### Packers of Salmon Desire to Be Divorced From Fresh Fisheries

Hearing Under National Recovery Act at Washington—Pacific Coast Presents Its Views Through Washington Attorney

WASHINGTON, D.C., Dec. 12: (CP)—Salmon and tuna cannerymen of the Pacific Coast at a hearing on the proposed fisheries industry code under the National Recovery Act asked here last night that they be divorced completely from the fresh fish industry and be allowed to set up codes of their own. H. Thomas Austern, Washington attorney, said that he spoke for all Pacific Northwest and Alaskan salmon packers when he said that the industry believed it was a separate integral industry with none of the fresh fishery's problems in preservation of its catch or marketing.

### Terrace Fights Midnight Blaze

Town Without Street Lights Following Destruction of Electric Plant

TERRACE, Dec. 12.—A week ago Sunday midnight found most of the villagers hurrying to fight the fire at the light and power plant. Although the electric works were destroyed it is likely some of the heavy machinery will be able to be used again. Ben Agar's garage and repair shop, which adjoins the lighting plant, was badly scorched. In fact one wall was burned to a cinder so far as the outer boards were concerned. It was only by the efforts of willing helpers that the garage was not destroyed with perhaps further loss to other buildings. Oil lamps of various shapes and sizes have been resurrected and are now doing their bit to illuminate the interiors of homes and stores but the street lights are missing.

### DRY FORCES BUSY AGAIN

Henry Ford Demands Total Abstinence—No Liquor in United States Navy

WASHINGTON, D.C., Dec. 12.—Following the rescission of the Eighteenth Amendment by the United States, temperance forces of the United States are establishing their forces in a movement for the encouragement of temperance under the new conditions. The American Temperance Union, as a start, is organizing to have temperance taught in the schools of the country.

From Detroit comes the announcement that Henry Ford will continue to demand total abstinence by all his employees. The famous automobile magnate, who once said that "if liquor comes back I will close up my factories," is not doing this, however, but instead announced his new 1934 models.

In spite of the repudiation by the nation of prohibition, the United States Navy will remain dry and no liquor will be permitted aboard ships of the fleet.

### Salvation Army Xmas Donations

The following donations have been made to the Salvation Army Christmas Cheer Fund:

### Christmas Dinner For Children

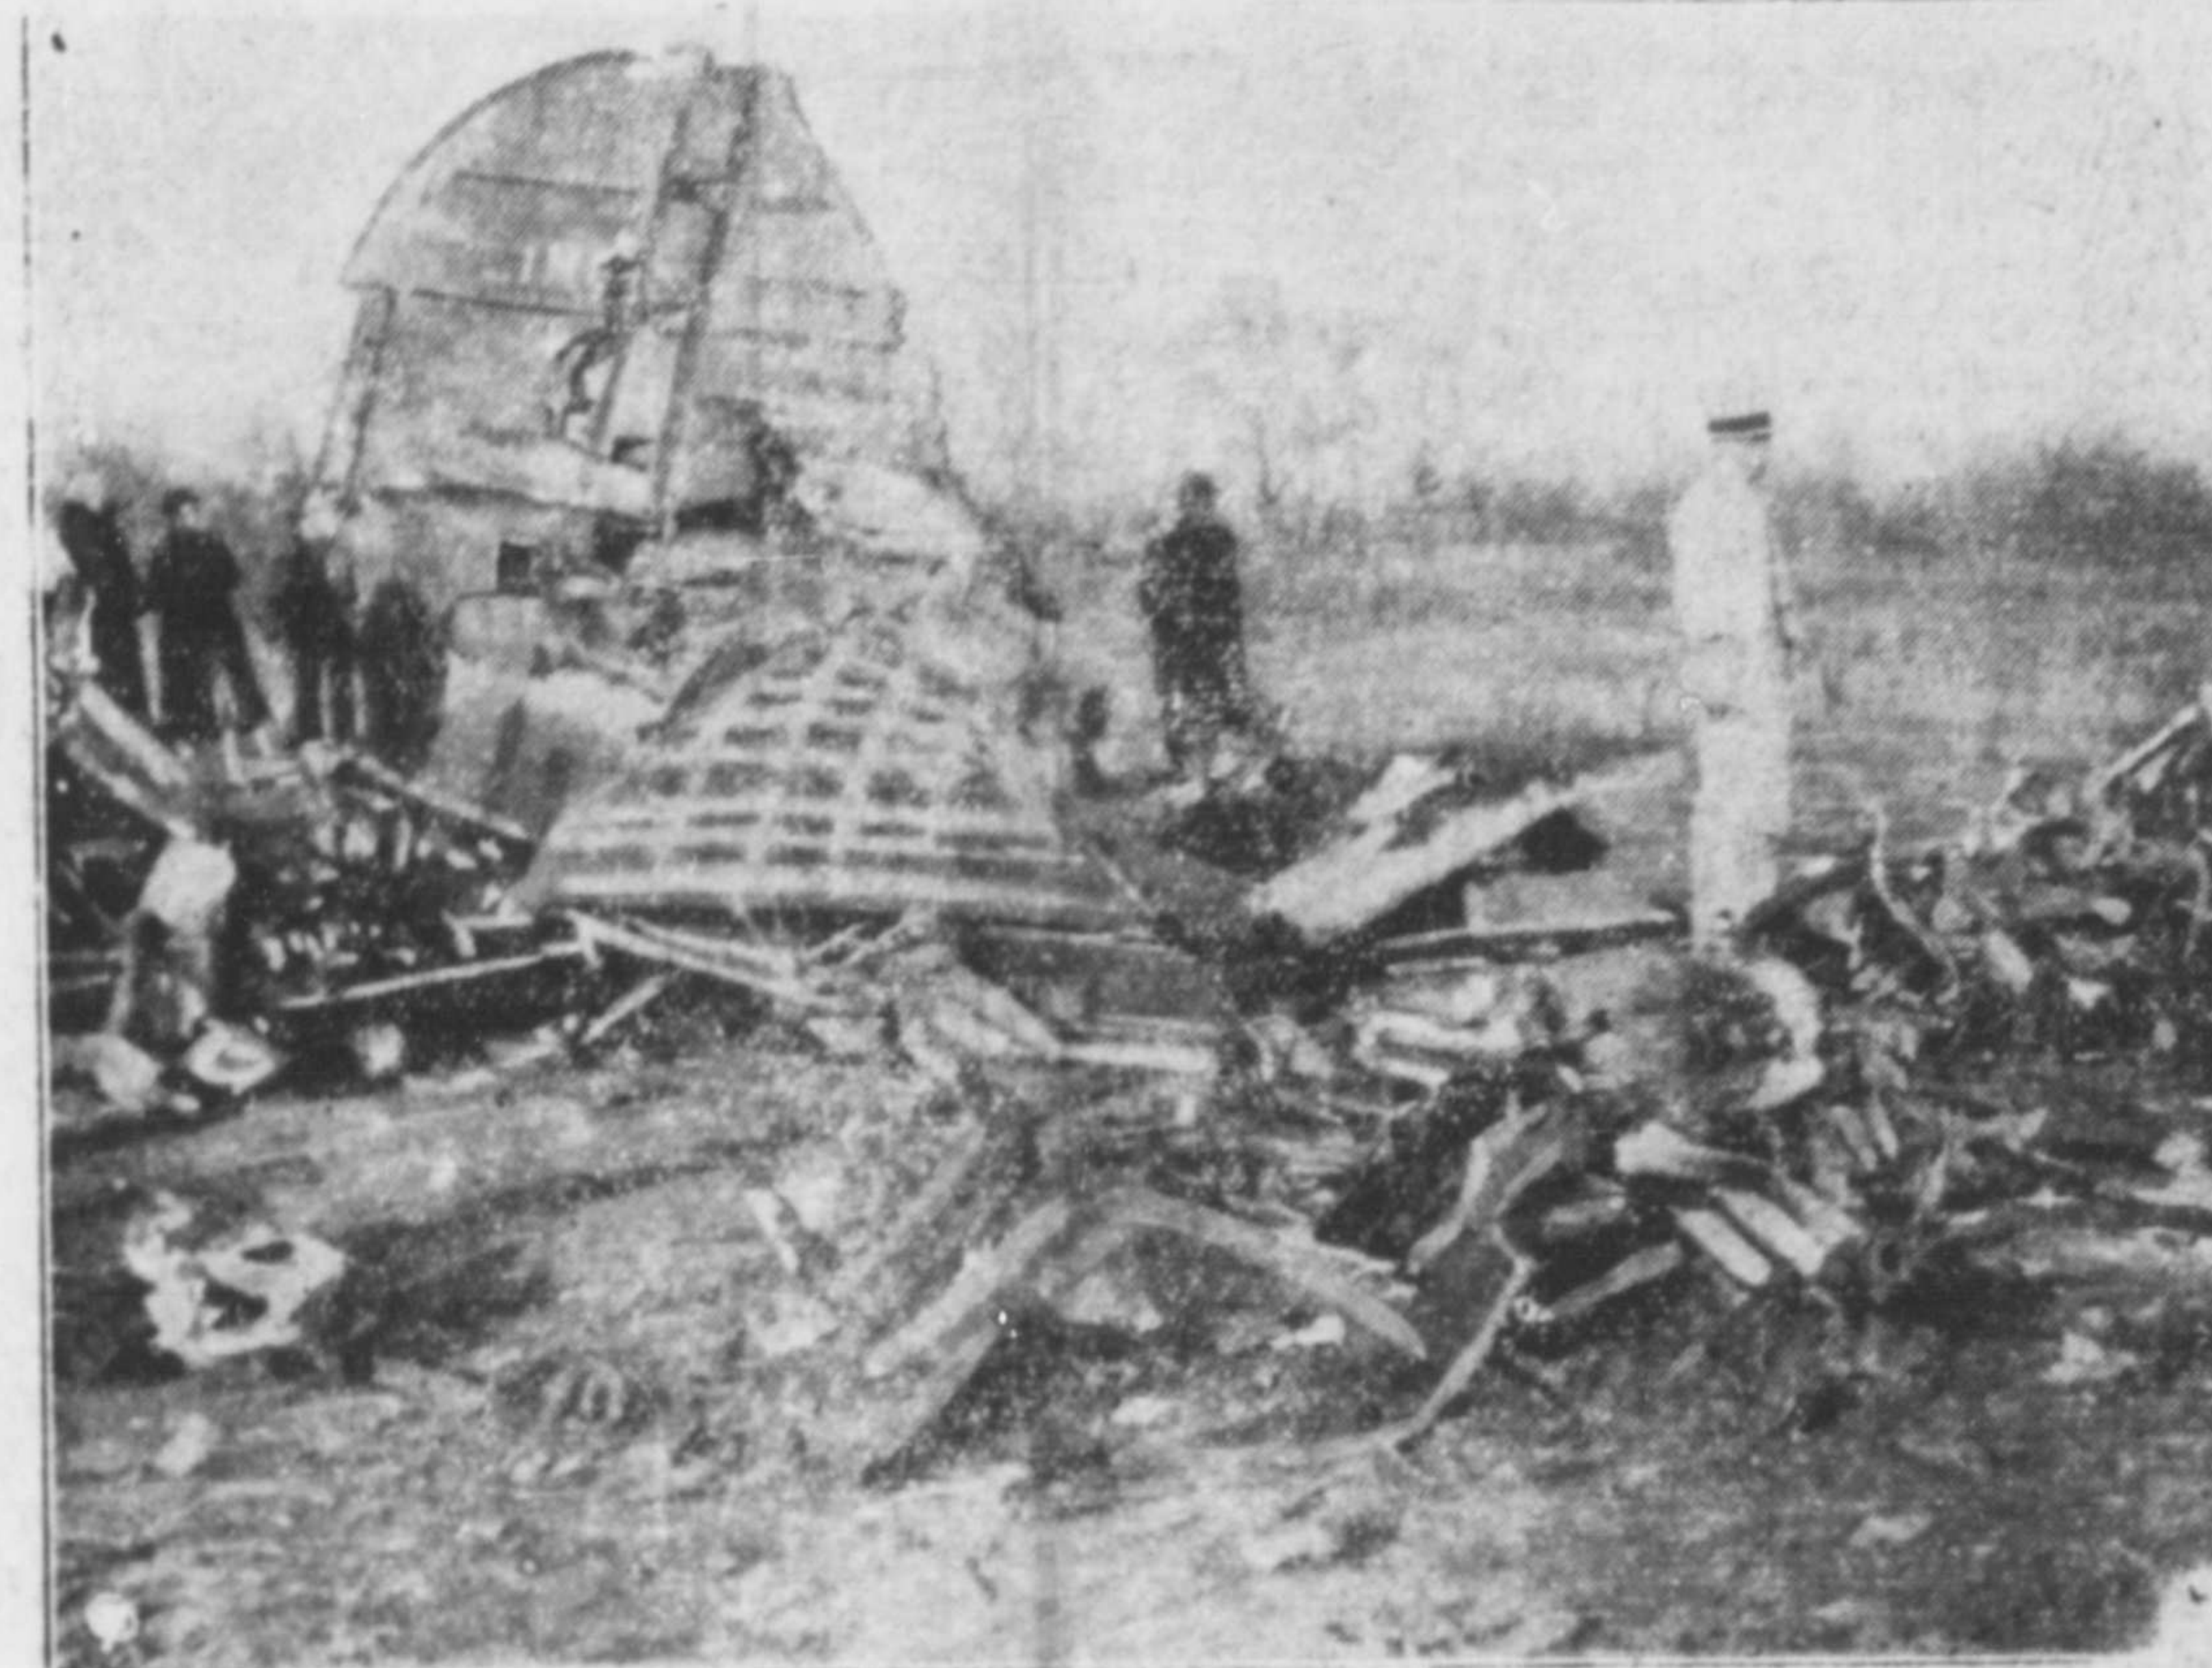

The officers of the Salvation Army have come across many needy children during their investigations and they have decided that a dinner will be given at the Citadel on Christmas Day at 1 p.m. and any needy child is invited to attend. Santa Claus, of course, will be the welcome visitor of the day. Any child desiring to come please call at the Salvation Army for a ticket. Come early so the officers will know how many children to be prepared for.

Captain Coxson makes an appeal for food, such as turkeys, pies or vegetables for this dinner. The officers desire that each child should receive a gift of a pair of new stockings, any who can give stockings or cash for the same please do so.

Cash and goods is also needed for the Christmas hampers and other overhead expenses. Phone Black 269 or inquire of any member of the Salvation Army for further information.

**MADE GOOD SHOWING**

The returns from the first shipment of ore from the Glacier Gulch mine at Smithers as published yesterday proved most encouraging. With a net profit of pretty nearly one hundred dollars a ton, the work of developing the mine can continue without the aid of the big financier.

In very few parts of the country is it possible for a mine to be developed as is being done at the Glacier Gulch. It is an indication of what may be expected from the Hudson Bay properties including the Jessie which is being developed by a company formed at Smithers and partly by local money. All indications point to great mining possibilities at various interior points such as Smithers, Usk, Babine and Hazelton.

**WRESTLING WITH FINANCES**

Finance Minister John Hart is at present wrestling with the financial situation in British Columbia in order to bring down a balanced budget. He has a big job on hand and everybody will be sympathetic as long as he does not increase taxes.

The difficulty is that every other institution in British Columbia including every business house is also trying its best to balance its budget, mostly without success. Money seems to have disappeared. Just now merchants have big stocks of goods and most of these will be sold between now and Christmas Day, thus easing up the situation to a certain extent.

**Advantages of Buying in Prince Rupert**

**First Prize High School**

(By Miss Margaret MacLachlan)  
You who buy out of town! Have you ever given thought to what it would mean to you, and the city as a whole, if you and all the people of the city were to "Buy at Home," all requirements for the maintenance of the home?  
Assuming that there are 2,000 people in Prince Rupert spending an average of \$100 a month, or a total of \$200,000 monthly, and that 10% or \$20,000 of this total—which in my opinion is a conservative estimate—is spent each month out of the city. Would not this additional \$20,000 a month or \$240,000 a year, if spent at home, go a long way toward improving conditions in our city?

This additional money if spent with local merchants would mean increased business, which in turn would mean additional employees. This increased business would probably enable the local merchants to show a reasonable net profit on their capital investment and, as a result, wages could be increased and probably restored to normal. This greater earning power on the part of the merchants and additional employees would put more money into circulation, and through this medium of exchange, a considerable portion of this money would return to the original spender and be started again on its cycle of spending.

Just ponder it—an additional \$240,000 a year put into circulation in the city of Prince Rupert. Such an additional sum spent annually in your city, must necessarily be reflected in greatly improved conditions.

A considerable portion of this \$240,000 would find its way to the treasury of your city, in the way of taxes and from this additional revenue, the city could put men to work on much needed local improvements and other work necessary for the maintenance of your city.

Not only will the merchants and their employees benefit from the increased business and greater revenue. There will be those who will find it convenient to build a new home or make additions or improvements to their present places of business or homes. This will mean work for the skilled mechanics in the different trades, most of whom, for the past three years, have been either unemployed or on part time only.

To summarize the foregoing—"Buy at Home" and you—every citizen of Prince Rupert—will benefit, and the city will experience an era of prosperity not thought possible under present conditions.

**First Prize General Essay**

(by Mrs. A. F. Gibson)  
"The key to the solution of nearly every human problem lies in the right adjustment of the individual to the bigger whole."

Behind the present "Buy-at-Home" campaign lies the ideal of making Prince Rupert a larger and better city—a city of homes. We will do well then to consider the advantages to be gained by buying in Prince Rupert from the standpoint of the individual and of the community.

The experience of merchants has been that the greater the amount of goods sold the larger the stock carried and the better the selection from which the customer has to choose.

The volume of business done by a merchant enables him to that extent to co-operate with the public. The old time maxim—"small profits, quick returns" is a saving in dollars and cents to the individual. If we support the merchant he will reduce the cost. That is "better business."

To see what you purchase, to get what you need when you want it is a decided advantage.

To shop is a pleasure; eye trained to the latest fashion; knowledge gained as to the newest labor saving device; appetite stimulated by savory smell or delicatessen dainty; outlook on life broadened; spirit brightened and health improved. All these advantages will tend to be enhanced if the Prince Rupert merchant is assured that the buyer is behind him to a man in his endeavor to give the best possible service.

Money spent means money put into circulation. One thing reacts upon another and if we buy at home we do our bit to increase employment. Work means wages. The more work the greater the pay-roll. To a lesser or greater degree all are dependent one upon another and sooner or later the money spent by us in Prince Rupert will find its way back into our own pocket.

Families will remain united for you'll will seek and find employment at home.

Worry that leads to strife will cease; anxiety which brings sickness will end; and poverty which may cause an inferiority complex to arise will disappear.

Taxes will be paid more readily and a lower rate of assessment could be struck.

Public services will be improved; our children given back the advantages of Home Economics and Manual Training; our hospital equipped with the best that scientific discovery has made possible to alleviate the ills of mankind.

And the health, wealth and happiness of the whole community increased.

"Buy-at-Home" is a challenge to every individual in Prince Rupert to be loyal—not only to himself but to "the bigger whole."

**BRONCHITIS BANISHED AFTER 30 YEARS TORTURE**

The amazing case of Mr. Thomas Gull, Hamilton, Ont., is the talk of everyone who knows him.  
His complete relief almost overnight from Bronchitis of thirty years standing is regarded as nothing short of a miracle by friends and neighbours. Read what Mr. Gull says:

"From the time I was a small boy until the age of thirty-two, I was never free from a hacking cough night and day. Doctors told me I was suffering from chronic bronchitis—that there was no permanent relief. One day I saw an advertisement for BUCKLEY'S MIXTURE. The word bronchitis arrested my attention. I purchased a bottle. It gave me relief. I bought two more, and my cough left me completely. That happened six years ago, and the cough has never returned."  
BUCKLEY'S MIXTURE will give you the same instant relief from the strangling torture of Bronchitis, and it acts like a flash on coughs, colds, etc. Why not get a bottle today? Buckley's is sold everywhere. Refuse substitutes.

**STORY OF GOVERNOR**

Interested Himself in Foxes From Boyhood Days on Farm

CHARLOTTETOWN, P.E.I., Dec. 12. (CP)—Lieutenant Governor Dalton of Prince Edward Island, who died at the week-end, was born in Tignish on June 9, 1850, the son of Patrick Dalton and Mary McCarthy, who emigrated from Ireland and settled in Prince Edward Island. The future governor was born on a farm. He loved life in the open, and at an early age, developed into an enthusiastic nimrod, being a keen hunter of feathered as well as furred game. He delighted in shooting and trapping, by means of which he gained that knowledge of wild animals which stood him in good stead in later years. In his boyhood, foxes were very plentiful in his vicinity, and his great ambition was to capture the black fox, the rarest of its kind, whose pelt always commanded a high price. The story of his various experiments in endeavoring to breed these in cap-

tivity until he became known as the "Silver Fox King," was both interesting and romantic.

Mr. Dalton, a Conservative, after one unsuccessful attempt was elected a member of the legislative assembly for the first district of Prince in 1912. He became minister without portfolio. He was re-elected in 1915 and retired from active political life in 1919, after being defeated in the general elections of that year. In November, 1930, he was appointed Lieutenant Governor. He was then in his eightieth year but possessed an extraordinary measure of physical and mental vigor. He was still tall and muscular.

Mr. Dalton made a number of munificent donations to worthy causes. He established the Dalton Sanitarium, first of the kind built in Prince Edward Island, contributing \$60,000.

Mr. Dalton, a devoted member of the Roman Catholic Church, established Dalton Hall in connection with St. Dunstan's University, a church institution at Charlottetown. He made other grants to religious institutions. In 1917 the Pope conferred on him the title of Knight Commander of the Order of

St. Gregory the Great.

In 1874 he married Anne Gavin, of Tignish, and their children are as follows: Charles Howard, M.D., C.M., Sommerville, Mass.; Freda, wife of A. J. Orscaffen, Chicago; Nora, wife of Paul A. Murray, Charlottetown; Zita, wife of William J. Cox, Belmont, Mass.; Edith, wife of Walter A. Spillane, Newton, Mass.; Miss Irene, Charlottetown; and Joseph Gerald, B.A., B.Sc., Chicago, formerly of Newton, Mass.

Liver is known as a good source of iron for the blood. Now, new tests show Kellogg's ALL-BRAN contains twice as much blood-building iron as an equal amount by weight of beef liver.

But more important still, laboratory experiments show ALL-BRAN provides "bulk" to exercise the intestines, and Vitamin B to tone the intestinal tract.

This means Kellogg's ALL-BRAN is a fine way to overcome constipation—with the headaches, loss of appetite and energy that so frequently result.

The "bulk" in ALL-BRAN is much like that of lettuce. Inside the body, it absorbs moisture, forming a soft mass, which gently clears the intestines of wastes. Special cooking processes make ALL-BRAN finer, milder, more palatable.

How much better than risking pills and drugs—so often habit-forming. Just eat two tablespoonfuls of ALL-BRAN daily for most types of constipation. It is not habit-forming. If your intestinal trouble is not relieved this way, see your doctor.

### Elks Win Over Grotto Cuemen

Last Week's Fixture Finished Last Night With Aggregate Score Of 1126 to 1075

George Howe, Grotto, defeated William Stuart, Elks, by a score of 200 to 166 last night in the final outstanding game from last Tuesday night's Billiard League fixture which the Elks, as a result, won on the aggregate 1126 to 1075.

### BASKETBALL LAST NIGHT

C. N. R. A. Scores Easy Victory Over Grotto—Cardinals Beat Comets

Senior League—Canadian National Recreation Association, 70; Grotto, 41. Ladies' League—Cardinals, 11; Comets, 6. Intermediate League—Warriors, 16; High School, 20. Junior League—Flashes, 12; Trojans, 23.

C. N. R. A. had things as they wanted over the Grotto who were minus some of their regular players in last night's senior basketball game and had to use four intermediate players. Stalker was bounced in the dying minutes of the first half which left only R. Morrison of the regulars and four subs to carry on. The trainmen led 33-17 at the breather.

In the second half the rail pounders drove hard with Sonny Stiles and Gilly Santerbane doing all the damage. The massacre ended 41-70. Although the Grotto was without its regular team, the intermediate men gave good accounts of themselves. Gilly Santerbane is a perfect fit with the C. N. R. A. machine which clicked perfectly in the second half.

**Other Games**  
In the other games Flashes went down before a swarm of Trojans with Hirano of the winners the outstanding star.

It was the Warriors' night off last night in the Intermediate League. They lost to the Seventh Avenue Students in a low-scoring game. The Students were one point behind at the interval but, in the second half, they took the lead and were never headed.

In the Ladies' League Pebbles Stone and her Cardinal crew had an easy win over the Comets with Long and Smith the big guns for the losers and Stone and Boddie for the winners.

**Senior League**  
C. N. R. A.—C. Smith, Stiles (31), D. Morrison (4), E. Smith (8), J. Morrison, Lambie (8), Santerbane (19); total, 70.  
Grotto—Stalker (3), Pierce (9), Davies, Arney (7), Morrison (15), Hickey (3), Moxley (4); total, 41.

**Junior League**  
Flashes—Palmer (5), Crompt, Comadina, McPhee (6), Fulton, Hill (1), Ritchie, total, 12.  
Trojans—Naylor, Campbell (6), Currie, Lindsay (7), Murray, Hirano (10); total, 23.

**Intermediate League**  
Warriors—Hickey, Comadina (8), Fitzpatrick, Pierce (4), Edgecombe, Gillis (4); total, 16.  
High School—Nakamoto (3), Morgan, Santerbane (4), Miller (1), Davies (8), Moxley (3), Suehiro, Tobey (1); total, 20.

**Ladies' League**  
Cardinals—Brand, Stone (4), Boddie (6), Rivett, M. Morris, E. Morris (1); total, 11.  
Comets—Long (4), Steen, Tite, Dickens, Smith (2), McLeod; total, 6.

Canada is increasing her trade in Trinidad at the expense of the United States.

CHRISTMAS PRESENTS

People everywhere are considering the question of Christmas presents. One of the most welcome presents a former Prince Rupert resident could get would be a subscription to the Daily News.

In order to co-operate with our readers who wish to keep alive in the minds of their friends the activities of the people of the Prince Rupert district, we are making a special half-rate for people living outside the district, if sent by a person who is already a subscriber to the paper.

Send in \$1.50 with the name of the person to whom you wish to donate the paper and we see that they get it by mail for one year.

### JEWELRY STORE LOW PRICES for Christmas

People sometimes say they think prices are higher at Christmas. We do not believe any prices are raised just because it is Christmas time; but it is true that lots of articles which are left over after Christmas are offered at very low prices to avoid having to keep them in stock for another year.

A store might as well cut the prices before Christmas when the people need the goods as try to force the sales after.

We have many nice articles which we are rather afraid we might have to carry over and we will be glad to make our customers special prices from now till Christmas.

We carry the best makes we can procure in all lines.

Rogers and Community silverware; Parker and Waterman fountain pens; Waltham, Hamilton, Gruen and other well known watches.

All goods are carefully chosen with a view to the service they will give for the money.

Many new lines of gifts in stock this season.

### Another Test Run

The Socony-Vacuum Corporation of New York conducted a test run of many makes of cars on a route through the Peace River Country, Alberta, touching at Edmonton, Saskatoon, Moose Jaw, Regina, North Portal and down through the United States and on into Mexico. The leading car was a Ford V-8 Fordor, owned by the Socony-Vacuum and bringing up the rear was a V-8 Cabriolet which was driven by the Secretary of the Expedition.

Included in the tour were a Chevrolet, Buick, Oldsmobile, LaSalle, Cadillac, two Pierce Arrows, G. M. C. truck, Studebaker, Pontiac, and other makes, as well as two Fords.

It is interesting to note that it was reported on the arrival of the caravan at Edmonton from the Peace River Country that the V-8's were the only units which made the round trip through mud without having to be towed. On a close check we find one of the V-8's travelled ten continuous hours in low gear, the temperature never exceeded 140 degrees and gasoline consumption was one gallon to ten miles while running in low gear. All the other cars had boiling radiators and required repeated additions of water.

**Guide to Correspondents**

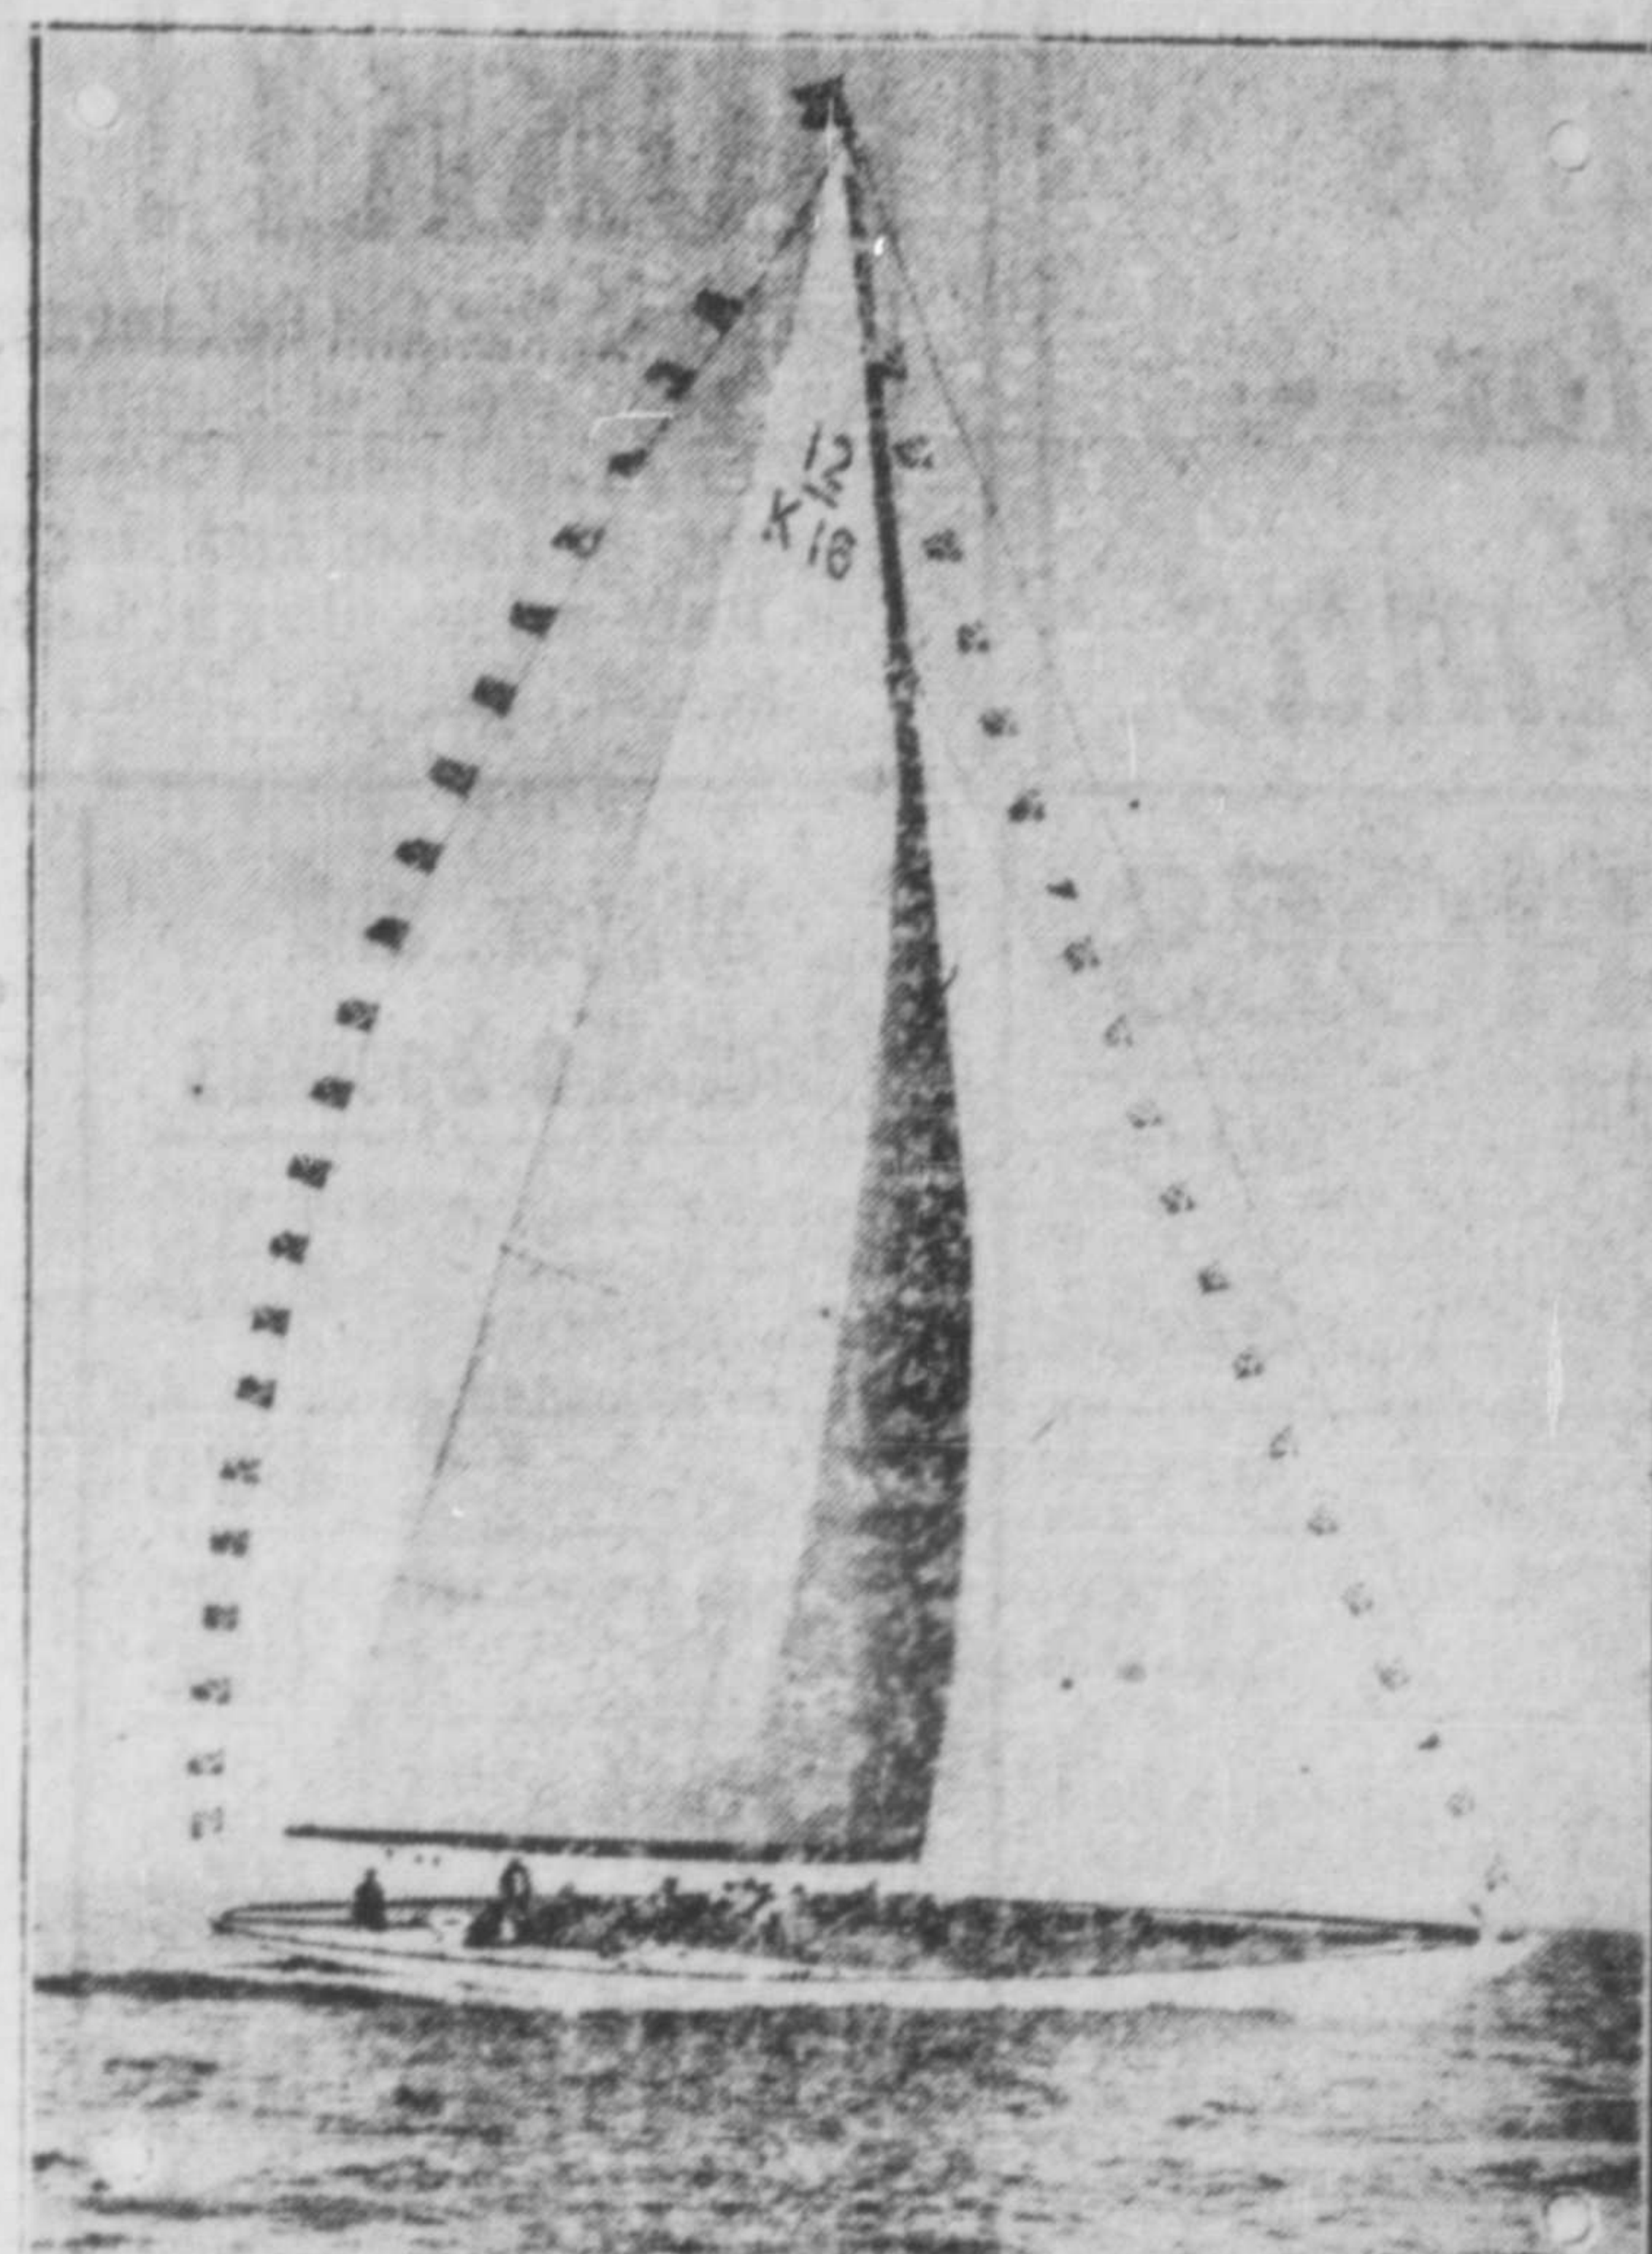

The Daily News welcomes correspondence on live topics of the day or any other subject of public interest, but letters must be brief and to the point. The long-winded correspondent has no place in modern journalism. Every letter must be signed by the writer, not necessarily for publication but as a matter of good faith and courtesy. Unsigned documents go to the waste paper basket. Letters of a caustic character must have the signature appended for publication. Letter should be written on the side of the paper only. Correspondents must avoid personalities and the language should be such as would be allowed in the ordinary rules of debate.

## Film Stars Face Hitler Order

German film stars now in the United States may be ordered to return to Germany to participate in the "culture rebirth" of the nation, or face disciplinary measures if they refuse. Among the screen players subject to such an order are Marlene Dietrich, Dorothea Wieck and Liane Haid. Miss Dietrich is quoted
