worthy of emulation. When they make up their minds able bondage. they want something they go after it rapidly and effec-tively. Thirteen years ago they decided that they wanted and eagerly we investigate every prohibition of the liquor traffic and they soon had the proffered plan for improvement eighteenth amendment to the constitution passed to give but we want justice for all. Reason and arbitration, tolerance and effect to the desire.

The experiment was given a pretty good trial and, like all constitutional or other new schemes, was found to have defects. In this case they were considered so serious that nothing but repeal of the eighteenth amendment would cure them. The machinery of government, cumbersome as it is, was immediately set to work and the result is that Congress has done its part in amending the constitution. It now lies with the states and they are already busy with a view to backing up the action of Congress.

In this matter of constitutional amendments it seems that the executive heads of the federal or state governments have no say.

## VANCOUVER POLICE SITUATION

Prince Rupert people are taking a great deal of interest ably will tend to draw together, rain the situation at Vancouver in connection with the dis- ther than draw apart.-Charles M. missal of Chief Edgett and the appointment of a succes- Schwab. sor. Colonel Edgett first appealed to the Supreme Court for an injunction restraining the commissioners from appointing another chief until his claims against the city were heard. The judge refused the application so he applied to the Appeal Court at Victoria and they granted it, giving the Colonel until March 7. At the same time that the appointment was being made the court at Victoria was granting the injunction. The city solicitor of Vancouver recommended that it would be illegal to swear in the new chief but he is already on the job and whether legally so or not will doubtless carry out the duties.

calmness are more powerful than the weapons of force. Soon may we see the rulers who can handle them. It is hard to work incessantly and still not clear enough to meet necessities. It is harder yet to be refused the right to work at all but surely with all the world puzzling over the same question it cannot now be long before some sane and just Ernie Orsatti getting set for a scheme is evolved fit for intelligent Ruthian wallop. ## JAPAN TODAY AND TOMORROW

The newspaper "The Osaka Mainichi" has published and is distributing a splendid English special number "Japan today and tomorrow," a copy of which has been received by the Daily News. It is a splendid magazine of information about Japan and the Japanese people and the progress they are making. It is fully illustrated with colored plate and half-tone pictures and gives a good idea of what the Japanese people are doing.

However any of our readers may disagree with the policy of Japan in relation to China and her action at Geneva, we all have to admit that she is a virile nation with all the possibilities of great development. Her move in Manchuria is one sign of that reaching out impulse. Most people realize the danger of such a policy if it goes unchecked and the impossibility of any disarmament scheme as long as it exists. But that little difficulty should soon be ironed out and Japan will proceed with legitimate development along constitutional lines. We wish her every success and feel sure the book which has just been issued will help make her and her institutions better known and appreciated.

## FREE FOR A FEW DAYS

Many people are offering bargains. Here is an offer of advertising free. Just to test it out the Daily News will during the next few days give a free classified advertisement up to 25 words for anyone. wishing to exchange articles.

Suppose you have a table you do not want but you need a chair. You advertise your willingness to exchange telling what kind of a table you have. It may be articles of furniture, radios, gramaphones, jewellery, crockeryware, mirrors, flower pots, books, magazines, automobiles, or what have you?

Why not change your useless articles for something you could use.

Don't try to trade away the baby. It's against the law, but almost anything else has possibilities. Try it. All you have to do is write the advertisement carefully and send or bring or mail it to the Daily News office. We do the rest.

THINK back over the last six months. The days that you were the happiest were days when health was at the peak. Enjoy more sunshiny days.

Poor health is so often due to common constipation. Yet this condition can be overcome by simply eating a delicious cereal.

Laboratory investigations have proved that Kellogg's ALL-BRAN provides "bulk" to exercise the intestines, and vitamin B to further assist elimination. ALL-BRAN is also twice as rich in iron as an equal weight of beef liver.

This "bulk" in ALL-BRAN is similar to that in leafy vegetables. Biological tests have demonstrated that it is mild in action.

Two tablespoonfuls of Kellogg's ALL-BRAN daily are usually sufficient. With each meal in chronic cases. If not relieved this way, consult your doctor.

Isn't this pleasant "cereal way" better than taking pills and drugs --- so often harmful? Get the red-and-green package at your grocer's. Made by Kellogg in London, Ontario.
