Tom Olson, Ketchikan, Lost Overboard From Halibuter Superior

Several Other Members of Crew Received Injuries Which Required Medical Attention at Seward—Vessel Itself Sustained Considerable Damage

SEWARD, Alaska, Sept. 29: (CP)—Tom Olson, well known Ketchikan fisherman, was swept overboard and lost from the halibut schooner Superior on Wednesday during a storm on the banks which threatened to disable the craft, Capt. Nels Ford reported on his arrival here yesterday. Several members of the crew sustained injuries during the tempest as a result of which they required medical attention on arriving here. The pilot house was splintered and life boats were smashed.

Other fishing vessels which were on the grounds at the same time are believed to have had a rough time although only the one major casualty is so far reported.

PASSING OF PROSECUTOR

Archie Johnson K.C., One of B.C.'s Leading Legal Lights, Dies Suddenly at Victoria

Archibald M. Johnson K.C., for years chief crown prosecutor in British Columbia criminal courts, who was regarded as one of the keenest legal minds in this province, passed away suddenly this morning in a Victoria hospital where he had been a patient since the day before yesterday, according to word received today in Prince Rupert. Although his friends had known that he had been in failing health for some time, news of his demise will come as a shock to his wide circle of acquaintances throughout the province. He was well known in Prince Rupert as well as elsewhere in the north and had recently attended the Supreme Court Assizes in Prince George in his capacity as crown prosecutor.

Mrs. Leonard B. Wrinch of Hazelton was a daughter of the late Mr. Johnson who had practised law in the province for many years and who, during his career, had been associated with a number of other leading benchers of British Columbia. He moved from Nelson to Victoria some years ago on being appointed to the attorney general's department.

DEATH OF WM. BELL

Heart Attack Due to Exertion in Salvaging Drifting Boat Fatal To Local Painter

William Albert Bell, aged 63, well known local painter, succumbed to an attack of heart failure across the harbor from the city late Thursday afternoon as a result, it is presumed, of exertion and excitement in saving his gasboat, which had gone adrift in a storm, from going ashore. After getting the gasboat safely moored, Bell is believed to have collapsed in a rowboat in which his body was found a few minutes later with the feet in the boat and the head under water over the side. From the position of the body, it was apparent that death was due to heart failure rather than to drowning. Deceased had been encamped across the harbor with a son, George Bell.

The Bell camp was on the mainland not far from Wolf Island. About 100 yards distant William Arthur Mathieson and William (Continued on Page F-2)

DAILY EDITION Friday, Sept. 29, 1933

ADVERTISING AND BUSINESS

Edward A. Filene of Boston, addressing the advertising club of that city, in discussing the relation of advertising to the N. R. A. explained that advertising was not looked on by businessmen as an expense any more than gasoline in connection with making a car go can be looked upon as an expense. He says he knows of no better way for a business to keep going down and down and down than by trying to save on advertising.

THE NEW DEAL

After dealing with advertising Mr. Filene deals at length with President Roosevelt's new deal and compares it with socialism. He urges raising the masses by greater efficiency in distribution to thus abolish poverty. All that socialism promised was honest administration of production and distribution but he is doubtful as to how much honesty can be developed. If selfishness could be abolished people would not be human. Affairs would be administered either lazily or selfishly. Business was selfish but not lazy. If selfishness could be enlisted for the common good he felt it would be better than lazy or selfish bureaucrats.

Mr. Filene made a plea for co-ordination of business in the service of the people. He did not believe in reducing production but in increasing the purchasing power of the people along the lines of the N. R. A. It meant increasing the consuming power of the people to keep pace with production. All they asked was that the people be allowed to consume according to their ability to produce. They want the best there is and only the absence of buying power prevents them from getting it. He urges higher wages and fewer hours of work giving not only more purchasing power but more leisure. He concludes:

"We can no longer be blinded to the fact that we have entered a new phase of human history and that the habits and practices which served us well in infancy are not the habits and practices which can serve us well now."

NEW DEAL FOR B.C.

We have mentioned the new deal for the United States. Now let us apply this to Canada. What leader is there who can bring this about? We suggest that in the next few weeks a close study of the situation be made and that voters use their common sense in deciding what will be of most benefit today for British Columbia. The next legislature will not be asked to administer the affairs of the province for the next generation but for this.

Interior Farmers Not Going Into Retail Business But Will Ship Through McMeekin

Delegates from Farmers' Institutes and Boards of Trades of Central British Columbia, meeting a few days ago in Smithers, decided not to go into the retail marketing of their products in Prince Rupert at the present time and, accordingly, declined with thanks the offer of a free market building made by City Commissioner W. It was decided, however, to put in a strong bid for the coast market by the appointment of Thomas McMeekin, commission agent in Prince Rupert, to represent the interior farmers in the disposal of their products.

DEATH OF WM. BELL

(Continued from page one)

Henry Chapman were occupying another cabin. At about 4:40 p.m. Mathieson noticed Bell's gasboat adrift in the bay and heading towards the beach. He and Chapman ran down to the shore to make an effort to hold the gasboat off the beach. Meanwhile Bell's attention was attracted and he came out in his rowboat and eventually got the gasboat started up and took it back to its moorings, Chapman and Mathieson returning to their cabin while Bell took again to his rowboat to burn the point to the cabin.

Shortly after Mathieson noticed Bell's rowboat, seemingly unoccupied, drifting towards the shore. The attention of George Bell was attracted and he shouted that there seemed to be a raincoat in the rowboat. The smaller boat was soon driven ashore by the wind and the elder Bell's body was then seen partly overboard, the feet being in the boat and the head in the water. For half an hour or so, artificial respiration methods were employed but to no avail.

The police being notified, Provincial Constable Robert Gibson crossed the harbor and took the body in charge at 9 o'clock last night, bringing it into the city. An inquiry was held this morning by Coroner Norman A. Watt, it being evident that death was due to heart failure resulting, it is presumed, from exertion and excitement. Deceased had been known to have suffered for some time from a weak heart for which he had received medical treatment.

Mr. Bell had resided in Prince Rupert for many years, was very well known here and had numerous friends. He is survived by a widow who resides in the United States and two sons, George Albert Lyman Bell here and Harold Percival Bell in Ketchikan. Deceased was a native of Peterborough, Ont.

Funeral arrangements are in the hands of the B. C. Undertakers.

IT'S LIVER THAT MAKES YOU FEEL SO WRETCHED

Wake up your Liver Bile
—No Calomel necessary

For you to feel healthy and happy, your liver must pour two pounds of liquid bile into your bowels every day. Without that bile, trouble starts: Poor digestion, slow elimination, poisons in the body, general weakness.

How can you expect to clear up a situation like this completely with more bowel-moving salts, oil, mineral water, laxative candy or chewing gum, or roughage? They don't wake up your liver.

You need Carter's Little Liver Pills. Purely vegetable. Safe. Quick and sure results. Ask for them by name. Refuse substitutes. 50¢ at all drug stores.

SKIDEGATE

Interest in the political campaign is beginning to liven up on the Queen Charlotte Islands.

Some fine large silver salmon have been caught by guests at the Dunes recently, the record so far having been twenty-two pounds.

Deer hunting is also a popular diversion on the Queen Charlotte Islands this fall. There is no scarcity of game.

It is reported that George McRae, prospector of Queen Charlotte City, has brought in some splendid samples of native silver from Security Harbor where he has staked a number of claims.

IN AUTO ACCIDENT

Report has been received at divisional headquarters of the provincial police here of a recent automobile accident on the highway between Fort Fraser and Vanderhoof, three miles west of the latter point, when Mr. and Mrs. E. N. Walker of Smithers had a rather narrow escape. The car was being driven down hill when it ran into loose gravel on a short turn and overturned. Mr. and Mrs. Walker were able to extricate themselves, the latter sustaining some minor cuts from broken glass. The machine burst into flames and was completely destroyed. Mr. Walker was formerly found engineer at the Capitol Theatre here and is now operating the talking picture house at Smithers.

A Brief Synopsis of Liberal Policy

HEREWITH is a brief synopsis of policy as laid down by the Liberal Party of British Columbia, in convention held in October, 1932.

Many matters of interest, not specifically set out, will require consideration. The principles enunciated are indicative of the Liberal viewpoint, and are broad enough to meet every question within provincial jurisdiction.

The Liberal Party exists as an official organization for the purpose of formulating and furthering measures that will make for the well-being of each individual member of society, and the welfare of society as a whole.

Innumerable questions, both of public and personal character, can be properly treated only through the agency of government.

Government is not an ordinary business, but carries responsibility to meet every problem arising from our complex social and economic conditions, in order that not merely a few, but all of our people may live in reasonable comfort.

The Liberal Party pledges immediate action under the best available advice and closest study.

T. D. PATTULLO.

August, 1933.

1.—Profitable and permanent Employment is the most important question facing our people. There should be co-operation between the national, provincial and municipal authorities and the Canadian banking system to establish the necessary credit to carry out a broad programme of constructive and useful wage-distributing public enterprise, and to further the health, education and well-being of all our people.

An Economic Council should be established, the membership of which shall consist of representatives of the various avenues of endeavour, such as health, education, agriculture, labour and the industries. This council will be appointed by the government on recommendation of the interests involved, and will act in an advisory capacity to the government.

Amongst other things the council will study industrial and social effort in the province and suggest means to correlate these efforts. It will familiarize itself with intra, inter-provincial and foreign trade, and will co-operate with the other provinces and the Dominion. It will also study such questions as production and consumption, and the marketing of our products, the number of hours of work per day and days of work per week, the standard of wages and commodity prices. These questions are of national as well as provincial concern, and British Columbia can take the lead in urging co-operation with the other provinces and the Dominion as a whole.

National Unemployment Insurance should be established upon a contributory basis.

2.—Our Financial position must be reviewed. Current expenditure must be kept within current revenue. While maintaining the credit of the province, effort must be made to reduce capital charges. We cannot continue to pay exorbitant rates of interest for money.

3.—The Taxation Structure must be revised with a view to reduction wherever possible, including exemption in the lower scale of wages and salaries.

4.—The health of each of us is important to the whole community, and a measure of State Health Insurance should be made effective, not only to preserve health, but to reduce costs both to the average citizen and to industry.

5.—A general and effective review must be made of the Educational problem, rejecting any proposed organization that involves a caste system. We must facilitate the intellectual growth of each individual member of society in order to equip him for his daily tasks, and for the enjoyment of such cultural pursuits as may be in keeping with our social customs.

Triangular disagreements between the school boards, municipal councils and the department of education must be adjusted, and our whole system placed upon a sound financial basis.

6.—The financial position of our Municipalities is of increasing concern. An equitable adjustment must be made as between the province and the municipalities, and the municipalities placed in a sound financial position.

7.—An effort should be made to settle our Agricultural Lands in order that more of our citizens may be self-supporting. Agriculture as a whole must be put upon a sound and profitable basis, and made capable of sustaining and directing itself, in line with all other national, basic industries.

8.—Continuous effort should be put forth to assist industry in Marketing its products, in timber, agriculture, fishing, mining and, in fact, every operation where it appears that useful service can be rendered.

9.—Our highways must be kept in good condition, both for the benefit of settlers and the tourist traffic, and expanded as circumstances warrant. In this connection a Highway Board should be established to make for continuity of policy and to inspire confidence in impartial treatment.

10.—A Public Utilities Commission should be established.

11.—A National Central Bank should be established.

12.—Social Services, such as Mothers' Pensions, Old Age Pensions, etc., must be maintained. Abuses of administration should not be allowed, and injustice through mere technicalities should not be permitted.

13.—The Peace River must be given access to the Coast.

14.—In order that the utmost Freedom of Action by Members of the Legislature may be assured in respect of questions before the House, it is Liberal policy that a government shall be considered to be defeated only upon a straight want-of-confidence motion.

15.—The Dominion Government will be asked to place the Province of British Columbia upon a basis of equality with the other provinces, and to this end request will be made for a Royal Commission to ascertain the extent to which the Province of British Columbia has not been given Equality of Treatment with the Other Provinces of the Dominion.

16.—There shall be a permanent Voters' List to ensure that all eligible voters are enrolled.

17.—The Leader of the Liberal Party is given a free mandate to choose for his associates in government, men of character, ability and standing, having regard solely to the public interest.

Why Get Colds?

or Catch the Flu?

RUBBERS ARE CHEAP AND NO ONE CAN AFFORD TO BE WITHOUT THEM. WE HAVE:

- Men's Rubbers at 90c
- Ladies' Rubbers at 79c
- Misses' Rubbers at 69c
- Children's Rubbers at 59c

Colds are becoming prevalent and flu is also reported in and around the city. To prevent these, keep the feet dry always by using rubbers. They keep the feet warm and save the shoes. The cost is trifling.

We have a great assortment of Ladies' Misses' and Children's High Boots

Missionary Tea And Sale Held

Affair at United Church Parsonage Yesterday Enjoyable Despite Unfavorable Weather

In spite of inclement weather conditions, the tea and sale of home cooking held yesterday afternoon at the Parsonage by the Women's Missionary Society of First United Church was a very enjoyable affair for all the ladies who attended. The rooms were decorated with autumn

flowers and foliage and the guests were received by Mrs. W. T. Kergin, president of the Society, and Mrs. C. D. Clarke, wife of the pastor.

Mrs. Helen Macfie and Mrs. J. S. Irvine were in charge of the afternoon tea and Mrs. Thomas and Mrs. G. A. Edgumbe presided at the tea tables. Serviteurs were Mrs. James Krikevsky, Mrs. W. B. Cornish and Miss McGregor with Mrs. T. J. Shenton acting as cashier.

Mrs. G. F. Davey and Mrs. D. Santerbanc were in charge of the home cooking table.

During the afternoon there was an acceptable musical program which included piano solos by Miss

M. A. Way and vocal solos by Mrs. Macfie, accompanied by Miss M. A. Way, and by Miss Cathie Eastman, accompanied by Miss Cathie Watson.

STOMACH ACID BURNS LIKE FIRE

Sometimes stomach acid makes your stomach feel like a lake of fire. You can stop this quickly and get immediate relief from burning pain, sour acid stomach and indigestion with a spoonful of Bisurated Magnesia in half a glass of water. Any drug store has Bisurated and just one spoonful will prove how quickly it works.

VALUE OF EDUCATION

Rev. W. D. Grant Hollingworth Speaks to Rotary Club Showing Disproportion in Relative Importance

"It would seem as if debts are apparently the only fixed element among the fluctuating factors which make up the world of business. Employment may decline, sales may fall off, wages and salaries may be reduced. All incomes from which interest and principal payments must be met may dwindle. The value of assets may shrink but debts remain stabilized. The owner of the bond knows to a cent what he is entitled to receive and he has a legal right and he is supposed to have a moral right to wreck the concern or break the debtor in his effort to get it." This was one of the interesting paragraphs of an intensely interesting and forceful address delivered yesterday afternoon at the luncheon of the Rotary Club in the Commodore Cafe by Rev. W. D. Grant Hollingworth, pastor of First Presbyterian Church. Another interesting paragraph was:

It is not the fact of debt but the grave disproportion between debt and income that constitutes an impediment to recovery. Why is it? people are asking, and they have a right to ask, "that bond interests are counted as sacred when wage agreements and conditions governing employment are not so counted? Why is it that wage agreements and conditions governing employment are considered to be the chief field for economy and are singled out to bear the brunt in the reforms suggested by those in charge?"

Mr. Hollingworth spoke of the loss to the community by making boys live a life of idleness at a time when there was no employment for them and they could not get into the high school. "Human values," he said, "should be considered alongside monetary values. The child's right to an education adequately fitting him for his future responsibilities and opportunities should be considered alongside the taxpayers' right to relief from financial burdens."

John Dybhavn, president of the Rotary Club, was in the chair.
