### CROPS ARE DOING WELL

**Cool Wave on Prairies Followed by Hot Spell—Rain Now Needed**

WINNIPEG, June 17:—All grains in Manitoba are growing very fast and conditions continue favorable, according to the Canadian National Railways weekly crop report. Night temperatures in the early part of the week fell close to freezing but this cool spell was followed by a warm wave. Fall rye is headed out and pastures and hay prospects are excellent. Grasshoppers are active in the southern parts of the province but effective control measures are showing results.

In the Dabphin and Swan River areas a light frost on June 12 affected garden products and some isolated low-lying fields of wheat. Wheat is from six to eight inches in height and most coarse grains are well through the ground.

**In Saskatchewan**  
Along the Lampman, Avonlea, Gravelbourg, Riverhurst, Glenavon, Qu'Appelle subdivisions in Saskatchewan, early wheat is from eight to twelve inches high and growth is uniform and color good. Crops are not suffering for moisture but rain at an early date would be beneficial.

In Central Saskatchewan from Yorkton west through Saskatoon to Kindersley weather has also been warm with a few scattered showers and grain is growing fast but more rain in this territory would be welcome.

At all points in the Prince Albert division weather has been ideal and continued farm weather is required as numerous districts still report the season somewhat late. Grains are making good progress and wheat is starting to stool and moisture is plentiful over the entire division.

**Alberta Healthy**  
The Goose Lake line territory of Alberta reports all grain showing well above ground and looking healthy. A few scattered showers were experienced but more moisture is now necessary owing to continued hot weather. A heavy frost on June 10 along Three Hills, Stettler and Red Deer subdivisions damaged wheat in some districts but setback should only be temporary.

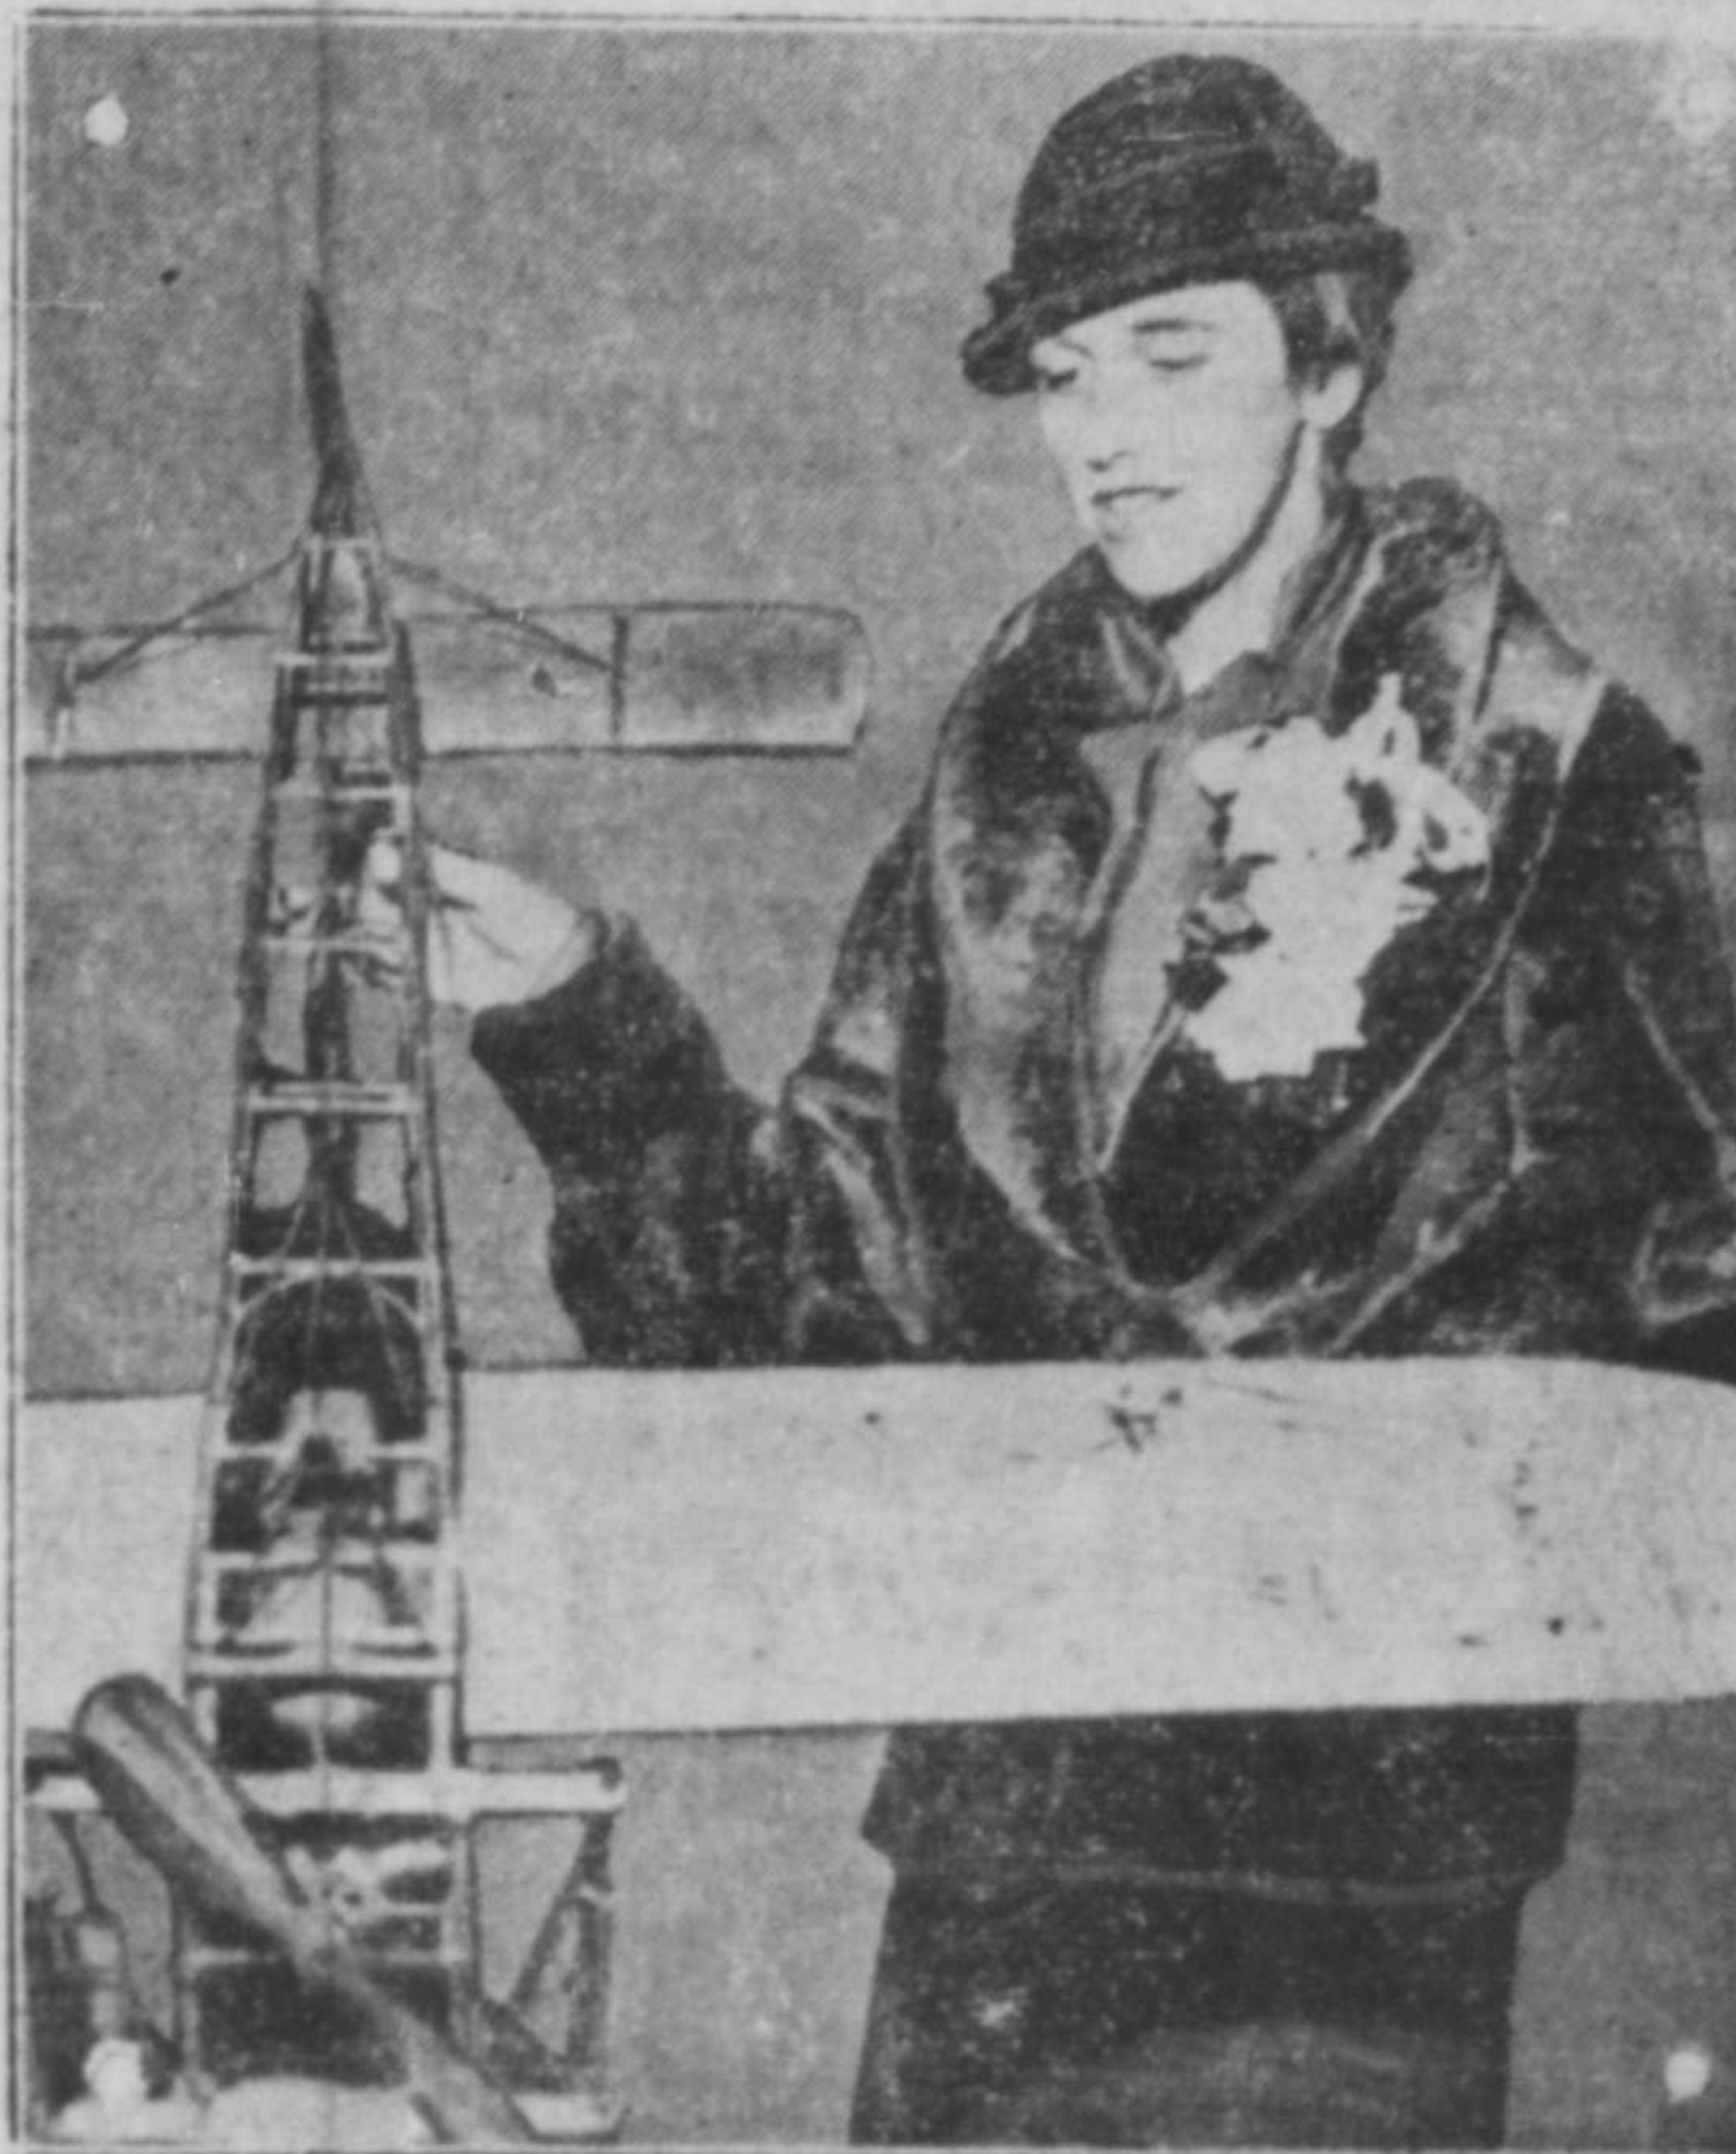

Along the Blackfoot, Alliance, Bonnyville, Vegreville and Camrose subdivisions weather has been windy and dry but all crops are progressing rapidly and no damage is reported from any source.

**Cattle and Hogs**  
Many half finished stall fed cattle which have been turned on grass are now reaching central markets and their advent is causing indifference among buyers with the result that anything except dry fed animals show price weakness. In the fed yearling section offerings have been fairly liberal and prices have also slipped about 25 cents lower. The bacon and hog market is still in an unsettled condition but no material weakness should be apparent for some time.

### Prince George is Now Firmly Established as Commercial Centre of Very Large District

(By H. F. Pullen)

Prince George is very firmly established as the distributing and shopping centre for a very large section of the northern interior of British Columbia. It is steadily growing and each year it looks better than it did the year preceding. It has the making of a very important city in the years to come. The depression hit Prince George just as it hit every other section of British Columbia. The merchants have suffered severely but they are all in business and doing business and there have been no failures except such as would probably have come anyway. Probably the ratio of failures is smaller than in any other centre in the province.

While the lumber business is still in the doldrums, there are a number of mills commencing to cut the logs they have in their respective ponds and, if there is any improvement in price, men will go to the woods during the winter to get logs for next year's supply. Any improvement that is being felt in Prince George so far is the result of mining activity in the Cariboo and Omineca. Numbers of Prince George people have gone into these areas and, if they earn anything, will return and spend the money. A certain amount of business comes from the mines to the city but nothing like as much as might, if they were treated fairly. Everywhere the complaint is made that there is discrimination against Prince George. Money expended on the roads is south of Quesnel and the highway north of that for some distance is in such a condition that it is almost impossible to drive over it. Complaint is also made that the Quesnel people advise tourists and others not to go beyond their district because of the condition of the roads. Dozens, if not hundreds, of cars have been turned back and Prince George has suffered accordingly. Hundreds of dollars would have been distributed through the country all the way to Hazelton had a few mud holes just north of Quesnel been filled up.

### Plan of Conference Experts Is Presented to Home Governments

**United States Delegation Makes Proposal For General Tariff Reduction—German Memorandum Explained As Merely "Private Opinion"**

LONDON, June 17: (Canadian Press)—Tentative agreement on controlled stabilization of international currencies has been reached by experts and submitted to the home governments for approval, it was learned in economic conference quarters this morning. The agreement provides for control of exchanges to smooth out money fluctuations rather than for definitely fixing rates, it was stated. It was also learned today that the United States delegation had made a proposal for a general ten percent reduction in tariffs.

### CANNERY LICENSED

**Ocean Salmon Canneries Ltd. Is Authorized to Operate Oceanic Plant**

VICTORIA, June 17: (Canadian Press)—The Ocean Salmon Canneries Limited, operating Oceanic Cannery on the Skeena River, was licensed yesterday by the Commissioner of Fisheries. The plant was acquired last year from the B. C. Packers by Robert Gosse and C. Gillespie and is being placed in operation this season under the management of the latter.

BANK OPTIMISTIC

The Royal Bank of Canada has just issued a very optimistic report. In its monthly letter it says:

"A marked increase in the activity of business in the United States during April and May has generated mounting optimism which is of itself tending to produce further improvement. Iron and steel production has doubled since April 1, car-loadings have risen sharply, New York State returns show an increase of nearly three per cent in factory employment and a greater increase in total payroll. The index of automobile production rose from 10.2 for the week ending March 18 to 47.1 for the week ending May 20. The combined index of business activity in the United States, published by the New York Times 'Annalist,' rose from 60 to 78.1 in this interval, and the Fisher Price Index has risen from 55 to 61.2 since the beginning of March. These definite developments are indicative of an improvement which has taken place all over the country. They constitute evidence that the public is of the opinion that the new administration has entered upon a program which will restore general prosperity."

POLITICAL MOVEMENTS

These are days when everybody is talking politics and watching the various shuffles which are going on in the south. Only recently it was announced that party politics was a thing of the past, that people were sick of party politics and that Bowser was the only salvation. Premier Tolmie also announced that he was through with party politics and that, before the election, he would ask support. Neither of these groups was to be Conservative. Far from it!

Now it is announced in all the newspapers in the south that an effort is being made to unite these two groups under the Conservative flag with a new premier and with Premier Tolmie and W. J. Bowser on the dump heap. This is probably being done on the advice of Hon. H. H. Stevens. One paper says Premier Tolmie is ill and should retire. Another says the Premier had a day off and is entitled to a holiday if he wishes it, as all other ministers have had their holiday. The Sun says the Premier is planning to commence at once a speaking tour which is to cover the whole province in support of his unionist party.

The result of all this is that Conservatives in this part of the world are wondering whether they are Conservatives and, if so, whether they should support the unionist or the Bowserite non-partizan branch of the party or just tie low until something more definite is before them.

So far as Prince Rupert is concerned, a number of people are suggesting that T. D. Pattullo should be given a unanimous nomination in view of the expectation that he will be premier of the province directly after the election.

A SATURDAY SERMON

God's Grace and Glory

(By Rev. P. M. Fosse, St. Paul's Lutheran Church)

"For the Lord is a sun and shield; the Lord will give Grace and Glory; no good thing will he withhold from them that walk uprightly." Jehovah is merciful. It is His joy to give. His gifts are unlimited and precious and are bestowed freely as the rays of the sun. He gives Grace to His chosen ones because this is His will, to His redeemed for the sake of His covenant, to His faithful because they seek for it, to sinners because of their need.

He gives grace abundant in the right time, at all times royally. The value of the gift multiplies itself the way it is given. Grace in any form He gives freely, consoling, preserving, sanctifying, leading and teaching sufficient without any break in the heart of His faithful.

Sickness may come into their homes and families but the Lord shall give grace. Poverty may also come but God's grace shall never be withheld. Death comes but God's grace shall illumine through the darkest hour.

Beloved reader, how blessed this is while the years pass away to rest securely in these glorious promises. "The Lord will give grace and glory." These small words, "Grace and Glory" are more magnificent than the brilliance of the most glittering diamond. Grace and glory come and go together. God has united them and no man can separate them. The soul that lives on God's Grace, the Lord will honor. Just how soon we shall be honored we do not know but, whether we yet shall wait a while, it will only at any rate be short as time passes as in a dream.

May we, while we wait, make use of this time of grace to win our fellow brother and sister for the Kingdom of Jesus Christ and His eternal glory and peace?

What a wonderful promise "The Lord will continue to give grace and glory." No one can prevent Him from doing so. He is as able as He is willing. The Almighty God, our Heavenly Father, we live by Him in His sacred promises from day to day. Let us rejoice forever.—Amen.

Farewell is Bade To Terrace Pastor

Presentation Made to Rev. H. T. Allen by Usk Community Church

USK, June 17:—Church service at Usk on Friday evening of last week was augmented by the Girls' Choir from Terrace conducted by Rev. and Mrs. H. T. Allen. The very delightful and varied selections rendered by the choir reflected great credit both on the girls and their leaders.

At the close of the service, John Willman, on behalf of the Usk Community Church, presented Mr. Allen with a gift of a desk pen as a token of appreciation for his services during his sojourn in the district prior to his leaving for a new pastorate in the south. Following Mr. Allen's fitting reply on behalf of his wife and himself, the serving of coffee and cake brought the evening to a close.

IS GIVEN NEW POST

Rev. Father Webb, Formerly of Prince Rupert, Gets Important Appointment

News has been received in the city of the appointment of Rev. Father Charles Webb O.M.I., formerly parish priest of the Annunciation Church here, who left some months ago for Buffalo, N.Y., as director of the mission work of the Oblate Fathers on the Pacific Coast, including the States of Washington, Oregon and California. His headquarters will be at Saint Benedict's Church, Seattle. Father Webb is bringing other Oblate missionaries west with him to assist in the extensive work that has been confided to his charge. He will assume his new post July 1.

Father Webb came to Prince Rupert from Buffalo, N.Y., in July, 1930, and remained in charge of the local parish of the Church of the Annunciation, assisting Bishop Bunoz O.M.I. until November 26, 1932, when he was recalled to Buffalo. Many friends of Father Webb in Prince Rupert, both Catholics and Protestants, will be pleased to hear of his recent promotion and will wish him success in his new field of missionary work.

HOMES TO BE BUILT

City Disposes of Two Sites as Well as Soldiers' Housing Property

During the last thirty days the city has sold two home sites—one in Section 6 and the other in Section 7—which will be improved this summer, it is announced by City Commissioner W. J. Alder who reports the transactions were in cash.

Also yesterday the city disposed of a house and lot in Section 2, it being one of the Soldiers' Housing properties of which four were advertised for sale in the press this week. As a result of the advertising, the commissioner says, no less than twenty personal inquiries were made.

Fine Spirit Marks Fishermen—Halibut Landings Still Lead Last Year—Salmon Canning Starts Next Week

Canadian fishermen have been having their share of trials during the past year or two but they have shown a fine spirit, and an extract from a recent report to the Dominion Department of Fisheries by one of its British Columbia supervisors is pertinent comment in this connection.

And the same courageous spirit that was shown by these Pacific Coast people during 1932 has been characteristic of Canadian fishermen generally.

With ten canneries on the Skeena River in operation, three on the Naas, two in the central area, two in Smith's Inlet, one in Bella Bella, six in River's Inlet and two in the Bella Coola division, the 1933 salmon canning season in Prince Rupert district will get under way soon after midnight on Monday next which will mark the opening of gill-net fishing for sockeyes.

as it is an "off year" for pinks there.

Halibut Landings

Halibut landings at the port of Prince Rupert for the 1933 season up to and including yesterday totalled 6,190,600 pounds as compared with 5,495,000 pounds at a similar date last year.

For the week ending yesterday landings totalled 426,000 pounds of which 228,500 pounds was from Canadian vessels and 197,500 pounds from American. The high price of the week for Canadian fish was 6.7c and 3c which the R. W. was paid for 14,000 pounds while the low and prevailing price was 5c and 3c.

Bringing in Richard Sigmund, young Queen Charlotte City logger, who sustained a fractured skull when struck on the head with a choker block at Allison's camp, the big Powell River tug St. Faith was in port Thursday morning from the islands. Sigmund is a son of Joseph Sigmund, formerly of this city.

An interesting and unique visitor to port during the past week was the 26-foot sail and auxiliary yawl Pathfinder on which G. A. and J. W. Kym, Belgian brothers from Vancouver, are essaying to make a trip around the world.

Continuation of the voyage which started from Vancouver a month and a half ago. During its stay, the vessel was tied up at the new fishermen's floats where it was viewed by many curious spectators.

Mitchell and Waters, two young chaps from Anxoy, who started out from the smelter town some time ago by canoe to make a trip via inland waters to Vancouver, arrived last week at Mission Point on the Skeena River near Hazelton.

Last Sunday's unexcelled weather attracted the large majority of the pleasure fleet from the floats of the Prince Rupert Rowing & Yacht Club floats. Picnic parties were the order of the day with a number of angling parties also out.

Her delay having been largely caused by the fact that she brought north a big crowd of fishermen—white, Japanese and Indian—to various canneries points on the Skeena River and elsewhere along the coast in readiness for the opening of the sockeye season next week.

Forty-Seven Years Ago Since Big Fire Visited Vancouver

At least one local person read with a great deal of interest a special article published in the magazine section of the Vancouver Sun of Sunday last in which the great fire which destroyed the infant city of Vancouver on June 13, 1857, was recalled.

Pyjama Party by Cambrai Chapter Very Enjoyable

Members of Cambrai Chapter, Imperial Order Daughters of the Empire, were entertained last evening by Mrs. J. A. Barry at a pyjama party at her home on Sixth Avenue East.

STRAWBERRY STOCK LATE

Rain and Cold Weather in South Prevents Their Movement—New B. C. Lines Appearing

Owing to wet and cold weather in the south, only one shipment of California strawberries has been made to Prince Rupert, these making their appearance at the end of last week in fairly good shape.

Gradually British Columbia lines of fresh vegetables are beginning to replace California imported produce. Within the next week or so further new lines of seasonal vegetables and fruit will be in.

There is little change in market prices generally. Butter is weak while flour and eggs continue steady.

Retail prices current here at present are as follows:
