that is the fact that he is the member for Prince Rupert and undoubtedly will again be a candidate for legislative honors at the coming election. Here is what the Victoria Times says of his speech:

"An arresting feature of Mr. Pattullo's speech on the budget was his declaration of general policy as the head of the Liberal party of British Columbia. More than ordinary significance should be attached to his statement because it is the deliverance of one who has had twelve years of experience as a member of a government in this province and the head of one of the most important departments of the provincial public service.

"Mr. Pattullo announced that if he were returned to power in the next election he would immediately take stock of the financial condition of the province to assure a proper balance between income and expenditure, something which does not now exist. He would reorganize the civil service without fear or favor. He would facilitate an investigation of our economic condition by a commission of competent, public-spirited citizens.

"Mr. Pattullo would have an investigation of the relations between the government and municipalities in regard to financial matters, with a view to co-operation instead of conflict between the two representative institutions. Under present conditions the municipalities feel that the government is trying to balance its budget at their expense, that it does not care what happens to them as long as it feathers its own financial nest. Mr. Pattullo's policy would be based upon the incontrovertible fact that the inhabitants of the municipalities pay most of both provincial and municipal taxation, and that therefore the transfer of taxation liabilities from one to the other benefits neither in the long run.

"Land settlement is another important feature of Mr. Pattullo's policy which he has emphasized frequently within the last few years. He realizes that following the present depression there is bound to be an important shift of population, particularly on this continent. There never has been an economic relapse either in Canada or the United States without a big movement of people from districts fraught with disagreeable associations to new regions suitable for home-making. British Columbia has many opportunities for home-seekers, and Mr. Pattullo shows foresight in urging that we should prepare for this inevitable development. Even now, settlers are moving in growing volume into the unsettled regions of Ontario and Quebec, and before long that movement will strike the west in increasing proportions.

"Mr. Pattullo also would have the question of education studied with a view to maintaining its efficiency, and to give to those associated most actively with it a more definite sense of security than they now appear to have.

"At best, however, declarations of policy by leaders of oppositions can not be more than generalizations, since these can only be definitely determined in the light of the conditions which must be met in office. Mr. Pattullo, of course, realizes this. He realizes, too, that he will inherit problems of the most formidable character, but he has both the understanding and courage necessary to the solution of those difficulties in the best interests of the province."

A SATURDAY SERMON

The Spirit of Easter

What can be more fitting than that the message this Easter to the citizens of Prince Rupert and district should be from the pen of the late Archbishop Du Vein? It was he who helped lay the foundation of Christ's Kingdom in this northern country, and on Easter Day, twenty-five years ago, opened the first building dedicated to the worship of God in this city.—J. B. Gibson.

A great annual festival which has been celebrated with unbroken continuity for over eighteen hundred years is something which cannot be ignored. Observed by people living on every continent, not only in crowded cities but also in remote corners, its psychological effect in producing a wave of inspiring thought which sweeps the world is very great.

The spirit of Easter is the spirit of the fullness of life and the brightness of hope, which rises triumphantly over every obstacle. This spirit is exemplified by analogy in the springtime of nature. The buried seed passes through the gloom of death and bursts forth into the brilliant flower.

This spirit of hopeful life received its highest historic revelation in the Person of Christ, whose material body was once crucified on the cross and buried in the tomb, but whose living personality could not be crushed or destroyed by death, but rose triumphantly above every physical limitation, as the influence of His Spirit over the minds of millions today abundantly testifies.

The Practical Meaning

This spirit of hopeful life is now being manifested in various practical ways by many ordinary men and women, who through the spirit of

their personality are rising successfully above their cramping circumstances in their achievement of a noble purpose, organizing victory out of apparent defeat.

This spirit of hopeful life will find a fuller expression when we make the thrilling discovery that while our body of flesh and blood cannot pass into the kingdom of the spiritual, our soul when united to God through the Living Christ has the power of clothing itself with a new body more ethereal in its nature and therefore better adapted for the environment of a more spiritual sphere.

Personal identity does not lie in material particles but in spiritual personality which thinks and remembers, loves and chooses. The spirit of the fullness of life and the brightness of hope rises victoriously above the decay of the transient flesh and the limitations of the grossly material. The joy of Easter is the joy of a progressive life ever adapting itself to its new environment in a more spiritual body. St. Paul distinctly tells us that "our body which shall be" will not be the same as "our body which now is," though our identity of personality will continue.

"Leaving thine outgrown shell by life's unresting sea."—F. H. Du Vein, Archbishop of Caledonia.

The tune of the Chevrolet Six motor appealed to the seven members of this orchestra composed of Indian players at Smithers, B.C., and each of them purchased a car from W. J. O'Neill, president of Smithers Garage and Electric Company, shown on the left. This musical septette is well known throughout British Columbia.

EAST MAKES BEST SHOWING

Manager of Financial Concern Visiting City Sees Great Prospect For West

The Maritime Provinces and Quebec are today financially the best provinces in the Dominion, judging by collections, according to N. Macphee, manager of the Universal Acceptance Corporation of Toronto, the firm that finances the deferred payments for the DeForest Crosley Radio Corporation. He is spending a few days in the city in connection with his business, and is visiting with his brother David Macphee, 236 Ninth Avenue East.

Mr. Macphee has visited every city in Canada this year and many of the towns and villages and has made a close study of conditions. He says that the collections in the Maritimes and Quebec are under 3%. In Ontario they are 53% and in the west they are higher, but the condition is not unfavorable. British Columbia is different from every other province, according to the visitor. It is different in

Manager of financial concern visits Prince Rupert.

topography and in every other way. He is satisfied that his firm will be doing big business here soon. He also expressed himself as much pleased with Prince Rupert. He spent yesterday driving around and taking in the sights and he enjoyed it extremely. He expects to remain in the city until Monday.

Joint Service On Good Friday

United and Baptist Churches and Salvation Army United Yesterday

The United Church, Baptist Church and Salvation Army united yesterday in a Good Friday service at 11 a.m. which was well attended. Leaders of the respective congregations took part. Captain Steele reading the scripture, Rev. F. W. Dr. Daffoe leading in prayer and Rev. A. Wilson preaching the sermon. The service was held in the United Church.

What a \$10,000 "Family Income" Policy Will Do

If you do not live to age 65 this Company at your death will commence to pay your family \$100 per month and will continue to pay this amount until you would have reached age 65.

In addition

\$10,000 will be paid on the 65th anniversary of your birth. This amount will be paid in one sum, or if desired, in instalments. (In the latter event, excess interest dividends will be added to the instalments.)

If you live to age 65

the Policy may be continued as an Ordinary Life Contract at a reduced yearly deposit or surrendered for its cash value which may be taken in one sum or as a monthly income.

Dividends

Liberal dividends are allotted yearly, the first distribution being at the end of the FIRST policy year.

When TEETHING makes HIM FUSSY

One of the most important things you can do to make a teething baby comfortable is to see that little bowels do their work of carrying off waste matter promptly and regularly. For this nothing is better than Castoria, a pure vegetable preparation specially made for babies and children. Castoria acts so gently you can give it to young infants to relieve colic. Yet it is always effective, for older children, too. Remember, Castoria contains no harsh drugs, no narcotics—is absolutely harmless. When your baby is fretful with teething or a food upset, give a cleansing dose of Castoria. Be sure you get genuine Castoria with the name:

Miss M. McLean arrived in the city on this morning's train from Hazelton to spend the Easter holiday season visiting here with her parents, Mr. and Mrs. H. A. McLean, Green Street.

C.P.R. steamer Princess Adelaide, Capt. S. K. Gray, arrived in port at 2:45 yesterday afternoon from Vancouver and sailed at 10 p.m. on her return south. The vessel had a light passenger list but a good freight cargo of four carloads for here.

Capt. Andrew Johnstone for years master of the Union steamer Cardena, was paying his last visit to this port last night before assuming his new duties in the pilotage service to which he was recently appointed. It is not learned yet who his successor in command of the Cardena will be.

WHAT IS SUCCESS?

Pride and Satisfaction in Work Well Done Illustrated In Prince Rupert

This "will of the wish" called success—what is it? And when achieved, does it bring that elusive phantom called happiness? What brings these gifts of the gods? Ask your next door neighbor that question, and he will probably say, "Give me a million dollars and I'll be happy." But pick up the daily paper, and see the men with millions, who apparently are desperately unhappy, so much so that they choose the quickest way out.

The next man you ask will say, "Give me power, and I'll be happy." But who today envies kings, presidents, or prime ministers?

No. Success and happiness do not lie that way. Oftener they lie in the humble paths of life. A craftsman produces an article and in the achievement he is lost in happiness. Plain Tom Brown is building a small house for himself, and family. He has planned it carefully and gradually he sees the finished product take form before his eyes. He is happy. A manufacturer produces an article in which he takes a great pride. It is the very best that skill and knowledge can produce. He is happy in this work and to that extent he is successful.

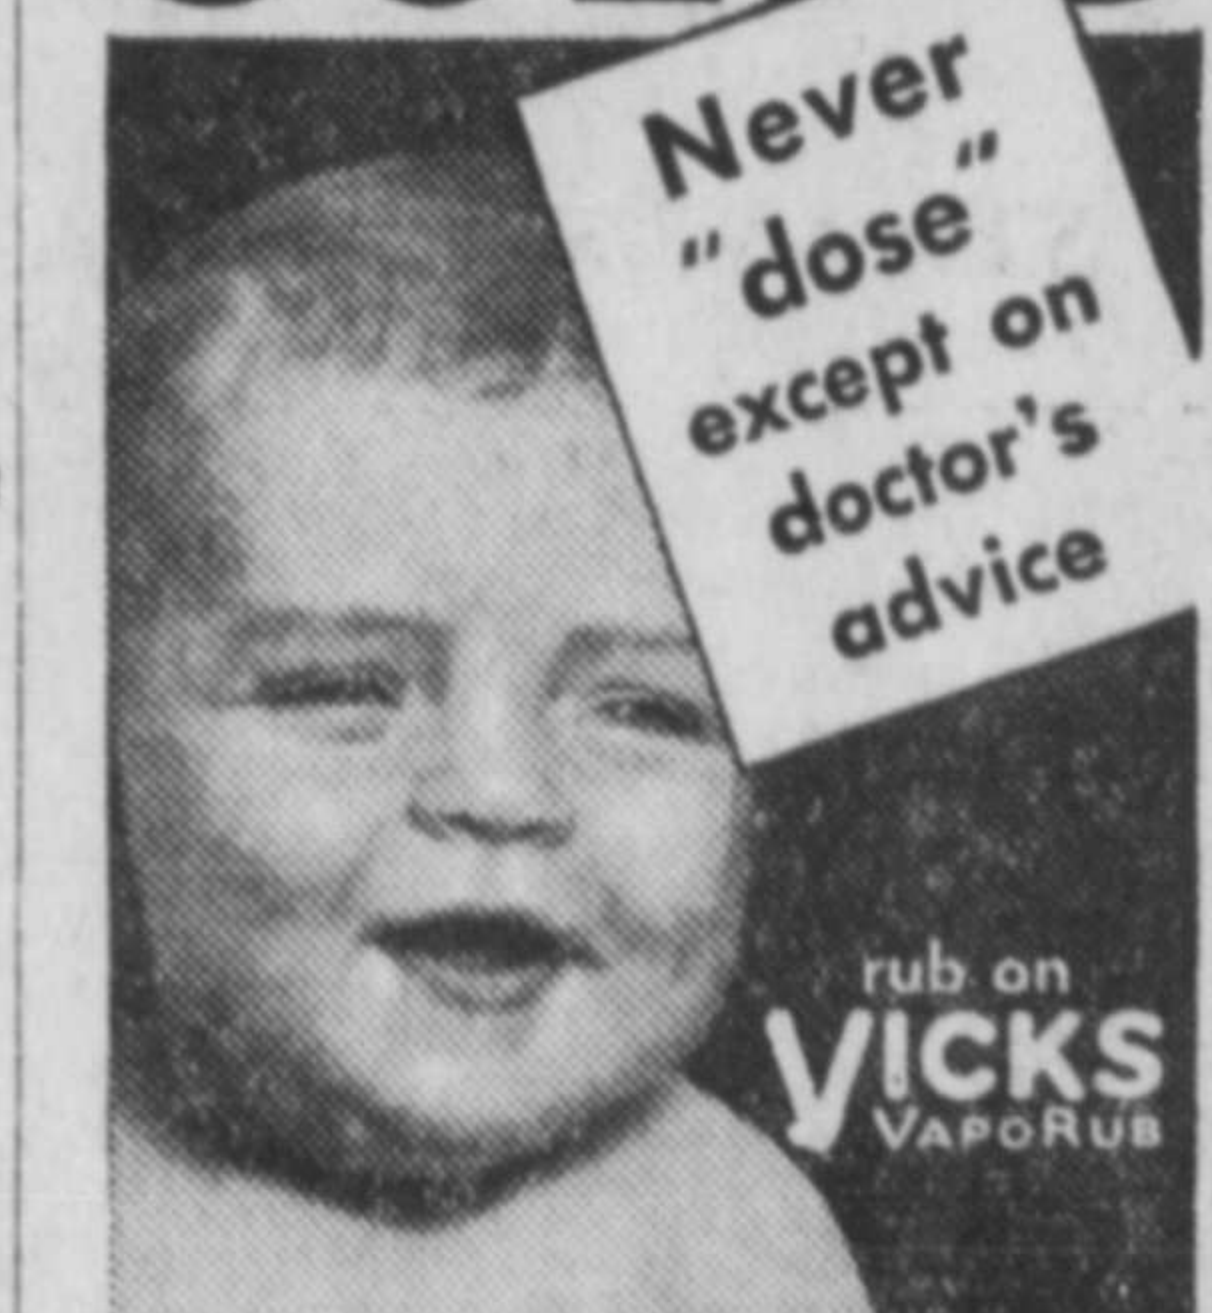

Making a good article is a matter of pride and satisfaction. This applies to all commodities, even the making of Coffee. Take, for instance, the product made by the local firm of Stewart & Mobley, Ltd. Supreme Coffee is the best. No effort is spared to produce the very finest Coffee that skill and experience can produce, and in that effort they get a great amount of satisfaction.

Are You an Eagle? If Not — Why Not?

There is to be a great all-day parade Sunday and Monday to the only cafe in town operated by an Eagle member. Beware of infringers, as without experienced white help in the kitchen it can't be done. The greatest chicken and T-bone steak dinner in Prince Rupert for the money will be put on these two days at the Fleet Cafe on the waterfront. You will get chicken, not a mixture of pork with it. (71)

A meeting of the Carpenters' Union was held last night when matters concerning the trade were up for discussion. Another meeting will be held soon. George Dungate, the president, was in the chair.

LOCAL ITEMS

Conductor T. M. Spencer arrived in the city on this morning's train from Smithers to spend the week-end at his home here.

Beatrice and Eric Berner left on yesterday's train to spend the Easter holidays visiting with their uncle, Adolf Berner, at Telkwa.

Mrs. Annette Stone sailed by the Prince George Thursday night on her return to Vancouver after one of her periodical business visits here.

Union steamer Cardena, Capt. Andrew Johnstone, arrived in port at 6:50 last evening from the south and sailed at 12 midnight on her return to Vancouver and waypoints.

A Sanford, New Westminster auditor and prominent football player of the Royal City, sailed by the Prince George Thursday night on his return south after a week's business visit here.

"THESE HARD TIMES"

"The hard times and scarcity of money makes it more important than ever to economize. One way I save on clothes is by renewing the color of faded or out-of-style dresses, coats, stockings, and underwear. For dyeing, or tinting, I always use Diamond Dyes. They are the most economical ones by far because they never fail to produce results that make you proud. Why, things look better than new when redyed with Diamond Dyes. They never spot, streak, or run. They go on smoothly and evenly, when in the hands of even a ten year old child. Another thing, Diamond Dyes never take the life out of cloth or leave it limp as some dyes do. They deserve to be called 'the world's finest dyes!'"

RESULTS IN BILLIARDS

Several Games Played But Neither of This Week's Junior League Fixtures Completed

The lead of Empress over League of Nations in the Junior Billiard League fixture from last Monday night was built up to 571-507 when Pete Chenoski, Empress, defeated Primo Vaccher yesterday. Two games remaining to be played in this fixture are: Roy Fong (League of Nations) vs. A. Zadaroski (Empress) and Frank Aldridge vs. Geo. Howe.

Three out of five games were played in Thursday night's fixture between Hawks and Jewelers, the Hawks taking an aggregate lead of 565 to 547. Individual scores: John May (Hawks), 200; John Bulger (Jewelers), 186. W. Hutson, 165; L. Raabe, 200. Chris Perry, 200; Alex Strachan, 161.

Games remaining to be played are: Roy Wicks (Hawks) vs. William Stuart (Jewelers) and William Murray vs. Johnny Saunders. It is planned to run off all postponed games this week-end.

Bridge and Whist Party Enjoyable

Affair Held Thursday Night in Metropole Hall By Ladies' Orange Benevolent Association

The Ladies' Orange Benevolent Association held a successful and enjoyable bridge and whist party Thursday night in the Metropole Hall. There were twenty tables of cards and prize-winners were:
Bridge—Ladies' first, Miss Grace Howe; second, Mrs. J. Lawrie; men's first, James Krikevsky; second, S. M. Newton.

Whist—Ladies' first, Mrs. Thomas Beattie; second, Miss Gilker; men's first, Dan Archie; second, H. Smith.
After cards, delicious refreshments were served and an hour's dancing followed with music by Mrs. J. S. Black and Bert Cameron. Fred Boulter was master of ceremonies and the committee in charge consisted of Mrs. Alex Macdonald, convener; Mrs. Barber, Mrs. Jack Preece, Miss Dolly Smith, Mrs. Connery and Mrs. George Geddes.

WEATHER REPORT

Dead Tree Point—Raining, light southwest wind; barometer, 29.88; temperature, 46; sea choppy.
Langara Island—Overcast, light southwest wind; light swell.
Triple Island—Raining, strong southeast wind; sea moderate.

The quarantine ban at such points as Anyox, Ocean Falls and Powell River, under which it was required that any passengers arriving at those places should have been recently vaccinated, has now been lifted as a result of the amelioration of the epidemic of small-pox in Vancouver.

Yankees Defeat St. Louis Cards in Baseball Game

ST. PETERSBURG, Fla., March 26—Babe Ruth's home run gave the New York Yankees a close victory over St. Louis Cardinals in a spring training baseball game here Thursday.

SPORT CHAT

John McGraw, as the king of managers, is the outstanding headliner of the New York Giants. He has been running things at the Polo Grounds since the spring of 1903. Great ball players have worked under him during that long period but most of them are now forgotten. McGraw, always the personification of victory, with ten National League championships to his credit, is the New York club's mainstay. He does not wear a uniform and take a place on the third base coaching line any more, but he is the favorite of millions of fans.

Temporarily deserting the resin centres around Broadway and other eastern spots, Billy Townsend is to take on Joe Goodman of Cleveland in a 10-round main event in the Olympic Auditorium, Los Angeles on April 5. Wad Wadhams signed Townsend for the Los Angeles date and Jack Allen is now bickering with Armand Vincent, Montreal promoter, who offers the blonde batter a mix with Bat Battalino in the Forum at Montreal in May.

CANADIENS WIN FIRST PLAY-OFF
MONTREAL, March 26 — Montreal Canadiens defeated New York Rangers by a score of 4 to 3 here last night in the first game of the play-off series for the championship of the National Hockey League.

District News NEW HAZELTON

According to information received here from a private source, it is understood that, when the redistribution bill is introduced in the Legislature at Victoria, it will be found that the riding of Skeena has disappeared with the territory being divided between Prince Rupert and Omineca and the Hazelton section in Omineca.

Mrs. George D. Parent left on Monday for Vancouver where she will spend the Easter season with her two sons who are attending school there.

Rev. S. V. H. Redman held a special service in the Hazelton United Church on Good Friday, his subject being "Life of Christ in Verse." The lecture was illustrated.

Before they departed for Vancouver last week, Rev. and Mrs. Bannister were presented with a substantial purse by the people of Hazelton. They have gone south on account of Mrs. Bannister's continued ill-health.

The men were in attendance when the Felix Bridge Club held its meeting on Tuesday night at the home of Mrs. John Newick, James Turnbull and Mrs. W. W. Anderson were the prize-winners.

Plans for the new community hall at Hazelton have been prepared by M. A. Myros. The building will measure 85 by 35 feet with a dancing space of 55 by 35 feet. If lumber is used, the cost of the building is estimated at \$3,000 with \$500 saved by using logs.

L. F. Coles of Prince Rupert has been visiting Hazelton during the last few days.

PROGRAM ENJOYED

Sacred Music Offered at St. Andrew's Anglican Cathedral Last Night

The augmented choir of St. Andrew's Anglican Cathedral rendered a fine Good Friday special program of sacred music in the Cathedral last night, the attendance being so large as to tax completely the capacity of the church. The program was greatly appreciated by all.

The first part of the program consisted of the rendition of four anthems, "Watchman, What of the Night?" (Sargent-Field), "Pilgrim's Chorus" from Tannhauser (Wagner), "Into the Woods My Master Went" (Nevin) and "By Babylon's Wave" (Gounod).

For the second part of the program, the cantata "The Crucifixion" (Stainer) was splendidly rendered. Soloists for the evening were Dr. R. Geddes Large, J. E. Davey and H. Lincoln. Mrs. E. J. Smith presided at the piano and Peter Lien at the organ.

Dean Gibson presided, offering the opening prayer and making the announcements.

The fire department had a call at 10 this morning to the tailor shop of Sharnan Co. in the Washington Block on Second Avenue where there was a smoke scare which did no damage.

Local Items

Today's train from the East was twenty minutes late this morning, arriving at 11 a.m.

E. M. McCrea of Topley arrived in the city from the interior Thursday's train for a brief visit to town.

Miss H. C. Tuck of Port Simpson is paying a brief visit to the city having arrived yesterday from the neighboring village.

J. T. Harvey of the law firm of Williams, Manson, Brown & Harvey, returned to the city on this morning's train from a trip to Smithers on professional business.

Adam McIntosh of the C. N. R. freight department staff here, returned to the city on this morning's train after paying a visit to his native home in Scotland.

Capt. W. P. Armour, local manager of the Pacific Salvage Co., returned to the city on the Cardenas last evening from a brief business trip to Vancouver.

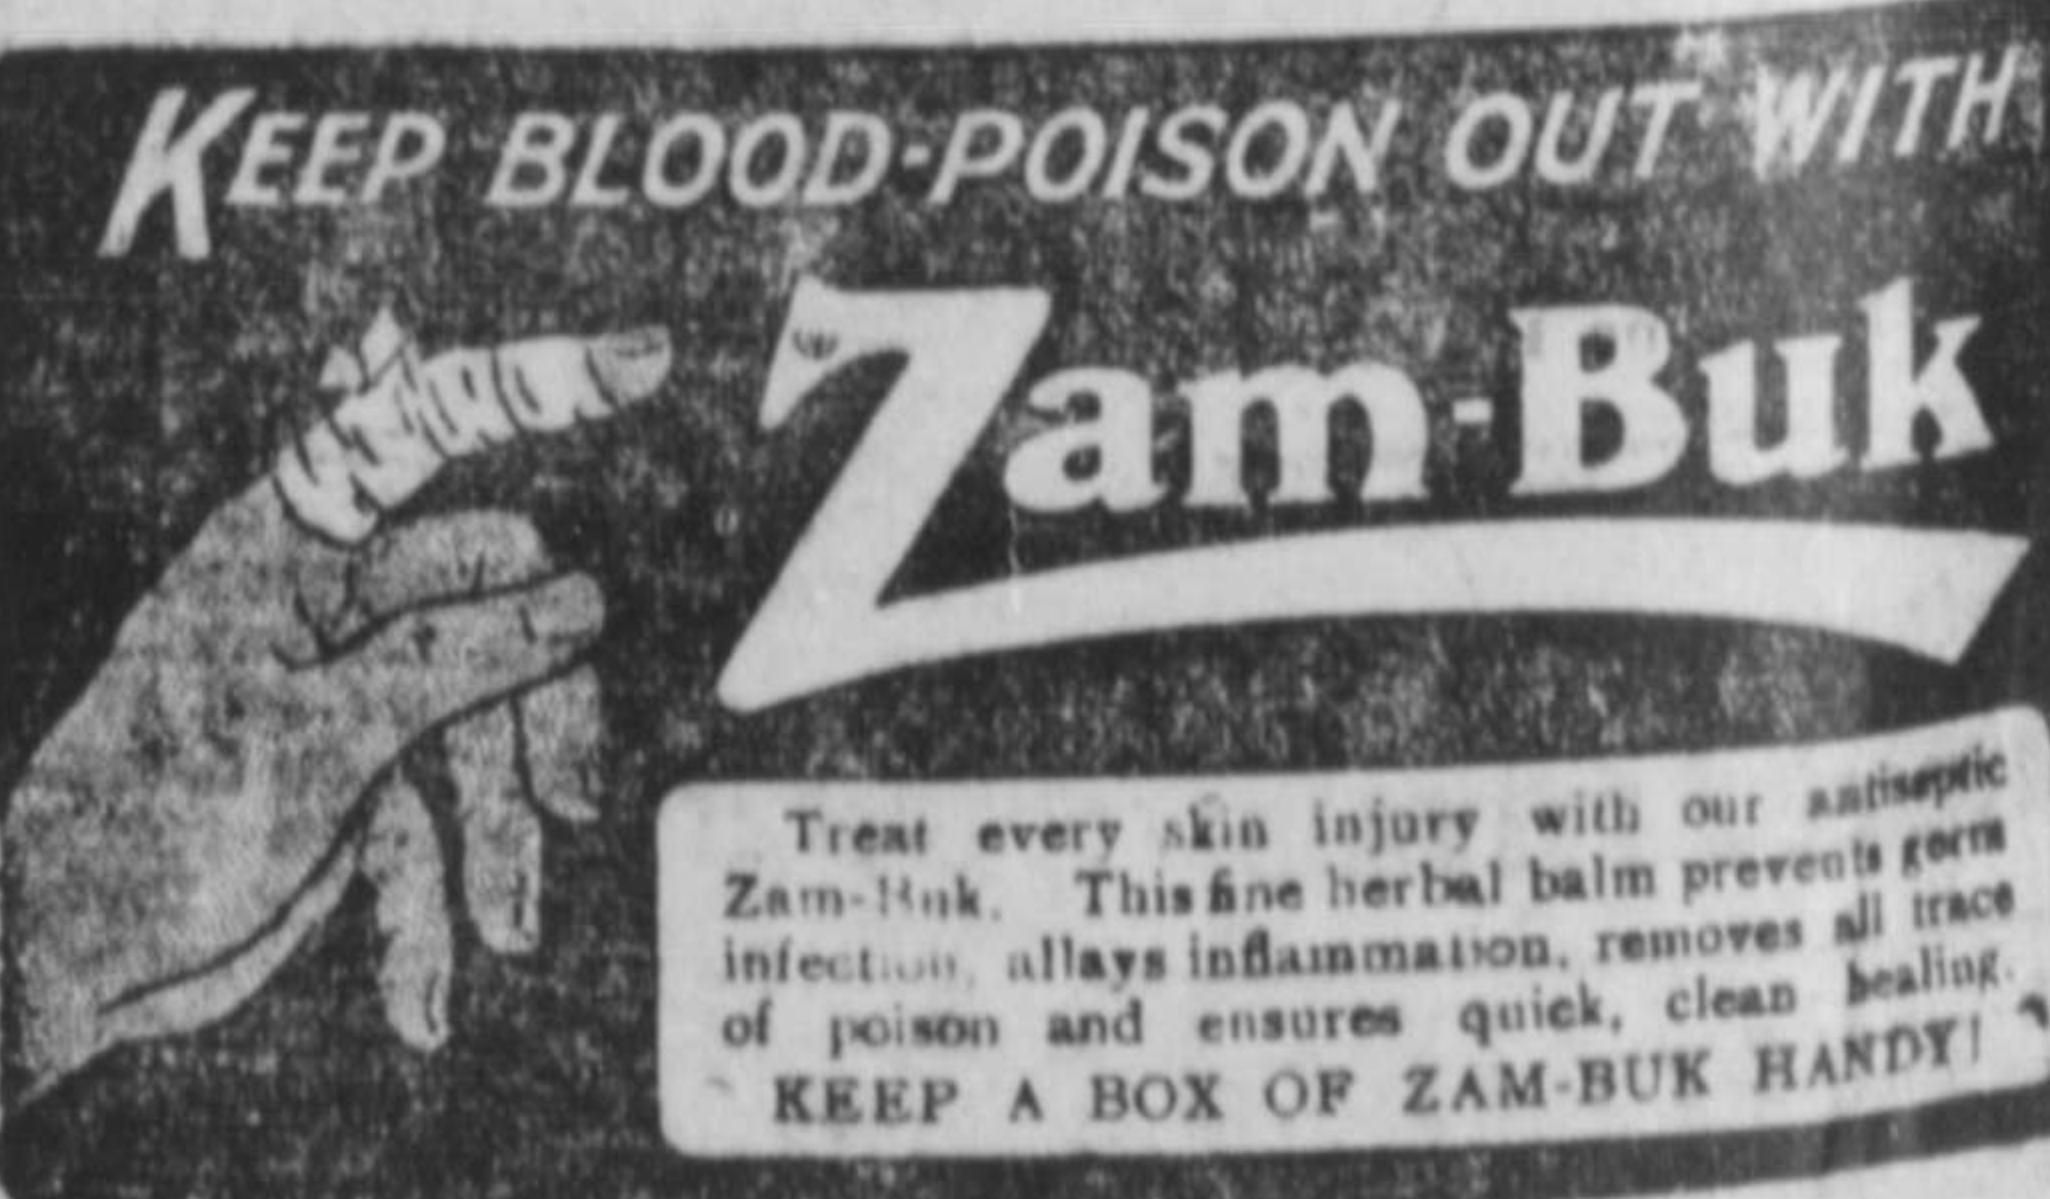

Proceeds of the sale of pupils held Thursday afternoon among children of the various schools of the city by the Prince Rupert Parent-Teachers' Association were very satisfactory. Mrs. W. W. C. O'Neill was among those in charge.

The Daily News will appear usual on Easter Monday.

MORE than ever, life insurance is a boon to all—to the *Uninsured* as well as the *Insured*.

As its premiums accumulate they are promptly used to assist in purchasing homes, in aiding farmers and financing industry—thus keeping Canadian citizens gainfully employed.

It insures more than Life—it helps to provide work for the Breadwinner, and Food, Comfort and Shelter for his family.

It supports the Nation, too—the collective enterprise of all the people. During the Great War, for instance, the Sun Life Assurance Company of Canada itself subscribed for \$70,000,000 Canadian and allied government war loan bonds.

Last year the Sun Life subscribed \$23,000,000 to Canadian government issues. A portion of the proceeds of these loans was to relieve unemployment. Even the jobless share indirectly in the benefits of life insurance.

...in times like THESE

The Sun Life is an important factor in restoring prosperity to Canada. For over sixty years it has been privileged to serve its policyholders and proud to serve the State. To-day, its world-wide organization and facilities make it more serviceable than ever to the whole community.

"How do they do it?"

Among your friends there's sure to be at least one smart young married couple who are the envy and admiration of all who know them.

With an income that is frankly abbreviated, and with no benevolent Aunts in the offing, they still have a home that is correct and comfortable in all its appointments, a home that is admired and copied by their friends.

"Yes, Jane is a remarkable little manager," will probably be the young husband's proud answer. And there is little doubt about it.

THEY DO IT THIS WAY

Take a look around that home and you will find no end of well known advertised products. For Jane is an efficient little manager. She can't afford to take chances that must only be debited to "Experience." When she buys for her home she must get tried and tested and trusted products which carry an honorable name to guarantee her satisfaction.

You will find that Jane is a consistent reader of the advertisements. Are you?

Let the Daily News Classified Ads. work for you.

WATERFRONT WHIFFS

Halibut Catch Lighter and Prices Somewhat Better; Salmon Scarce in Warke Canal and Elsewhere

With volume of landings greatly decreased owing to many of the boats being tied up because of weak market conditions, prices for halibut at Prince Rupert during the week of March 19 to 25 inclusive showed a tendency towards improvement. During the week only 233,800 pounds of fish was landed of which 148,800 pounds was from Canadian vessels and 85,000 pounds from American. This brought the season's landings for 1932 up to March 25 up to 1,258,450 pounds of which 672,750 pounds was from Canadian vessels and 585,700 pounds from American.

The high price of the week for Canadian fish was 5.2c and 2c which the Borgund, Helge H. and White Hope received for catches of 1,090, 5,000 and 9,000 pounds respectively and the low 4c and 2c which the Aleve, Sea Maid and Takla received for 4,000, 11,000 and 33,000 pound catches respectively.

For American fish the high price of the week was 7.5c and 2c paid the Jarland for 14,000 pounds and the low 4c and 2c received by the Constitution for 26,000 pounds.

In the near future, it appears, nobody will be in danger of death by choking through a fishbone in the throat. All fish is to be filleted. In this connection, there is about to be launched a big campaign to persuade the public to eat only filleted fish. This has been made possible by the invention of machines capable of automatically taking all the bones out of most of the edible fish at the rate of between two and three thousand per hour. The first machine invented for the mass-filleting of fish has been applied to the kipper, and other now in course of manufacture will enable most of the edible fish to be sold already filleted.

There has been an exceptionally light run of salmon at Warke Canal and vicinity during the past week. A number of boats have been out but the catch has been practically nil. The Flewin & Brown packer Taplow II was in on Wednesday but had no fish. Thirty boats are reported to have caught only two fish in one day. On Thursday Billy Green of Port Simpson brought in 300 pounds.

Canadian fishing interests are likely to be affected, if only indirectly, by a huge merger now under way in the Japanese fishing industry, designed to result in lower cost of production. Competition of low priced Japanese and Siberian salmon has been one of the most serious factors in the Canadian salmon business during the last two seasons. The gigantic Mitsui and Mitsubishi interests are reported to be fighting for the control of the great Nichiro Fishery. Mitsubishi money has been behind the Nichiro enterprise for some years, but now through the purchase of stock Mitsui is making a bold bid for domination. Nichiro is capitalized at \$20,000,000. Financial interests have already succeeded in effecting a merger of most of the larger crabmeat companies, which do an enormous business, a large proportion of their pack being marketed in North America. Floating canneries aggregating 60,000 gross tons are involved in this consolidation, which is one of the most important business mergers to be consummated in Japan in recent years.

The latest fish story told by two handliners from the Canadian fishing village of Wilson's Beach, across the harbor from Eastport, Maine, entails a new method of lobster catching. While trawling off The Wolves a few miles out in the Bay of Fundy recently, they found a very heavy object on their trawl which took the combined efforts of the husky fishermen to haul up from the deep into their boat.

Their visions of a heavy catch gave way to expressions of amazement when it proved to be a small stove of the type used in small boats for cooking. And in the oven, a big 10-pound lobster was waiting to be cooked.

FILM IS EXCITING

Jack Holt Star of Big City Picture Now Showing at Capitol Theatre Here

Excitement, thrills, romance and drama are all contained in the feature picture, "The Last Parade," on the Capitol Theatre screen here this week-end. The picture presents the highlights in the career of an overlord of the underworld, the leading character being portrayed by the over-popular veteran of the screen, Jack Holt. The chief feminine role is played in excellent fashion by Constance Cummings.

The central figure in the story, Cookie Leonard, is thrust into the life of a racketeer by desperate circumstances and becomes at last the dominant factor in gang activities which infest a large city. His power is challenged by another racket leader and considerable violence ensues. On the heels of this violence follows the vengeance Cookie Leonard exacts from his rival, Big Marino. Then the law drops its heel on the neck of Cookie and, from that point on, the stirring story mounts to a startling climax.

In addition to Miss Cummings and Holt, the cast includes such well known actors as Tom Moore, Gaylord Pendleton, Robert Ellis and Edmund Breese.

Twenty Years Ago

In Prince Rupert

March 26, 1912

A meeting of French-Canadian supporters of A. M. Manson in the provincial election was held last night in the Liberal committee rooms. Thomas Trotter presided and the principal speaker was Frank Amgers. A sensation was caused when D. Segouin, always regarded as a prominent Liberal, made his appearance at the meeting as a supporter of William Manson, the Conservative candidate.

Three prospective lot purchasers had quite an experience last night when they became lost in the dark bush while returning from a trip across Hays Creek to size up some property beyond Lover's Lane.

"G.P." Tires will give you more service than any others. The new tough "Resisto" tread is built to meet the strain of high speeds and the grinding effect of quick braking—the famous "Gum Cushion" feature completes a tire protection you cannot buy in any other standard tire sold at a similar price.

100% Canadian. The Tire That Gives Satisfaction.
