Scale Rocky Mountains Now By Air

Modern methods of transportation were employed by ten Vancouver mountaineers recently when they decided to scale Mount Garibaldi's 9,000-foot peak in a day. They arose early, climbed aboard a Canadian Airways twin-engined amphibian and flew over the mountains to Garibaldi Lake at 4,350 feet. Landing on the lake, the machine taxied to the edge of a glacier which served as a slipway. The mountaineers unloaded their gear and climbed the frozen surface of the glacier to the peak, making a record ascent. When they returned to the lake eight hours later their flying boat had returned and they were whisked back to Vancouver

"On November 2 the froth and foam will be cleared away and I predict the Liberal party will have a clear cut majority over all. A hodge podge of representation bickering and dickering for preferment would not be good for British Columbia. The people in their hearts know it," declared Mr. Pattullo.

If Tolmie is so very bad now he must have been bad then. While we do not believe any party or group can remain static, a revulsion of belief on the part of a number of ministers of the crown looks more like personal self-seeking than a real change of heart.

We share the belief with thousands of others that all the former ministers of the Tolmie administration are equally responsible for the acts of the Tolmie Government and also for its inaction. Because of that we cannot think that the people of the province will now vote into power the men who made a failure of the government during the past few years.

BE SURE TO REGISTER

In order that a person may vote at the coming election on November 2 it is necessary that his or her name be on the list of registered voters. Anyone not already registered should do so next Monday, the only chance they now have. In order to register it is necessary to appear in person. This is important.
