#### NEW GOLD STRIKE

There is a new gold strike in the Salmon River district of Portland Canal. This is one of many which have been made but not publicly recorded. It is quite probable that Portland Canal may yet prove an important factor in the reporter in 1905 on the South rehabilitation of the northern and central sections of this province.

#### A JOLLY OLD TIME

The political candidates seem to be having a "jolly old years he specialized in syndicate time." There are so many of them that they might form a party of their own if they would only get together. And in New York. yet, we think, when election day comes much of the present confusion will have been clarified and the electors will and Episcopalian and in 1911 was know what to discard as being of no value. At any rate it married to Miss Ellis Abbott of is satisfactory to know that three-fourths of the candi- Goshen, Indiana. dates will disappear from the public gaze and probably will not be heard from again.

#### PERSONALITY AND ELECTIONS

Personality of candidates is almost everything in elections. In Alberta just now it is feared that the personality of two members of the farmer government will wreck the Polish whole cause. It seems pretty sure that they will have to retire from public life altogether and that a new administration will be formed before or after the next election. With the premier and another member of the administration in disgrace, it is almost a certainty that they cannot survive.

#### MOST IMPORTANT WORKS

The two most important works from the point of view of the people of Prince Rupert and district is the comple- Commander Settle and third to tion of the highway to Terrace and the construction of a Ward T. Oman, both United States railway outlet to connect the Peace River district with the entries coast. Either of these would have a tremendous effect in improving the position of Prince Rupert and in making LITTLE WORLD more prosperous the towns and villages between Prince Rupert and Prince George. With a real leader at the head of British Columbia affairs, a man who is keenly interested in the north, there would be some likelihood of having these works pushed ahead.

### IMPROVING CEMETERY

Road Being Extended and Pillars to Be Put in by City-Co-operation Invited

With the use of relief dabor, the city is now engaged in a program of general improvement work at Fairview Cemetery on which men have been at work during the past two weeks or so. It is planned to extend J. F. Ellis jr., accountant at Sun the main roadway into the cemetery and to erect at the main entrance two granite pillars, rock for this purpose being available around the

City Commissioner W. J. Alder expressed the hope this morning that organizations and others having plots in the cemetery would cooperate by putting them in order if necessary.

### A Brief Synopsis of Liberal Policy

TEREWITH is a brief synopsis of policy as laid down by the Liberal Party of British Columbia, in convention held in October, 1932.

Many matters of interest, not specifically set out, will require consideration. The principles enunciated are indicative of the Liberal viewpoint, and are broad enough to meet every question within provincial jurisdiction.

The Liberal Party exists as an official organization for the purpose of formulating and furthering measures that will make for the wellbeing of each individual member of society, and the welfare of society as a whole.

Innumerable questions, both of public and personal character, can be properly treated only through the agency of government.

Government is not an ordinary business, but carries responsibility to meet every problem arising from our complex social and economic conditions, in order that not merely a few, but all of our people may live in reasonable comfort.

The Liberal Party pledges immediate action under the best available advice and closest study.

August, 1933.

T.D. PATTULLO.

1.-Profitable and permanent Employment is the most important question facing our people. There should be co-operation between the national, provincial and municipal authorities and the Canadian banking system to establish the necessary credit to carry out a broad programme of constructive and useful wage-distributing public enterprise, and to further the health, education and well-being of all our people.

An Economic Council should be established, the menibership of which shall consist of representatives of the various avenues of endeavour, such as health, education, agriculture, labour and the industries. This council will be appointed by the government on recommendation of the interests involved, and will act in an advisory capacity to the government.

Amongst other things the council will study industrial and social effort in the province and suggest means to correlate these efforts. It will familiarize itself with intra, inter-provincial and foreign trade, and will co-operate with the other provinces and the Dominion. It will also study such questions as production and consumption. and the marketing of our products, the number of hours of work per day and days of work per week, the standard of wages and commodity prices. These questions are of national asywell:as provincial concern, and British Columbia can take the lead in urging co-operation with the other provinces and the Dominion as a whole.

National Unemployment Insurance should be established upon a contributory basis.

2.—Our Financial position must be reviewed. Current expenditure must be keptswithin current revenue. While maintaining the credit of the province, effort must be made to reduce capital charges. We cannot continue to pay exorbitant rates of interest for money.

The Taxation Structure must be revised with a view to reduction wherever possible, including exemption in the lower scale of wages and salaries. C'ULLEY'S I I WAS A CONTRACT OF THE PROPERTY OF THE PROPERTY OF THE PARTY OF THE PA STREET, THE REPORT OF THE PROPERTY SERVICES AND THE

4.- The health of each of us is important to the whole community, and a measure of State Health .Insurance should be made effective, not only to preserve health, but to reduce costs both to the average citizen and to industry.

5.-A general and effective review must be made of the Educational problem, rejecting any proposed organization that involves a caste system. We must facilitate the intellectual growth of each individual member of society in order to equip him for his daily tasks, and for the enjoyment of such cultural pursuits as may be in keeping with our social customs.

Triangular disagreements between the school boards, municipal councils and the department of education must be adjusted, and our whole system placed upon a sound financial basis.

6.—The financial position of our Municipalities is of increasing concern. An equitable adjustment must be made as between the province and the municipalities, and the municipalities placed in a sound financial position.

7.-An effort should be made to settle our Agricultural Lands in order that more of our citizens may be self-supporting. Agriculture as a whole must be put upon a sound and profitable basis, and made capable of sustaining and directing itself, in line with all other national, basic industries.

8.-Continuous effort should be put forth to assist industry in Marketing its products, in timber, agriculture, fishing, mining and, in fact, every operation where it appears that useful service can be rendered.

9 .- Our highways must be kept in good condition, both for the benefit of settlers and the tourlst traffic, and expanded as circumstances warrant. In this connection a Highway Board should be established to make for continuity of policy and to inspire confidence in impartial treatment. 10 .- A Public Utilities Commission should be established.

11 .- A National Central Bank should be established.

12.—Social Services, such as Mothers' Pensions, Old Age Pensions, etc., must be maintained. Abuses of administration should not be allowed, and injustice through mere technicalities should not be permitted.

113 .- The Peace River must be given access to the Coast.

14.-In order that the utmost Freedom of Action by Members of the Legislature may be assured in respect of questions before the House, it is Liberal policy that a government shall be considered to be defeated only upon a straight want-of-confidence motion.

15 .- The Dominion Government will be asked te place the Province of British Columbia upon a basis of equality with the other provinces, and to this end request will be made for a Royal Commission to ascertain the extent to which the Province of British Columbia has not been given Equality of Treatment with the Other Provinces of the Dominion.

16.—There shall be a permanent Voters' List to ensure that all eligible voters are enrolled.

17 .- The Leader of the Liberal Party is given a free mandate to choose for his associates in government, men of character, ability and standing, having regard solely to the public interest.
