SIGNIFICANT FINDING OF SIR ALEXANDER GIBB, BRITISH ENGINEER, ANNOUNCED TODAY WITH TABLING OF ROYAL COMMISSION RETURN

Drastic Action in Regard To Ports of Canada Urged

Would Abolish Harbor Commissioners at Each Port and Set Up Central Board in Ottawa With Individual Managers

OTTAWA, April 8.—Dealing with Vancouver, the report of Sir Alexander Gibb, British expert, on Canadian harbors, presented to the House of Commons today, views arguments in favor of Peace River grain coming to Vancouver as very strong but states that this goal can only be obtained if the port is protected from the establishment of a competitive port further north and infers that, if the central harbor board at Ottawa is appointed, this question will be decided "upon the broad grounds of national policy," particularly in consideration of the fact that a port further north of Vancouver "could only exist on direct or indirect subsidization."

Lashing out at the present system of administration of Canadian ports, Sir Alexander, who is a noted British port engineer, in his report as a Royal Commission for the federal government, recommends the abolition of all harbor commissions and the establishment of a central board at Ottawa to administer the ports. The central board would be under the jurisdiction of the Department of Marine, independent of the deputy minister and answerable only to the minister of marine. The body would have a personnel of three—a controller of harbor finance, a director of port engineering and a director of port operations. A harbor manager would be appointed to each port. This officer, under the central board, would be assisted by a purely advisory committee composed of outstanding citizens named by the provincial government, the municipal council, the board of trade, the steamship companies, the railway companies and the labor unions.

Most of the capital expenditures of all harbors, with the exception of Montreal and Vancouver, should be written off, Sir Alexander declared. The report was tabled in the House of Commons today.

Inquires About Road Spendings In Fort George

Dr. J. J. Gillis, Liberal member for Yale, has been asking some questions in the Legislature at Victoria regarding road expenditures in the Fort George district.

In one question, Dr. Gillis asked if any amount was spent from September 1, 1928, to December 31, 1931, on Davie Lake road north of Summit Lake. If so, what total sum was spent on such road during 1929, 1930 and 1931, and for what class of traffic is this road available?

In another question, Dr. Gillis inquires if any amount was spent since September 1, 1928, in connecting the Bellos ranch with the Quesnel-Prince George highway and, if so, what was the total amount so spent?

A closed fist is seldom governed by an open mind.

STORE IS ENTERED

Loose Silver and Cigarettes Taken From F. E. Hunt Establishment on Waterfront

Some time between 9 o'clock last night and 6 o'clock this morning the F. E. Hunt Ltd. marine outfitting store on the waterfront was broken into, loose silver from the cash register as well as a quantity of cigarettes being taken. Entry was obtained by forcing the sash of the side office window and climbing in.

The breaking and entering was reported to the police at 6 o'clock this morning since which time investigation has been proceeding.

The cash in the register which was removed amounted to about \$6 while the value of cigarettes removed is estimated at \$10 or \$12.

BORROWING INCREASED

C.P.R. Permitted Under New Bill to Raise Up to One-Half of Company's Property Investment

OTTAWA, April 8.—Under the terms of a bill approved yesterday by the railway committee of the House of Commons the borrowing powers of the Canadian Pacific Railway are increased to an extent where the company may issue consolidated debenture stock to an amount which, with secured obligations of the company outstanding, shall not exceed one-half of the company's property investment.

Course of Law Alleged By Magistrate G. Jay Was Tampered With

Permissive Adoption of Three-Man System Elsewhere in Province Advocated by Attorney-General in Legislature

VICTORIA, April 8.—Immediate abolition of the police board of Victoria consequent upon a complaint made to him by Magistrate George H. Jay and permissive adoption of the Ontario three-man system in other parts of the province was recommended by Hon. R. H. Pooley, attorney-general, in the Legislature yesterday. The attorney-general was speaking on proposed amendments to the Municipal Act.

The recommendation in regard to Victoria, Mr. Pooley explained, arose from charges that the board had interfered with the course of law on more than one occasion.

PASSING OF GEN. CLARK

Noted Vancouver Soldier Won Distinction in War; Prominent Broker

WAS IN KLONDYKE

VANCOUVER, April 8.—General Robert Percy Clark, one of British Columbia's outstanding soldiers in the Great War and for many years a leader in Pacific Coast financial circles, died in hospital shortly before noon today. He was born in London, England, on April 17, 1874. Before the War he lived at Victoria and was president of the Western Motor & Supply Co. and the Sun Rubber Co. Ltd. while there.

Educated at Broadstairs College in Kent, England, the late General Clark was attracted to Western Canada by the Gold Rush and went to the Klondyke in 1897. He went to Victoria in 1900 but went to the Boer War in South Africa the same year and returned to Victoria in 1906 when he went into business. While in South Africa he served with the Seventh Irish Fusiliers, the Kimberley Regiment, the Diamond Field Horse and the Diamond Fields Field Artillery. He won the King's and Queen's Medals.

Returning to Victoria, General Clark retained his interest in military affairs and was captain of the Fifth Regiment C. G. A. He went overseas soon after the outbreak of the Great War and during the conflict rose to the rank of a general.

The late General Clark is survived by a widow and two sons and two daughters. He was a member of the Masonic Order, Sons of England and Eagles. His recreation was polo. He was a Conservative and an Anglican.

TAXES PILING UP

Taxes are piling up from all governments, city, provincial and federal, and people are being inundated with demands for money that they do not have. The income tax collector will ask for money that is already spent. The sales tax collector will take toll from everything we eat or wear. Every avenue of taxation has been pre-empted by at least one of the governments and some of them by more than one. The people are somewhat in the position of the man in the parable who when he had nothing found that even that was taken away from him.

The budget speech delivered at Ottawa is pretty much what was expected. It is useless to criticize it because we all realize that the budget must be balanced. Yet that does not make it easier to pay the bill. The system, under which when people are unable to pay the taxes are increased and when they are able to pay the taxes are lightened, is a curious one. It resembles the banking system under which when you have plenty of money the bankers are willing to lend you almost any amount but when you really need to borrow the doors are closed against you.

TAXES AFFECT CUSTOMS

The new taxes will doubtless have some effect on customs of the people. Take for instance the issuing of checks. Bank restrictions have diminished the number of checks in use already and the increased stamp will have an effect in inducing the payment of accounts in cash instead of by check, possibly to the extent that the revenue expected will not be realized. There always comes a breaking point in the matter of taxation beyond which it is not wise to go.

INDIGNANT CITIZEN

A letter has been received from "Indignant Citizen" in answer to "Also a Citizen" complaining of what he characterizes the "outrageous prices" charged for hair cutting. We cannot publish his letter because he has omitted the one thing necessary for entry to The Letterbox. It is to sign the name of the writer, not necessarily for publication but as a guarantee of good faith. However, we pass on the word that he says his hair needs cutting but he cannot afford the price.

SYMPATHY WITH LINDBERGH

All the world sympathizes with Colonel Lindbergh in the loss of his child. Everyone hopes he will yet recover the kidnapped little one, even if it is at great cost.

In affairs of this kind there is no distinction of nationality. Tariff walls do not keep out interest in each other's affairs and each other's people. Lindbergh belongs as much to Canada today as to the United States for the Canadian people have felt keenly his loss and hoped with him for a speedy recovery.

The time will come when there will be no tariff walls to annoy people on the opposite side; when there will be no annoying immigration restrictions, even separating man and wife because they happen to be citizens of different countries. Neighboring countries will be just as reluctant about annoying each other as neighbors are today in Canada. The unifying work is going on rapidly and in about two or three generations from now conditions should be considerably improved in this respect.

NEWS OF THE MINES AROUND PRINCE RUPERT

Mandy Looks For Improvement in Silver—P. E. Peterson Returning to B.C.—Central Interior Activities Reviewed

Dr. Joseph T. Mandy, resident mining engineer for the northwestern mineral survey district, has expressed himself as being rather optimistic with regard to the future market position of silver, basing his ideas on the fact that international interests which have it in their power to initiate a greater use of silver have apparently decided that immediate action with this end in view is necessary. Recently Dr. Mandy has been devoting his attention principally to likely gold bearing areas of the coastal region where there is promise with correct and sound appraisal of bringing into profitable production small tonnage mines the aggregate of which would make an important addition to lode mining in the district. Particularly good geological conditions for such deposits have been found to occur parallel to the coast in the neighborhood of Khutze Inlet and such islands as Porcher, Princess Royal and Pitt.

P. E. Peterson, well known mining engineer of this district, who is prominently identified with the Silver Crest and other northern mining companies, is on his way back to British Columbia after having been for the past two years in Russia installing concentrating plants for the Soviet government. He was to land in New York last week and be back in Vancouver this week.

Lectures for prospectors and mining men held in Smithers late last week by Douglas Lay, resident mining engineer, proved of much interest and were largely attended. In his final lecture on Friday night Mr. Lay gave a very interesting review of mining developments during the past year in the central interior. He dealt with the placer developments in the Rainbow Creek and Manson River sections and at Lorne Creek. The development carried on by W. R. Wilson & Sons in the Silver Lake section of Hudson Bay Mountain was described and mention made of the splendid program being planned for the coming season. Mr. Lay also dealt with the development at the north end of Takla Lake by the Consolidated Mining & Smelting Co., at the Colomario gold mine at Usk, at the Cronin, Victoria and Silver King properties in the Babine Range, at the Bulkley Valley coal mine at Telkwa and on the Golden Eagle property near Topley by David Heenan and Charles Matheson. During the course of his lectures, Mr. Lay gave advice as to likely areas in which prospecting for gold might be carried on in the district. For placer mining he advised the Lorne Creek area or the region between the Willow and Fraser Rivers. Mr. Lay stressed that it was advisable to keep close to existing transportation routes rather than go further afield in the mistaken idea that the closer-in areas had already been fully prospected. He pointed out as likely areas for lode gold deposits the section lying eastwards

from Usk to the headwaters of the Telkwa River, also the region immediately adjoining the Canadian National Railway and west of Doreen, Ritchie and Cedarvale as well as the upper reaches of Hudson Bay Mountain. Mr. Lay stated that he did not consider the possibilities of Hudson Bay Mountain as a field for prospecting for gold deposits as exhausted by any means yet. He directed attention more particularly to the upper sections of the mountain, roughly from 4200-foot elevation upwards. This was the area in which the high temperature mineralization was found which was more likely to produce gold deposits. The lower slopes were probably further from the igneous core of the mountain and, therefore, displayed low temperature mineralization such as galena.

Bud Bell and Charlie Benson have left Hazelton for Manson Creek to prospect for placer gold. They do not expect to return to Hazelton before the end of the year.

"How do they do it?"

Among your friends there's sure to be at least one smart young married couple who are the envy and admiration of all who know them.

With an income that is frankly abbreviated, and with no benevolent Aunts in the offing, they still have a home that is correct and comfortable in all its appointments, a home that is admired and copied by their friends.

"Yes, Jane is a remarkable little manager," will probably be the young husband's proud answer. And there is little doubt about it.

THEY DO IT THIS WAY

Take a look around that home and you will find no end of well known advertised products. For Jane is an efficient little manager. LOCAL WOMAN NEVER HAS HEADACHES NOW

Local woman suffered with headaches so badly that she used to have to go to bed, had been fitted with glasses by different specialists but still her headaches came back.

About two years ago this lady was fitted by G. F. Davey, Registered Optometrist in charge of the Optical Dept. of Max Heilbroner, Jeweler, and just the other day she informed us that she never has headaches now and just feels fine. The glasses which she had been wearing before were causing a mechanical error.

Glasses being of a mechanical nature the Optometrist has the advantage over others in that important branch of the work.

TORONTO LEAFS WIN SECOND STRAIGHT HOCKEY GAME

Maureen Orcutt

Smart Canadian Team is Now Heavily Favored to Capture Stanley Cup; 6-2 Last Night

BOSTON, April 8:—The Toronto Maple Leafs took a strangle-hold on the Stanley Cup series last night by winning their second successive victory over New York Rangers in the finals, the score being six to two. After the Rangers had taken a two-goal lead, the Maple Leafs came back with one of their sensational bursts of scoring and rained in six goals in a row.

The Maple Leafs will be on their home ice for the third game tomorrow night and, if they win, they will have captured the world's professional hockey championship. Of course, they are heavy favorites now.

We've had masked crooners, masked boxers and now — masked golfers. Maureen Orcutt has developed that sixth sense and doesn't need to keep her eye on the ball.

SPORT CHAT

It is about time for Jack Dempsey to stop taking on two or three shows a week and go through some regular training and get a chance to rest, if he has any intention of fighting again. The barnstorming has been very profitable, but it is not doing Dempsey any good in other ways. He has been meeting a lot of rough fellows and even if he knocks them out, some of them land on his chin now and then. A boxer at the age of 36 years and nine months, has to ease up a bit in taking punches. Years ago Dempsey would let sparring partners cut loose and sock him a few before he let go himself. Dempsey always had a lot of ability to weather punishment. He showed that in his fight with Tunney at Philadelphia.

Dempsey boxed Levinsky and did not make a good showing. He was skipping around the United States before that bout, boxing two or three times a week, and evidently he expected to take Levinsky in his stride. He found out that nightly train travel, quick jumps from town to town did not put him in fighting trim. All this show boxing may have been good to get Jack used to the ring again, but he has had enough of it. What he needs now is a rest away from the crowds, no more travelling and a month or so of easy training and plenty of sleep to loosen up and increase his speed. After that let him go out and fight anybody and see what he can do. If he does not put it over then he had better quit.

SPRING TEA-SALE HELD

Successful Affair Yesterday Afternoon By Catholic Women's League

A very successful spring tea and sale was held yesterday afternoon by the Catholic Women's League, of which Mrs. C. P. Balagno is president, in the parish hall which was attractively decorated for the occasion with green foliage and spring flowers, the decorations being in charge of Mrs. J. J. Gillis. The proceedings continued into the evening when a whist and bridge party was enjoyed. In charge in the afternoon were the following:

Sewing—Mrs. M. P. McCaffery and Mrs. Wilfrid Gratton.

Mrs. Theo Fortune was cashier for the evening.

HER SEVENTH HEAVEN

Mrs. Helen Willis Moody, of San Francisco, who returned to the women's national tennis championship in 1931 to win the crown for the seventh time, equalled the record of Mrs. Molla Mallory in being ranked first for the seventh time by the United States Lawn Tennis Association.

Several hours behind schedule, C. P. R. steamer Princess Adelaide, Capt. S. K. Gray, is reported due in port at 2 o'clock tomorrow morning from the south and will sail soon after arrival on her return south.

This is Maureen Orcutt and her polo pony. Maureen says there is not such a lot of difference between golf and polo and who would argue with such a charming lady. She was snapped at Augusta, Ga.

A New Game

It's golf on horseback to Maureen Orcutt. You'd call it polo and nobody would call it a horse, but the famous golfer says the games are much alike. She learns the rudiments from a trainer.

ONIONS ARE SCARCE NOW

Washington Importing From B.C.—
California Asparagus and New Potatoes in

California asparagus is the only new vegetable line offering today on the local retail market with the exception of new potatoes from Texas which are selling at 15c per pound. There is still a fair quantity of last year's interior potatoes available.

British Columbia cabbage is about finished now and the quality is getting poor. A fresh supply of California cabbage is expected this week at 10c per pound.

Okanagan onions are getting scarce and are high in price. Washington, with stocks exhausted, has been taking onions from British Columbia, the wholesale price in Seattle being \$7 per sack.

The apple season is nearing an end and only a few long keeping varieties are now available.

First Australian grapes of the season are due about April 27.

Railroading in France and Early Days in Canada

M. A. Burbank Tells of Experiences With Canadian Railroad Troops In Ypres Salient and Other Points

"Railroading," with special reference to locating work on the Grand Trunk Pacific Railway and to the building of light railroads in France during the war, was the subject dealt with by M. A. Burbank, C. N. R. divisional engineer, at the luncheon of the Rotary Club yesterday with George Munro presiding.

Mr. Burbank told interesting stories of experiences in Western Canada in the lonely parties that located the line on the unsurveyed and uninhabited prairies. He came north from St. Louis to take a place as transit engineer and remained with the company until the outbreak of war. He first enlisted as a member of the American Legion but transferred later to the railway troops under General Jack Stewart, where he had the rank of lieutenant, and enlisted and took over twenty railworkmen from London with him.

The story of the building of light railroads in the Ypres salient and at other points proved most interesting. He told of the work of the Canadians there, how the work was rushed under purely western conditions and of the results obtained. So proficient did some of the Canadians become in handling wrecks and such work that when a train got off the railway the first thing for the engineer to do was to pull the fires and send for the Canadians.

No less interesting was the story of how Mr. Burbank became a major and orderly room incidents all of more or less personal character.

NOW SCIENCE TELLS WHY BRAN IS SO GOOD FOR HEALTH

Kellogg's ALL-BRAN Has "Bulk" and Vitamin B; Also Healthful Iron

By using Kellogg's ALL-BRAN, millions of people have overcome common constipation, and the headaches, loss of appetite and energy that so frequently result.

New laboratory tests show ALL-BRAN supplies two things needed to overcome temporary and recurring constipation: "Bulk" to exercise the intestines. Vitamin B to help tone the intestinal tract.

The "bulk" in ALL-BRAN is much like that of lettuce. Within the body, it forms a soft mass. Gently it clears the intestines of wastes.

Further experiments prove ALL-BRAN provides twice as much blood-building iron as an equal amount by weight of beef liver.

Eat this delicious cereal and avoid pills and drugs. They cause artificial action, and often lead to harmful habits.

Try two tablespoonfuls of Kellogg's ALL-BRAN daily—sufficient to overcome most types of constipation. If your intestinal trouble is not relieved this way, see your doctor.

ALL-BRAN has a delicious, nut-sweet flavor. Enjoy as a cereal with milk or cream, or use in making fluffy bran muffins, breads, omelets, etc. Recipes on the red-and-green package. Sold by all grocers. Made by Kellogg in London, Ontario.

DANCE WAS ENJOYABLE

Delightful Affair Held Last Night to Aid Seal Cove Parish Hall Fund

In aid of the hall fund, a very successful and enjoyable dance was held last night in the Seal Cove Parish Hall. About seventy-five couples were present and all had a very happy time dancing to the strains of tunesome music by the Premier Orchestra. The hall was attractively decorated with daffodils and other spring flowers, green foliage and balloons in harmonizing colors. At midnight delicious buffet refreshments were served.

J. E. Boddie was a genial master of ceremonies and W. O. Vigar and George Kelsey presided at the door. The committee in charge consisted of Mrs. J. E. Boddie (convener), Mrs. J. M. Simpson, Mrs. Kenneth MacPhail, Mrs. George Kelsey and Mrs. S. E. Sunbury.

 In Prince Rupert

April 8, 1912
 The suggestion has been made that a railway be built from the United States to Europe by way of a bridge across Behring Straits.

Prince Rupert is suffering from a scourge of rats. The authorities are considering taking drastic steps to rid the city of the disease-bearing rodents.

The whaling station at Naden Harbor has started the season's operations and five immense mammals have already been taken.

Horse racing is a clean sport. It cleans quite a few sports every day.

NOTED baby specialists find that Carnation Milk (pure, unsweetened, evaporated) is easier to digest than raw, boiled or pasteurized milk; that it is rich in vitamins and other necessary food elements. Air-tight sealing keeps out all contamination. Being homogenized Carnation does better cooking, makes foods smoother and richer. Carnation is satisfactory, convenient and economical.

United Church in Peace River Block

Missionary To Be Placed in Country North of Fort St. John—To Build Church at Pouce Coupe

EDMONTON, April 8—The United Church of Canada is planning to place a full time missionary in the Montanay country north of Fort St. John in the British Columbia Peace River Block, an area forty miles square in which nearly every available homestead has been filed upon. Up to now the field has been served in the summer months only.

The erection of a church at Pouce Coupe and one-room residences for ministers at Pouce Coupe, Dawson Creek and Montanay is planned.

These projects received approval at the annual meeting of the Peace River Presbytery which was held recently.

Work is activity with a purpose.

The Letter Box

REPLY TO "STUDENT'S" LETTER

Editor, Daily News:—

In my opinion the wise procedure for Mr. Student would have been to inquire into our system of taxation before criticizing the ratepayers who never complained of extra load they had to carry on account of the unemployed. We are bled to death with taxes, land taxes, street improvement taxes, sewer taxes school taxes, etc.

And now our homes are to be taxed. Where are we going to raise the money to pay for it is more than I am able to guess. We are all out of work for a long time and the majority of us don't get relief from the city or province. Still we hold our own like men.

I know full well that Mr. Student earned more than the most of we poor unfortunates who had to do without the luxuries of life so as to build a home for ourselves and still he would like to see us losing our homes and the money derived from same go to his upkeep.

A TAXPAYER.
