ACTION IS PROTESTED

Resolution Passed Against Fishermen Being Shipped to Relief Camps Down Coast

At a regular meeting of the Fishermen's Industrial Union last night a resolution was passed protesting at the sending of loca' nese Eastern Railway. fishermen, some of whom owned amps on the lower mainland.

The view was expressed that it had been through the action of the government in closing the fishing season that a number of the fishermen had been compelled to go on relief and that it was working an unnecessary hardsh'. upon them to ship them out of Prince Rupert. If they were left here to go to work at the opening of the season next year, they would have a better chance of paying up their accounts.

Massett Appeal

Two Hours of Argument Heard on Friday in Rutten Certiorari Proceedings

After two hours of argument by sine die was taken in the appeal by ning to leave tomorrow afternoon counsel on Friday, adjournment writ of certiorari on behalf of David Rutten of Massett against a conviction and fine of \$400 by Stiselling beer.

The conviction is being attacked on the technical ground of jurisdiction in that the conviction papers failed to show where the alleged offence was committed.

L. W. Patmore is acting as counsel for Rutten and J. T. Harvey for the crown.

Description of the second seco BIG GAME HUNTERS RETURN TO ST. LOUIS

The Seattle charter yacht Westward arrived in port Sunday night, having on board Mr. and Mrs. Sharp Ezzell of St. Louis who have been on a big game hunting trip to Alaska. Mr. and Mrs. Ezzell proceeded east from here by train last night. They will stop enroute at Lake of Woods where they have a pretentious summer home under construction.

Tokyo Repudiates Alleged Official Communication—Associated Press Told That Diplomatic Relations

May Become Strained

TOKYO, Oct. 10: (CP)-Foreign office spokesmen indicated to the Associated Press today that diplomatic relations between Japan and the Soviet government might become strained as a result of the distribution of documents in Moscow which Japan brands as "utter fabrications." The documents were purported to be official Japanese communications concerning a plan to seize the Chi-

VOTING IN PR. RUPERT

List of Polling Places in Provincial Election Announced By Returning Officer

If a poll is found to be necessary for the provincial election in Prince Rupert riding following nomination iay on Thursday of this week, voting will take place at the following turning officer, D. C. Stuart:

Prince Rupert, Haysport, Inver-Flewin's Point, Jap Inlet, Lawn Hill, Lockeport, Massett, North Island, Oceanic, Oona River, Osland, Port Clements, Port Simpson, Queen spit, Skidegate, Squadaree, Sunnyside, Tlell and Woden River.

Nominations will close at 12 noon will be necessary.

EXCURSION

Ketchikan and Outing Was Very Enjoyable to All

With no less than 215 persons making the trip, the special weekend excursion of the steamer Prince Rupert to Ketchikan was a most successful and enjoyable innovaion which it is to be expected may be repeated in future years. Special arrangements had been made for the entertainment of those making the cruise and all had a very happy time. The people of Ketchikan proved themselves to be, as usual renial hosts and also did their part to make the outing a completely pleasant one for the local folk.

Athough it rained at Ketchikan almost the entire day, this did not dampen the spirits of the excursionists nor did it seem to detract nuch from the general enjoyment. Some of the travellers spent the day at Ketchikan visiting with friends and sightseeing in the A'askan city was, of course, a general NEW YORK, Oct. 10-Silver was diversion and, in this connection erous in the matter of transporta tion. QUESTION OF STABLE GOVERNMENT The election which is to be held November 2 is not to decide which party or group or non-party aggregation shall administer the affairs of the province. It is a contest between the forces that make for stability and those that make for disintegration.

Suppose for an instant that the people should be foolish enough to elect a majority of C. C. F. candidates! What would happen? It would mean that at once a Fascist party would be organized composed of all those opposed to the drastic changes which the C. C. F. advocate. It would mean the beginning of political turmoil and possibly of a condition of unrest such as has never been seen.

If the independents should be in the majority, no one could say what would happen. They are a loose aggregation with no common ties except the outstanding desire not to be identified with the Tolmie government to which they formerly adhered. They hate unpopularity.

The Liberal party is at present the party of security. It is the only party that guarantees work for wages and a return of prosperity. It is the party that is resolved to see that the worker has a fair deal and that industry shall be encouraged. It is just now the party of common sense. Many people of all parties declare that on this occasion they will vote Liberal because they see in Liberalism the only way out of the present impasse.

T. D. Pattullo declares day after day that the evils of unemployment and business depression must be attacked determinedly. Such a policy is the basis for the present campaign and we are inclined to believe it will be accep-

table to the people of the province.

CANADIAN GENERAL ELECTRIC CO. LIMITED

Defeated Borden Street School Two To Nil in Junior Soccer

Booth Memorial School registered its first win of the season by defeating Borden Street School by two goals to nil in the Junior Football League last Saturday. Borden had all the best of the first half but shot poorly and from too long range while Krause was equal to their other efforts. In the second half it was all Booth and Jack Ritchie placed a nice shot well clear of Postak when a Borden back miskicked a centre from Husoy. Later Holkestad added a second goal following a well placed corner kick from Husoy.

Krause saved from Mah and. when Booth attacked. Dybhavn was safe. Monkley shot over, Barton and Houston were very clever but Eastman stopped them. O'Neill was also clever. Borden got the ball past Krause but Currie was yards offside and the score was not allowed. Barton shot over. Booth was lucky not to be behind at half time. Booth did most of the pressing and Ritchie got a nice goal. Postok saved well from Husoy and did well to clear a corner beautifully taken by Husoy who a moment later took a second corner from which Holkestad scored. Barton had a grand try following a corner but Krause saved on the goal line.

Borden-Postok: F. Williscroft, Dybhavn; B. O'Neill, Mah, Ormiston; Monkley, Barton, Houston, S. Currie, Gulick.

Booth-Krause; Dennis, Eastman; Bob Williscroft. Cameron, Clausen; Husoy, McKay, J. Ritchie. Carlyle, Holkestad.

Referee, W. E. Williscroft. Linesmen, Irvine and A. Ritchie. The league standing to date:

A Brief Synopsis of Liberal Policy

LI EREWITH is a brief synopsis of policy as laid down by the Liberal Party of British Columbia, in convention held in October, 1932.

Many matters of interest, not specifically set out, will require consideration. The principles enunciated are indicative of the Liberal viewpoint, and are broad enough to meet every question within provincial jurisdiction.

The Liberal Party exists as an official organization for the purpose of formulating and furthering measures that will make for the wellbeing of each individual member of society, and the welfare of society as a whole.

Innumerable questions, both of public and personal character, can be properly treated only through the agency of government.

Government is not an ordinary business, but carries responsibility to meet every problem arising from our complex social and economic conditions, in order that not merely a few, but all of our people may live in reasonable comfort.

The Liberal Party pledges immediate action under the best available advice and closest study.

T. D. PATTULLO.

August, 1933.

1.—Profitable and permanent Employment is the most important question facing our people. There should be co-operation between the national, provincial and municipal authorities and the Canadian banking system to establish the necessary credit to carry out a broad programme of constructive and useful wage-distributing public enterprise, and to further the health, education and well-being of all our people.

An Economic Council should be established, the membership of which shall consist of representatives of the various avenues of endeavour, such as health, education, agriculture, labour and the industries. This council will be appointed by the government on recommendation of the interests involved, and will act in an advisory capacity to the government.

Amongst other things the council will study industrial and social effort in the province and suggest means to correlate these efforts. It will familiarize itself with intra, inter-provincial and foreign trade, and will co-operate with the other provinces and the Dominion. It will also study such questions as production and consumption, and the marketing of our products, the number of hours of work per day and days of work per week, the standard of wages and commodity prices. These questions are of national as well as provincial concern, and British Columbia can take the lead in urging co-operation with the other provinces and the Dominion as a whole.

National Unemployment Insurance should be established upon a contributory basis.

2.—Our Financial position must be reviewed. Current expenditure must be kept within current revenue. While maintaining the credit of the province, effort must be made to reduce capital charges. We cannot continue to pay exorbitant rates of interest for money.

3 .- The Taxation Structure must be revised with a view to reduction wherever possible, including exemption in the lower scale of wages and salaries.

4.—The health of each of us is important to the whole community, and a measure of State Health Insurance should be made effective, not only to preserve health, but to reduce costs both to the average citizen and to industry.

5.—A general and effective review must be made of the Educational problem, rejecting any proposed organization that involves a caste system. We must facilitate the intellectual growth of each individual member of society in order to equip him for his daily tasks, and for the enjoyment of such cultural pursuits as may be in keeping with our social customs.

Triangular disagreements between the school boards, municipal councils and the department of education must be adjusted, and our whole system placed upon a sound financial basis.

6.—The financial position of our Municipalities is of increasing concern. An equitable adjustment must be made as between the province and the municipalities, and the municipalities placed in a sound financial position.

7.—An effort should be made to settle our Agricultural Lands in order that more of our citizens may be self-supporting. Agriculture as a whole must be put upon a sound and profitable basis, and made capable of sustaining and directing itself, in line with all other national, basic industries.

8.-Continuous effort should be put forth to assist industry in Marketing its products, in timber, agriculture, fishing, mining and, in fact, every operation where it appears that useful service can be rendered.

9.—Our highways must be kept in good condition, both for the benefit of settlers and the tourist traffic, and expanded as circumstances warrant. In this connection a Highway Board should be established to make for continuity of policy and to inspire confidence in impartial treatment.

10.-A Public Utilities Commission should be established. 11 .- A National Central Bank should be estab-

12.—Social Services, such as Mothers' Pensions,

Old Age Pensions, etc., must be maintained. Abuses of administration should not be allowed, and injustice through mere technicalities should not be permitted.

13.-The Peace River must be given access to the Coast.

14.-In order that the utmost Freedom of Action by Members of the Legislature may be assured in respect of questions before the House, it is Liberal policy that a government shall be considered to be defeated only upon a straight want-of-confidence motion.

15.—The Dominion Government will be asked to place the Province of British Columbia upon a basis of equality with the other provinces, and to this end request will be made for a Royal Commission to ascertain the extent to which the Province of British Columbia has not been given Equality of Treatment with the Other Provinces of the Dominion.

16 .- There shall be a permanent Voters' List to ensure that all eligible voters are enrolled.

17.—The Leader of the Liberal Party is given a free mandate to choose for his associates in government, men of character, ability and standing, having regard solely to the public interest.

The Letter Box

SCHOOL FINANCE

The interesting analysis of school costs prepared by a prominent local business man and property owner is interesting in more ways than one.

In the first place it does not correspond with the figures in your paper on June 30. Salaries for each year from 1925 to 1930 as given by your business man are approximately \$6000 per year higher than the figures quoted by Mr. Alder. In 1931 there is the greatest discrepency. For this year your business man gives \$77,204.95 as the cost of salaries as against \$68,607.70 given by the commissioner. Perhaps this difference of \$8,500 is due to a difference in accountancy method but, to the ordinary man, it seems a mighty big difference. Again our prominent local business man knows the psychological point at which to leave off his analysis. Mr. Alder gave the figures for 1932 also. These figures, if they had been placed below those of 1931, would certainly have spoiled the interesting analysis for they would have shown a reduction in salaries from 377,204.95 to \$59,611.22—a decrease of over \$17,000. The same year be the purpose of publishing such manded of teachers. The curricu-

the total number of pupils attend- trance to university. ing our schools was 802. In 1932 it If these factors are taken into was 1172. This is an increase of 370 consideration, one is justified in pupils, which is equivalent to a feeling that at least there has been school of nine divisions requiring no orgy of spending in connection nine additional pupils. Yet-so with our schools. wonderful is the way one can quote statistics in spile of this large increase of pupils and teachers, the cost of salaries was lower in 1932 than it was in 1922, and the net cost to the city was actually less by almost \$6000.

'Blood-Tested'

PREPARATION Editor, Daily News:-

If you are tired, run-down, and lacking in energy and strength, you'll be interested in this report by a reputable physician. It concerns a woman patient, blood tests, and the remarkable results that followed a treatment of PDr. Williams' Pink Pills. The first blood test showed a low haemoglobin content and a still lower count of red corpuscies. In other words, there was not enough vitalizing oxygen being carried from this woman's lungs throughout her blood stream and not enough nutriment being conveyed from her digestive organs to maintain normal health by rebuilding the body cells and dissues and clearing the system of poisons. She was anaemic.

The physician prescribed Dr. Williams' Pink Pills as a safe and efficient means of improving his patient's blood-stream. The first month showed a substantial increase In haem-globin and red corpuecles. and the woman had better color and felt botter. In two more months her blood condition was very close to normal, and she was feeling peppier, stronger and happier every day. The physician described her improvement as "nothing short of remark-

able." Authentic records are on file. Dr. Williams' Pink Pills will do as much for you. Why not start now to take this "blood-tested" remedy for under-par people-whether children, young women or adults. Your druggist can supply you-50c.

would also show a decrease in the high school increased by 9%. This net cost of education to the city of represents an increase in the numover \$12,000.
