### Ex-Mayor Orme Urges People To Keep up Fight to Secure Railway Company's Assistance

Declaring that he had come to the conclusion that Prince Rupert was being discriminated against by the Canadian National Railways in connection with certain matters, Ex-Mayor Cyril H. Orme, in speaking before the regular weekly luncheon of the Prince Rupert Gyro Club in the Boston Cafe today on the subject of "The Canadian National and Prince Rupert," urged the people of this community to keep up their fight for recognition and co-operation from the railway and steamship company. Mr. Orme expressed the view that it was time the company, in fairness to Prince Rupert, gave some assurance that this port would get some help from it and that it should outline its policy in regard to work and purchases in this community. If the local activities were not continued, there was the possibility, the ex-mayor feared, that the company's activities might be even further curtailed in this northern part.

### Stanley Baldwin

Announces Britain's determination to defend Manchuria open door.

Mr. Orme spoke as follows: "A short time ago you had a local man address your club and he remarked that it was practically impossible to speak on any subject that was not controversial even the weather. I propose to speak to you today on a subject that is controversial to a large degree, namely 'The Canadian National and Prince Rupert.' My remarks are those of an outsider. In them I am not taking myself so seriously that I am attempting to advise the Canadian National how to run their own business but am merely expressing an outsider's opinion. I wish to say at the outset that my remarks are not prompted by prejudice or a feeling of animosity as I have nothing but a feeling of good-will toward the company. We cannot but pay the highest compliments to the local personnel of the company men and officials for the part they take in the business and social life of this community.

"It is unnecessary to trace the history of Prince Rupert in relation to the company since early days. This you know quite as well as I do. Many things have happened to us that could not be avoided. We did not like them but smiled and bowed to the inevitable owing to the circumstances which brought them about.

**Discrimination**

"I have come to this conclusion that today we are being discriminated against in matters that can be avoided and the various matters that have come up are not to my mind for the benefit of our great system but merely for the benefit of another locality. It is not necessary to go over our arguments. They have been presented by every organization here and the late episode in connection with ship repair is only one case in point. Surely there can be more co-ordination between the railway and steamship companies in a matter of this kind.

"In all fairness to the City of Prince Rupert surely it is time that

Some Lines Are Recording Strong Upward Trend While Seasonal Slackness in Advance of Summer is Less Than Usual in Many

TORONTO, May 2: (Canadian Press)—The beginning of May finds a strong current of optimism in Canadian business. A canvass of the chief industrial centres reveals more activity in many lines than last year. Some industries show a strong upward trend. In other lines that usually taper off towards summer slackness at this time, the let-down is less than seasonal.

Leaders of Chancellor Adolph Hitler's forces said that all heads of trades unions would be taken into custody and that trade unions of the future in Germany would be national and not international in character. The unions involved have 5,500,000 members in Germany.

### BIG QUAKE DESCRIBED

Charles E. Bainter, Formerly of This City, Was Eating Dinner at Long Beach When Shake Came

### Graphic Account

Miracle That Many Thousands Were Not Killed—Letter Gives Idea of Great Damage Wrought

"The Lord was kind to the people here for, had the earthquake occurred at most any other time of the day, thousands would have been killed," declares Charles E. Bainter, former well known insurance man of this city and now a resident of stricken Long Beach in California, in writing a letter to a local friend describing the recent earthquake disaster there.

"We had just sat down to eat our supper," continues Mr. Bainter's letter. "About thirty minutes before the weather had turned almost freezing and a hard wind came up, roaring like a sixty-mile gale in Prince Rupert. Then came a heavy rumbling like low, hard thunder. This was followed by the ground and buildings dancing around like corks tossed on a rough sea. Our large front window crashed, fireplace collapsed, clock, lamps and pictures fell and most every dish as well as fruit cans, jellies and jams came out of the cupboards and smashed on the floor.

"It was almost impossible to keep to one's feet in the house, the floors rolled and tossed so. We just remained seated until the first shake was over and then went outside. The din of sirens and smashing plate glass and falling buildings was terrific for a few seconds. Of course, the sirens kept it up all night. Every plate glass window in town was broken and most every brick building, from one to four storeys, was completely wrecked. The taller buildings of earthquake proof construction stood it pretty well although some of them were badly twisted and cracked. Within twenty minutes the Marines were patrolling the streets and doing relief work.

"The sum of \$75,000,000 seems a conservative estimate for the damage in Long Beach. Some rebuilding is now being done."

### LANDINGS AWAY UP

Halibut Business at Prince Rupert This Year Far Ahead of Last

Although landings for the month of April this year were a little lighter than in the same month last year, halibut landings at the port of Prince Rupert for the 1933 season up to the end of April are placed by waterfront fish handling houses at a total of 4,601,500 pounds as compared with 2,954,500 pounds for the corresponding period last year.

American landings for this year to date are placed at 2,153,000 pounds in comparison to last year's 1,631,500 pounds while the Canadian total has reached 2,447,700 pounds as against 1,323,000 pounds last year.

The four men had been in this country less than five years.

**FUTILITY OF KILLING**

A few misguided persons have thought they could improve conditions by killing the leaders of society as at present established. One of them tried to kill President Roosevelt and slew instead the mayor of Chicago. Another has killed the president of Peru, President McKinley and Abraham Lincoln were victims of crazy illusions.

Some millions of people imagine that they can improve the world by going to war and killing people of other nations. They are just as badly mistaken as are the few who want to kill the rulers. The Great War which was to have settled all outstanding questions simply aroused the fighting spirit of the peoples and today we find greater war preparations than ever before. The war caused much social disturbance and loaded many countries with debt and the people with taxes, in addition to causing untold suffering to men, women and children.

**ELECTION DELAYS**

If Premier Tolmie decides to let his government die a lingering death by sticking to office to the last possible moment, he will have created a precedent in British Columbia. It has been customary for governments to resign before completing their allotted term.

The Premier has promised that he will not bring on the election during the holiday season which probably means that he will delay it until after the holidays. As the life of the legislature expires at the end of August, it now seems probable that the election will take place in the fall in time to get ready for the first session at the beginning of next year.

**Annual Sale For Ridley Home to Be Held Thursday at Moose Hall; Statement of Management Issued**

The annual sale of the Ridley Home is to take place Thursday afternoon at the Moose Hall and, contrary to custom the promoters are making no personal appeals this year but are trusting to the people of the city to support the institution by bringing articles for sale such as fancy work, plain sewing, home cooking, plants and flowers. Money is badly needed for taxes, insurance, repairs to the buildings and equipment. Last year the proceeds of the bazaar did not meet this and it was necessary to draw out of the emergency fund in the savings bank the sum of \$500 of which only \$200 has been replaced. Payments made for the children cover the cost of food, laundry, fuel, light, phone and stationery.

It is confidently expected that the appeal of the Home will meet with a ready response and that there will be a large attendance on Thursday afternoon. For the benefit of those who wish the information, the following is the statement of receipts and expenditures issued by the management:

 From information received by this association, it appears that, at a meeting of fishermen's associations held in Vancouver, a statement was made to the effect that the Northern B. C. **"HAD CONSTIPATION SINCE BIRTH OF MY FIRST CHILD"**

Then Mrs. King Discovered ALL-BRAN

We quote from her voluntary letter:

"I have suffered from terrible constipation since the birth of my first child—9 years ago! I have tried everything and nothing had any lasting results. Very reluctantly I tried your 'ALL-BRAN' with no faith in it at all. Much to my surprise, I have not had to take any medicine since starting to use ALL-BRAN, 4 months ago."—Mrs. Doris Eyre King (address furnished upon request).

Laboratory tests show ALL-BRAN contains two things which overcome constipation: "Bulk" to exercise the intestines; vitamin B to help tone the intestinal tract.

The "bulk" in ALL-BRAN is much like that of leafy vegetables. Inside the body, it forms a soft mass, which gently clears the intestines of wastes.

Certainly this is more natural than taking pills and drugs—often harmful. Two tablespoonfuls daily are usually sufficient. If not relieved this way, see your doctor.

ALL-BRAN also supplies iron for the blood. At all grocers. In the red-and-green package. Made by Kellogg in London, Ontario.

There are three teams entered for Senior League play this year—Canadian Legion, Regiment and Canadian Labor Defence League.

It was decided to issue \$2 season tickets which will cover admission to all trophy competition of the year.

**WOMAN WON ELECTION IN ACTION IS COMING**

Mrs. M. Connally Given Judgment in Nanaimo Against "Perfect Brotherhood" Leader

NANAIMO, May 2—Chief Justice Morrison of the Supreme Court awarded Mrs. Mary Connally judgment in full of her claim against Amiel de Valdes amounting to \$37,600. She was awarded \$26,400 cash and a reconveyance of the De Courcy Islands valued at \$11,200.

Adherents of the Cedar-by-the-Sea colony, known as the Foundation Aquarians, were interested spectators at the trial involving "Brother XII," founder of the sect, and Mrs. Zura Valdes, his wife. They were sued by Mrs. Mary Connally, former wealthy North Carolina society woman, for a return of monies and lands obtained from her through Brother XII's representations in his books and writings, whereby he proposed to build a colony on the Valdes and De Coucey Islands to be known as "The City of Refuge" and also a residence to be known as "Grey-stone."

Amazing revelations were disclosed at the hearing. Members of the Brotherhood testified that they had come under the influence of the books and writings of "Brother XII," and had advanced large sums of money to him. Several had sold all their belongings to join what they believed to be a colony of perfect brotherhood.

The plaintiff told the court of the sums of money which she advanced to De Valdes for the purpose of forming the colony. She told of indignities suffered and the threats of "Brother XII" to report anyone from the colony who was not prepared to obey the law. She stated that she had to work on the land herself and they were all treated like slaves. She claimed that De Valdes had broken his promise and had failed to accomplish any of the things that he proposed to do when he obtained her money.

Dr. L. A. Leblanc, and Hon. W. N. Rehfuss. Mr. Douglas resigned in 1926 to contest Guysboro-Antigonish for the federal house, was elected, and died before taking his seat. Mr. Cahan died in 1928, Mr. Rhodes took a portfolio in the Bennett cabinet in 1930. The others were defeated at the 1928 election.

Scene Changed  
 But the scene changed considerably in ways not shown by a comparison of 1925 and the present. Hon. W. L. Hall was appointed attorney-general to succeed Mr. Douglas and last year was elevated to the Supreme Court bench. Hon. John F. Mahoney took Mr. Walker's natural resources portfolio, and was killed in an accident in 1929.

Two new departments have come into being since 1925 and one has been somewhat altered. The department of health and education came into existence after the victory of Hon. Dr. George H. Murphy at a Halifax by-election in 1930. The department of labor was added this year with the premier taking the ministry and appointing a secretary. Hon. O. P. Goucher followed Douglas, attorney-general; J. C. Mr. Mahoney in the department of natural resources, the name of which was later changed to agricul-

ture. Other members now sitting are Hon. John Doull, who became provincial secretary when Mr. Rhodes went to Ottawa, later taking over the attorney-generalship, on Mr. Hall's elevation; Hon. Albert Parsons, former speaker, and Hon. Joseph MacDonald, both members without portfolio.

Even in the rank and file, the line-up has gone through drastic changes. But 14 of the 40 government supporters who answered the bells in 1926 now sit in the house. The 1928 election, deaths and resignations account for the change. The three Liberals who constituted the sole opposition at the 1928 session are still there. They are William Chisholm, former house leader; Dr. J. L. MacIsaac and D. B. McLeod.

The Armour Salvage Co. is now engaged at the dry dock in removing the 75 h.p. Fairbanks-Morse full diesel engine from the hull of the Livingstone II which the company has taken over following salvage of the vessel from the west coast of Dundas Island where she sank some weeks ago following a stranding. The Livingstone II is being otherwise dismantled. No decision has yet been made as to the disposition to be made of the hull.

## EX-MAYOR ORME URGES PEOPLE TO KEEP UP FIGHT TO SECURE R.Y. COMPANY'S

(Continued from Page 1)

The company gave us some assurance that we will get every help from it. In other words, surely it can outline its policy in regard to work and purchases in this community. I say this because we cannot help feeling that its activities may be further curtailed in this northern port.

"I am sure that the company is making the fullest investigation into the episode of ship repair and will give us justice to the fullest extent. Under those circumstances and with that belief, I feel that this matter can be determined without any extreme action being taken here and we are justified in waiting a reasonable time until there is a statement to our local bodies. After all, extreme measures should not be thought of until all else fails."

T. W. Brown, president of the Gyro Club, presided over the luncheon and conveyed the thanks of members of the club to Mr. Orme for his talk. Alex McRae of this city was a guest.

Fruit-a-tives end years of pain

"I suffered exceedingly with indigestion and sick headaches for years. I could hardly eat anything and was badly constipated. I realize now, of course, that I was in a very run-down condition. Fortunately for me a neighbor recommended 'Fruit-a-tives' and I began taking them. I am certainly glad I did. They regulated my system and toned me up generally so that now I am in the best of health. I would not hesitate to recommend them to anyone."

### Prevention of Gossip Society Being Formed

LONDON, May 2: (CP)—A Society for the Prevention of Gossip is being established by the Rector of

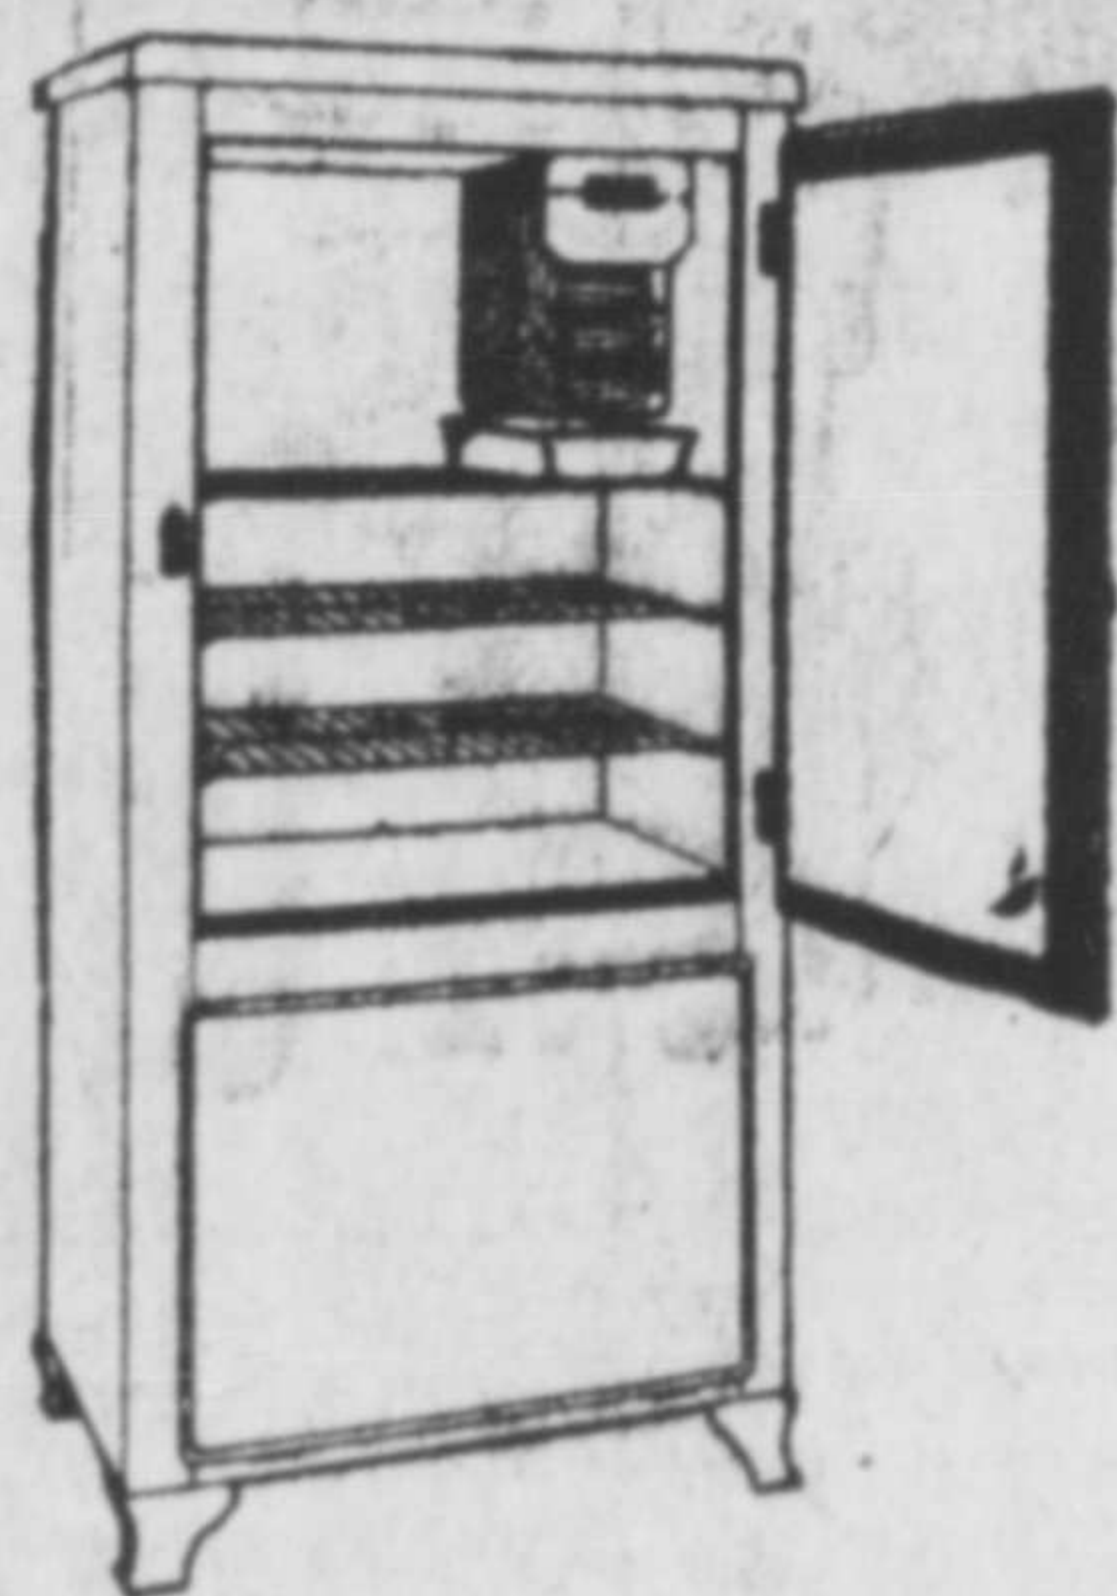

the Village of Beckington, near Bath. Seemingly its operations are to be confined to within the borders of the parish. Presumably what is aimed at is the suppression of gossip that is malicious or slanderous, not the innocent tittle-tattle which justifiably goes with afternoon tea. For the time being the names of the officials of the society are being kept secret. There are those who

assert this will set gossip going all the harder.

Some of the ancient parishes of England still possess the ducking stool, in which women who had been condemned as "scolds" would be soured in the horse-pond. Whether the Beckington anti-gossip society proposes to revive this kind of punishment is not yet revealed.

## MAY DAY OBSERVED

Several Hundred Attended Open Air Gathering Yesterday

### Speakers Heard

Canadian Labor Defence League Session in Evening

The athletic ground on Acropolis Hill was the scene of an open-air meeting yesterday when the Unemployed Councils called a united front gathering of organized labor in celebration of May 1, International Labor Day. An audience of several hundred attended and listened attentively to the speakers.

In his opening remarks, the chairman outlined the objects of May Day from its inception by the American Trades Unions in 1866, when the struggle for the eight-hour day began to the present day, it now being a world-wide institution as a determination of the will of the working class to destroy class distinction through social change.

Charles Chapman, candidate in the local provincial election riding, spoke on the immediate needs of the unemployed in Prince Rupert and the deportation of foreign-born workers by the government as undesirable public charges.

Tom Bradley spoke of the alleged suppression of the workers throughout the world by the capitalists. The authorities of this country were lowering the meagre relief of the unemployed and, at the same time, making substantial additions to the police. He spoke of the policy of the Hitler dictatorship in Germany in suppression of the Jews; the Japanese, aided by the Chinese imperialists, suppressing the Chinese masses and the supposed pact of the European power to attack the Soviet Union.

Ex-Alderman Oscar Larson spoke on May Day and its meaning to the workers and of its growth until now it was internationally recognized.

There was a liberal display of banners bearing slogans, such as "Fight against Fascism," "Down with War," "Demand 25% Increase in Relief," "Against Lay-Offs," "Fight Wage Cuts," etc.

A collection was taken to help defray expenses in the trial of Anyox strikers.

#### Evening Meeting

The meeting in the evening in the C. L. D. L. Hall was well attended. The chairman, Neil Lang, delivered an address dealing with May Day and passed on to present day conditions in general. He remarked that it was doubtful if the World War of 1914-18 had had more ill effects on the workers than the economic war which followed.

J. M. Dunn spoke on the alleged exploitation of labor. Looking back on progress made since last May Day, he affirmed that the Fascist regime in Germany was a disappointment to many but was unavoidable and could only be considered as a final stage in the dissolution of capitalism. There was no indication that this reactionary stage of the one time strong social-

ist and communist movements which existed in Germany was permanent. Proof was to be found in Italy where Fascism has existed for ten or twelve years and yet had solved none of the economic problems of that state. When it was considered that problems of Germany were infinitely greater than those of Italy it could be readily assumed that the present German dictatorship would be of a transitory nature.

Mr. Dunn's address was interrupted by an announcement that the train then leaving town was taking four Finlanders under escort for deportation and the meeting adjourned to the depot to give them a send-off.

"Our statesmen must give up the selfish viewpoint and work for the good of the whole world or we will never get out of our trouble," Lady Astor.
