CO-OPERATION OF DOMINION

The Manitoba government has secured the co-operation of the Dominion government in taking care of payments to be made in New York by the province this week. The amount in that province is two million dollars.

To Manitoba that two million is not any larger than the Godwin. bonds which Prince Rupert has had to meet in New York costing the city so far over ten thousand dollars in ex- "Sir Francis Bacon," by Byron debts, and change. That will mean a large extra charge against the Steele. city and if the Dominion is relieving the provinces it seems reasonable that they should relieve the cities.

Prince Rupert needs that money badly, just as badly as "Origins of the World War," by the province of Manitoba. It is a charge that has come s. B. Eay. against the city through no fault of her own and along "U-boat Stories: Narratives of their relative value by normal na- wrote all the breeders he knew of. with the reduction of provincial support next year will German Sailors," by Karl Neureu- tural yield of about 15 ounces of For his replies he only received make local financing difficult.

A LARGE CONGREGATION

It is the fashion in certain quarters to belittle the local newspapers and to make light of the work they are doing. While it is not the intention to defend them against the thoughtless it might be interesting to point out that a town the size of Prince Rupert in Eastern Canada or United States would have probably one weekly paper handling almost exclusively local news. Here an attempt is made to publish two dailies and give a summary of world news as well as local happenings.

Primarily the newspapers are purveyors of news and open letter to the citizens of Prince opinions expressed through the editorial column are only Rupert and district in grateful acksecondary. If the opinions were of primary importance nowledgment of their generous rethey would be on the front page.

Yet many people like to read the opinion of the editor, winter relief fund. even though not agreeing therewith. That is why the opinions are published.

A few years ago attention was drawn to the size of the Daily News congregation and it was suggested that a and needful effort, is indicative of clergyman considered three hundred a very large one. The which exists here. two thousand copies of the Daily News are read daily by approximately ten thousand people whereas the preacher heartfelt thanks of all who were as- ing of the new Masonic Temple speaks weekly to a few hundred only. However, the read- sisted by the beneficent contribu- here tomorroow evening, the halfer has the advantage over the listener in church in that if tions made to the relief fund for but schooner McKinley is due to he does not like what he reads, instead of sitting in the your kindness in sponsoring the ap- arrive here tomorrow afternoon pew bored to death, he turns to some other page or throws the sheet down.

To write daily for ten thousand readers is quite a responsibility. It is a critical audience and is quick to detect flaws in the argument or sham rhetoric if it should be at- Rupert, and of its sterling influence tempted. It is a heterogenious congregation. Some curse as they read. Others smile and others again are pleased. I wish to thank all who donated Just a few now and then grip the editor by the hand and money or groceries. Also to those compliment on something he has said, but mostly the ap- who so nobly gave their voluntary plause is lost in the distance and the voices of dissent also services, members of the Toc H go out on the empty evening air.

The majority of letters of dissent come from those who keys, Mr. McCaskill the able cook would wish to change the whole economic structure and and all these who in any way aided who accuse the editor of trying to perpetuate a dying in the success of this endeavor. system. This is of course, far from the case. He seldom thinks of the system but deals with facts as they appear from day to day. Those who expect propaganda must look

for it elsewhere. Some read political bias into everything that is published. They are the hardshell Tories or the hardshell Liberals, neither of whom are considered when writing. The person whose mind is closed to everything except his pet theory of government does not care about anything else and it is useless to appeal to him, whether it be a member of one of the constitutional parties or of the red revolutionists.

An effort will be made to discuss current questions on their merits irrespective of these outside influences. If we are right more than half the time we shall feel that we Prince John Saturday afternoon have succeeded. If we are wrong more than half the time, we shall have failed.

Sores Broke Out All Over Her Body

Mrs. T. E. Cliff, Kelwood, Man., writes:- "My little daughter's hands and arms broke out in sores which spread all over her body.

Nothing I tried gave her any relief until I got a bottle of Burdock Blood Bitters, and I could see an improvement, as the sores began to disappear. I gave her three bottles and she has

If you lose anything, try a classified ad.

Climinate the Frills Climinate the Trills from Advertising!

FOLKS who are in the position to know where sales are made, where results are immediate and who demand action from advertising—continue to use space in the daily newspapers.

While others argue about the efficacy of various media, the retailer who sells direct to the consumer consistently invests his money in daily newspapers. The retailer demands dividends, and he gets them—rich dividends.

The medicine that is good for the retail outlet is equally good for national advertisers whose aim is to reach the same consumer through the retailer.

The biggest advertisers in the world use daily newspapers day in day out, year in and year out, and they must know something about successful advertising.

THE most successful national advertisers in Canada have always made the daily newspapers the backbone, if not the entire structure, of their merchandising set up. They too have found frills costly and non-productive.

There are still those who must learn by a series of experiments—do you want to be one of these in 1932?

Make no mistake, the retailer knows where results are sure, where sales are made. National advertisers will do well to keep this in mind when making plans for increased sales in Canada this year.

We suggest the elimination of frills in advertising and the focussing of attention on the markets afforded by daily newspapers where the audience is always assured.

The following resolution was passed for submission to the provincial government:

"Whereas the condition of the citizens of this city is becoming laily worse, and more acute poverty being observed in our midst, and "Whereas it is realized that the city of Prince Rupert has been

placed in an unfair position, by reason of the defaulting actions of Aylmer Peas-Size 4 the provincial government of Briish Columbia, and "Whereas it is realized that the

city of Prince Rupert has borne the entire financing of the relief work already performed in this "Whereas information has been

placed before this meeting, showing that the policies adopted by the nunicipal authorities have been fair and progressive in the interests of the unemployed residents,

"Therefore, be it resolved, that we, the citizens of Prince Rupert assembled in a mass meeting, to consider the situation relative to the unemployed in this city, desire to declare a vote of confidence in the mayor and council, in all their activities and negotiations, in connection with this problem, and, be it further resolved, that the city council be requested to continue its demands to the provincial government, requesting it to abide by the original program, prepared and accepted on September 29, 1931.

Other Resolutions

A resolution proposed by Mike Anderson that W. K. Gwyer be repassed by the meeting. Mr. Gwyer came in for considerable criticism. at the hands of various speakers.

Another resolution was passe asking the provincial government to give the preference to J. H. Macey, who had already accommodated the men in the relief camp. running a commissary at Cloyah

Still another resolution held that 40c was not an adequate allowance "Where Dollars Have More Cents" with which to obtain food, clothes and shelter and asked that the al lowance for direct relief be creased from this figure.

The meeting voted down a resolution proposed by T. Ross Mackay

Reports Presented

At the outset of the meeting, Charles Lord, secretary of the association, reported upon an audience which had been had with the city council in connection with negotiations beween the city and provincial government for unemployment relief. Mr. Lord told of devel opments leading up to the present situation. He also reported on an examination of city payrolls which had revealed that distribution of municipal relief work had apparently been as equitable as it was humanly possible to make it.

Mr. Lord also presented a list of questions and answers between the executive and district engineer with regard to unemployment. These had been previously published.

The feeling was expressed that the district engineer had not been explicit enough in explaining where burchases of supplies for the relief camp had been made.
