### Liberal Party Is Not Controlled By Liquor People, Says Pattullo

Contributions Received Solely in the Interests of Good Government and He is Absolutely Free and Untrammelled, Declares Leader of Opposition

KEREMEOS, Oct. 12: (CP)—"As liquor money has been specially singled out, let me say that I am advised that no liquor money has been contributed," stated T. D. Pattullo, Liberal leader, in a campaign address here last night. He was dealing with what he termed a suggestion that the Liberal party was controlled by the liquor inter-

ests through contributions to campaign funds. "I am going to be quite perfectly frank," continued the Liberal leader. "I have not been advised of the names of each contributor to our organization funds but my instructions were that contributions were only to be received free from commitment of any kind and solely in the interests of good government. Monies contributed for improper purposes would be in the same category, whether from liquor or other interests. If anyone has contributed or proposes to contribute in consideration of receiving some privilege not in the public interest, his money has been or would be wasted. I stand before the people of British Columbia absolutely free and untrammelled to formulate legislation and carry out the administration with a purpose single to the public welfare."

### HIS VIEW ON DEBTS

Cancellation Would Not Improve Economic Situation Much, Says Senator Borah

BOISE, Idaho, Oct. 12:—Senator William E. Borah has cabled London newspapers expressing his view that full cancellation of war debts by United States would only have a slight effect upon the general economic situation. He expressed the view that the United States had already treated Great Britain very generously in connection with war debts and urged that there was more likelihood of achieving results in bringing about an economic improvement in the world generally by tackling such other major problems as disarmament.

### CHANGE IN TELEGRAPHS

H. S. Meadows Succeeds L. W. Waugh as Manager at Canadian National Office

H. S. Meadows, who arrived in the city earlier in the week from New Westminster today assumed his duties as manager of the commercial office of Canadian National Telegraphs in succession to L. W. Waugh who has resigned.

Mr. Meadows joined the service of the company in 1916 and was for thirteen years manager at Prince Albert, Sask., having moved to the coast a few years ago. His wife and family will arrive here later to take up residence.

Dean of local telegraphers, Mr. Waugh has been located in Prince Rupert since the very early days and was with the Government Telegraphs for many years before joining the Canadian National Telegraphs. He is well known and popular and it will be generally regretted if the change involves his departure from the city.

"Judge from this disorder," Mr. McGeer replied to hecklers, "what government under the C. C. F. would be like."

### Government of British Columbia Will Collect \$400,000 by Judgment

Judicial Committee Finds That Impost is Intra Vires as Direct Tax Under British North America Act

LONDON, Oct. 12: (CP)—Nearly \$400,000 revenue will be restored to the Province of British Columbia by a judgment of the judicial committee of the Privy Council today which finds the provincial Fuel Oil Tax of 1930 valid. Their Lordships allowed the appeal of the Attorney General with costs from adverse British Columbia judgments on the government claim in a test case against the Kingcome Navigation Co. for \$3900 in back tax. The present Act, in Their Lordships' opinion, is direct taxation within the meaning of Section 92 of the British North America Act and is, therefore, intra vires of the province.

**FULL LIBERAL SLATE**

Owing to the fact that the Socialist candidates in Cowichan-Newcastle and Fernie have joined the C. C. F. party, the Liberals in those constituencies have chosen candidates to contest the election. That means a full slate of Liberals—not one missing.

The Liberals have the only complete slate in this election, no other party having the temerity to enter all constituencies. Next to them in number come the C. C. F.

**BUSIEST MAN IN PROVINCE**

T. D. Pattullo is today the busiest man in the province. When he left here recently he was expected to visit practically every constituency in the province except Peace River. That meant scarcely one day for each riding with several speeches a day in addition to attending to many detail matters and meeting as many as possible of the electors. It is a stupendous undertaking. Local people will understand from this how difficult it has been for him to meet them all individually. It would be useless for him to be elected in Prince Rupert and not carry the rest of the province. Happily the people here know him pretty well and will sympathize with his efforts. This is particularly true of the Queen Charlotte Islands which he has been unable to visit. Word from that part of the constituency indicates that he is receiving great support over there and that he will be given a handsome majority at most of the polling places.

**INTEREST IS GREAT**

While there is considerable election interest here, it is of a quiet, thoughtful nature, quite different from what is taking place in some parts of the province. Vancouver Island is seething with political action and some parts of the southern mainland show some excitement. We must ask our readers who are not much interested in politics to bear with us for a short time. It will be all over on November 2 and then we shall be able to think of other matters. It means so much to the province to have the right kind of government for the next few years.

**MUSIC CLUB IN SESSION**

Meetings For Season Resumed With Gathering Yesterday at Home Of President

The Ladies' Music Club resumed its activities for the 1933-34 season with an informal business meeting yesterday afternoon at the home of the president, Mrs. R. L. McIntosh. Out of respect for Mrs. Max Heilbroner, who was to have had charge of the day, there was no program. Motions of condolence were passed to Mr. and Mrs. Heilbroner and Mr. and Mrs. Jarvis H. McLeod, who were bereaved recently in the deaths of their sons, and one minute's standing silence was observed.

The presentation was made by the president, Mrs. McIntosh, to Miss Frances Moore of the Music Club Cup for having made highest marks in the Toronto Conservatory of Music examinations. Miss Moore, who is a student of the Sisters of St. Joseph, played a piano solo.

Tea was served with Mrs. G. A. Woodland pouring and Mrs. W. L. Stamford and Mrs. H. F. Pullen serving. The tea table was tastefully decorated with beautiful yellow chrysanthemums.

**Program For Season**

  - November 8—"Miscellaneous," Miss Elizabeth Currie.
  - November 22—"Church Music," Mrs. E. J. Smith (guest day).

**Man in the Moon**

Good afternoon folks. I have been asleep for a week or so but here I am again all set for a talk about politics.

Take a look at the candidates. There are only three and each is pretty much like a good horse, perfect in wind and limb and all ready for the race on November 2.

There's T. D., who has represented Prince Rupert since 1916. He says the people here have treated him well. Not many men can keep the confidence of the people that long and still look like a winner. He can't be here for his training but he says he is with us in spirit. His final words before leaving were: "I think I can trust the people of Prince Rupert to do the right thing." And Jake says he can.

Now there's Ex-Alderman Rudderham. He knows what it is to be elected often and defeated seldom. He is waving the banner of socialism but objects to the red flag. His flag is only pink but it has a reddish appearance. If elected he will do his bit to upset the present system, to spike the guns of the banks, and generally to play Old Harry with everything and everybody except the farmer. He says he likes the Victoria climate but, if not elected, Prince Rupert's good enough for him.

Charles Chapman is one of those intensely serious persons and his backers are all serious, so serious and sanguine that they really truly expect people to vote for the Red Flag, the Russian system, the rule of the proletariat. Like the C. C. F. policy it is based on the philosophy of Carl Marx, only it would do at one fell swoop what the others would do gradually. Charles does not expect to win. He is too modest for that but he would like to.

**The Letter Box**

**THE NEW DEAL**

Editor, Daily News:—  
 The average man in the street says: "I have no faith in the old political gangs—Liberals or Conservatives." A careful perusal of Plank One of the new Liberal policy embodies a great, revolutionary principle, the establishment of an economic council.

This step means the intervention of the state in private economy. The establishment of an advisory board nominated by all the factors of production is the first step of a new deal. New Liberalism, which is less liberalism and more democracy, is finally conscious of the fact that national economy must be operated under a charter in order to serve

social needs. It goes to the root of the present troubles when it advocates the study of the question of "production and consumption in order to adjust it together with the numbers of hours per day and days of work per week, the standard of wages and commodity prices." In Plank One of the Liberal policy there are all the fundamental principles of the N. R. A.

We must honestly and frankly admit that the new Liberal policy has nothing in common with the old gang of laissez faire. It is ultra democratic. Roosevelt was also a mere liberal. All workers and citizens in general must get conscious of the fact that it is their duty to carefully study Plank One of the Liberal policy. Therein lies the solution of our troubles. There is a concrete pledge to grapple with the social problem in accord with the most up-to-date trend of political thought and action. There is no

utopian vision of the future socialistic state to be realized in the year 2000 but a definite line of immediate action as the situation demands. There is no time to be lost while there is suffering, want and misery. What the country needs is an able administration like the one of Roosevelt, acting on the same lines to relieve us of this oppressive situation. The Trades and Labor Councils have voiced the sentiment and aspirations of the masses. Let us do our duty. The N. R. A. is our solution, not the confusatory and obsolete C. C. F.

OBSERVER.

Next Wednesday afternoon the steamer Prince George will sail at 3 o'clock instead of 4 o'clock, her regular departure time, for Anyox and Stewart. It is announced by Canadian National Steamships. The change will be for the one week only.

## ECONOMIZE...

### with Nestlé's Evaporated Milk for every milk and cream use

Every year sees an increasing number of women using Nestlé's Evaporated Milk. These women have learned to their own satisfaction that their threefold question as to when, how and for what Nestlé's Evaporated Milk may be used, can be answered with one safe, simple and economical rule—"For every milk and cream use".

not only an economy but an actual improvement. There is a finer texture to cakes and pie-crust and a smoother, rich creaminess to soups and sauces when Nestlé's Evaporated Milk is included. You'll even notice an added richness in the coloring.

Diluted with an equal quantity of water, this pure, concentrated, doubly rich cow's milk is used in the same way as the original milk. If extra "creaminess" is desired, the milk can be left in the rich form in which it comes from the tin.

If you want sour milk, for a special dessert or dressing, you simply add a tablespoon of vinegar to the diluted milk; for sour "cream", you do the same, leaving the milk undiluted.

And last, but certainly not least, this amazing milk will whip! Below we give instructions for whipping Nestlé's Evaporated Milk.

"Nestlé's Milk has taught me the secret of inexpensive, successful cooking. I use Nestlé's Evaporated Milk in preference to any other brand, in all my recipes that call for milk. I certainly find it invaluable as a money and time saver."

## Whipping Nestlé's Evaporated Milk

In cakes and pies, soups and sauces, you will find Nestlé's Evaporated Milk

TO SCALD Nestlé's Evaporated Milk, several cans may be prepared at once, by covering them with cold water, bringing to a boil and boiling for 5 minutes.

CHILLING Nestlé's Evaporated Milk is quickly brought about by pouring it into a freezing tray in your electric refrigerator and leaving for about five minutes. If not convenient to use a freezing tray, to chill the milk, pour it into a bowl surrounded by chipped ice and salt. Whip the milk rapidly. It will not "turn to butter" no matter how long or how many times it is whipped. Nestlé's Evaporated Milk, when whipped, increases in volume about three times.
