ARMAN'S NT CONFERENCE ADJOURNS

TIME FOR PU'CY CHANGE, DECLARES MACKENZIE KING

Geneva Parley Refuses To Accept Reason from Berlin for Withdrawal

Gathering Will Go Into Session Again on October 26-Germany Claims Other Nations Refuse to Disarm While Refusing Her Defence

GENEVA, Oct. 16: (CP)-The world disarmament conference adjourned today until October 26 after declining to accept Germany's reason for withdrawal that the great powers were unwilling to reduce their armaments while refusing Germany the right to arm herself with defensive weapons. It is admittedly one of the most serious acrises either the League of Nations

or the disarmament conference

To Try Again For Stratosphere Altitude Record

Lieut.-Commander T. G. W. Settle, well-known navy balloonist, plans a second attempt to reach the stratosphere from the Chicago world's fair in an effort to surmount the height record of 11 miles. 1,406 yards (62,335) feet) set by three Russian scientists, Prof. Geo. Prolofiev, Ernest Brinbaum and C. D. Godunow. The new mark of the Russians is more than a mile higher than the distance attained in the flight of Prof. Auguste Piccard, Belgian scientist, and the first man to reach the stratosphere. Settle's first attempt ended when the balloon failed to keep altitude.

A Brief Synopsis of Liberal Policy

EREWITH is a brief synopsis of policy as laid down by the Liberal Party of British Columbia, in convention held in October, 1932.

Many matters of interest, not specifically set out, will require consideration. The principles enunciated are indicative of the Liberal viewpoint, and are broad enough to meet every question within provincial jurisdiction.

The Liberal Party exists as an official organization for the purpose of formulating and furthering measures that will make for the wellbeing of each individual member of society, and the welfare of society as a whole.

Innumerable questions, both of public and personal character, can be properly treated only through the agency of government.

Government is not an ordinary business, but carries responsibility to meet every problem arising from our complex social and economic conditions, in order that not merely a few, but all of our people may live in reasonable comfort.

The Liberal Party pledges immediate action under the best available advice and closest study.

T. D. PATTULLO.

August, 1933.

1.—Profitable and permanent Employment is the most important question facing our people. There should be co-operation between the national, provincial and municipal authorities and the Canadian banking system to establish the necessary credit to carry out a broad programme of constructive and useful wage-distributing public enterprise, and to further the health, education and well-being of all our people.

An Economic Council should be established, the membership of which shall consist of representatives of the various avenues of endeavour, such as health, education, agriculture, labour and the industries. This council will be appointed by the government on recommendation of the interests involved, and will act in an advisory capacity to the government.

Amongst other things the council will study industrial and social effort in the province and suggest means to correlate these efforts. It will familiarize itself with intra, inter-provincial and foreign trade, and will co-operate with the other provinces and the Dominion. It will also study such questions as production and consumption, and the marketing of our products, the number of hours of work per day and days of work per week, the standard of wages and commodity prices. These questions are of national as well as provincial concern, and British Columbia can take the lead in urging co-operation with the other provinces and the Dominion as a whole.

National Unemployment Insurance should be established upon a contributory basis.

2.—Our Financial position must be reviewed. Current expenditure must be kept within current revenue. While maintaining the credit of the province, effort must be made to reduce capital charges. We cannot continue to pay exorbitant rates of interest for money.

3.—The Taxation Structure must be revised with a view to reduction wherever possible, including exemption in the lower scale of wages and salaries.

4.—The health of each of us is important to the whole community, and a measure of State Health Insurance should be made effective, not only to preserve health, but to reduce costs both to the average citizen and to industry.

5.—A general and effective review must be made of the Educational problem, rejecting any proposed organization that involves a caste system. We must facilitate the intellectual growth of each individual member of society in order to equip him for his daily tasks, and for the enjoyment of such cultural pursuits as may be in keeping with our social customs.

Triangular disagreements between the school boards, municipal councils and the department of education must be adjusted, and our whole system placed upon a sound financial basis.

6.—The financial position of our Municipalities is of increasing concern. An equitable adjustment must be made as between the province and the municipalities, and the municipalities placed in a sound financial position.

7.-An effort should be made to settle our Agricultural Lands in order that more of our citizens may be self-supporting. Agriculture as a whole must be put upon a sound and profitable basis, and made capable of sustaining and directing itself, in line with all other national, basic industries.

8.-Continuous effort should be put forth to assist industry in Marketing its products, in timber, agriculture, fishing, mining and, in fact, every operation where it appears that useful service can be rendered.

9.—Our highways must be kept in good condition, both for the benefit of settlers and the tourist traffic, and expanded as circumstances warrant. In this connection a Highway Board should be established to make for continuity of policy and to inspire confidence in impartial treatment. 10 .- A Public Utilities Commission should be

established. 11 .- A National Central Bank should be estab-

12.—Social Services, such as Mothers' Pensions, Old Age Pensions, etc., must be maintained. Abuses of administration should not be allowed, and injustice through mere technicalities should not be permitted.

13.—The Peace River must be given access to the Coast.

14.—In order that the utmost Freedom of Action by Members of the Legislature may be assured in respect of questions before the House, it is Liberal policy that a government shall be considered to be defeated only upon a straight want-of-confidence motion.

15.-The Dominion Government will be asked to place the Province of British Columbia upon a basis of equality with the other provinces, and to this end request will be made for a Royal Commission to ascertain the extent to which the Province of British Columbia has not been given Equality of Treatment with the Other Provinces of the Dominion.

16.—There shall be a permanent Voters' List to

ensure that all eligible voters are enrolled. 17.—The Leader of the Liberal Party is given a free mandate to choose for his associates in government, men of character, ability and standing, having regard solely to the public interest.

Lee Tracy and Madge Evans Stars Of Fast-Moving Comedy Drama "The Nuisance"

Lee Tracy comes to the screen of the Capitol Theatre here the first of this week as an automobilelaughs, romance and thrills out of able physician on patients who the legal racket in the quick moving drama "The Nnisance." There are hilarious sequences in a great skating rink, exciting street car and auto accidents and dramatic courtroom episodes. Tracy outwits a traction company, ties up a big city's traffic, engages in other sanguinary adventures and even marries a feminine private detective who is assigned to deliver him into the toils of the Bar Association.

Madge Evans plays the part of the pretty girl detective, Frank Morgan is a quack doctor who assists the lawyer in manufacturing evidence for damage suits and Charles Butterworth, John Miljan, Virginia Cherrill and David Landau are among others who have prominent roles.

PROVED By

Thousands of people in 72 different countries have declared that Dr. Williams' Pink Pills have been of definite benefit to them down conditions. That is evidence-now comes PROOF. It is were in a run-down, tired-out condition, due to impoverished

The one sure proof of the efficiency of a blood-builder is its power to improve the haemoglobin content of the blood. Haemoglobin, as the physician explained to his "blood test" patients, is the oxygen-carrying element of the blood. It builds body cells and clears the system of poisons. Normal health and energy are possible only when the haemoglobin content of the blood is

The physician "blood tested" a typical group of under-par, anaemic people. They were put on a treatment of Dr. Williams' Pink Pills for a month, and were then given a second blood test. In the physician's own words, the haemoglobin increase was "nothing short of remarkable." The patients had better color, more pep and vigor, more desire to work. They were no longer anaemic. The physician's records of these

your run-down system and brighten your life. It will do as Dr. Williams' Pink Pills-50 cents a package.
