MINING IS REVIVING

Industry Getting on Sound and Solid Basis, Says Resident Mining Engineer

Stewart Active

Never Was Outlook Better There—Early Resumption at Alice Arm Predicted

Reporting a solid revival of mining activity and interest particularly in the Portland Canal section, Dr. Joseph T. Mandy, resident mining engineer for the northwestern mineral survey district, returned to the city on the Catala this morning after having spent the past week or so inspecting properties in the Alice Arm and Stewart districts. The foundation is being laid, says Dr. Mandy, for a period of real mining in many sections. During the present year there has been much detailed prospecting and development work by prospectors, mining property owners and leasers.

Due to intensive prospecting and detailed development work in the Stewart district by owners and leasers, more ore and better grades have been opened up than at any time previously and the outlook is decidedly healthy with further expansion in the near future assured. There are six producing mines operating at the present time—Premier, Dunwell, Ben Ali, Bayview, United Empire and Spider—and development work is being carried on at the Big Missouri, Unicorn and Georgia River properties. Dr. Mandy, who spent a week examining properties in the upper Kitsault country, expects renewed mining activity in the Alice Arm district before long. Here there is a wonderful field for intensive prospecting and detailed development work. The west side of the Kitsault valley is especially attractive in view of gold values that are known to exist there.

Militia Detachment Sent To Stratford Strike Area

Conflict between strikers, strike-breakers and police in Stratford, Ont., have become so severe that authorities were forced to call out the militia to quell the disturbances. Many were injured in the many pitched battles which occurred at the Swift Canadian plant in Stratford. The above layout shows a detachment of 75 officers and men from the Royal Canadian Regiment of London, Ont., arriving in Stratford, complete with machine guns, barbed wire attachments and four tanks, hitherto unused for any purpose but army movements. The London detachment is in charge of Col. Langford, O.C., shown at right. Another detachment from Toronto is enroute to Stratford.

PASSING OF STATESMAN

Dr. Inazo Nitobe of Japan Dies in Victoria

VICTORIA, Oct. 17: (CP)—Dr. Inazo Nitobe, aged 71, Japanese statesman, died here Sunday night following a month's illness. Death followed an operation earlier in the day involving the opening of the back of the left side and draining of pus from a subphrenic abscess.

Dr. Nitobe had attended the recent Institute of Pacific Relations meetings at Banff and was taken ill here while homeward bound.

Judge Wants To Know Why Blind Candidate Not Allowed to Run

Writ Issued Calling Upon Returning Officer and Three Candidates to Give Reason Why Lillooet Candidate Should Not Be Reinstated

VANCOUVER, Oct. 17: (CP)—Mr. Justice A. I. Fisher yesterday granted an order nisi for a writ of mandamus requiring Returning Officer Alex Ogston and three con-tending candidates in Lillooet to show cause in the Supreme Court on Friday why the name of Major J. C. Hartley, blind mining engineer and ex-service man, should not be reinstated on the ballot sheet for the provincial election. Hartley, who was announced as an independent candidate, was disqualified by the returning officer on nomination day because of alleged technical errors in his papers.

BOMBING OF PLANE

Such a Suggestion in Connection With Tuesday's Crash in Indiana

VALPARAISO, Ind., Oct. 17:—A bomb exploding in mid-air may have been responsible for the crash near Chesterdon, Ind., last Tuesday night of the twin-motored airplane of the United States Air Lines with loss of lives of seven passengers. It is suggested by the authorities. An investigation has suggested this possibility. It is said. It is recalled that the plane in which Knute Rockne, noted football coach, and several other passengers lost their lives two years ago was believed to have been bombed.

Coastguard Cutter In Vicinity Where Good Hope Sank Saturday

Uncertain as to Whether Death List Was Eight or Ten—Names of Those Who Are Believed to Have Perished Announced

SEWARD, Alaska, Oct. 17: (CP)—The coastguard cutter Northland is standing by and searching for possible survivors of the wreck on Saturday of the motorship Good Hope eight miles north of Cape Prince of Wales during a terrific gale. Eight lives are believed lost and possibly ten. The coastguard reported that the body of one of three native girls on board, all bound for Shismaref, had been recovered.

CONDEMNS INFLATION

R. B. Bennett Continues Campaign Against Movement to Tamper With Country's Currency

EDMONTON, Oct. 17:—Continuing his campaign against the proposal for currency inflation in Canada, Premier R. B. Bennett, in speaking publicly here, declared that such countries as Germany and France which had tried inflation would never go back to it. Such a policy would be ruinous in Canada such as it had been in other countries.

"Currency inflation will not solve Canada's financial problems," said Premier Bennett. While his government remained in office, no change would be taken that might prevent Canada from paying its obligations according to the terms of its contracts, the Prime Minister declared.

ELECTION ATTITUDE

Elections are interesting but they are nothing to get excited about. It is immensely important that the right men be elected at a time like this but it can be done in a businesslike way without any heat or excitement or ill-feeling. It should be just as simple a matter as electing officers for a chamber of commerce.

In view of the great importance to the whole province of making the right choice just now, we strongly urge that the whole question be discussed and studied free from all former political bias and ties with a view to serving the province as a whole and Prince Rupert in particular.

Imagine what would happen if T. D. Pattullo were defeated in Prince Rupert and given a majority of followers in the remainder of the province! He would be given a seat elsewhere and we should again find ourselves in the position in which we have been so often.

We have nothing against Mr. Rudderham. He was a good alderman and, under ordinary conditions, might make a good member. Today we have an extraordinary situation and extraordinary means are necessary to bring back prosperity by placing the buying power back in the hands of the people and ridding the province of unemployment and the dole. We must once more set about developing self-respecting citizens. A leader with a definite constructive policy is necessary to bring this about. Pattullo is undoubtedly the strong outstanding man and it is up to Prince Rupert to do its part in rehabilitation by electing him.

ELEVATOR NEAR FULL

Only About Sixty More Cars of Wheat Needed Before Capacity of House is Occupied

Only about sixty carloads of wheat further is now required before the local terminal elevator of the Alberta Wheat Pool will be filled to capacity. It is expected the most of this will be brought in by the regular mixed trains without operating any more special full wheat trains. The recent movement of grain to fill the local house to its 1,250,000 bushel capacity has involved about 1000 or 1100 cars.

There is no word as yet as to when exports may start to be made by ships from the elevator.

AIRSHIP IN CALIFORNIA

Giant United States Navy Dirigible At Sunnyvale After Transcontinental Flight

SUNNYVALE, Cal., Oct. 17.—The United States Navy dirigible Macon has arrived here after a transcontinental flight from Lakehurst, N.J. The distance was approximately 3500 miles which was covered in about sixty hours. The route was by way of Phoenix, Ariz.

On board the Macon are 14 officers, 55 men and three civilians. The giant airship carried enough fuel for 100 hours of flying and a cruising radius of 5000 miles.

The Letter Box

THE ECONOMIC COUNCIL

Editor, Daily News:—

In this age of specialists for everything our legislators are mere lay men picked up at random. Their utter unpreparedness to grapple with the present problems is the principal reason of the sore mess of our public affairs.

The modern state is face to face with problems unknown to past legislators. Hitherto, the business of the state was not to direct the economic affairs of the nation, but merely to register the facts created by private initiative.

The machine age has upset everything. Labor is rapidly displaced. Goods are produced faster than they can be consumed. The system of distribution has failed to function. The state can no longer disregard social welfare. The role is a mere temporary expedient. It is a plain fact that politicians can no longer rule the world. Legislative assemblies must secure expert advice.

The state cannot become a farmer, a miner, a fisherman, a lumberman, a financier, an industrialist, etc., yet, every one can see, that there is a need of a new discipline in the various branches of production in order to adjust it to consumption, and restore the purchasing power of the masses.

The establishment of an economic council will be the first step towards the solution of the crisis, which requires co-operation of the classes, concerted national effort and expert advice. Our government institutions must become industrial-economic and not merely political.

HIGH WINS IN SOCCER

Defeated Borden Street by 5 to 1 Saturday Afternoon

King Edward High School defeated Borden Street School by 5 to 1 in the Junior Football League game on Saturday. The Borden team was handicapped by the absence of its regular goal-keeper. The first half was very evenly contested, both sides combining well and each in turn pressing. Borden defence was good but High School was able to score twice.

In the second half the High School forwards were rather poorly checked and were able to add three more goals. Borden tried hard and was at last rewarded when O'Neill turned in a shot from the line and scored a fine goal for his team. Houston and Irvine scored High School's goals between them.

High School—Blake, Nelson, Ritchie, Yamanaka, Lear, Veitch, McMeekin, Irvine, Houston, Grimble, McGrish.

Borden Street—Monkley, Willis-croft, Dybbavn, O'Neill, Mah, Ormiston, Currie, Barton, Houston, Phillipson, Gulick.
Referee, J. Kelly.

SMALL BOTTLE CONQUERS MOTHER'S COLD AND BANISHES BABY'S COUGH

Here is just another instance amongst thousands that goes to prove there is "nothing like BUCKLEY'S MIXTURE" for coughs, or colds. But we'll let Mrs. Haden, of Todmorden, tell the story herself.

"Recently, I had such a cold I couldn't speak. I got a small bottle of BUCKLEY'S MIXTURE and in a couple of days my cold had disappeared. My 18 months old baby coughed a great deal at night. I gave him a few drops of BUCKLEY'S MIXTURE on sugar. It stopped his cough entirely and now he sleeps the night through."

That is one great feature of Buckley's—you can give it to a baby with the same perfect safety as you can to a grown-up. If you have a cough, cold, flu or bronchitis, get a bottle of this remarkable remedy today—it acts like a flash—a single sip proves it. Buckley's Mixture is sold everywhere. Refuse substitutes.

Shelves Piled High with ... New Leckie Shoes

Our shelves are piled high with a new shipment of Leckie Shoes which were purchased months ago at the low rate for large quantities then prevailing and arrived only this week. They are

Seasonable Boots and Shoes For Men, Fine and Heavy Footwear For Women Misses and Boys

All these are being priced to give us only a small margin of profit. Our customers get the benefit of our good buying.

Owing to the popularity of the Leckie product the factory has been increased in size in order to meet the steadily growing demand. Prince Rupert is one of the markets for the Leckie Shoes and will continue to be as long as the present high standard continues. Let us show you.

A Brief Synopsis of Liberal Policy

HEREWITH is a brief synopsis of policy as laid down by the Liberal Party of British Columbia, in convention held in October, 1932.

Many matters of interest, not specifically set out, will require consideration. The principles enunciated are indicative of the Liberal viewpoint, and are broad enough to meet every question within provincial jurisdiction.

The Liberal Party exists as an official organization for the purpose of formulating and furthering measures that will make for the well-being of each individual member of society, and the welfare of society as a whole.

Innumerable questions, both of public and personal character, can be properly treated only through the agency of government.

Government is not an ordinary business, but carries responsibility to meet every problem arising from our complex social and economic conditions, in order that not merely a few, but all of our people may live in reasonable comfort.

The Liberal Party pledges immediate action under the best available advice and closest study.

T. D. PATTULLO.

August, 1933.

1.—Profitable and permanent **Employment** is the most important question facing our people. There should be co-operation between the national, provincial and municipal authorities and the Canadian banking system to establish the necessary credit to carry out a broad programme of constructive and useful wage-distributing public enterprise, and to further the health, education and well-being of all our people.

An **Economic Council** should be established, the membership of which shall consist of representatives of the various avenues of endeavour, such as health, education, agriculture, labour and the industries. This council will be appointed by the government on recommendation of the interests involved, and will act in an advisory capacity to the government.

Amongst other things the council will study industrial and social effort in the province and suggest means to correlate these efforts. It will familiarize itself with intra, inter-provincial and foreign trade, and will co-operate with the other provinces and the Dominion. It will also study such questions as production and consumption, and the marketing of our products, the number of hours of work per day and days of work per week, the standard of wages and commodity prices. These questions are of national as well as provincial concern, and British Columbia can take the lead in urging co-operation with the other provinces and the Dominion as a whole.

National Unemployment Insurance should be established upon a contributory basis.

2.—Our **Financial** position must be reviewed. Current expenditure must be kept within current revenue. While maintaining the credit of the province, effort must be made to reduce capital charges. We cannot continue to pay exorbitant rates of interest for money.

3.—The **Taxation** structure must be revised with a view to reduction wherever possible, including exemption in the lower scale of wages and salaries.

4.—The health of each of us is important to the whole community, and a measure of **State Health Insurance** should be made effective, not only to preserve health, but to reduce costs both to the average citizen and to industry.

5.—A general and effective review must be made of the **Educational** problem, rejecting any proposed organization that involves a caste system. We must facilitate the intellectual growth of each individual member of society in order to equip him for his daily tasks, and for the enjoyment of such cultural pursuits as may be in keeping with our social customs.

Triangular disagreements between the school boards, municipal councils and the department of education must be adjusted, and our whole system placed upon a sound financial basis.

6.—The financial position of our **Municipalities** is of increasing concern. An equitable adjustment must be made as between the province and the municipalities, and the municipalities placed in a sound financial position.

7.—An effort should be made to settle our **Agricultural Lands** in order that more of our citizens may be self-supporting. Agriculture as a whole must be put upon a sound and profitable basis, and made capable of sustaining and directing itself, in line with all other national, basic industries.

8.—Continuous effort should be put forth to assist industry in **Marketing** its products, in timber, agriculture, fishing, mining and, in fact, every operation where it appears that useful service can be rendered.

9.—Our highways must be kept in good condition, both for the benefit of settlers and the tourist traffic, and expanded as circumstances warrant. In this connection a **Highway Board** should be established to make for continuity of policy and to inspire confidence in impartial treatment.

10.—A **Public Utilities Commission** should be established.

11.—A **National Central Bank** should be established.

12.—Social Services, such as Mothers' Pensions, Old Age Pensions, etc., must be maintained. Abuses of administration should not be allowed, and injustice through mere technicalities should not be permitted.

13.—The **Peace River** must be given access to the Coast.

14.—In order that the utmost **Freedom of Action** by Members of the Legislature may be assured in respect of questions before the House, it is Liberal policy that a government shall be considered to be defeated only upon a straight want-of-confidence motion.

15.—The Dominion Government will be asked to place the Province of British Columbia upon a basis of equality with the other provinces, and to this end request will be made for a Royal Commission to ascertain the extent to which the Province of British Columbia has not been given **Equality of Treatment with the Other Provinces** of the Dominion.

16.—There shall be a permanent **Voters' List** to ensure that all eligible voters are enrolled.

17.—The Leader of the Liberal Party is given a free mandate to choose for his associates in government, men of character, ability and standing, having regard solely to the public interest.

WHIFFLETS From the Waterfront

Union steamer Cardena, Capt. Ernest Georgeson, last Friday afternoon, made one of her earliest arrivals in some time here by reaching port at 2 o'clock instead of in the evenings as is her usual time. This was due to the fact that the vessel had left Vancouver at 2 o'clock Tuesday afternoon instead of 8 p.m. and, with the salmon canning season along the coast nearly finished, she had fewer and shorter calls to make enroute here. The Cardena will resume her 8 p.m. Tuesday departures from Vancouver this week.

Northland Transportation Co.'s motorship Norco arrived in port at 2 o'clock Saturday morning from Ketchikan and, after discharging one carload of frozen fish for transshipment east over the Canadian National Railways, sailed at 4 a.m. for Seattle.

With a light list of passengers, C. P. R. steamer Princess Adelaide, Capt. S. K. Gray, arrived in port at 3:15 Friday afternoon from the south and sailed at 10 p.m. the same evening on her return to Vancouver and waypoints.

Milward Nickerson, manager of F. E. Hunt Ltd., returned to the city on the Princess Louise yesterday afternoon from a brief trip to Juneau on business in connection with a halibut boat which his company has labelled for debt. Mr. reports having seen some real rain at the Alaskan Capital, excelling even the best that Prince Rupert can offer, so it must have been honest-to-goodness precipitation.

Armour Salvage Co.'s power tug Salvage Princess, with Capt. Joe Desmuelles in command, is still away from port engaged in packing chum salmon from the Queen Charlotte Islands to Namu cannery. She may be away a week or so longer, depending on how much longer Namu remains in operation.

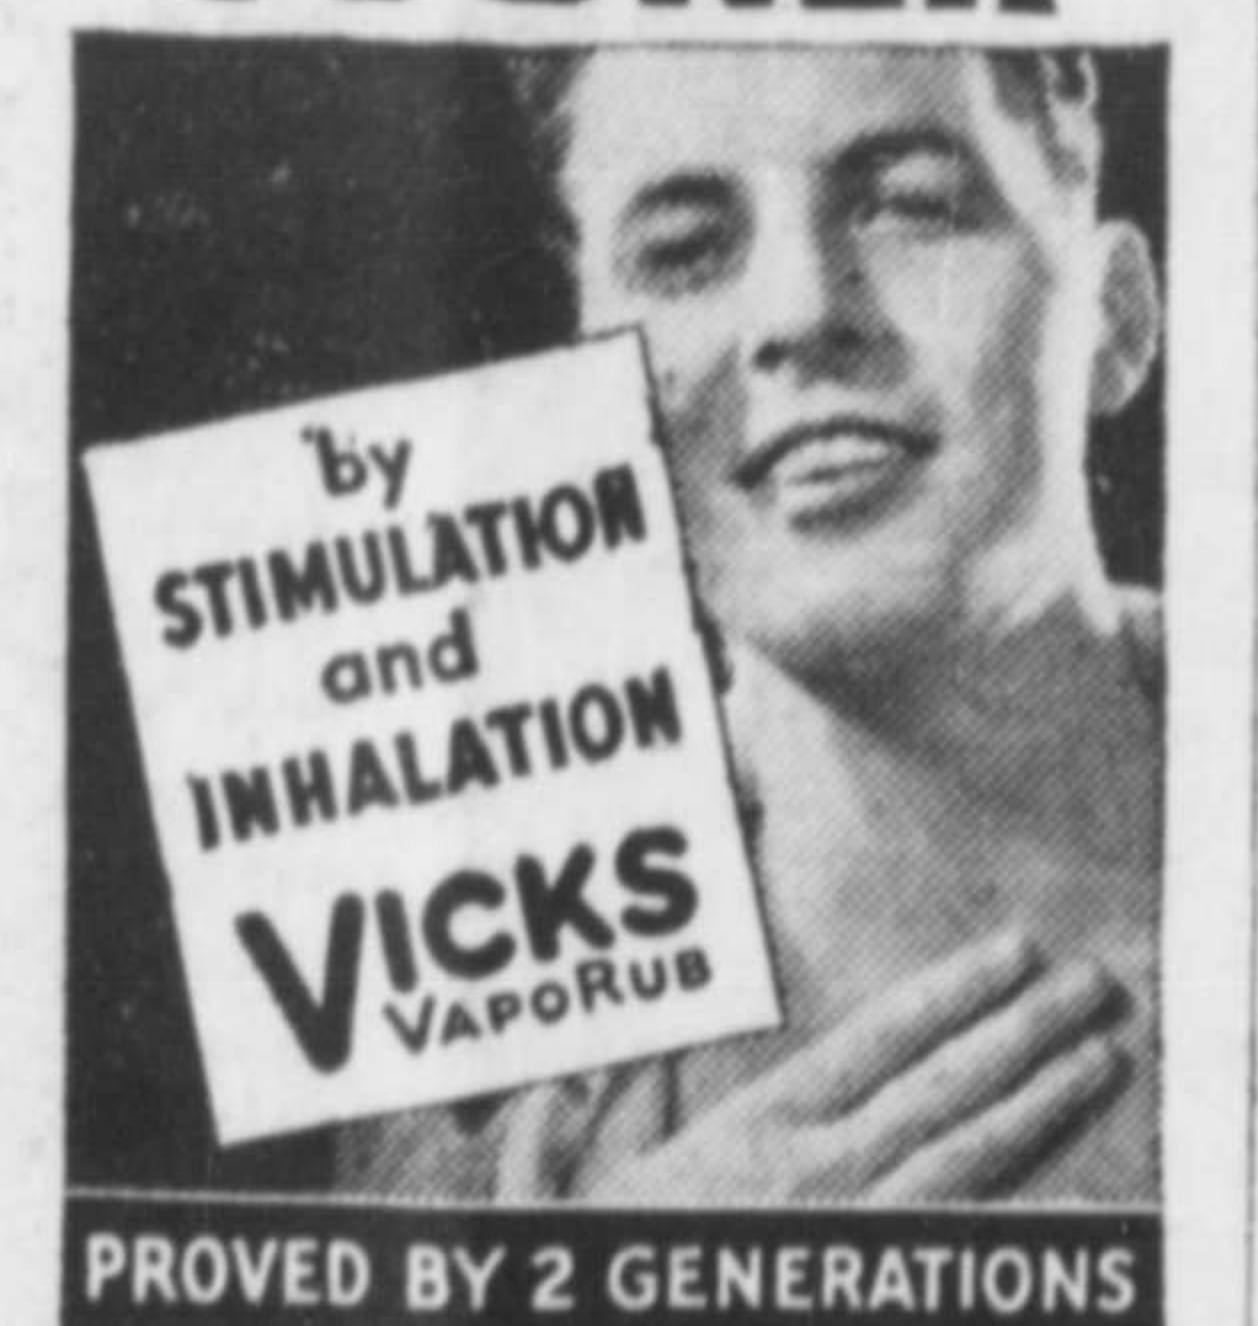

PIONEER IS RICH

British Columbia Gold Mine Produced \$183,000 of Yellow Metal Last Month—Mostly Profit

VANCOUVER, Oct. 17:—The Pioneer Gold mine produced \$183,000 in gold during the month of September of which \$131,000 was net profit, the secretary of the company announces.

Evidence was all taken yesterday afternoon in provincial police court before Stipendiary Magistrate Andrew Thompson in the case in which John Anderson and Andrew Sorenson are charged with being in possession of a gill net belonging to a Japanese fisherman of Inverness and decision was reserved until this afternoon. L. W. Patmore is prosecuting on behalf of the Japanese and R. L. McLennan is appearing as defence counsel.

GREEN IS PRESIDENT

President of American Federation Of Labor Re-elected—Currency Inflation Opposed

WASHINGTON, D.C., Oct. 17:—William Green was unanimously re-elected as president of the American Federation of Labor at the national convention here, suggested opposition to him having failed to develop. Mr. Green has been president of the Federation since the death of the late Samuel Gompers nine years ago.

The convention went on record as being opposed to a policy of currency inflation as working a hardship on the workers. Complete exclusion of Orientals from the country was favored. Certain features of the National Recovery Act were criticized but support generally for President Roosevelt's economic recovery plans was expressed.

Paul Zygmunt of Westholme Rooms Passes on Monday

Following a lengthy illness with cancer, Paul Zygmunt, proprietor of the Westholme Rooms, died yesterday in the Prince Rupert General Hospital. He was 43 years of age and a native of Poland, having resided in Prince Rupert for eight years. A widow, Mrs. Lily Zygmunt, and three children, one girl and two boys, survive, being resident on a farm at Tawatinaw, Alta.

The funeral will take place tomorrow morning with Hayner Bros., undertakers, in charge of arrangements.

SALARIES TOO HIGH

President Roosevelt Would Regulate Pay of Movie Stars—Hollywood Takes Exception

HOLLYWOOD, Oct. 17:—Members of the screen colony have voiced objections at the proposal of President Franklin D. Roosevelt that limitations should be placed on their salaries.

Among some of the salaries which the President stated that he considered too high are: Greta Garbo, \$150,000 per year; Maurice Chevalier, \$150,000; Will Rogers, \$125,000 per picture; Constance Bennett, Ruth Chatterton; Janet Gaynor and William Powell, \$100,000 per year each.
