PRINCE RUPERT, B.C., TUESDAY, MARCH 21, 1933

PRICE: FIVE CENTS

BUDGET SPEECH AT OTTAWA TODAY

TAXES OF PEOPLE INCREASED SEVENTY MILLION DOLLARS

Sixty Changes Made in Taxes To Be Collected Under Rhodes' Budget

Sales Tax Remains Same But All Articles Must Pay—Sugar Tax Two Percent—Corporation Income Taxes Increased by Two and Half Percent

OTTAWA, March 21.—The budget submitted to Parliament today by Hon. E. N. Rhodes, minister of finance, provides for the following taxation changes:

Corporation income tax: Tax on incomes of corporations is raised to 12½% and the exemption of \$2,000 removed. Corporations filing consolidated returns will be taxed at 13½%. The surcharge of 5% of tax is absorbed in the new rate.

UNION NO CURE-ALL

Member of Premier Tolmie's Cabinet Gives Opinion of New Governmental Move

VICTORIA, March 21.—"If union government is wanted, do not let the people think it will prove a cure-all, that it only embraces saints," declared Hon. R. L. Maitland in the Legislature yesterday in the course of a speech.

"Union government," he said, "will be party government twenty minutes after it is formed."

FOUND DEAD IN CABIN

John D. Peel, Blacksmith, Died From Heart Failure—Had Been In Hospital

Yesterday John D. Peel of 138 Eighth Avenue West was found dead in his cabin, he having evidently died of heart failure. He has been in the hospital until recently as the result of an injury received when working on the road.

Mr. Peel was a native of England. He had been in Prince Rupert a number of years and was well known. For some years he worked for the Granby Company as a blacksmith and since arriving in Prince Rupert worked at that trade whenever possible and did other jobs.

The man was thought to be about 58 years of age. Haynor Bros. have charge of the funeral which will be held tomorrow afternoon.

VICTIMS OF GAS POISON

Whole Family Found Dead in Launch in North Arm of Burrard Inlet

VANCOUVER, March 21.—Victims of carbon monoxide poisoning, the bodies of Mr. and Mrs. W. Cross and three children of Dapp, Alberta, were found in a gasoline launch which Cross recently purchased, in the north arm of Burrard Inlet yesterday.

A farmer in the Dapp district, Cross and his family came here a few months ago with the intention of spending the summer cruising the coast waters of British Columbia as far north as Alaska. He was formerly chief engineer of the ss. Montcalm sailing out of Montreal.

NEW TAXES \$70,000,000

Reduction in Expenditures Shown In Budget Speech to Amount To \$14,000,000

OTTAWA, March 21.—Estimated on a basis of the present business conditions Hon. E. N. Rhodes, in his budget speech this afternoon, stated that the budget was designed to produce in 1933-34 a surplus of ordinary revenue over ordinary expenditures of \$2,000,000.

Revenues for 1933-34 under present taxation are estimated at \$287,000,000. Ordinary expenditures are estimated at \$369,000,000. The deficiency on ordinary account is to be met by further reductions in controllable expenditures amounting to \$14,000,000 and new taxation yielding \$70,000,000.

SAVED ONLY 3 LOAVES

Schooner Livingstone Sank so Fast When She Struck Rock That Not Even Compass Rescued

No insurance was carried by Capt. Tony Martinussen on his halibut schooner Livingstone, which hit a rock and sank Saturday morning two hours before low tide on the west coast of Dunbar Island. She went down so quickly that not even the compass was saved.

The Livingstone left here Thursday and on Friday a pump had been giving trouble so they put into a bay while repairs were made. Everything seemed all right so they got out again but again there was pump trouble and they returned to the same spot to make repairs. Having previously passed over the same course no soundings were taken. They were travelling about half speed when the boat struck a rock below the water, keeled over and quickly sank. All the men saved in the dory was three loaves of bread, some butter and coffee. This they had needed for they had to spend two nights on the beach before they reached Pearl Harbor and were taken on board by the Balzac and brought to port yesterday.

The Livingstone is a six-masted boat and was equipped with an almost new diesel engine, which two years ago cost about six thousand dollars. This it is hoped will not be injured. The men aboard in addition to the skipper and owner were Harold Holland, Jacob Oleson, J. Synes, Andrew Sund.

Immediately on arrival at Prince Rupert Captain Martinussen made arrangements with Paul Armour to salvage the vessel and they left immediately for the scene of the wreck.

Blizzard Sweeps Central States; Floods in Ohio

CHICAGO, March 21.—Snow storms of the character of a blizzard have swept Illinois and a number of the neighboring states accompanied by wintry cold.

In Ohio the storm has added to the discomforts attendant on the floods of the Ohio River where bottom lands are covered with water and a thousand people are homeless.

A number of lives have been lost.

Budget of Canada Submitted Today By Hon. E. N. Rhodes Shows Deficit Of Over Fifty Three Million Dollars

Wants Lower Taxes

Driving home his point! Among those who long for the good old days when taxes were taxes is Charles Lindig of Pennsylvania. With a single cylinder 1900 runabout he appeals for lower levies.

MINIMUM PRICE PLAN

Scheme Being Considered to Handle Halibut When Demand Makes Prices Low

Advance by Buyers

Outline of Situation Given at Juneau by President of Cold Storage Co. There

JUNEAU, March 21.—"Though the situation of the halibut fishery industry at the present time is uncertain, and does not look overly bright, it is hoped that the prices can be adjusted and that the fishermen might at least break even," Wallis George, President and General Manager of the Juneau Cold Storage Company said here.

Organizations of fishermen are working at the present time with the San Juan Fishing and Packing Company, Sebastian Stuart Fish Company, the Canadian Fish and Cold Storage Company, of Prince Rupert, and the New England Fish Company, to reach some agreement whereby a sufficient advance can be made to the fishermen to make it possible for them to operate and, if possible, receive at least, outfitting and production costs, Mr. George said.

Agreement Reached Though an agreement was reached last winter between the Fishing Vessels' Association, and the San Juan Fishing and Packing Company, ninety percent of the fishermen, were required to sign it before it became operative. This percentage has not been reached.

SEIGNEUR NOW SAFE

Logs Thrown Overboard to Set Vessel on an Even Keel and Voyage is Continued

ST. PAUL ISLAND, Alaska, March 21.—The Canadian Seigneur, the vessel recently purchased by Japanese from the Canadian National Steamships, that was reported in danger of foundering off the west coast of Alaska, is now out of danger. The deck load of logs which was causing the trouble, was lightened by throwing overboard 250, thus setting the vessel back on an even keel.

The Seigneur is now on her way to Japan without escort.

Urania Ashore In Metlakatla Passage Today

The halibut boat Urania went ashore in Metlakatla Passage this morning on her way out to the fishing grounds. She will probably be floated at high tide tonight.

Attempt to Kill Chancellor Hitler

MUNICH, March 21.—A second attempt has been made here to assassinate Chancellor Hitler.

Minister of Finance is Optimistic in Regard to Business—Will Float Big Conversion Loan in Canada—Bank Interest to be Lowered—Bank Act Revision Next Year

Will Keep Faith With Investors

OTTAWA, March 21.—Hon. E. N. Rhodes presented his budget to Parliament today with the following outstanding announcements:

Canada's deficit on ordinary account for the year is \$53,608,000. Ordinary revenues totalled \$310,817,000 and ordinary expenditures \$364,425,000.

Total additions to the debt to Canada, both for government operations and deficits of the Canadian National system, amount to \$156,122,000.

The net debt of the Dominion on March 31 next will approximate \$2,599,089,000.

The government proposes to float another conversion loan. It will be offered to the people of Canada and the minister declared, "It will be on a basis that will keep faith with investors and will not in any sense involve repudiation of existing contracts. It is believed," he said, "that issue can be made at a rate which will involve a 'substantial saving to the public treasury.'" He did not say when the loan would be floated.

A Royal Commission on banking will be appointed to go fully into the organization and working of the entire banking system of Canada with a view to revision of the Bank Act next year. The question of establishing a central bank in Canada will be studied.

The government is prepared to co-operate with the chartered banks in lowering interest rates by reducing the rate paid on postal savings deposits. Mr. Rhodes declared in favor of reduced rates on savings bank deposits.

"In my judgment," he said, "this reduction is a necessary step if we are to reduce the interest rate on bank loans, mortgages and long-term bonds to a level where business recovery will be most effectively stimulated."

Canada can maintain her financial position "only by maintenance of sound financial and monetary policies," the minister emphasized.

Mr. Rhodes expressed optimism regarding Canadian trade. While there had been a drop of \$250,521,000 in the foreign trade of Canada for the 11 months ending February 28 last, as compared with a corresponding period a year ago, Canada had regained her position as the fifth trading nation of the world and had a favorable balance of trade of \$70,240,000. Empire trade was increasing.

"Without making a detailed presentation of the various items entering into Canada's balance sheet of international payments," said Mr. Rhodes, "it may be noted that current estimates of our position indicate that exports of goods, gold and services, are sufficient to offset annual charges payable abroad and to leave a substantial balance for principal payments on account of external debts. During the past year Canada was the only foreign

Stocks Dropped At New York and Sales Decreased

NEW YORK, March 21.—There was a drop yesterday in the price of stocks and a falling off in sales, only 780,000 shares changing hands during the day. Shares in glass companies advanced as a result of the beer legislation.

SOLDIER IS BEING TRIED

Court Martial Hearing Case Against Young Baillie-Stewart Who Had Been Confined in Tower of London

LONDON, March 21.—The trial of Lieut. Baillie-Stewart of the Seaforth Highlanders on a charge of having played into the hands of German agents commenced yesterday following his incarceration in the Tower of London for many weeks. There were ten counts in the charge brought against him and he denied them all.

It was stated in evidence yesterday that he had borrowed military books of a secret character and that the information in them had been made available to German spies. Also he had made a visit to Berlin and had received money there from a German girl.

When young Baillie-Stewart was first imprisoned in the Tower, visitors there wondered who he was but authorities refused to give his name and also refused the newspapers the right to publish his photographs. The result was that added interest was given to the case. Thousands of people flocked to the Tower to look at the lieutenant who it was thought must have been guilty of some hideous crime. He is 24 years of age.

EXCHANGE RATES

NEW YORK, March 21.—The closing rate of exchange here yesterday was 83½¢ for the Canadian dollar and \$3.44 for the pound sterling.

MORE COMPLICATED

The provincial political situation is becoming more complicated by the announcement by Premier Tolmie that he will continue with his plan to form a union government directly after the Legislature rises. The announcement as telegraphed here did not say he would hold a Conservative convention, as previously planned, to consider the union proposal.

The next group to hear from will be the diehard Conservatives. Will they swing in with one of the union groups or will they run a ticket of their own?

There has been no change in the Liberal plan. The leader of that party was given power at the big Liberal convention to take into his cabinet men from any party if he considered it wise to do so. That left the gate open for union with any persons who might be sympathetic to the reform movement irrespective of previous party affiliation. It did not anticipate union with people or parties out of sympathy with the Liberal movement toward setting the wheels of industry in motion once more by placing more buying power in the hands of the mass of the people.

ELECTION MUST BE SOON

While it is possible that no one knows yet just when the election will be held, it undoubtedly will be soon and it may be sooner than many people think. Premier Tolmie has nothing to lose by bringing it on according to schedule. It is very desirable that at a time like this the matter should be settled definitely. The present dying administration is as helpless as was the expiring Hoover administration in the United States. What is needed is a new person at the helm of the ship of state. That new person may be Pattullo or Bowser or Bruhn or some other person not yet announced but he must be a person of great energy, of great ability, of clean record and of wide influence else the last state of provincial affairs will be worse than the first. The old policy of drift has kept us back. It is time now that we had a forward policy, pressed with vigor and backed by the great mass of the people.

CARNIVAL AT SMITHERS

Hockey and Ice Races Entertain
Crowd at Interior Town

Staged by the High School Athletic Association, a highly successful carnival was conducted at the Smithers skating rink on Monday night, with two hockey games and a series of racing events providing interest and amusement for a fair turn out of the local fans, says the Interior News. The garrulous disposal of hot puppies lent a carnival air to the occasion, and the whole affair ended with a nice little deposit in the sock of the association.

Turning in a surprise to spectators the public school hockey team walked all over their high school students as opposition. At no time were the public school boys in trouble, and they won by the score of five to nothing, all being indicative of the play.

Two teams of high school students performed in the feature hockey tilt, being representative of the Elks and the Legion. Although the Legion was in the game every minute and dangerous at all times, they were out-scored by eight to three.

Races, frontwards and backwards, were on the card, Dan Foster romping over the finishing line in both the events, and J. Dunlop coming second.

Charley Bowland won the race in which there were many and intricate obstacles, with W. Watson second. Three teams participated in a relay race that was close all the way.

C. N. Basketball Team

When the C.N. basketball team takes the floor.

And the score begins to mount up.

Their skill, speed and rare combination.

That's what brought home the cup.

Back on the bench sits the Thinker

Who does all the brain work, they say.

What a cinch for the basketball players—

All they've got to do is to play.

Now, I'll let you in on a secret.

That I've never told to my wife.

The coach of the C. N. basketball team

Never played a game in his life.

Just let other folks do the talking.

Don't try to run any bluff;

Whether on business or pleasure

Keep quiet; look wise; that's the stuff.

Turned in to the C.N.R.A. Bulletin by Jack Campbell.

District News SMITHERS

Loren Jackson Thornton, a well known resident of Smithers and widely known in the territory of Burns Lake, died suddenly at the farm home of George Shepherd at Quilch on Tuesday night.

High school and public school basketball teams of Smithers made a trip to Telkwa to engage in a series with teams of that town. The high school girls were defeated by the home team, but both the high school and public school boys won their games from Telkwa.

Miss Yvonne Agnew left on the Thursday morning train for Prince Rupert, where she underwent a successful operation for appendicitis in the care of Dr. Hankinson.

Constable Malcolm Martin arrived at Smithers from Bella Coola this week, having been appointed to succeed Constable Smith on the provincial police force at this point. He was accompanied by Mrs. Martin and child, and they will take up their residence on Third Avenue.

SPORT CHAT

Tomorrow night is the big game between Vancouver and the local boys and all the hoop fans are looking forward to a night of real fast ball. With the line-up that the C.N.R.A. here have the visitors will be given a peppy run, no matter what style of ball they play. From all reports the Vancouverites play a fast game but the local C.N. boys have displayed some fast ball in the past year. So all that can be said is that it will be a game of exceptionally high calibre.

As an extra to the card on Wednesday night an exhibition game will be played between the Comets and the Cardinals, with all the assurance of them fighting point for point.

Sunday was a bad day for skiing but still some of the more energetic sport lovers climbed Mount Oldfield for their week-end of winter frolic.

Youth still holds the trophy in badminton circles against all opposition. R. Allen and B. Tobey have held the men's doubles championship for several years now and they look Prince Rupert's best bet in badminton. It is too bad that some outside competition can not be arranged so that the local champions might show their skill.

Gregalach, the 1929 winner of the Grand National, is favorite for the 1933 running of the famous steeplechase on March 24 over the four and one-half mile course. Gregalach is quoted in the latest callow at 9 to 1, just slightly lower odds than that given on Golden Miller which has hitherto been the leading choice.

The Birth of Elation.

Ah! Now you're smoking! You're pipe happy. You've discovered Ogden's Cut Plug, a tobacco that's made for your pipe, made to pack right, to light right, to burn sweet and cool to the very last puff.

TENNIS CLUB OFFICERS

Enthusiastic Gathering at Annual
Meeting Held Last Night

Prince Rupert Tennis Club held their annual meeting in the City Hall last night. There was a large turn-out of members and a very enthusiastic meeting followed. It was the opinion of the members that this year's tennis activities promise to be of the best. The main business of the evening was the election of officers for the coming year. The following were chosen:

President, Alex Mitchell.
Vice-president, Jack Hinton.
Secretary-treasurer, Phil Edgumbe.
Executive—Miss L. Frizell, E.

PEACE RIVER PROTEST MADE

People Ask For Better Grain Rates In View of Postponement of Outlet to Coast

PEACE RIVER, March 21.—Feeling that they have been sidetracked in their hopes and demands for a Pacific Coast rail outlet, the Peace River Board of Trade, at a meeting held Monday in conjunction with the Associated Boards of Trade of the Peace River country, passed a resolution asking subvention of grain rates for Peace River farmers, which would place grain freight for shipment to Port William or the Pacific Coast on the same basis as Edmonton.

Following is the resolution: Whereas construction of a Pacific Coast rail outlet for the Peace River country has been postponed indefinitely, necessitating a continuation of the handicap placed on grain growers and others in this district, and

Whereas, thousands of farmers have settled here and have been residing here for years on the promise of governments that a Pacific Coast outlet would be constructed when certain business prospects and other conditions obtained, which conditions have been realized, and

Whereas some of the benefits which would accrue to the farmers of the Peace River district through such construction may be obtained by a subvention of freight rates.

Therefore be it resolved that the Peace River Board of Trade request the Dominion government to grant subvention on grain freight rates to place farmers of the Peace River district on the same freight basis as Edmonton farmers with regard to the shipment of grain to Port William and Vancouver until such time as grain can be hauled direct to the Pacific Coast ports, this to alleviate to some extent the conditions of the Peace River farmer by putting him on an equal basis with farmers of other parts of Western Canada.

Farmers and businessmen of the Peace River territory feel that, as the possibility of having a direct outlet to the coast is out of the picture, at least temporarily, some further consideration should be given settlers as an encouragement to agriculture and business in general.

Congress Votes Five Million to Quake Sufferers

WASHINGTON, March 21.—Congress has voted five million dollars to be loaned through the Reconstruction Finance Corporation to non-profit organizations for the work of relief in connection with the recent Los Angeles earthquake.

Today's Weather

Prince Rupert—Part cloudy, light south east wind, barometer 30.12, temperature 40, smooth sea.

Langara—Clear, calm, moderate sea.

Dead Tree Point—Cloudy, calm, barometer 30.02, temperature 42, smooth sea.

Active, energetic children... forever on the go. They agree on Kellogg's PEP Bran Flakes. Always crisp and full of flavor. Delicious with healthful milk or cream.

The flavor of PEP is famous. Toasted wheat is easy to digest. Nourishing. Plus enough bran to be mildly laxative. Buy these better bran flakes from your grocer. Enjoy PEP often. Made by Kellogg in London, Ontario.

Operations on Islander Wreck To Be Resumed

JUNEAU, March 21.—The Beloit II, chartered by the Curtis-Wiley Salvage Company, has been anchored above the wreck of the steamer Islander, off the end of Douglas Island, to hold salvage rights for the company which plans to operate there during the coming summer, it was learned here.

The company has reorganized and plans to continue the treasure hunt aboard the sunken vessel in an effort to recover the gold alleged to have been aboard when the wreck occurred.

L. Williams, a member of the company, has taken the diving bell invented by the Wileys and used by them in their operations several years ago, to Seattle to be reconstructed. It will be brought back later in the season and used once more by the treasure seekers, according to present plans.

Man in the Moon

I have been wondering which union government I should support, Bowser's, Tolmie's or Pattullo's.

Jake says he thinks he'll have one of his own. He'll be premier, finance minister and minister of creditors.

Thank heaven for the comedies. A good laugh is better for the health than a bushel of spinach.

A woman should try to hold on to her youth but not when he is driving a car.

Jake says when a neighbor sends the kid over to borrow a corkscrew he always delivers it himself. The neighbors all know he'll come.

There are wooden headed drivers on the golf course and also on the streets of Prince Rupert.

The police had to be called when the head of the family took another shot and was unable to keep himself under control.

To the preacher life's a sermon.
To the joker life's a jest;
To the miser life is money.
To the loafer life is rest.
To the lawyer life is trial.
To the poet life's a song;
To the doctor life's a patient
Who needs treatment right along.
To the soldier life's a battle.
To the teacher life's a school;
Life's a great thing to the thinker
But a failure to the fool.

Alleged Libel Against Rustgard In Juneau, Alaska

JUNEAU, March 21.—Alleging libel in a political campaign article said to have been read over a broadcast station last October, Cash Cole, Auditor of Alaska, filed suit against former Attorney-General John Rustgard for \$10,000 in the United States district court.

William L. Paul, Ketchikan attorney, and independent candidate for attorney-general last November who was linked with Mr. Cole in the article, appeared as the latter's counsel. The summons was served on Mr. Rustgard a short time before he and Mrs. Rustgard were boarding a steamer on the start of an extended European tour.

MINIMUM PRICE PLAN (Continued from page one)

as the advance guaranteed was not sufficient in many cases to permit the fishermen to operate until the end of the season. The present negotiations are in an effort to modify this agreement to ease the present situation.

"The agreement as it stands, was reached after the Fishing Vessels Association had approached the two companies mentioned, to see if they could co-operate in establishing a minimum price for the 1933 production," Mr. George said.

"The companies agreed and made the following proposition which was approved by the Association: 'The halibut boats would place their fares on the exchange upon their arrival in port, open to bidding from all concerns. Any time they did not receive prices above 6 and 4 cents a pound in Seattle, 5½ and 3 in Prince Rupert, of 5 and 3 in Ketchikan, Wrangell, Petersburg or Juneau, they would withdraw and turn over the same to the San Juan Fishing and Packing Company or the Sebastian Stuart Fish Company for freezing purposes.

"Until some change or increase is made on the advance proposed, we do not know what action will be taken locally. At present the fishermen are negotiating with the four companies to get the advance increased, making it possible for them to operate and make it possible to receive, at least, outfitting and productions.

"In Seattle the fishermen have agreed to have fares pooled and all return received for the period of each week would be divided equally among the boats according to the weights delivered. In this way an average would be struck in prices received and all boats share equally according to the weights.

"We understand that this plan would be part of any sales agreement which may go into effect."

90% Must Sign
"This agreement was made by the companies on the understanding that 90% of the fishing fleet would agree to the proposition, this being necessary to protect both the companies and the fishermen.

Other Companies Interested
"Since the time the original agreement was offered, the New England Fish Company and the Canadian Fish and Cold Storage

Company, the latter of Prince Rupert, have become interested in the proposition and we are working with the two original companies.

"Mr. Nunan, Resident Manager of the New England Fish Company at Ketchikan, was recently in Petersburg, got 71% of the fleet membership there to sign the agreement. We understand success is also being made at Ketchikan and Seattle to interest the fishermen in this plan.

"Regarding the local situation, a meeting was recently held with the fishermen and while they were interested in the plan, as a whole, they could not see their way clear to operating on freezing advances which would not cover production costs.

"The fishing boat 'Mittkoff' was on the dock recently to have her propeller straightened.

The "Pair of Jacks" took a catch to Vancouver this month, hit a log on the way down, and had to go on the dock on her return to Prince Rupert to have her stem repaired. Captain Peterson took advantage of the lay-up and had also had some painting done.

J. V. Hanley has purchased one of the old "Prince Rupert" and "Prince George" lifeboats and is busy converting it into a combination pleasure cruiser and work boat, to which these are well adapted.

The Big Bay Lumber Co. scow was docked for cleaning and painting. Some planks were renewed and considerable corking done.

The Digby Island launch, the "Katherine B", was also up for cleaning, painting, and an annual overhaul.

The ss. Prince George is on the dock for overhaul and inspection. Quite a lot of work has already been done and it is expected that the inspector will find a few more things to repair when he arrives.

The funeral of the late Andrew McCoski, 46 years of age, who died in the local hospital last Friday took place from the parlors of the B. C. Undertakers this afternoon at 2 o'clock. Many friends gathered at the chapel to attend the service for the deceased. Rev. W. D. Grant Hollingworth officiated.

After the service interment took place in Fairview Cemetery. Pallbearers were from the unemployed.

Will Investigate Faulty Buildings In Quake Area

LOS ANGELES, March 21.—A new grand jury has been sworn in and it will at once investigate suspected faulty construction of buildings that were injured or destroyed by the earthquake.

A new regulation has been made in regard to new buildings in this area that will insure that they are erected in such a manner as to guard against injury in case of another earthquake.

Drydock Doings

(From the C.N.R.A. Bulletin)

A. I. (Mike) Baker, our genial Stores Inspector has completed his inspection of the stores here and is of the opinion that Prince Rupert would be a nice place to live in—in the summer time.

The fishing boat "Mittkoff" was on the dock recently to have her propeller straightened.

The "Pair of Jacks" took a catch to Vancouver this month, hit a log on the way down, and had to go on the dock on her return to Prince Rupert to have her stem repaired. Captain Peterson took advantage of the lay-up and had also had some painting done.

Good Work of Boy From Hazelton in University Players

In its report of the Mystery Play put on by the Players Club of the University of B.C. the Vancouver Province has the following reference to the work of William Sargent, younger son of R. S. Sargent of Hazelton:

"The masterly acting of William Sargent in his difficult role of Hercule Poirot, the dapper French detective, was outstanding among a well-balanced cast. Sargent portrayed the French accent and manner in a way that drew repeated applause from the audience."

"It is never safe to assume that the human community differs very greatly from an ant heap."—Rebecca West.
