CAMPAIGN ECHOES

FINAL APPEAL

The political campaign has now reached its close and we pleby, jeweler, on Richards Street make this final appeal to the voters of this riding to mark at 9 o'clock Monday morning and their ballots for T. D. Pattullo and safe, orderly, progres- escaped with \$1000 worth of dia-

sive government. If the Liberal party wins, your member will be the Premier of the province and for the first time in a position to enforce his own policies and do real effective work for he people of the north.

See that he gets this chance.

We have heard and read all we could during this battle and 5c to 8.1c and 6c. concerning the policies of the C. C. F. and find a very great difference of opinion among its leaders as to the policies ney would enforce.

We have the mild mannered ones who advocate gradual 5c. hanges in our social system and we have the more forceful predatory type who would insist upon immediate chan- 7.5c and 5c. ges on the Russian plan.

We have not heard enough from their local candidate to form an opinion as to which wing he belongs, but we do know that wherever revolution has come, the ruthless type has always taken control and no doubt the same would

apply in British Columbia. We cannot believe that the people will refuse a return to orderly, sane administration, in order to put the reins of government into the hands of such uncertain, unsafe those who extended sympathy durant and untried administrators, who, as Mr. Pattullo says, ing the time of their recent bewould pull their house down because the roof leaks.

VOTE OF PRINCE RUPERT

Tomorrow is election day and it is evident that there will be a large number of votes cast. Probably most people have already made up their minds whom they will support. To all electors we ask that they have in mind the future of Prince Rupert. It is very easy to be led astray by some new-fangled catchword and to forget that the future of Prince Rupert is bound up with the future of the provincial government.

Take for example the matter of a pulp mill in this city. To enable such a mill to be built it will be necessary for his, for I have always considered dents. Mr. Asselstine did not besome person or group of persons to have faith in the future stability of the province and the city. Would they have confidence if the people here voted in favor of the taking over of industries by the government? Facing such a condition pear to be somewhat fitting for frequently that one could never say it would be better for the people with money to look elsewhere for a place to invest their money.

Prince Rupert is ambitious. The people here hope this crown. J. Ramsay Macdonald, known that the basic beliefs of a will become a great city and seaport. The only hope for Prime Minister of Great Britain. Conservative were hard to change. such progress is to choose a suitable representative who and first adviser to our Sovereign. The other alternative was the will help us in carrying out our aims. Could George Rudderham help us in this respect? Could Charles Chapman do so? We think not. The only hope-we have is to elect T. Prince Rupert Public Library he is in public life as an alderman at D. Pattullo, the man who it is presumed will be in a posi-asked this question: "What is your Dawson and at Prince Rupert, as tion within a few weeks to set about his great work of attitude towards organized Christ- a member of the legislature and as bringing back prosperity to the province, giving the ianity?" people work and wages and who will use his great influence to set Prince Rupert once more on the road toward recovery and growth.

We suggest that petty politics be forgotten for now and that the great issues be met and faced tomorrow by giving Mr. Pattullo such a majority in the election that he will feel bound to reward the confidence expressed in him

Man in the Moon

Shall I, wasting in despair,

Because Pattullo's rosy are.

Die, because I didn't get there,

If they vote not for such as me,

What care I for whom they be?

What of Duff's majority?

If I be not there to see,

Shall my silly heart be pined

'Cause I see the voters kind-

Shall I play the fool and die?

If they slight me when I woo

I can scorn and let them go.

What of Duff's majority?

If I be not there to see

Or the Beacon Hill in May

What care I how big it be?

Er to Duff than you and I

PATTULLO MAKES FINAL APPEAL TO HIS RIDING

(Continued from Page 1)

The persistently silly references of this district. that newspaper to himself were In conclusion he reminded his really doing him good instead of hearers of the three alternatives the harm which was apparently in- the C.C.F. with an indefinite protended. "With its prestige shattered," Mr. Pattullo declared, "the Province newspaper is now suffering from a bad attack of nerves until it has reached the point where it seems to see forty-seven Pattullos where formerly there was only one."

Mr. Pattullo's address was heard quite satisfactorily by local radio listeners, reception conditions being good. The Liberal leader appeared to be somewhat hoarse, undoubtedly due to the arduosity of the campaign. He expressed regret that he had had so much ground to cover in touring the rest of the province that it had been impossible for him to pay another visit to his home city of Prince Rupert prior to the election. He voiced confidence

of victory at the polls tomorrow. In addition to his radio address, Mr. Pattullo spoke before two large audiences in Vancouver East and Vancouver-Point Grey. He was introduced at both as the man destined to be called upon to form a new government.

Asselstine Greeted

Night School Classes

With the sanction of Commissioner Alder, Evening Classes in the subjects listed below are being arranged during the coming week, to be held in Borden Street School. For these classes any person of fifteen years of age or over is eligible. However, the classes are not designed for students at present attending school, but for those who wish to extend their previous education.

According to the regulations of the Department of Education, all classes must have an average attendance of at least ten in order to be maintained.

CLASSES:

- (1) ENGLISH FOR NEW CANADIANS. (Twice weekly.) A course in spoken and written English intended for persons of foreign extraction who desire to improve their knowledge of the language.
- (2) BOOK-KEEPING AND ACCOUNTS. (Twice weekly.) Courses in Elementary and Advanced Book-keeping.
- BUSINESS ENGLISH AND ARITHMETIC. (Twice weekly.)
- FRENCH FOR BEGINNERS. (Twice weekly.)
- (5) APPLIED MECHANICS. (Once weekly.)
- If sufficient interest is shown, other classes may be added to the above FEES:

Fees ranging from \$1.50 to \$3.00 per month will be charged for these courses. REGISTRATION:

register at any date previous between the hours of 4:00 and 6:00 P.M.

at the office of George L. Rorie, Wallace Block, where full particulars

of the courses offered may be obtained.

As classes will begin on Monday, November 6th., students may

From Neuralgia

ciated by the people of the Islands, ticket number 42.

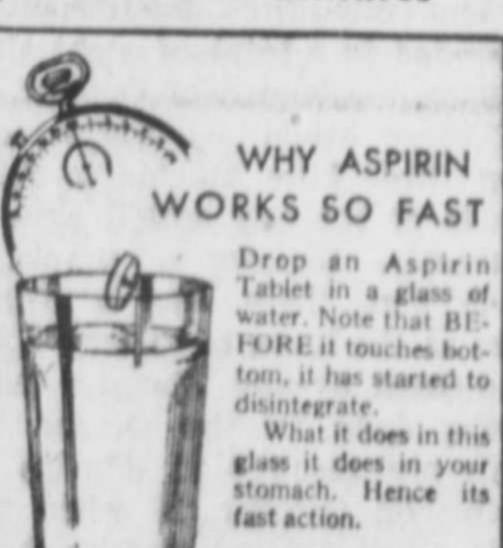

2 LATER JACK, IM TO SEE CLARK ABOUT WELL, JACK, I GOT THE ORDER! YES, FELT FIT AS A FIDDLE GET ASPIRIN WHEN I WANT QUICK RELIEF FROM PAIN.

Real ASPIRIN Starts Taking Hold in Few Minutes

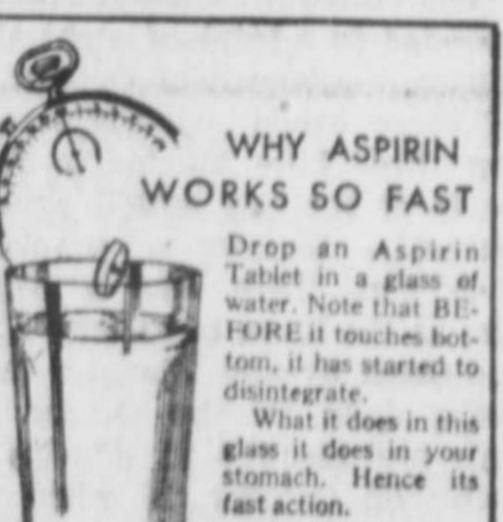

Now comes amazingly quick relief from headaches, rheumatism, neuritis, neuralgia . . . the fastest safe relief,

it is said, yet discovered. Those results are due to a scientific discovery by which an Aspirin Tablet begins to dissolve, or disintegrate, in the amazing space of two seconds after touching moisture. And hence to start "taking hold" of pain a few minutes after taking.

The illustration of the glass, here, tells the story. An Aspirin Tablet starts to disintegrate almost instantly you swallow it. And thus is ready to go to work almost instantly. When you buy, though, be on guard against substitutes. To be sure you get ASPIRIN'S quick relief, be a cross is on every tablet of Aspirin.

A Brief Synopsis of Liberal Policy

EREWITH is a brief synopsis of policy as laid down by the Liberal Party of British Columbia, in convention held in October, 1932.

Many matters of interest, not specifically set out, will require consideration. The principles enunciated are indicative of the Liberal viewpoint, and are broad enough to meet every question within provincial jurisdiction.

The Liberal Party exists as an official organization for the purpose of formulating and furthering measures that will make for the wellbeing of each individual member of society, and the welfare of society as a whole.

Innumerable questions, both of public and personal character, can be properly treated only through the agency of government.

Government is not an ordinary business, but carries responsibility to meet every problem arising from our complex social and economic conditions, in order that not merely a few, but all of our people may live in reasonable comfort.

under the best available advice and closest study.

T. D. PATTULLO.

The Liberal Party pledges immediate action

August, 1933. .

1.—Profitable and permanent Employment is the most important question facing our people. There should be co-operation between the national, provincial and municipal authorities and the Canadian banking system to establish the necessary credit to carry out a broad programme of constructive and useful wage-distributing public enterprise, and to further the health, education and well-being of all our people.

An Economic Council should be established, the membership of which shall consist of representatives of the various avenues of endeavour, such as health, education, agriculture, labour and the industries. This council will be appointed by the government on recommendation of the interests involved, and will act in an advisory capacity to the government.

Amongst other things the council will study industrial and social effort in the province and suggest means to correlate these efforts. It will familiarize itself with intra, inter-provincial and foreign trade, and will co-operate with the other provinces and the Dominion. It will also study such questions as production and consumption, and the marketing of our products, the number of hours of work per day and days of work per week, the standard of wages and commodity prices. These questions are of national as well as provincial concern, and British Columbia can take the lead in urging co-operation with the

other provinces and the Dominion as a whole. National Unemployment Insurance should be

established upon a contributory basis. 2.—Our Financial position must be reviewed. Current expenditure must be kept within current revenue. While maintaining the credit of the province, effort must be made to reduce capital charges. We cannot continue to pay exorbitant

rates of interest for money. 3.—The Taxation Structure must be revised with a view to reduction wherever possible, including exemption in the lower scale of wages and salaries.

4.—The health of each of us is important to the whole community, and a measure of State Health Insurance should be made effective, not only to preserve health, but to reduce costs both to the average citizen and to industry.

5.-A general and effective review must be made of the Educational problem, rejecting any proposed organization that involves a caste system. We must facilitate the intellectual growth of each individual member of society in order to equip him for his daily tasks, and for the enjoyment of such cultural pursuits as may be in keeping with our social customs.

Triangular disagreements between the school boards, municipal councils and the department of education must be adjusted, and our whole system placed upon a sound financial basis.

6.—The financial position of our Municipalities is of increasing concern. An equitable adjustment must be made as between the province and the municipalities, and the municipalities placed in a sound financial position.

7.—An effort should be made to settle our Agricultural Lands in order that more of our citizens may be self-supporting. Agriculture as a whole must be put upon a sound and profitable basis, and made capable of sustaining and directing itself, in line with all other national, basic industries.

8.-Continuous effort should be put forth to assist industry in Marketing its products, in timber, agriculture, fishing, mining and, in fact, every operation where it appears that useful service can be rendered.

9.—Our highways must be kept in good condition, both for the benefit of settlers and the tourist traffic, and expanded as circumstances warrant. In this connection a Highway Board should be established to make for continuity of policy and to inspire confidence in impartial treatment. 10 .- A Public Utilities Commission should be

established. 11 .- A National Central Bank should be estab-

12 .- Social Services, such as Mothers' Pensions, Old Age Pensions, etc., must be maintained. Abuses of administration should not be allowed. and injustice through mere technicalities should not be permitted.

13.-The Peace River must be given access to the Coast.

14 .- In order that the utmost Freedom of Action by Members of the Legislature may be assured in respect of questions before the House, it is Liberal policy that a government shall be considered to be defeated only upon a straight want-of-confidence motion.

15.—The Dominion Government will be asked to place the Province of British Columbia upon a basis of equality with the other provinces, and to this end request will be made for a Royal Commission to ascertain the extent to which the Province of British Columbia has not been given Equality of Treatment with the Other Provinces of the Dominion.

16 .- There shall be a permanent Voters' List to

ensure that all eligible voters are enrolled. 17.—The Leader of the Liberal Party is given a free mandate to choose for his associates in government, men of character, ability and standing, having regard solely to the public interest.

ownership of the means of production and the necessities of life," Mr. Shenton said. If the B. N. A. Act is in the way of necessary changes, changed in places but the objective Queen Charlotte City, G. H. Jolliffe. was good. The C. C. F. wished to protect the little homes and to care for men, give them work as long as Liberals get into power following they were able to work, or otherwise, provide them with cheques for old age, unemployment or sickness.

Mr. Shenton told his hearers that, in the past, their environment had been beyond description, an environment of corruption, robbery and guile. "The C. C. F.," he said, "offers you a better environment. If human nature cannot be changed, then Christianity is a
