18-Year Old Girl

"Not a Word of Truth in it," Government Leader Declares

EDMONTON, Sept. 23: (CP) --Statement of claim was filed in Su preme Court here yesterday askin, unstated damages from Premier J. E. Brownlee of Alberta for alleged Old Country Soccer seduction of Vivian MacMillan, daughter of Former Mayor Allan MacMillan of Edson, Alta. The statement alleges that offences took place starting in 1930 when the girl was said to be eighteen years old. An order permitting service of claim on Premier Brownlee in Ottawa was made.

Premier Brownlee, over long distance telephone from Ottawa, where he has been attending as a member of the MacMillan royal commission on banking, said:

"While one regrets to have to face a case of this kind, it will enable me to come to grips with rumors, which have been spread for some weeks. There is not a word of truth in the allegations."

DON FINN IS MOVED

Director of Fisheries Station to Take Charge in Halifax Following Trip to England

Pending receipt of official confirmation, it is reported in authorirector of the Prince Rupert Fisheries Experimental Station, will be transferred in the near future to Halifax to become director of the station there of the Biological Board of Canada, Mr. Finn will bo leaving Prince Rupert in December to spend three months at Cambridge University in England and the transfer will, it is understood, take effect upon his return from the Old Country next spring.

Mr. Finn founded the work of the Prince Rupert Fisheries Experimental Station in 1926 and, except for a year or so he spent in charge of the research department of the British Columbia Packers, he has been continuously in charge of the work at Prince Rupert since. When Bureau of Fisherics Boat Penguin he came here first, there were neither staff, buildings, plant or equipment. Under his direction the work expanded until today it covers KETCHIKAN, Sept. 23: (CP)- many phases of fisheries research, The Bureau of Fishcries vessel Penoccupies two large buildings with guin yesterday struck and stove in splendidly equipped and appointed the side of the halibut boat Tuscan laboratories and engages the attention of a considerable staff of expert workers.

The Tuscan is well known in Mr. Finn's departure from Prince Prince Rupert and frequently lands, Rupert will be a matter of general regret. The move, however, will be in the nature of a distinct promotion in the service and, on that account, he will be the recipient of THEATRE IS count, he will be the recipient of general congratulations.

> There is no word as to who will be Mr. Finn's permanent successor.

Coasting across the intersection from the vicinity of the public library where it had been parked, the heavy hitting. big delivery truck of Brackman-Ker Co. rode over the low curb at the northwest corner of Third Avenue and Fourth Street onto the sidewalk and crashed into one of; the large plate glass windows of the Canadian Pacific Railway office; Judge W. E. Fisher, who has about 10 o'clock this morning. The been presiding over a session of window was shattered when struck County Court at Smithers, returned by the mud guard of the car in to the city from the interior on which no one was riding at the time.

Halibut Fishing on Pacific To Cease on October 26 With Closing Down of Area No. 3

Halibut fishing on the Pacific Coast for the 1933 season will come to a close on October 26 at midnight as a result of an order by the International Fisheries Commission, notice of which was received in Prince Rupert today, closing fishing in Area No. 3 on that date. By that time, it is expected that the quota limit for the season set for that area will have been reached.

On August 25, fishing was stopped in the closer Area No. 2, owing to the quota for the year having been reached. Since that time, the larger vessels of the Pacific Coast fleet have been operating in Area No. 3.

A Brief Synopsis of Liberal Policy

I FREWITH is a brief synopsis of policy as laid down by the Liberal Party of British Columbia, in convention held in October, 1932.

Many matters of interest, not specifically set out, will require consideration. The principles enunciated are indicative of the Liberal viewpoint, and are broad enough to meet every question within provincial jurisdiction.

The Liberal Party exists as an official organization for the purpose of formulating and furthering measures that will make for the wellbeing of each individual member of society, and

the welfare of society as a whole. Innumerable questions, both of public and personal character, can be properly treated only

through the agency of government. Government is not an ordinary business, but carries responsibility to meet every problem arising from our complex social and economic conditions, in order that not merely a few, but all

of our people may live in reasonable comfort. The Liberal Party pledges immediate action under the best available advice and closest study.

T. D. PATTULLO.

August, 1933.

ZUC

1.-Profitable and permanent Employment is the most important question facing our people. There should be co-operation between the national, provincial and municipal authorities and the Canadian banking system to establish the necessary credit to carry out a broad programme of constructive and useful wage-distributing public enterprise, and to further the health, education and well-being of all our people.

An Economic Council should be established, the membership of which shall consist of representatives of the various avenues of endeavour, such as health, education, agriculture, labour and the industries. This council will be appointed by the government on recommendation of the interests involved, and will act in an advisory capacity to the government.

Amongst other things the council will study industrial and social effort in the province and suggest means to correlate these efforts. It will familiarize itself with intra, inter-provincial and foreign trade, and will co-operate with the other provinces and the Dominion. It will also study such questions as production and consumption, and the marketing of our products, the number of hours of work per day and days of work per week, the standard of wages and commodity prices. These questions are of national as well as provincial concern, and British Columbia can take the lead in urging co-operation with the other provinces and the Dominion as a whole.

National Unemployment Insurance should be established upon a contributory basis.

2.—Our Financial position must be reviewed. Current expenditure must be kept within current revenue. While maintaining the credit of the province, effort must be made to reduce capital charges. We cannot continue to pay exorbitant rates of interest for money.

3.—The Taxation Structure must be revised with a view to reduction wherever possible, including exemption in the lower scale of wages and salaries.

4.-The health of each of us is important to the whole community, and a measure of State Health Insurance should be made effective, not only to preserve health, but to reduce costs both to the average citizen and to industry.

5.-A general and effective review must be made of the Educational problem, rejecting any proposed erganization that involves a caste system. We must facilitate the intellectual growth of each individual member of society in order to equip him for his daily tasks, and for the enjoyment of such cultural pursuits as may be in keep-

ing with our social customs. Triangular disagreements between the school boards, municipal councils and the department of education must be adjusted, and our whole

system placed upon a sound financial basis. 6 .- The financial position of our Municipalities is of increasing concern. An equitable adjustment must be made as between the province and the municipalities, and the municipalities placed in a sound financial position.

7 .- An effort should be made to settle our Agricultural Lands in order that more of our citizens may be self-supporting. Agriculture as a whole must be put upon a sound and profitable basis, and made capable of sustaining and directing itself, in line with all other national, basic

industries. 8. Continuous effort should be put forth to assist industry in Marketing its products, in timber, agriculture, fishing, mining and, in fact, every operation where it appears that useful service can be rendered.

9.—Our highways must be kept in good condition, both for the benefit of settlers and the tourist traffic, and expanded as circumstances warrant. In this connection a Highway Board should be established to make for continuity of policy and to inspire confidence in impartial treatment. 10 .- A Public Utilities Commission should be established.

11 .- A National Central Bank should be estab-

12.-Social Services, such as Mothers' Pensions, Old Age Pensions, etc., must be maintained. Abuses of administration should not be allowed, and injustice through mere technicalities should not be permitted.

13 .- The Peace River must be given access to

the Coast. 14 .- In order that the utmost Freedom of Action by Members of the Legislature may be assured in respect of questions before the House, it is Liberal policy that a government shall be considered to be defeated only upon a straight want-of-confidence motion.

15.—The Dominion Government will be asked to place the Province of British Columbia upon a basis of equality with the other provinces, and to this end request will be made for a Royal Commission to ascertain the extent to which the Province of British Celumbia has not been given Equality of Treatment with the Other Provinces of the Dominion.

16.—There shall be a permanent Voters' List to

ensure that all eligible voters are enrolled. 17.—The Leader of the Liberal Party is given a free mandate to choose for his associates in government, men of character, ability and standing, having regard solely to the public interest.

Strong Shoes FOR BAD WEATHER

The season when bad weather may be expected has arrived and young and old need boots and shoes suited to the occasion. We have been preparing for the fall and have been laying in a stock of Leckies' and other makes of shoes which

will resist rain, sleet or slush and keep the feet dry, thus avoiding unnecessary colds.

The surprising thing about these shoes is the price. They were purchased in quantities at low rates and we are taking a very small margin of profit so the price to the public is far below anything hitherto offered for fall
