IRISH ELECTIONS NOT DECISIVE YET PREMIER MAKES STATEMENT ON RAILWAY SITUATION

Fishing Vessel Owners Decide to Make Effort to Restrict Total Catch of Halibut for This Season

Seattle Proposal for Limited Catch per Man and Limited Number of Trips Adopted by Meeting—Question of Minimum Price Held in Abeyance

The fishing vessel owners, at a meeting held in the City Hall last night, decided to fall in with a plan proposed from Seattle to restrict the total halibut catch this year to 35,000,000 pounds instead of the total catch allowed by the International Fisheries Commission of 46,000,000 pounds. To bring this about the catch of each vessel is restricted according to the number of fishermen employed. G. W. Nickerson, who was appointed secretary-manager will have charge of the allotment and see that it is carried out.

In fishing district number two, which is the district around Prince Rupert, the allotment for the season is 2,800 pounds per man with nine trips allowed for each boat.

In district number three, comprising the waters of Western Alaska, a total of 3,300 pounds per man is allowed but only seven trips may be made.

The question of minimum price was discussed but no decision was arrived at as it was not certain whether the Seattle owners meant to include the Canadian boats in their proposed schedule. The schedule Seattle adopted was a minimum at Seattle of six and four cents, at Ketchikan of five and three and at Prince Rupert, five and half and three and a half cents.

It was also decided that in case any boat had not made up the allotment in the number of trips specified that it be allowed another trip.

Officers were elected for the coming year as follows:

President, George Fritz.
Vice-president, Jack Christensen.
Secretary-manager, G. W. Nickerson.

The president and vice-president are to represent the organization on the biological board advisory committee.

Seattle announced that the boats would commence to leave on Monday next.

Jim Zarelli, of the New Royal Hotel, will be a passenger aboard the Prince Rupert tonight for Vancouver.

Bennett Sees Danger in Present Conduct of Railways and Tells Body of Railwaymen About It

OTTAWA, Jan. 26.—The railway problem in Canada is threatening the very economic life of the country, Premier Bennett told a deputation of railwaymen here today. No language would be too extravagant to describe the seriousness to Canada of the railway problem, the Prime Minister said. "It has been submitted by the railwaymen that too much emphasis had been placed on the financial end of the problem and not enough on the human. But if these enterprises stop altogether there will be no work at all," said Mr. Bennett. "Our effort is to keep as going concerns these enterprises. But if this country continues as it has done in the past, we cannot continue long."

GOVERNMENT TO BORROW MORE TO COMPLETE FUNDING

VICTORIA, Jan. 26.—British Columbia expects to go to Canadian markets shortly for a loan of four million dollars to complete its funding operations.

S.S. Prince Rupert is due to arrive from Anwoy and Stewart this evening and will sail for Vancouver and way points at 10 p.m.

HONOR DONE MEMORY OF SCOTS' POET

Presbyterian Hall Packed With Admirers of Bobbie Burns Who Crowded There For Festivities

Last evening the Presbyterian Church Hall was filled to overflowing with people anxious to do honor to the memory of the Scottish bard, Robert Burns. As many tables as possible were set in the hall but this was not enough to accommodate the crowd, so twenty places were also set in the kitchen. The turkey dinner was all that could be desired. The party was congenial, the speeches and music excellent, the waitresses pretty and the whole atmosphere was one of real Scottish festivity. Seldom if ever has there been such event in the history of the city.

Of course the "piece de resistance" was the haggis. It was piped in by Piper Leslie, borne aloft smoking hot by Murdo McLeod. William Brown in his inimitable style gave the customary address to the haggis while William Millar slashed it open. Then it was passed around and all partook of a portion.

Mrs. J. W. McKinley was in general charge of arrangements and assisting her was a large band of willing workers. Mrs. William Millar had charge of the program.

Mrs. D. McD. Hunter, president of the Ladies' Aid, received the guests and Harry Foote and Syd. Hunter took tickets at the door.

Vocal numbers were given by Mrs. J. H. Carson, Mrs. H. N. Brocklesby and Mrs. William Millar, accompanied by Mrs. Blackstock and Miss McDonald. The Scottish orchestra played selections. Speakers were the

(Continued on page four.)

Committees of Board of Trade At Vanderhoof

VANDERHOOF, Jan. 26.—A meeting of the executive committee of the Vanderhoof and District Board of Trade Inc was held here, at which the standing committees of the Board were appointed. The first named in each case to be the chairman.

Roads—S. W. Cocker S. Holmes and Dr. W. Ross Stone.

Publicity—F. E. Durrant E. C. McGahey and W. J. Rines.

Membership—H. V. Taylor and H. W. Stokes.

Agriculture—L. J. Preston, J. H. McMillan and Hugh J. Goldie.

Mining—Joseph Murray, J. M. Johnston and F. E. Durrant.

Relief—F. Bowman, J. J. Steen and E. C. McGahey.

Vancouver Wheat

VANCOUVER, Jan. 26.—The price of wheat here today was 45 1-2c.

SALE OF STEAMERS PLANNED

All Three New Vessels on Market and May Change Hands if Offers Large Enough

MONTREAL, Jan. 26.—The sale of the Canadian National Steamships Prince David and Prince Henry is contemplated, it is learned here today. The vessels are now in Halifax and were recently examined by the representatives of French shipping interests engaged in a service across the Mediterranean between Marseilles and Algiers but their preliminary offer was too low.

The Prince Robert is laid up at Vancouver and will be sold if an attractive price is offered.

ORE FROM SKIDEGATE FOR ANYOX

Large Shipment Being Prepared At Sunrise Mine—Rumor Regarding Ownership

SKIDEGATE, Jan. 26.—The Skidgate Sunrise gold mine management is preparing to make a large shipment of ore to the Anyox smelter, the first shipment under a new contract arranged in the fall with the Granby Company.

There is a rumor here that the Granby Company may take over the mine and operate it themselves.

Unemployed Make Protest

Objection Taken to Recent Cut in Relief Allowance and Delegation to Meet Council

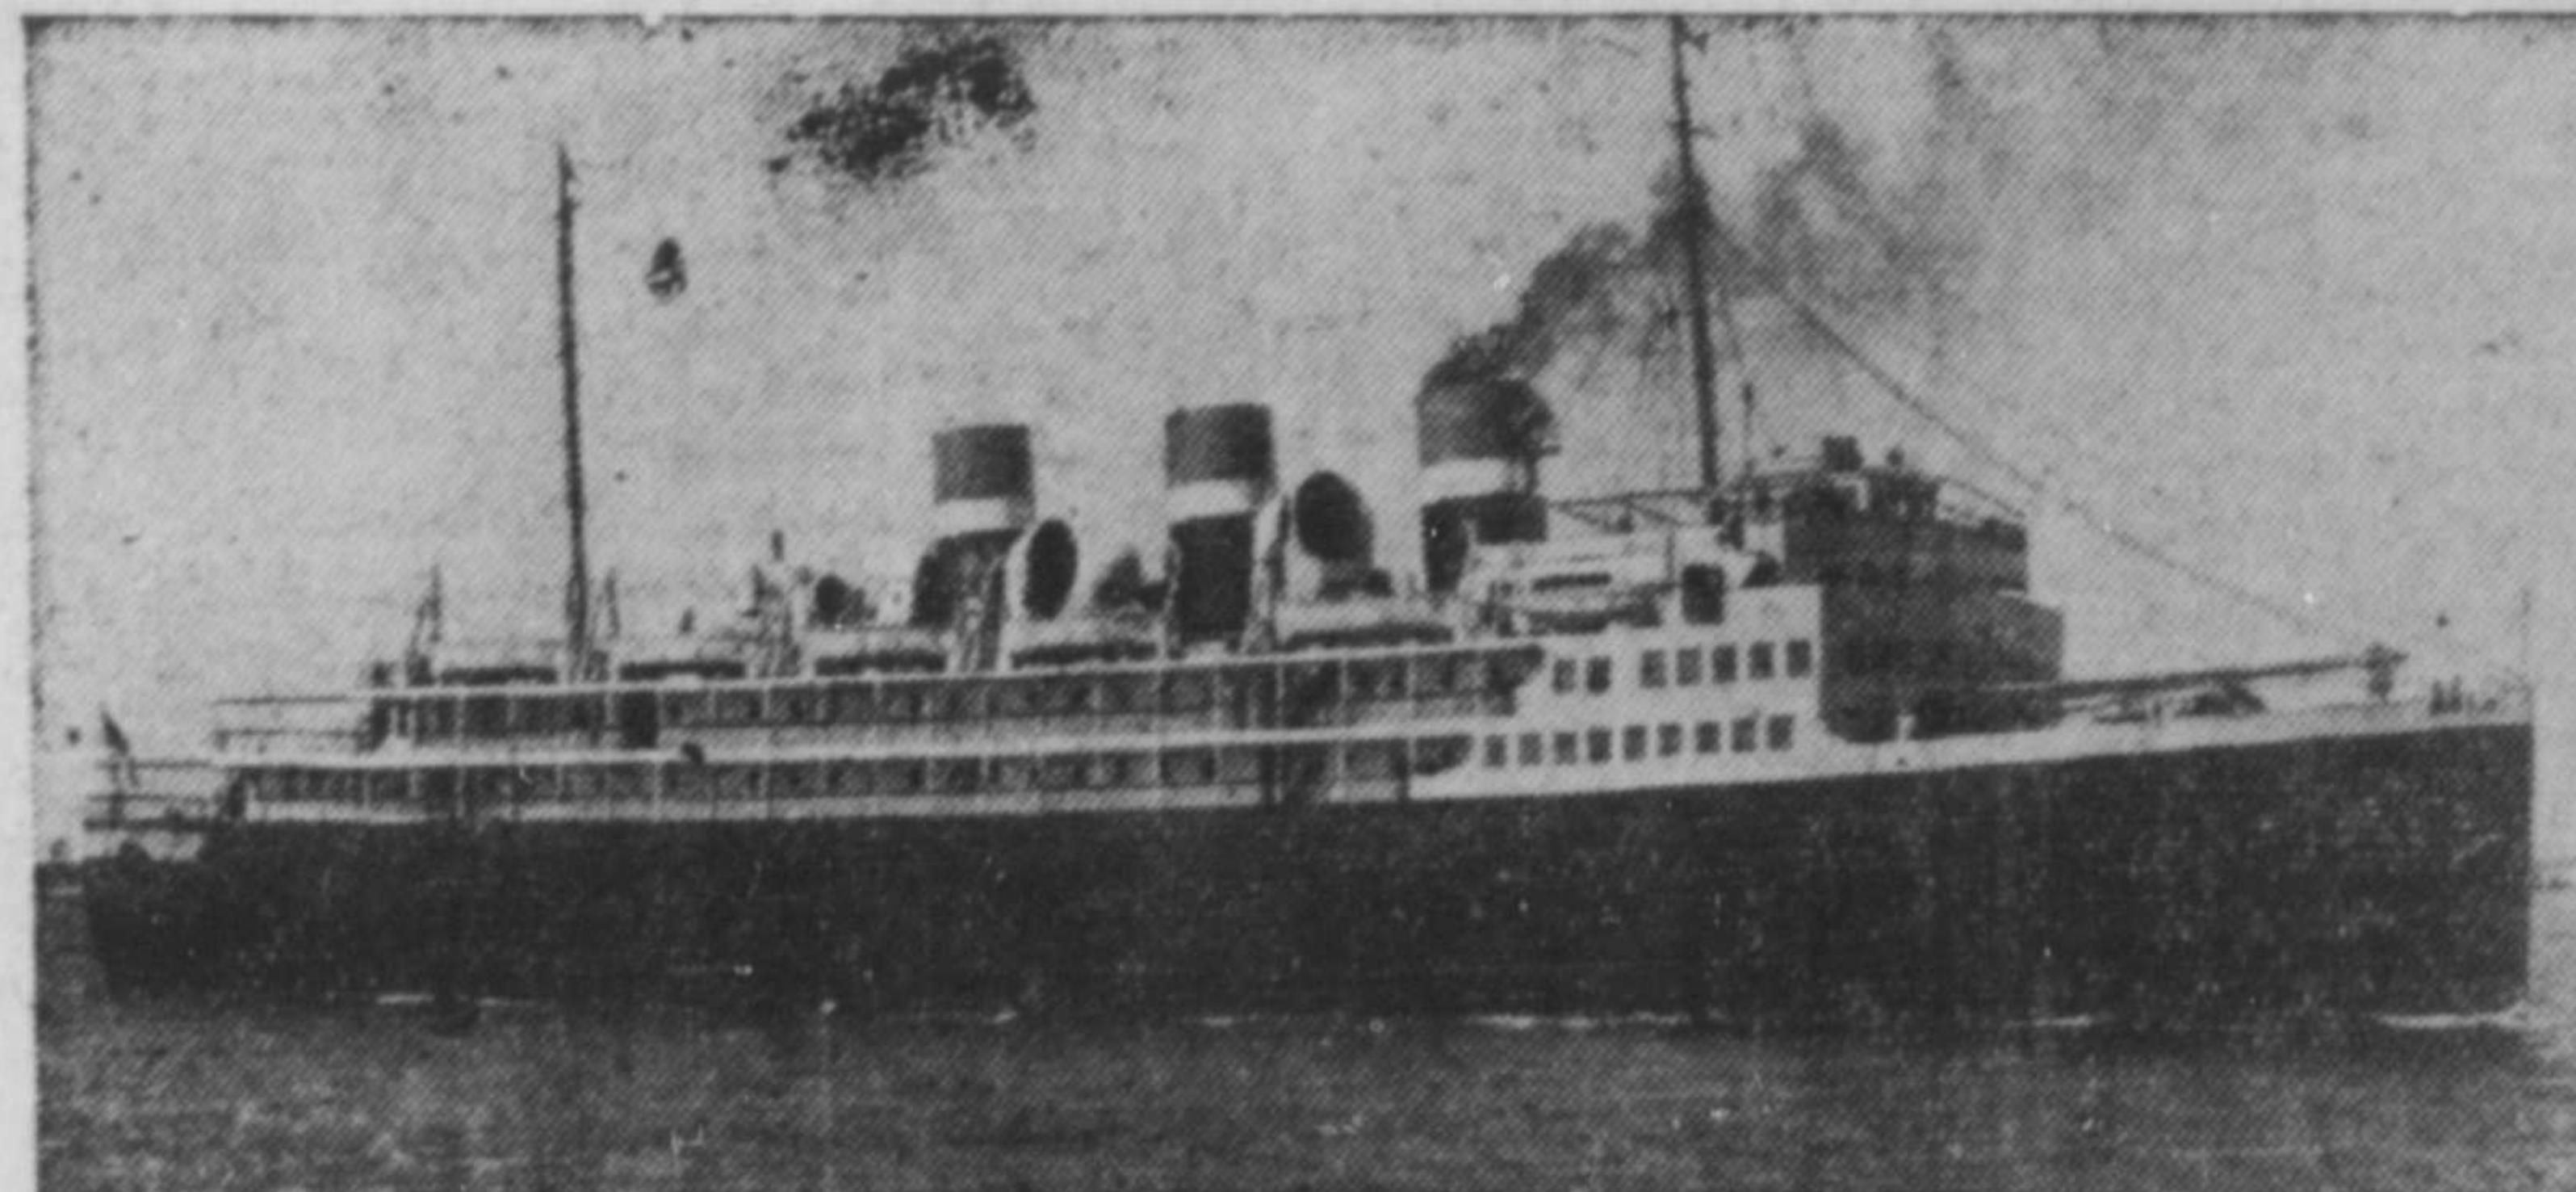

The regular weekly meeting of the National Unemployed Workers Association in the CLDL Hall last night was attended by some 400. The drastic slash in the relief allowance for married men and their dependents was the principal topic of discussion. The contention was that it was practically impossible for a family to make ends meet before, and under the new scale it would be absolutely impossible, and that the authorities were wrong in endeavoring to impose intolerable living conditions on the mass of the workers. It was decided that a delegation wait on the Mayor and City Council, and that a special meeting be called Friday night, to hear their report.

Among other business was a communication from the Central Council of Employed and Unemployed asking for representatives from the various labor unions to discuss matters wherein joint cooperation would be beneficial to all.

The concensus of opinion was that the council should be represented at the unemployed meetings, and the Secretary was instructed to notify the council to this effect.

Union steamer Cardena is due to arrive from Vancouver and way points at 5:30 this afternoon and will sail on her return voyage for the south at midnight.

Well Known Steamships Likely To Be Sold

Prince David, one of two almost new vessels, for the purchase of which negotiations are proceeding in Eastern Canada.

Little Change So Far in Standing of Irish Parties But One Cosgrave Seat Has Gone Over to DeValera

Number of Nationalists Including Cosgrave Find Themselves With Reduced Majorities Pointing to Possible Further Defeats as Count Proceeds

DUBLIN, Jan. 26.—The present indications are that there will be very little change in the government of Ireland following the count which is now going on and which has still a long way to go before it is completed. While the Republicans are leading pretty well in the seats where a final count has been made, only one change has been made so far in the former standing and that is the switching of one Nationalist seat to the side of de Valera.

The Republicans are jubilant over the election of six ministers supporting President de Valera and the fact that Former President Cosgrave's personal poll was cut in half and that in addition to the defeat of Ernest Blythe, former vice-president of the Free States and Cosgrave's chief lieutenant, other nationalist notables were having trouble. De Valera himself headed the poll in Clare.

The Nationalist opposition was cheered by the fact that so far they had lost only the one seat.

With 99 seats still in doubt the party standings tonight (Thursday) were:

Republican (government)	31
Labor (supporting gov't)	2
Nationalist (opposition)	13
Independent (opposition)	5
Centrist (opposition)	3

The Republican government thus had a lead this evening of 12 seats over all so far counted.

Quiet Funeral At One o'Clock

A Private funeral service for the late Daniel Murray was held in the parlors of the B. C. Undertakers at 1 o'clock this afternoon. The bereaved family relatives and close friends were the only ones present at this simple service. Rev. W. D. Grant Hollingsworth officiated. The funeral conducted by the Masonic Lodge took place at 3 o'clock this afternoon.

C. N. R. Made Operating Profit Of Over Ten Million Dollars in 1932 Declares the Management

Statement Made in Montreal That There Was Big Loss Is Incorrect in View of Published Figures

MONTREAL, Jan. 26.—A statement is made in a Montreal morning paper that the Canadian National has been losing at the rate of more than one million dollars a week on operation alone without any regard to interest charges. This statement is denied by the C. N. R. management. The Canadian National Railway system in 1932 met its operating expenses and had an operating net profit of upwards of ten million dollars. An improvement of more than two and a half million dollars as compared with 1931.

On the eastern lines of the Canadian National, the results from the Fishing Vessel Owners' Association of Seattle and Ketchikan called for bids and under the provisions of the Maritime Freight Rates Act, the operating deficit in 1932 was \$4,200,000, an improvement of \$2,200,000 as compared with 1931.

Today's Weather

Trip Island—Rain, moderate south wind, choppy sea.

Dead Tree Point—Clear, light south-west wind. Barometer 29.14; temperature 40; light swell.

Prince Rupert—Cloudy, moderate south east wind. Barometer 29.06; temperature 36, smooth sea.

Stomach Trouble After Her Meals

Mrs. Collingwood Maynard, Port Hill, N.S., writes: "I suffered from pains in my stomach, and headaches, after eating my meals."

A friend advised me to take Burdock Blood Bitters, and after having done so I found a great change in me. Now I never have any trouble with my stomach, and headaches are a thing of the past."

For sale at all drug and general stores; manufactured for the past 53 years, only

NATIONAL POET

Bobbie Burns is the Scottish national poet but he is more than that. He has become a national institution, part and parcel of Scottish life, influencing the whole trend of the people who live or whose ancestors lived north of the Tweed. It is probable that no other country in the world has so adopted a poet as its national hero, who annually hold high festivities in his honor and who religiously study his verses, eulogizing the best and apologizing for the worst.

IRISH SITUATION

Apparently Ireland has decided to carry on in its position of isolation from its closest neighbors. Nationalism has overcome monetary considerations, it would seem, although the results are not all in and until the final returns are reported little can be said. Judging from today's returns it would seem as if de Valera will again be president but at the will of the Labor party which kept him in power for a time and then threw him out, later declaring again in his favor.

PARTNERS for 115 years

The people of Canada and the Bank of Montreal are partners today, as they have been for 115 years and as they will be in the future. Hundreds of thousands of depositors entrust their money to the Bank to be kept in safety and to earn interest. The Bank lends these deposits, under proper banking safeguards, to facilitate sound business.

You are cordially invited to make use of the strength and manifold banking facilities of this institution.

Prince Rupert Branch: F. A. MacCALLUM, Manager

Gold Production Increased in 1932 But Other Mining Declined According to Official Report

General Summary by John D. Galloway, Provincial Mineralogist

The gross value of the mineral production of the province for 1932 is estimated at \$26,675,517, a decline from the output in 1931 of \$8,207,664, or 23%. The following table shows the estimated output for 1932 and comparative figures for 1931:

Product	Quantity	Value
Gold, lode, oz.	146,039	\$ 3,018,894
Gold, placer, oz.	17,176	291,992
Silver, oz.	7,524,290	2,247,514
Copper, lb.	63,194,299	5,289,363
Lead, lb.	248,733,508	6,742,232
Zinc, lb.	205,071,247	5,237,520
Coal, tons (2240 lb.)	1,707,590	7,684,195
Structural materials		3,653,300
Mis. Metals and Minerals		818,161
		500,000
		\$34,883,181
		\$26,675,517

Total. The decrease in production value was to be expected owing to lower metal prices, smaller outputs of zinc, copper, and coal, and the falling-off of building and construction work. On the other hand, a large increase was recorded in gold production and a small increase in lead output as compared with 1931. Silver production showed only a slight decline. In the face of unprecedentedly severe economic conditions the industry has been maintained in a satisfactory manner.

The increased output of gold both placer and lode, is only a slight indication of the activity taking place in searching for and developing gold properties. The total gold output of \$4,140,850 as compared with \$3,110,886 in 1931 is an increase of 25 percent. The bulk of the gold produced in the province during 1932 was sold on the basis of payment in American funds. By agreement with the Dominion Bureau of Statistics gold production in fine ounces is valued in Canadian dollars for Statistical purposes, as it is considered standard money, rather than a commodity. During the year, the so-called premium or advantage to producers in selling gold on the basis of American funds approximated 13 per cent. The premium to British Columbia producer therefore amounted to approximately \$538,000, making the total return to the producers in terms of Canadian funds, about \$4,678,000. This is an increase of 40 per

cent over the value in 1931 figured in the same way, as in that year the premium was quite small. Lode gold output is higher because of an increased return from the Pioneer and a substantial contribution from the Lorne operated by the Bralorne Mines, Limited. The loss of the Reno mill by fire in February, 1932, stopped production from this property, but construction and development plans recently completed assure a larger output from this property in 1933 than previously. Pioneer continued as the leading gold producer at practically the same rate of output as in 1931. Less gold was produced as a by-product of copper-mining, owing to curtailment of tonnage treated. Many small gold properties contributed to the total production.

The estimated silver output of 7,200,000 ounces shows a decline of about 300,000 ounces as compared with 1931. The principal producers were the Sullivan and Premier mines. The Wallace Mountain silver camp, Greenwood Mining Division, maintained profitable production even at present silver prices and development has maintained the usual ore reserves.

Copper output estimated at 48,600,000 pounds showed a marked decline from the 63,194,299 pounds produced in 1931. Practically the entire copper production of the province is made by the Granby Company's mine at Areyox and the Britannia. Drastic curtailment at the latter caused most of the decrease in production. The continued operation of these mines is threatened by the 4-cent duty imposed on copper entering the United States, where the output has previously been marketed. Other markets are being sought but the future is obscure.

The lead output for the year is estimated at 253,000,000 pounds as compared with 248,733,508 pounds in 1931. This large tonnage is produced almost entirely by the Sullivan mine of the Consolidated Company. It is noteworthy and encouraging that despite a lower price for lead, that the Consolidated Company was able to continue production at a slightly higher rate than in 1931. It is understood that the sales of the metal have kept pace with the output.

Zinc production for the year is estimated at 130,000,000 pounds as compared with 205,071,247 pounds in 1931. Almost the entire output was made by the Sullivan mine and the heavy decline was due to the difficult attendant on marketing the metal.

The production of coal is estimated at 1,500,548 long tons as compared with 1,707,590 in 1931, a decline of 12%. During the first half of the year the output of coal increased as compared with the corresponding period in 1931, but sales fell away considerably in the second half of the year. The causes are the lowered state of industry and the "economy" measures now in vogue. Nevertheless, local coal is now capturing a larger share of the available fuel business in British Columbia, and with improved general conditions, coal

MUCH FUN FLYING IN TINY PLANE

Can Glide and Bank Corners in Machine-Cross Between Plane and Motorcycle

LONDON, Jan. 26.—British pilots have discovered a new sport—racing round a speedway, marked out by pylons erected on the aerodrome, in "ultra light" airplanes driven by six h.p. motorcycle engines.

Four of these tiny machines, which apparently blend most successfully qualities of the glider and the powered airplane, demonstrated at Hapworth Air Park, near London, a degree of easy control in the hands of skilled and unpractised pilots alike which astonished experts who watched the races.

Men like Flight Lieutenant Stainforth, holder of the world's speed record, and C. W. A. Scott, famous for his fast flights between England and Australia, declare that flying the little craft affords them endless pleasure. On the other hand, Kaye Don, who had not flown for more than 10 years, showed they could be handled with ease and assurance by hands which had inevitably gone "rusty," in fact, his quick and effective turning methods actually brought him victory in one heat over the profound knowledge and skill of Stainforth.

Much of the undoubted safety of the "ultra light" plane resides in its low speed. Maximum speed attainable is only 45 miles an hour, and landing speed is about 18. Handling qualities are admirable; pilots skimmed the grass on turns, sometimes "wheeling" literally with one wheel on the ground while still maintaining flying speed. They flew in the race at heights above the ground of never more than 30 or 40 feet, and the quickest manoeuvre seemed to involve no difficulties. Given a large enough field, an intelligent and fit individual could probably teach himself to fly one of them; with instruction none should take longer than an hour or two to gain sufficient mastery of the machine.

PORT SIMPSON

Two Port Simpson boys, Ambrose Ryan and Bertie Dennis, are in the hospital suffering from the effects of exposure, which they suffered when their boat capsized on Sunday evening, while they were engaged in trolling. After a shark had fouled their fishing gear and upset one of the boys, the other rowed out to assist and he upset. It was growing dark and after a hard struggle through the chilly waters they managed to make the beach. Searchers came in the night and they were both found suffering from exposure and were rushed to the hospital.

Elsewhere will be found a list of newly elected officers of the Epworth League of the Port Simpson United Church. The League has been thoroughly reorganized along the lines of all the other organizations in the United Church. Rev. V. Sansum, the pastor, had charge of the election.

The Lillian D. of the Forestry Dept., was in port in the course of an inspection trip north.

Mrs. Peter Wells was hostess to a radio evening at home, at which the broadcast from Ketchikan, rendered by many of the native boys of Ketchikan, was enjoyed, many of the numbers being dedicated to Port Simpson people, and during the afternoon, Jimmy Thomas, guitar artist, dedicated and played several of his selections especially for the Port Simpson General Hospital, both to the staff and inmates.

Production would soon register an upward trend.

The value of structural materials produced is estimated at \$1,750,000, a decline of over 50 per cent as compared with the valuation for 1931. This heavy decrease reflects the well-known fact that constructional and building activity, which were well-maintained in 1931, slumped severely in 1932.

The output of Miscellaneous Metals and Minerals is estimated to have had a value of approximately \$500,000, a decline from the figure of \$818,161 in 1931. Lowered outputs of gypsum, cadmium, and flux for smelting operations largely account for the drop in the figures.

EXPORTS OF PULP WOOD

Sweden Takes Third Place in World Coming Next to Canada in Production

STOCKHOLM, Sweden, Jan. 26.—Sweden takes third place as a producer of wood pulp but is the leading exporter of that commodity in the world market according to a report just published by the Swedish Board of Trade. The total annual quantity of wood pulp produced in the world is normally about 16,000,000 tons dry weight. Among the producers of these tiny machines, which apparently blend most successfully qualities of the glider and the powered airplane, demonstrated at Hapworth Air Park, near London, a degree of easy control in the hands of skilled and unpractised pilots alike which astonished experts who watched the races.

In the second place as a producer comes Canada with 20 to 21% of the world production but exports about 25% of its output. Sweden comes third as a producer with 14 to 15% of the world production and exports about 70% of its output or about 1,500,000 tons with an average value for the past eight years of approximately 250,000,000 kronor.

Wood pulp heads the list of Sweden's export items with 19.3% of the total export, next comes paper with 9.8%, then sawn and planed wood with 7.45% and iron ore with 5.19%, these figures all referring to 1931.

The import is more widely distributed over a greater number of commodities of which coal comes first with 4.97% of the total import, followed by mineral oils with 3.93%, fruits and berries with 3.9%, coffee with 3.71% an automobiles with 3.45%. The figures for the total volume of Sweden's foreign trade for 1932 which are not yet complete will probably show a decrease in comparison with the preceding year owing to the general trade depression.

SPORT CHAT

Did You Know—That many a good luck charm was worn by Olympic athletes?

That Brazilians sewed small hand-sewn charms, called figas, in the seams of their track pants, while the Japanese ate machikuri, or victory chestnuts, and the Danes combed the hair of their mascot, which happened to be a pink and white toy poodle dog.

That one of the Tokyo (Japan) newspapers sent 17 correspondents to cover the Olympics and spent \$1,000 per day to have the stories cabled to Japan.

That Joe McCarthy is the only Big League baseball manager who has piloted a team to the pennant in both leagues.

It is time to mark up the score for 1932, one of the best worth remembering years in all the long and colorful history of sportive competition. Here are some of the sport randoms that help make it memorable:

The breaking of outstanding records at the Olympic Games at Los Angeles, which was hailed the biggest success of any athletic show ever staged.

In baseball, the winning by the New York Yankees of their seventh American League pennant and their third World Championship.

In tennis, the rise of young Ellsworth Vines to undisputed world leadership.

In winter sports, the thrilling competition provided by the Olympic Winter Games at Lake Placid, New York.

In boxing, the winning of the world's heavyweight championship by Jack Sharkey from Max Schmeling.

There have been so many new standards set that the authoritative record books will now need a thorough revision.

Finland, the homeland of the great Paavo Nurmi, is a country "led hot" for athletics. Not only has it produced some wonderful athletes but the sport fans show a high interest and keen enthusiasm at the various events. Of course Finland is handicapped by her climate but even in spite of her long winters she has one hundred and fifty baseball clubs. Of course Finland's chief sport is skiing and about three thousand athletes try yearly for the national skiing championship title. In Finland if a youth shows any tendency towards sport he is given every bit of encouragement and help possible.

Prince Rupert Beats Vancouver In One Respect

The Vancouver Province of recent date has an article telling of four generations in one home, that of the Gamble family at 2043 Collingwood. Naturally Mayor Stephens cannot allow his record to be beaten or even equalled. Mention was recently made of his family having four generations of the same name in one house. But he can go one better than that. Here is the complete record.

At 412 Emmerson Place, resides Mrs. Annie Stephens, 85; her son, Mayer M. M. Stephens, 60; Fred H. Stephens, 31; Fred H. Stephens, Jr., 6, making the four generations, without change of name, and three eldest sons.

On the same street and in the same block live Mrs. Olson, 427 Emmerson Place, daughter of Mayor Stephens, and her two little sons, Arthur and Frank, again equalling the Vernon and Edmonton records.

Officers of United Church Port Simpson

PORT SIMPSON, Jan. 26.—The newly elected officers of the Port Simpson Epworth League of the United Church of Canada for the year 1933, follows:

Director of Leadership Training—Rev. Victor H. Sansum. President—D. A. Johnson. Vice-President—Wm. Sampson. Treasurer—E. F. Dudoward. Secretary—Mrs. Sam Cecil. Convenor of Devotional Committee—David Swanson. Convenor of Missionary Department—Henry Pierce. Convenor of Citizenship Department—Joseph Mather.

Convenor of Social and Literary Department—Peter Ryan. Organist—Charlie Pierce. Councillors—Sam Bennett, Hon. President: Dwyer Green, Joseph Ryan, Philip Green, Sr., Joseph Bradley.

Church Dance Much Enjoyed

Anglican Young People Have Jolly Time in St. Andrew's Hall

The Anglican Young People's held a dance in the church hall last night for members and their friends. Thirty-five couples were there to enjoy the event. Novelty dances of all descriptions were featured. Dancing was enjoyed from 9 o'clock till shortly after midnight. Delicious refreshments were served by members of the club. Those in charge of the evening were:

Refreshments—Misses J. Cross and A. Gilchrist.

Entertainment—Stan Dalby.

Orme Stewart acted as master of ceremonies, with the following assisting with the music: Misses M. Gilchrist, M. Cross, M. Lawrence, Winona Bryant, Bert Cameron, Roy Sommers, and Billy Bacon.

Guide to Correspondents

The Daily News welcomes correspondence on live topics of the day or any other subject of public interest, but letters must be brief and to the point. The long-winded correspondent has no place in modern journalism.

Every letter must be signed by the writer, not necessarily for publication but as a matter of good faith and courtesy. All unsigned documents go to the waste paper basket. Letters of a caustic character must have the signature appended for publication.

Letter should be written on one side of the paper only. Correspondents must avoid personalities and the language should be such as would be allowed in the ordinary rules of debate.

MUSIC CLUB GATHERING

Burns and Mendelssohn Subjects
of Study by Ladies at Mrs.
Millar's Home

The regular meeting of the Ladies' Music Club was held yesterday at the home of Mrs. William Millar, Sixth Avenue.

Mrs. R. L. McIntosh presided over the gathering which was well attended. Mrs. W. W. Anderson and Mrs. Johnstone were welcomed as

guests for the day. Splendid papers on Felix Mendelssohn, composer, and Robert Burns, poet, were prepared and read by Mrs. Millar, who had charge of the program. The study of Burns was very fitting, it being his natal day.

The following program was enjoyed:

Vocal duet, "Ye Banks and Braes" (Burns), Mrs. F. Good and Mrs. C. E. Cullin.

Piano solo, "Allegro Non Troppo," Op. 52, No. 2 (Mendelssohn), Mrs. W. L. Stamford.

Recitation, "To Mary in Heaven" (Burns), Mrs. C. C. Perry.

Vocal solo, "Bonnie Banks of Loch Lomond" (Burns), Mrs. J. H. Carson.

Vocal solo, "Spring Song" (Mendelssohn), Miss N. Lawrence.

Vocal duet, "The Cauld Blast" (Mendelssohn), Mrs. W. C. Cruickshank and Miss Halliwell.

Piano solo, "Song Without Words" Op. 39 (Mendelssohn), Mrs. W. M. Blackstock.

Vocal solo, "Comin' Thro' the Rye" (Burns), Mrs. J. H. McLeod.

Accompanists for the afternoon were Mrs. J. S. Black, Mrs. C. E. Culkin, Mrs. W. L. Stamford and Mrs. W. M. Blackstock.

Tea was served at the close by the hostess. Mrs. R. L. McIntosh and Mrs. C. E. Cullin poured and assisted the hostess were Mrs. W. L. Stamford and Mrs. F. Allen.
