WASHINGTON, March 9:-President Roosevelt, in a message to Congress today proposed the immediate opening of all sound banks and provisions for currency expansion during bank reorganization.

The proposed currency expansion provision, informed authorities said, would not result in any debasement of the currency whatever nor would it operate through a reduction of the gold content of the dollar. It would be controlled expansion secured by federal or other sound obligations.

Banks wih frozen assets will receive currency to enable them to carry on. Gold will be protected and the banks will be protected against any sudden withdrawal of deposits.

It is expected that Congress will take immediate action to implement the requests of the new president.

William Cavanaugh Had Narrow Escape When Travelling Without Gun Carrying Pack of Pork to Mining Camp-Many Miners Wash Gold

Wolves are ravaging the country around Terrace, north and south, east and west, according to John Couture, miner of Kitsumkalum Lake, who is in the city today. He says hey have practically cleaned out the deer from the whole listrict. Only recently William Cavanaugh packed out about sixty pounds of pork to the lake from Terrace. hortly before he reached Kitsum-

His relief was reat when his two friends Stevens and Conroy met him at the lake. By that time one of the big animals was only a few yards behind him. Unfortunately none of the party had guns so the whole pack got away. There were four big grey

wolves and two black ones. This year the lakes are frozen over and residents of the distric are able to drive on them. A trapper driving on Lakelse Lake re- cargo was valued at \$10,000. cently found the carcases of fourteen deer, partly devoured. Numbers of people of the district have had adventures with wolves. Then there is the so-called union movement under W. J. Bowser and the union declaration by Hon. Mr. Bruhn. both wanting to unite with somebody else but so far without any great success. So far as we know Mr. Bruhn did not say whether he wished to unite with Mr. Bowser or Mr. Pattullo. If he decided on the latter he doubtless would be welcomed by the Liberal leader.

## UNITED STATES INFLATION

The United States has decided to inflate the currency. Printing more dollars is an easy matter. It was done by Germany after the war to such an extent that the mark became useless and a new currency had to be established but in the meantime the debt of the country was wiped out. France wiped out 80% of her debt in a similar manner, Italy 75', and recently Britain has moved in a similar direction. Canada has inflated her credit which is much the same thing with the result that her currency depreciated in value. Now comes the American sudden fall from the gold standard and the further inflation by the printing of quantities of new money.

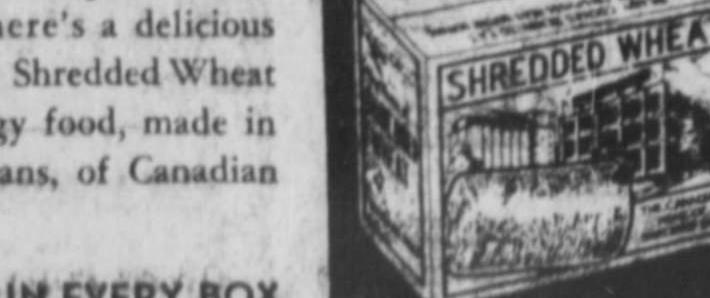

What will Canada and Great Britain do next. Will they follow the United States plan or will an effort be made now to stabilize the currency of the leading nations of the

world.

# EVIDENCE

Parts of Well Known Halibut Vessel Picked Up on Beaches By Search Boats

KETCHIKAN, March 9:-- An additional large amount of wreckage from the missing halibut vessel Reliance has been found, including eight buoy kegs, parts of the bow and some of the crew's clothing.

Bits of wreckage drifting up on the bleak Dixon Entrance shore almost within a stone's throw of Tree Point lighthouse tell the grim story of disaster to the sturdy little hallbut vessel and of death to her crew of four stalwart veterans of many a battle with the sea.

The first definite evidence that the craft had foundered on the way from Prince Rupert to Ketchikan came to light when Captain William Muller of the Venus picked up life preservers and a flag pole from the unsettled waters off Cape Fox.

Brought to Ketchikan, these served to give added impetus to the search and the coastguard cutter Alert resumed the hunt. Searchers from the Yellowstone found a part of the hull of the Reliance and other wreckage on the beach less than a quarter-mile north of the Tree Point lighthouse.

Gus Borgen of the Traders Company had outfitted and sent the Yellowstone, with Captain A. Strand in charge, in the Seaketch to make a thorough search. The Alert had made the first search, definitely establishing that the boat had disappeared from sight. It was felt then that the next day or two would find wreckage cast up on the shores

It is probable now that the full account of what happened will never be known. It is regarded as almost certain, however, that the Reliance oither foundered in the open waters, or was dashed to pieces after drifting ashore in the face of wind and tide. Whether the four men took to a small boat and tried to make shore, or died when the boat went down suddenly probably will never be known.

Captain Carl Blindheim, who had charge of the crew, was a member of the Masonic lodge in Ketchikan. He also belonged to the Scottish Rite. Hans Edson, Bert Eines and Perry Thrue were with him.

Music Club Hears of Them From Mrs. Anderson With Illustrative Program

The Ladies' Music Club at its meeting yesterday afternoon at the home of Mrs. H. B. Rochester heard a very interesting and instructive paper by Mrs. Ernest Anderson on Canadian composers. There was also an illustrative program prepared by the same lady a feature of which was the singing of "Deep in My Heart" and "Night Brings Me You," by Lozanne, of Bournemouth, England, daughter of Mrs. Russel Smith of Prince Ruport. These songs were sung by Mrs. Allen and proved of special

The program follows: Vocal solo-"Such a Lil Fellow." (F. Dichment), Mrs. C. E. Cullen. Piano solo-"Merry Maiden Polka," (Gertrude Johnston), Mrs. G. D. Woodland,

# Good Results at Dome Mountain

SMITHERS, March 9:- The tunnel being run on the Free Gold east of Telkwa, has cut through several promising veins in recent work, and the results to date are to show up the property much better than it appeared by the surface development of last summer. Alex G. Chisholm, locator of the property who has been engaged in the work all winter, states that a number of promising veins have been found which did not show on the surface includinga zone of mineralization over twenty feet in width and shot throughout with gold-bearing stringers. One vein two feet wide and another three feet wide of high grade ore are shown up. The principal veins are still in advance of the face of the tunnel.

Dome Mountain has been well known for many years as a goldbearing section and the Federal Mining Company holds 34 crown granted claims there, which they developed ten years ago. The Free Gold group is one mile farther east and is owned by Babine Gold Mines Ltd., controlled by W. R. Wilson & Sons of Vancouver, R. W. Wilson is at present in the south, expecting to return about March 15 to resume supervision of the development.
