BRITISH METHODS EULOGIZED BY SPEAKER AT EDMONTON

Gibb Report on Harbors May be Implemented in Legislation if Opposition is Not Too Strong

OTTAWA, Feb. 3.—Legislation based on the report of Sir Alexander Gibb is likely to be introduced into Parliament within the next few weeks. This report advises the centralizing of business in the big Canadian seaports and even goes so far as to recommend that the port of Vancouver be protected against the smaller ports of the province so as to take fullest advantage of the expenditures made by the government of port development. This part of the report is not likely to be incorporated in the proposed legislation.

Hon. Alfred Durandieu has the new bill in hand. It is likely to provide for the centralization of control but the strong opposition developing may decide the government either to make changes or to drop the legislation altogether. There are no great changes or expenditures proposed in the bill but the change in policy, if it should go through, would be very important and it is thought would prove detrimental to the smaller outlying ports.

PRAYER IS BROADCAST

All Parts of British Nation Taking Up Small Formal Prayer For Divine Help

Just recently in Great Britain, Premier Baldwin and Hon. George Lansbury, labor party leader, helped to promulgate a national prayer which has been published broadcast in all parts of the Empire. The prayer was first published in a full page appeal in the Morning Post, London. It follows:

"O Almighty God, I call upon Thee for protection for myself, my family, friends and countrymen, and for the deliverance of the British nation from the Godless menace and from the present distress and perplexity. Deliver us from evil, for Thine alone is the power to do so. Amen."

Slow Driving To Be an Offense in Washington

OLYMPIA, Wash., Feb. 3.—Under the terms of a bill being submitted to the state legislature a penalty is proposed for slow drivers as well as for fast, the slow driver being considered just as great a danger to traffic. The speed limit of 40 miles an hour is to be abolished but no one will be allowed to drive to the common danger.

Robert Chambers Died Vancouver

VANCOUVER, Feb. 3.—Robert Chambers, 78 years of age, pioneer of British Columbia, is dead here. He was born in Ontario and was formerly engaged in the salmon cannery industry at Rivers Inlet and other points.

SMITHERS LIBERALS OFFICERS

Annual Meeting Hears Reports and Carries Out Routine Business; Dr. Wrinch Confirms Resignation

SMITHERS, Feb. 3.—With an attendance of sixty enthusiastic supporters of the Liberal party, the annual meeting of Smithers Liberal Association was held in the Municipal Hall recently, that gathering place being hardly equal to the task of accommodating the large attendance in a comfortable manner. Interest was heightened by the presence of Dr. H. C. Wrinch, M.L.A. for this district, and E. T. Kenney, president of Skeena District Liberal Association.

Dr. Wrinch reiterated his intention of resigning following the coming session of the legislature and heartily thanked the people of Skeena for the privilege they had given him of being their member for eight years. He teamed up with Mr. Kenney in giving a report on the recent convention of the Provincial Liberal Party.

Reports were received and adopted and in the election of officers Hon. W. L. McKenzie King and Hon. T. D. Pattullo were named as honorary presidents, with Dr. H. C. Wrinch, M.L.A., and Olof Hanson, M.P., as honorary vice-presidents. L. B. Warner was elected president for the coming year with Geo. Oulton and H. D. Johnson as vice-presidents. S. J. Mayer was tumultuously returned as secretary-treasurer.

Following the usual custom most of the immediate surrounding country was given representation on the executive through the following: S. F. Campbell, George Raymond, P. Davidson, Chas. Wilson, J. M. Graham, J. F. McEwen, J. S. Gray, F. Castelle, L. H. Kenney, F. Rosberg, Joe Williams, J. P. Downey, K. Chapman, Jas. Buchan, Wm. K. Clark, D. A. McRae, C. Stordal, Wm. Duff, Jas. Adams, W. H. Atrill, F. Watson, B. Miller, A. L. Evitt.

Miss L. Hanson was appointed as assistant to the secretary, but the naming of other committees was left to the chair.

Prior to the forwarding of the remains of William Robertson south last night a funeral service was held at the chapel of the B. C. Undertakers, Rev. W. D. Grant Hollingworth officiating. Dr. Large was at the organ and pallbearers were Messrs. McKinley, Hill, Geddes, McIntosh, McArthur and Daggett. Burial will take place in Victoria. Capt. Calderwood went south to attend.

Some of the Twenty-two planes of the second brigade, U.S. Marine Corps, pictured lined up at Anacostia naval station following their arrival at Washington from service in Nicaragua from where they had been withdrawn in agreement with the Nicaraguan, the men who returned from the south were reviewed by Admiral Moffett, chief of naval aviation, and Secy. of Navy C. F. Adams.

AMY GETS A TROPHY

Well Known Aviatix Awarded Seagrave Memorial, Third Recipient So Far

LONDON, Feb. 3.—Mrs. Amy Johnson Mollison has been notified that she has been awarded the Seagrave Memorial trophy, established in 1930 after the death of Sir Henry Seagrave, motorboat racer.

Previous winners of the trophy were Bert Hinkler and Sir Charles Kingsford Smith.

FISHERMEN IN THE EAST

M. H. Nickerson, Former Fisheries Director, Tells of Problems There

CITES PRINCE RUPERT

HALIFAX, Feb. 3. (CP)—Re-adjustment of grants for fishermen's bounties, permission to the New England fleets to enter and trade at Nova Scotia ports, and direct routing of fish for the domestic trade—these are the cardinal points in M. H. Nickerson's program for revival of the fishermen's prosperity in this province.

Mr. Nickerson, formerly director of fisheries for Nova Scotia and a veteran fisherman and dealer, has given notice that "a bill will be introduced at the next session of the provincial legislature, an Act to incorporate the Fishery Collectives of Nova Scotia." For, he writes, the fishermen shippers must be duly incorporated. The scope of the act will cover all mercantile fishstuffs.

The father of fishermen's unions has long been a proponent of opening Nova Scotia's ports to New England fishing vessels for purposes of bait-buying and the laying in of supplies. The George 111 treaty, in its embargo provisions, he says, does not apply "to the citizens of any state that is friendly to His Britannic Majesty." And even if the United States were unfriendly, he wants to know why Seattle halibuttrappers are allowed to use Prince Rupert when Boston haddockers may not come in to the coastal towns on the Maritime coast.

MAKES WAR ON PARTY

Communism to be Outlawed if Hitler is Elected Early Next Month

BERLIN, Feb. 3.—Chancellor Hitler is already making war on the Communists. Raids on their headquarters have been made in different parts of the country and all the contents confiscated. Clashes have occurred at numerous points and a number of deaths are reported as a result.

Following the dissolution of the Reichstag a vigorous campaign has been commenced. The Chancellor threatens to outlaw Communism if he is returned to office in the election that takes place early in March.

BERLIN, Feb. 3.—Either Germany must find herself or she must go Bolshevik. There is no middle course declared Chancellor Hitler in an interview with newspapermen.

JAIL FOR KU KLUXER

Former Imperial Wizard Has to Serve Time and Pay Fines At Edmonton

EDMONTON, Feb. 3.—Two months at hard labor at Fort Saskatchewan and a fine of \$50, in default of which an additional two months on the attempted false pretenses charge; two months at hard labor and a fine of \$50, in default of which an additional two months on the wilful negligence causing fire; a fine of \$10 and costs, and ordered to pay damages up to \$15, in default of payment one month's imprisonment to run consecutively following the two months imprisonment sentence was imposed on J. J. Maloney, former wizard of the Ku Klux Klan on Tuesday afternoon.

As the first two sentences run concurrently the sentences mean that Maloney will serve two months in jail, pay fines totalling \$110 and costs, and pay \$15 damages.

Maloney appeared stunned by his sentence. After His Worship had passed sentence, the former Imperial Wizard turned to the court and whined in a broken voice: "So you won't suspend sentence, hay?"

Magistrate—No. Maloney then turned as though to leave the dock but Sergeant John Leslie and Turnkey William Lamb took him by the arms and led him down to the cells.

WILL HE WIN OUT?

What many people today are wondering is whether Adolph Hitler, Chancellor of Germany, will finally win out in his efforts at becoming the ruling force of the Fatherland.

No matter what political or economic views one may possess he is bound to have a sneaking sympathy for the man who has forced his way through to the front until he finally landed the chancellorship.

The nearest to the type in Canada is Captain Ian Mackenzie of Vancouver, but while he has the enthusiasm he probably has not the personality required to enthuse the populace in his cause.

NO AMALGAMATION

It seems as if the Bennett railway amalgamation scheme is likely to die aborning. True the Premier has not openly and directly advocated amalgamation but he has been plainly working in that direction and only the strong opposition which is developing will prevent his introducing a measure into Parliament to provide for it.

Throughout the country there is a strong feeling of opposition to such a scheme. In Prince Rupert a vote would give two-to-one against it, at least. The probability is that legislation along the line of the Duff report will be as far as Parliament will go.

TEACHING PEOPLE TO COOK FISH

Increased Production Results From Campaign of Education by Demonstrator

It was an interesting story that Mrs. Evelyn Spencer told to the members of the Prince Rupert Rotary Club at their luncheon yesterday. It was a fish luncheon served by the Commodore chef in his best style and was much enjoyed. Several extra tables had to be set to accommodate the number of visitors present.

One outstanding feature of the address was an incident told by Mrs. Spencer when she was called by the United States government to help them move eighty million pounds of frozen fish just after the signing of the armistice. This fish had accumulated as a result of production propaganda and it had to be sold. By means of demonstration and lectures supplemented by extensive advertising on the part of the fisheries people the whole was sold before the campaign was finished and in addition a permanent market was built up for black cod, one of the finest of Canadian food fishes.

Mrs. Spencer told of fish being the earliest food of man. Later hulled but was the chief fish of the Norsemen, the Norse name for it being "hall butte" or "holy fish." The people lived on it and waxed strong just as primitive man lived on fish and waxed strong.

The success of the fisheries, the speaker said, depended largely on getting the housewife to cook fish and cook it well. Overcooked fish was as bad as undercooked. The flavor was lost. Fish should be cooked like eggs and stopped just at the right time. By cooking it correctly there was little odor.

Mrs. Spencer told many incidents of her tour, interesting her audience all the time.

At the opening of the lecturer was introduced by T. H. Johnson and at the conclusion she was thanked by President Woodland. Many members personally expressed their appreciation.

Perfect Smoothness

—HOW IT AIDS GOOD COOKING

"I have tried other brands but have never had such truly wonderful results from cooking as with Nestlé's Evaporated Milk. Why! The whole family have put their faith in it... and I am using it in all my cooking and baking. Nestlé's seems to improve my recipes and I can always depend on having excellent results when I use this inexpensive milk."

White Sauce (THIN)

- 1 tablespoon butter
- 1 tablespoon flour
- 1/2 teaspoon salt
- Few grains pepper if desired
- 1 cup boiling water
- 1 cup Nestlé's Evaporated Milk

Melt butter. Blend in flour, salt and pepper, if desired, and, when smooth and bubbling, add the boiling water gradually. Stirring constantly, boil until mixture begins to thicken, then add Nestlé's Evaporated Milk and continue cooking over hot water for 5 minutes longer. Yield: 1 1/4 cups.

To make

MEDIUM WHITE SAUCE

Increase butter to 1 1/2 tablespoons and flour to 2 tablespoons.

Here is a little secret that you may not have discovered for yourself. When you are making up one of those "family favorites" of yours for cream soup or custard sauce — try using Nestlé's Evaporated Milk. You will be amazed at the added "smoothness"—the rich creaminess that this concentrated pure cows' milk gives to your soups, sauces and fillings.

You will notice, too, that they have a richer colouring when Nestlé's Evaporated Milk is used. And it is so economical! One reason for this is an interesting fact about Nestlé's Evaporated Milk which you may not know.

The butterfat particles in it are so finely divided that it gives to foods a rich flavour without the addition of cream or butter. And, by the way, this same breaking up of the fat globules causes them to become perfectly blended with the rest of the milk, which brings you that dependable smooth creaminess

that will make Nestlé's Evaporated Milk your fast friend.

Did it ever occur to you that a large part of the milk your family needs and should have every day can be eaten? This fact is of great nutritional importance—for milk drinking is sometimes not popular, especially with children—and in any case, quite often has its limits.

Solve this problem of required nutrition with delicious custards, rich creamy soups, and a variety of vegetable, fish and meat dishes served with cream sauce made with Nestlé's Evaporated Milk. This will give you double or more of the milk content otherwise included—and is a sure way of getting milk into food, and getting your family to eat more milk.

Just try the recipe given across the page. Follow carefully the simple cooking directions and you will achieve perfect smoothness.

LADIES HEAR MRS. SPENCER

Expert in Fish Cooking Lectures to Gathering at I. O. D. E. Hall Yesterday

At a gathering of ladies yesterday afternoon in the I. O. D. E. Hall, with Mrs. D. C. Stuart presiding, Mrs. Evejenc Spencer, lecturer and demonstrator under the Department of Fisheries, gave an interesting address on the preparation and cooking of fish. The address was a lengthy one but very interesting. It was anecdotal, the speaker re-

counting a number of her experiences in connection with her work.

In the course of her talk Mrs. Spencer stated: "From time immemorial men have liked to eat fish but women hated to cook it." To overcome this dislike was one of the aims and objects of the address. She strongly urged that fish should not be overcooked. Ten minutes in a hot oven was plenty for the ordinary filets, and she urged that wherever possible filets should be used because they were easier to handle.

Mrs. Spencer spoke incidentally of the value of cod liver oil and mentioned the work being done in connection with substitutes at the local fisheries experimental station. These had all the vitamins con-

tained in cod liver oil. She also told her audience how to make emulsion. At the conclusion a great many ladies asked questions, particularly in regard to the use of cod liver oil and emulsion.

Mrs. Spencer was introduced by D. B. Finn, director of the fisheries experimental station, and at the close a vote of thanks was passed on motion of Mrs. Rochester seconded by Mrs. Norrington.

The Letter Box

REGARDING ANYOX STRIKE

Editor, Daily News:
Before passing judgment on the strike at Anyox, the following irrefutable facts should be considered.

The last wage cut on July 1st left the high paid under-ground miner \$3.25 per day and the low paid surface man \$2.40 per day. Deductions for "board" \$1.10 per day. Doctor fee \$1.00 per month. House rent \$20.00, room for single men \$5.00, and a 50c. fee for Community League. The antiquated system of mining increases the risks of a most dangerous and hazardous occupation. Of late years many serious accidents have happened, and the men got practically no redress. The findings of the Company's picked jury invariably stated "deceased met his death by accident, and no blame can be attached to the Company or its officials." The protests of the mine inspector were continually overruled until they finally convinced the Provincial Government that he should be replaced.

The under-ground workers at Anyox comprise some twenty different nationalities, and as they gained experience they were promoted certified miners with blasting certificates. The policy of the Company during its 40 years operation in British Columbia was to have so many of each nationality that no one could play against the other, which proved successful until the present strike.

One year ago, a few of the active miners selected one in each group to be group leaders to put the Mine Workers' Industrial Union of Canada on the map. This organization is affiliated with the Workers' Unity League. Under the leadership of the Workers' Unity League, the miners decided to strike for themselves and their families.

Practically 100% of the wages paid are returned to the Company in the form of board, groceries, clothing, and other necessities, as everything must be purchased through the company's store. We have authentic information that there are actually families in the smelter town who are in debt to the company for the necessities of life at the end of every month.

Since the depression began, the company increased its supervision staff in the mine by three more superintendents, four foremen, and about 18 shift bosses—an unheard of procedure in a B. C. mine, and try to get the last ounce of energy out of the workers.

Hymns Criticized By Clergyman

Sermons Also Would Not Disturb Anybody Declares New Zealand Bishop

AUCKLAND, N.Z., Feb. 3—Modern sermons and hymns were strongly criticized by the Most Reverend Churchill Julius, Primate of New Zealand, in an address at Auckland. "Some Hymns," he declared, "must have been written in a feather bed while the composer was asleep. They are so pale and insignificant that they would not rouse a flea. Modern sermons, too, would not disturb anybody. We use the church as a kind of opium den in which the wife forgets her husband's bad temper, and the husband forgets his wife's long tongue."

Miss Shearer Has Romantic Role in 'Smilin' Through'

Norma Shearer has turned her back on her screen past. In "Smilin' Through," her latest production which will be shown tonight and tomorrow at the Capitol Theatre, Miss Shearer has a role far removed from those which have taken her along the bypaths which lead away from convention.

Miss Shearer's role in "Smilin' Through" is frankly tinged with sentimental romance. It is completely devoid of that sophistication which marked her characterizations in "Strangers May Kiss," "A Free Soul" and "Strange Interlude."

The story abounds in pathos. Ever since Jan Cowl first presented it on the New York stage, it has served as the model by which sentimentality in drama is measured. "As sweet and poignant as 'Smilin' Through,'" has come to be a phrase by which critics points their comparisons.

In thus turning to wistful romance, Miss Shearer sheds the "women of the world" character for the first time since the peach blossom fragrance of "The Student Prince," in the old days of silent films.

In "Smilin' Through" she portrays two different girls whose romantic experiences affect the life of one man at an interval of fifty years. First, as Moonyeen Clare, in 1868, she is the betrothed of a young English aristocrat, played by Leslie Howard. Later, in 1914, she becomes Kathleen, Sheridan, with Fredric March as her lover.
