#### Party System Is Only Practical Government Means Says Pattullo

Independents Could Not Carry on Because Lack of Organization Would Make For Waste and Inefficiency, Declares Liberal Leader

CHILLIWACK, Oct. 6: (CP)—Criticizing both the Co-operative Commonwealth Federation and the Independents, T. D. Pattullo, leader of the Liberal party, addressed a large audience here last night and defended the party system as the only possible means of carrying on responsible government. He ridiculed the C. C. F. for using the name "Associated Clubs" in what he described as an effort to mislead the electors into thinking that it was not a party and declared that the Independents could not take office after the election because of lack of organization among them which would make for waste and inefficiency. The only alternative to the confusion was the return of the Liberal party.

#### SUCCUMBS IN PRISON

John Alexander Machray, K.C. Passes Away on Thursday at Stony Mountain Penitentiary

#### Caused Sensation

Was Main Figure in One of Canada's Most Notorious Financial Scandals Last Year

WINNIPEG, October 6 (Canadian Press)—John Alexander Machray, aged 68, former chairman of the board and bursar of the University of Manitoba, died yesterday at Stony Mountain Penitentiary where he was serving a seven year term of imprisonment for theft of University funds totalling almost \$1,000,000.

Machray was the main figure in one of Canada's most notorious financial scandals. It left in its wake disillusionment in educational circles and a trail of shattered investments. The rapid succession of startling events following sinister rumors late in August, 1932, which led to his imprisonment less than a month later, staggered members of the community where he was a leading citizen, known as a successful lawyer, shrewd investment banker, philanthropist, prominent educationalist and devout church worker.

#### Misused Funds

It was the esteem and confidence in which he was held that permitted Machray, as shown by investigators, to misuse for 25 years funds and securities entrusted to his care. And the institutions with which he was most closely affiliated suffered most severely. Funds of the Church of England diocese of Rupert's Land were depleted while University of Manitoba endowments were cut in half by his firm's \$2,000,000 deficit.

#### CAPT. LOUIS MANN, RETIRED MARINER, DIES IN VANCOUVER

VANCOUVER, October 6 (Canada Press)—Capt. Louis Robert Mann, aged 76, retired sea captain, died here on Thursday.

#### Card of Thanks

Mr. and Mrs. Max Heilbronner and family desire to thank their many friends for the kind expressions of sympathy and floral tributes received during their recent bereavement.

#### VANCOUVER FEELS TWO EARTHQUAKES

VANCOUVER, Oct. 6: (CP)—Two slight earth tremors were felt in Vancouver and Victoria and districts at 6:37 and 6:38 o'clock last evening, shaking houses but doing no damage. The centre of the disturbance was believed to have been in the Gulf of Georgia or Vancouver Island.

#### Interesting Analysis Shows How Greatly School Expense Has Grown Here Over Years

An interesting analysis of school costs over the years from 1910, when the city was incorporated, until 1931 has been prepared by a prominent local business man and property owner. It shows that, whereas the net cost of schools to the city in the year 1911 was \$10,996.35, in 1931 it was \$84,458.96. The sharpest increase in net cost of schools took place from 1920, when it was \$47,868.83, to 1921, when it rose to \$71,633.10. This was as a result of the building of Booth Memorial School. Other years in which there were rather noticeable advances in school costs were 1912-13, when King Edward School was built, 1919-20, due almost entirely to salary increases, and 1929-30 when salaries and general expenses both showed a large increase. The analysis is as follows:

Year	Total Exp.	Salaries	Int. & R.R.	Sundries	Gov. Grant	Fees Coll.	City Cost
1910	\$ 2,598.04	\$ 2,385.00		\$ 213.04	\$ 941.65		\$ 1,656.39

Gordon Mackenzie Loses Flying Licence as Result of Fatal Anderson Lake Crash

OTTAWA, Oct. 6: (CP)—Probe into the plane crash in August in Anderson Lake in the Bridge River district of British Columbia when three persons lost their lives has resulted in the cancellation of the flying licence of Pilot Gordon J. Mackenzie, the Department of National Defence announced. It was found as a result of the inquiry that Mackenzie had been flying later in the evening than "sundown" in contravention of the regulations. C.P.R. steamer Princess Adelaide, Capt. S. K. Gray, is due in port at 5:15 this afternoon from the south and will sail at 10 p.m. on her return to Vancouver and waypoints.

#### City Treasurer States Schools Should Fairly Take Part in Economy

Situation is Somewhat Improved But Municipality is Not Out of Woods Yet—Obligation to Bondholders Stressed by Treasurer

"In connection with the policy of retrenchment in which all departments of the city received heavy cuts it was absolutely necessary that the schools should share," declared City Treasurer D. J. Matheson in addressing the Rotary Club yesterday afternoon on "Civic Finances." John Dybhavn presided. Mr. Matheson said he understood the levy of the fee to the older pupils at the high school was expected to bring in \$5,000. The system had been adopted, he was told, in other municipalities as well as in Prince Rupert.

#### CONVENTION IS CLOSED

American Legionaires Spent Five Million Dollars in Chicago—Miami Next Convention City

CHICAGO, Oct. 6.—The annual convention of the American Legion, which has been in progress here during the week with some 200,000 veterans in attendance from all parts of the country, held its concluding sessions yesterday and the delegates started leaving the city last night for their homes. It is estimated that the visiting legionaires spent some \$5,000,000 in the city during their stay here. Miami, Fla., was selected as the 1934 convention city.

#### STORY NOT BELIEVED

Little Stock Taken in Yarn of Convict That He Knew of Lindbergh Kidnapping Plot

JACKSON, Miss., Oct. 6:—Officials of Mississippi State Penitentiary here took little stock yesterday in the story of one of the convicts that a Scranton, Pa., gang had been responsible for the kidnapping and murder last year of the Lindbergh baby. The convict declared that he had actual knowledge of the plot. His credibility, however, is questioned.

**CATHOLIC ATTITUDE**

The Catholic Church in British Columbia, as exemplified by Archbishop Duke of Vancouver, comes out strongly against socialism, which the prelate designated as "a false system." He does, however, counsel the choice of honest men and the carrying out of measures which would help to change the present unsatisfactory condition.

**UNTRIED MEN**

Some years ago the farmers of Ontario revolted against the conduct of public affairs by one of the old political parties and decided to elect a farmer party. They did so. Their candidates were elected and the machine then formed proved much more expensive than any machine that had preceded them. At the close of the term the people were so disgusted with the inability of the farmer government that they were utterly routed and a period of conservative rule followed.

What was chiefly wrong in Ontario was that the men were untried, inexperienced in public life. They were easily imposed upon. They were apprentices trying to run a big business.

While nobody expects that the people of British Columbia will be so foolish as to elect a group of inexperienced men to conduct the most important business they have, it is quite in order just now to issue a warning against putting men in charge who have had no previous experience and who so far have shown no capability for government. We have seen what happened at Victoria during the past few years. It at any rate should be a lesson to the electors. A strong government under a strong leader who has high ideals and a strong will and who is pledged to carry out definite reforms is needed and we believe that is what the people will choose on election day.

**COUNTRY OF REAL TROUT**

Ex-Ald. R. A. McLeod Returns Home After Spending Summer Engaged in Mining at Vital Creek

"I have done angling in the Old Country and in other parts of Canada but I have never seen such fine trout as there are in the Omineca district," says R. A. McLeod, ex-alderman and well known pioneer of Prince Rupert, who returned to the city this week from Vital Creek where he spent the summer engaged in mining work. Beautiful rainbow trout are so large and so plentiful in that part of the country that sportsmen unhook them carefully and throw them back in the water if they weigh less than twenty pounds. One of the summer resorts at Stuart Lake had a rule that its guests should liberate fish of less than ten pounds. It did not seem right to take fish of less weight and waste them when it was so easy to get the larger ones. Mr. McLeod enjoyed the life at Vital Creek and expects to be returning there next year. He is now home for the winter.

**Hubbell Wins Second Victory For National Leaguers—Weaver Did Well For Senators**

WASHINGTON, D.C., Oct. 6: (CP)—New York Giants made the World Series count three games to one in their favor today by defeating Washington Senators 2 to 1 in a ding-dong eleven inning battle. The game was tied up with a score of one all at the end of the ninth inning. Manager Bill Terry had driven a home run into the deep centre bleachers in the fourth inning for the Giants with none on board. The Senators had scored in the seventh as a result of two hits, netting one run.

In the eleventh three hits netted the Giants the winning tally. Carl Hubbell, who won the first game of the series for the Giants, buried another great game today for the National Leaguers, but had little on Monte Weaver, right hander, who was on the mound for Washington, being relieved in the eleventh when the Giants started their rally by Russell.

The composite score:

	R.	H.	E.
New York	2	11	1
Washington	1	8	0

**TROPHY IS PRESENTED**

Fifty Present at Annual Banquet of Prince Rupert Softball Association Last Night

The first annual banquet of the Prince Rupert Softball Association was held last night in the Commodore Cafe, the feature of the evening's proceedings being the presentation by City Commissioner W. J. Alder of the city championship cup to its winners, the Elks, and the presentation by J. A. Frew of the Canadian National Recreation Association of medals to each member of the champion team. The cup was received by the manager of the Elks' team, Bill Stone, and the medals by Bill Lambie, team captain. Appropriate speeches were made in connection with the presentations and acknowledgements.

William Reid, chairman of the Prince Rupert Softball Association, was in the chair and about fifty persons were present. Mr. Reid gave an address of welcome in opening the proceedings. Other speakers of the evening included William McLeod, who explained why the the Astoria Cup, official championship trophy, had failed to arrive in time for presentation. Chief Petty Officer Instructor Anslow, manager of the Royal Canadian Naval Volunteer Reserve cellar team, was also heard from briefly. During the evening there were vocal solos by Bob James and J. A. Teng.

**Sentinels Win Girls' Softball**

All Stars on Short End of Eight to Five Score Yesterday

In girls' high school softball yesterday Sentinels defeated All Stars 8 to 5. At the end of the first inning the score was tied. In the second the Sentinels gained five runs and they did not allow their opponents any. The All Stars tried hard to prevent any additional scoring but the Sentinels gained two runs at the end of the fourth.

The All Stars were stopped from scoring until the fifth inning when they made four runs. The battery of the Sentinels was exceptionally good for this game.

B. R. Tupper of the Northwest Telephone Co., who has been on a trip north in connection with extensions being made in the radio-telephone service of his company, sailed by the Prince George last night for Ocean Falls after having spent a couple of days in the city.

Mrs. William Campbell and three children of Anyox arrived in the city last evening on the Prince George from the smelter town and will proceed by train tonight to Montreal where they will embark October 13 aboard the steamer Ascania for London, Eng. They will pay a visit to Mrs. Campbell's native home in the Old Country.

Louis Leroux of Seal Cove, who returned on Wednesday from a holiday trip spent in St. Paul and other parts of the United States, had the misfortune while alighting from a bus at Bellingham to sustain a severe bruise on his leg and is now a patient in the Prince Rupert General Hospital. His many friends will wish him a speedy recovery.

Hon. C. D. Macaulay, territorial judge of Alaska, and Mrs. Macaulay, after having spent the summer at Dawson, were passengers aboard the Princess Louise last evening going through to Vancouver. As is their usual custom, they will spend the winter in the south.

Under the auspices of the Canadian Labor Defence League, another enjoyable dance was held last night in the Exchange Block Hall, a good sized crowd being in attendance at the affair. Music was provided by a native orchestra and refreshments were furnished by the ladies.

A meeting of the Women's Auxiliary to the Canadian Legion was held last night at the home of Mrs. Hugh Smith. There were about twenty-five members in attendance, several new ones being welcomed. Routine business had to do with the social work of the Auxiliary, it being decided to hold a bazaar on December 5. Mrs. J. H. Preece, the president, was in the chair.

**OLD MINE MYSTERY**

Spaniards or Russians Believed to Be Responsible For Workings On Islands

**No One Remembers**

Norman Fraser is Present Owner— E. C. Stevens Has Another

SKIDEGATE, Oct. 6.—One of the mysteries in the way of mines on the Queen Charlotte Islands is the property known as the Old Shaft mine which is situated five miles south of Sandspit and is owned by Norman Fraser, well known Prince Rupert mining man, who is at present at Copper Bay, Moresby Island, where he has several claims which have yielded very good assays in gold.

On the Old Shaft mine is a shaft 190 feet deep with a caved in tunnel about 200 feet further up the hill. On the dump of the shaft large spruce trees are today growing.

Even the oldest native has no recollection of who did the work or when the ore was taken out of the shaft. Some people believe it was the work of the Spaniards while others think it may have been the Russians who once owned Alaska. It is at least agreed by all that, whoever did the work, understood mining.

Another old working of which there is no record as to when the work was carried out is a long tunnel driven into the mountainside on a large vein of quartz at the head of Security Harbor on the west coast of Moresby Island, this property being now owned by E. C. Stevens of Skidegate.

**The Road to RECOVERY**

A Statement by the Prime Minister of Canada

**W**ITHIN a few days the Dominion of Canada will offer for public subscription the 1933 Refunding Loan, the purposes and terms of which will be announced in detail by the Minister of Finance on Tuesday, October 10. In this national undertaking an opportunity will be afforded both for sound investment and for public service, and I have no doubts as to the readiness with which Canadian investors will respond.

I feel, however, that the 1933 Loan marks a point in Canadian affairs to which it is only proper that public attention should be drawn as a means of extending justifiable encouragement to many thousands of men and women who have endured adversity with such admirable fortitude.

With due precaution against unwarranted optimism I think I may say that in Canada we are now on the road to recovery. The road may be long and progress may be slow, but the events of the past six months appear to demonstrate with increasing clarity that the downward trend has come to a definite stop and that an upward trend is now in progress.

The evidence of improvement is written in the statistical facts of our industry and trade. These records show that our general economic condition reached its lowest point during the month of February last and that today we are definitely above that level following a recovery which has been gradual but persistent and unmistakable.

The most significant of these figures are probably those dealing with the physical volume of business, wholesale prices and employment, and I give here briefly the record of recovery in each case as shown by the reports of the Dominion Bureau of Statistics.

The index of our physical volume of business, which represents virtually the economic pulse of the nation, stood last February at 67.1. For August, the most recent month for which the index is available, the figure was 89.9, an improvement of approximately 34%.

Wholesale prices, in which even minor changes are highly significant, have risen over 9%, or from an index of 63.6 last February to one of 69.4 in August.

Employment, although still at a regrettably low level, has, nevertheless, been gaining steadily for the past five months. On the basis of partial reports from industrial employers some 116,000 persons have been added to pay-rolls since last April. An estimate by the Bureau on a more comprehensive basis places the total increase in employment at 246,000 during the same period.

Our external trade figures are equally encouraging. Both exports and imports have risen, with the former showing the more rapid increase. As a result, Canada had a favourable trade balance of over \$114,000,000 in the twelve months ended August 31st this year. For the corresponding period last year the favourable balance was only \$38,000,000, and in the two previous twelve months' periods instead of favourable figures we had unfavourable balances of \$45,000,000 and of \$103,000,000 respectively.

All these facts and figures I think we may quite safely take as sign-posts on the road to recovery. In our further progress, no single factor will have more significance than the success of our national loan operations. The recent 4% loan in London was a notable tribute to Canada's credit standing. It was immediately oversubscribed many times and now commands a substantial premium. I feel satisfied that our own people will be quick to perceive that the 1933 Refunding Loan in Canada is at once a challenge and an opportunity—a challenge to aid in the restoration of business recovery and an opportunity to serve thereby their own and their country's best interests.

*R. B. Bennett*  
PRIME MINISTER OF CANADA

**SUCCUMBS IN PRISON**

(Continued from page one)

throughout his career he remained closely associated with the church. He was a member of practically all church committees and for 27 years served as chancellor of the diocese.

Distinguished scholar at University of Manitoba, Machray never lost connection with the institution from which he graduated in 1884 with classical honors and the university silver medal. One of the original governors of the college, he acted for years as honorary bursar and chairman of the board, also as member of finance committee and land board.

Though appointed a King's Counsel in 1912, Machray in his practice was building for himself a more prominent reputation as a keen investment counsellor than a legal authority, particularly concerning

**real estate, from which his firm was reputed to have generously profited during the pre-war boom in Winnipeg.**

**Protested Arrest**

On August 24, 1932 Machray, confined to his bed at home, was arrested and charged with the theft of \$47,531.

Indignantly the old lawyer protested the arrest, denied money had been stolen, assured government representatives shortages would be replaced by loans from friends and business associates. Pale and weak, in penitentiary, Machray told commissioners investigating the losses that collapse of his firm was a surprise to him for he believed the company's assets intact.

Unable to appear in court when first arrested, the invalid prisoner was granted a series of remands to September 22, when he was sentenced by an old associate, Magistrate R. M. Noble, to seven years in penitentiary, after pleading guilty to theft of \$500,000 from the college and \$60,000 from Heber Archibald, a former law partner, Church officials declined to press charges against him.

It was a dramatic scene in the small provincial court which he entered on the arms of his physician and a daughter. He pleaded guilty from a chair at the end of counsel table and for seconds seemed stunned when sentence was pronounced. However, he waived his right to appeal and was taken immediately to Stony Mountain.

Later Machray's shortages were found to be vastly greater.

## LOCAL NEWS

Provincial Constable Hugh McGlinchy of Bella Coola is expected to arrive in the city on the Cardena this evening from Bella Coola, where he has been stationed for the past six months or so, and proceed by train to Prince George where he has been called on account of the serious illness of Mrs. McGlinchy in hospital there. Constable and Mrs. McGlinchy and family resided in Prince Rupert for many years, Constable McGlinchy having been a member of the old city police force here. Many local friends will hope for Mrs. McGlinchy's speedy recovery. In order that the children might attend high school, Mrs. McGlinchy and family did not leave Prince George when Constable McGlinchy was transferred from that district to Bella Coola.

### AUCTION SALE

One year will be allowed for removal of timber. Provided any one unable to attend the auction in person may submit tenders to be opened at the hour of auction and treated as "one bid." Further particulars may be obtained from the Chief Forester, Victoria, B.C., or the District Forester, Prince Rupert, B.C.

## Guide to Correspondents

The Daily News welcomes correspondence on live topics of the day or any other subject of public interest, but letters must be brief and to the point. The long-winded correspondent has no place in modern journalism. Every letter must be signed by the writer, not necessarily for publication but as a matter of good faith and courtesy. All unsigned documents go to the waste paper basket. Letters of a caustic character must have the signature appended for publication. Letters should be written on one side of the paper only. Correspondents must avoid personalities and the language should be such as would be allowed in the ordinary rules of debate.

## A Brief Synopsis of Liberal Policy

HEREWITH is a brief synopsis of policy as laid down by the Liberal Party of British Columbia, in convention held in October, 1932. Many matters of interest, not specifically set out, will require consideration. The principles enunciated are indicative of the Liberal viewpoint, and are broad enough to meet every question within provincial jurisdiction. The Liberal Party exists as an official organization for the purpose of formulating and furthering measures that will make for the well-being of each individual member of society, and the welfare of society as a whole. Innumerable questions, both of public and personal character, can be properly treated only through the agency of government. Government is not an ordinary business, but carries responsibility to meet every problem arising from our complex social and economic conditions, in order that not merely a few, but all of our people may live in reasonable comfort. The Liberal Party pledges immediate action under the best available advice and closest study.

4.—The health of each of us is important to the whole community, and a measure of State Health Insurance should be made effective, not only to preserve health, but to reduce costs both to the average citizen and to industry. 5.—A general and effective review must be made of the Educational problem, rejecting any proposed organization that involves a caste system. We must facilitate the intellectual growth of each individual member of society in order to equip him for his daily tasks, and for the enjoyment of such cultural pursuits as may be in keeping with our social customs. Triangular disagreements between the school boards, municipal councils and the department of education must be adjusted, and our whole system placed upon a sound financial basis. 6.—The financial position of our Municipalities is of increasing concern. An equitable adjustment must be made as between the province and the municipalities, and the municipalities placed in a sound financial position. 7.—An effort should be made to settle our Agricultural Lands in order that more of our citizens may be self-supporting. Agriculture as a whole must be put upon a sound and profitable basis, and made capable of sustaining and directing itself, in line with all other national, basic industries. 8.—Continuous effort should be put forth to assist industry in Marketing its products, in timber, agriculture, fishing, mining and, in fact, every operation where it appears that useful service can be rendered. 9.—Our highways must be kept in good condition. Both for the benefit of settlers and the tourist traffic, and expanded as circumstances warrant. In this connection a Highway Board should be established to make for continuity of policy and to inspire confidence in impartial treatment. 10.—A Public Utilities Commission should be established. 11.—A National Central Bank should be established. 12.—Social Services, such as Mothers' Pensions, Old Age Pensions, etc., must be maintained. Abuses of administration should not be allowed, and injustice through mere technicalities should not be permitted. 13.—The Peace River must be given access to the Coast. 14.—In order that the utmost Freedom of Action by Members of the Legislature may be assured in respect of questions before the House, it is Liberal policy that a government shall be considered to be defeated only upon a straight want-of-confidence motion. 15.—The Dominion Government will be asked to place the Province of British Columbia upon a basis of equality with the other provinces, and to this end request will be made for a Royal Commission to ascertain the extent to which the Province of British Columbia has not been given Equality of Treatment with the Other Provinces of the Dominion. 16.—There shall be a permanent Voters' List to ensure that all eligible voters are enrolled. 17.—The Leader of the Liberal Party is given a free mandate to choose for his associates in government, men of character, ability and standing, having regard solely to the public interest.

T. D. PATTULLO. August, 1933.

1.—Profitable and permanent Employment is the most important question facing our people. There should be co-operation between the national, provincial and municipal authorities and the Canadian banking system to establish the necessary credit to carry out a broad programme of constructive and useful wage-distributing public enterprise, and to further the health, education and well-being of all our people.

An Economic Council should be established, the membership of which shall consist of representatives of the various avenues of endeavour, such as health, education, agriculture, labour and the industries. This council will be appointed by the government on recommendation of the interests involved, and will act in an advisory capacity to the government.

Amongst other things the council will study industrial and social effort in the province and suggest means to correlate these efforts. It will familiarize itself with intra, inter-provincial and foreign trade, and will co-operate with the other provinces and the Dominion. It will also study such questions as production and consumption, and the marketing of our products, the number of hours of work per day and days of work per week, the standard of wages and commodity prices. These questions are of national as well as provincial concern, and British Columbia can take the lead in urging co-operation with the other provinces and the Dominion as a whole.

National Unemployment Insurance should be established upon a contributory basis. 2.—Our Financial position must be reviewed. Current expenditure must be kept within current revenue. While maintaining the credit of the province, effort must be made to reduce capital charges. We cannot continue to pay exorbitant rates of interest for money. 3.—The Taxation Structure must be revised with a view to reduction wherever possible, including exemption in the lower scale of wages and salaries.

### OFF COLOUR? HOW IS YOUR LIVER?

Wake up your Liver Bile —Without Calomel

Your liver's a very small organ, but it especially can put your digestive and eliminative organs out of kilter, by refusing to pour out its daily two pounds of liquid bile into your bowels. You won't completely correct such a condition by taking salts, oil, mineral water, laxative candy or chewing gum, or roughage. When they've moved your bowels they're through—and you need a liver stimulant.

Carter's Little Liver Pills will soon bring back the sunshine into your life. They're purely vegetable. Safe. Sure. Ask for them by name. Refuse substitutes. 25¢ at all drugists.

### LIBRARY IS STILL BUSY

Need of New Books Stressed by Librarian at Meeting of Board This Week

In spite of the fact that no money has been spent this year for new fiction and only a small amount of donated money for non-fiction the book circulation at the public library has held wonderfully well, according to the report of the Librarian, Miss A. D. Cruickshank, made to the Library board at its monthly meeting. For the part of August that the library was open there was an average of 289.3 books taken out and for September the average per day was 216.7.

A number of the books collected in the Gyro drive have been placed on the shelves but a great many more have to be catalogued, this work being done gradually as the books are required.

The Librarian commented on the need of new books and the Board discussed at considerable length the possibility of raising money by popular subscription. It was finally decided to organize a separate committee of ladies to undertake the work among those who use the library or are particularly interested in its progress. Miss Cruickshank was delegated to enlist the support of the ladies.

Those present at the meeting were Chairman George Wilkinson, Secretary Thomas Black, Frank Dibb, Harry Breen, Victor Bassobert, Commissioner Alder, H. F. Pullen and Miss Cruickshank.

## LION MAN ON SCREEN

Buster Crabbe Makes Talking Picture Debut in "King of the Jungle"

Buster Crabbe, world champion swimmer, makes his screen debut in "King of the Jungle," wild animal thrill-romance, which comes to the Capitol Theatre here this week-end. Dark-eyed Frances Dee plays opposite him in the principal feminine role.

"King of the Jungle" centres around the Lion Man, a youth raised in the jungle among lions, who is ultimately captured and brought to this country to use his understanding of leonine temperament as a headliner in a circus. His romance with Miss Dee, a school teacher, who understands and sympathizes with him, runs throughout the picture.

The film reaches its climax in a circus fire when the wild animals break loose from their cages and pour into the streets of a large city, spreading carnage and ruin. In a series of exciting, spectacular and dramatic events, the Lion Man finally quietens the raging beasts and restores them to their cages. He then returns to the jungle as a game warden with Miss Dee as his wife.

Other prominent members of the cast include Irving Pichel, Sidney Toier and Douglas Dumbrille.

## Terrace Pastor Describes His African Work

TERRACE, Oct. 6.—Rev. W. R. Welch gave an interesting address last Friday night in the United Church to a crowded gathering, the subject being his experiences in Africa. He was working in the Congo region, and at times, those experiences were, to say the least, embarrassing. At one time he found himself in possession of two wives. Besides his own legal "better half" he had taken, through a queer trick of local custom, until himself a not very beautiful native widow. Fortunately a black man soon came and took her away.

## WHIFFLETS From the Waterfront

The Olympia gasoline yacht Leota, having on board its owner, Albert F. Bixby, and his wife and family, is in port, moored at the floats of the Prince Rupert Rowing & Yacht Club. After having spent a couple of years in the south on account of Mrs. Bixby's illness, they are on their way to Juneau where they will resume residence. Mr. Bixby being interested in mining there. They put in here yesterday afternoon on account of engine trouble and will continue their voyage north as soon as repairs are effected. On the way up the coast, a call was made at Nanaimo.

Totals 10,876,368 9,335,541

### Forest Products

Products of poles, pilings, etc. in the interior showed a gain this September over last, totalling 53,834 lineal feet, of which 38,875 lineal feet was cedar and 14,959 lineal feet hemlock, as against an aggregate of 43,145 lineal feet in the same month last year.

Hewn ties this September amounted to 31,554 pieces, all in jackpine, whereas last September none were counted.

Cordwood for this September totalled 151 cords as against 417 cords last year.

## TO ADVISE ABOUT MILL

Well Known Consulting Mining Engineer Due Here Today Enroute to Queen Charlottes

Charles C. Starr, well known consulting mining engineer of Nelson, expected to arrive in the city on the Princess Adelaide this afternoon from the south and proceed tonight on the Prince John to the Queen Charlotte Islands to make an inspection of the Prince Rupert group of claims at Kootenay Harbor with a view to advising the Hydah Gold Mines Ltd. as to the type and size of mill which should be installed on that property for the treatment of its gold ore.

Work of opening up the ore on the Prince Rupert group has been in progress for some months and is proceeding with eminently satisfactory results, some rich new discoveries having been made recently.

On Thanksgiving Day, October 9, the post office wickets will be closed all day. The public lobby will be open from 8 a.m. to 6 p.m.

## Simple Rules prevent INDIGESTION

Eat in moderation; work and sleep with windows open; take daily exercise in the fresh air, not forgetting recreation. Do not worry. Go to bed in decent time, and enjoy a sparkling glass of Andrews Liver Salt once or twice each week.

These simple, sensible rules should keep you free from indigestion and the headache and body weariness that go hand in hand with the disorder. They will help you to become really healthy and stay healthy, for this very natural reason.

Even though you may be regular in your habits, you may be the unconscious victim of incomplete elimination. Thousands of people suffer from periodic headaches and digestive trouble because they do not realize that regularly alone does not indicate complete functioning of the eliminative organs.

The Andrews Health Rules do assure this complete functioning. Follow them faithfully. Go to bed early to-night after a refreshing, sparkling glass of Andrews Liver Salt or take your Andrews first thing in the morning. Then bid goodbye to recurring indigestion, headaches, and body weariness, for Andrews helps Nature to purify and invigorate the whole system. All druggists sell Andrews—35c and 50c in tin—75c for the new, large bottle. Sole Agents: John A. Huston Co., Ltd., Toronto.

"When all else failed Eagle Brand pulled her through!"

MRS. J. MOONEY, 222 East Eighth St., Hamilton, Ont., writes: "Just before my baby was three months old I found I could not satisfactorily nurse her. For almost two months I tried various milks but none agreed with her. I read different times about Eagle Brand, so I decided to use it. A week showed a difference. Barbara became contented, would go to sleep after her feeding without any fuss and no vomiting. Now at 7 months she is just average weight, bright, active, and so contented, which means so much to a busy mother of four active children."

If you are unable to nurse your own baby, follow the advice of hundreds of thousands of mothers and try Eagle Brand. The coupon below will bring you full informative literature.
