GREAT FIRES FOLLOW HEAT WAVE IN THE EAST

GREAT DISTRICT IN ONTARIO SWEEPED BY BUSH FIRES

OLD QUEBEC TURNED OUT TO HONOR SIR WILFRID

Civic Reception Was Held in His Honor Yesterday—The Premier Made a Magnificent Speech in Reply—Capital City Will Also Give a Civic Welcome to the Premier

(Canadian Press Despatch)
Quebec, July 12.—Following the example of Montreal, the ancient city of Quebec last night accorded a reception to Sir Wilfrid Laurier, Premier of Canada. In response to the toast of his health, proposed by the Mayor, Sir Wilfrid delivered an inspiring address.
Ottawa Will Celebrate
This morning Sir Wilfrid left for Ottawa, where on Thursday, the Ottawa City Council will also tender him a complimentary reception and welcome home.
Banquet at Night
Last night at the Chateau Frontenac a great banquet was held

Little Town of Cochrane, at Junction of the G. T. P. and T. and N. O. Railways is Completely Destroyed—Every Mining Camp from Dome to Whitney is in Ruins—Feared That Many Settlers and Miners are Lost—Death Toll from Porcupine is Seven—Two Towns are on Fire in Michigan—\$40,000 Blaze at Port Moody Saw Mills.

(Canadian Press Despatch)
Cobalt, July 12.—The town of Cochrane was entirely wiped out by fire which visited this place last night. Practically every building in town is destroyed, including two banks, the railway station and the various stores. A scene of desolation and ruin is on every hand.
A Chain of Burned Towns
The fate of Cochrane has been shared in by almost every mining camp and town along the Temiskaming and Ontario right of way. South Porcupine, Pottsville, and every mining camp from Dome to Whitney is now a heap of smoldering ruins. From North Bay onward for a distance of three hundred miles, the countryside has been burned over, and prospectors and settlers are in a desperate plight.
Started with Bush Fire
The fire started with a bush fire north of North Bay. After the intense heat and dryness of the past month, the bush became like a piece of tinder. It is probable that a spark from an engine smoldered for some time and then started the blaze. Once it started there was no stopping it. Before its rapid march everyone had to flee to the lakes.
Seven Deaths Reported
In their haste to escape from the awful flames, four miners, all foreigners are known to have been drowned at Porcupine, while three others who tarried were burned to death. How many of the settlers and prospectors have perished may never be known. The country is heavily timbered, and a fire once started in a dry season cannot be overtaken. The timber loss will be enormous.
Blow to Cochrane
The blow sustained by the town of Cochrane is a hard one. Situated in the great northern Ontario clay belt, at the junction of the Grand Trunk Pacific and the Temiskaming and Northern Ontario Railway, the little town was the headquarters for the northern settlers. Its future was bright. It had a pushing Board of Trade and many manufacturers had recently located there. A large number of young families had located there, and its school was one of the features of the town. The place was named in honor of Hon. Frank Cochrane, Minister of Mines for the Ontario Government.
Fire at Port Moody
Vancouver, July 12.—A serious fire broke out at the Emerson saw mill at Port Moody yesterday afternoon, destroying the kiln and valuable lumber and an adjoining boarding house. At one time the flames were so bad that it was feared that the town would be doomed to destruction. The loss has been appraised at \$40,000.
Michigan Towns on Fire
Bay City, Michigan, July 12.—A fearful fire is reported to be raging seventy-six miles north of here, by which the town of Oscoda is in ruins, completely destroyed by fire. The eighteen hundred inhabitants are homeless and without food. Everything they had was lost in the fire, and it is rumored that several lives were lost.
The flames have now spread to Au Sable, a larger town across the river. Like Oscoda it has little provision for fighting the flames, and it is feared that the place is doomed to follow the fate of its sister town. Help is being rushed in along the railway in an effort to save the place from total destruction.

WERE FOULY MURDERED ON THEIR BRIDAL BED

Young Archie Coble and his Seventeen Year Old Bride Were the Victims of Some Insanely Jealous Monster—Found With Their Heads Smashed in by an Axe

(Canadian Press Despatch)
Tacoma, July 12.—One of the most brutal and mystifying murders in the annals of the state of Washington came to light this morning when the dead bodies of Archie Coble and his young bride Nettie were found, horribly mutilated in their bridal bed. The only explanation that can be given is that it is the work of some person insanely jealous of the young couple's happiness.
Murdered in Night
Young Coble was only twenty-five years of age, and his girl-wife but seventeen. They had been married yesterday, and had gone to their little home at Rainier, thirty miles from Tacoma. When visitors called this morning to offer their congratulations, they received no response. At last some of their friends went into the cottage to see what was the matter. To their horror they saw the young couple in their bed with their heads smashed in.
Left Bloody Axe
A heavy double bitted axe, smeared with blood, and been left by the murderer. It bore mute testimony to the manner in which the murder had been carried out. The neighborhood is greatly excited over the tragedy and the police are at work on the theory that the murder has been carried out by someone insanely jealous of the young couple.

VALUABLE VESSEL'S CARGO

hundred and Fifty Thousand Dollars' Worth of Ambergris off These Coasts This Month.

Valuing on these coasts looks a profitable venture. The day the Canadian Northern Fisheries Company's freighter, Captain Shadforth, south a very rich cargo, consisting of a considerable amount of ambergris, which was found on a sperm whale taken by one of the whaling steamers, and which is worth about \$150,000.
According to the officers on the whaling steamers on the west coast are now busily engaged in hauling the salmon for shipment. At the Uchucklesit canneries the output so far is \$1,500 and if the run of salmon continues as good as it is at present the west coast canners will reap the harvest at the close of the season.
The "Tall Timbers"
Hundreds are leaving for the coast now. If you are one of them make sure of dry feet and a good Scott, Froud & Co. have splendid lines of boots made especially for wet and use.

POACHERS AFTER THE SALMON

Steamer Phoenix Arrives at Victoria with News of Fish Pirates' Exploits.

(Canadian Press Despatch)
Victoria, July 12.—The steamer tug Phoenix has just arrived from Finlay, Durham and Brodies with news that a number of fish pirates are actively engaged in a raid on the salmon traps at the Gordon River. The pirates tied up the steamer and lifted a large number of fish from the traps.

C.N.R. ANNOUNCE A SETTLEMENT

Winnipeg Machinists Will Now Get Forty-five Cents an Hour and a Fifty Hour Week.

Winnipeg, July 12.—A settlement of the labor trouble between the C. N. R. and its machinists was announced here today. Under the new agreement the company will increase the wage from forty-two and a half to forty-five cents per hour for a fifty hour week. Twelve hundred men will benefit by the increase.
For rent after July 31st, basement in Helgerson Block now occupied by William Grant. Apply O. M. Helgerson, Ltd.

CONTRACTORS MUST NOT USE CITY PLANT

Through City Solicitor Peters Supt. of Works MacNeil, and Magistrate Carss a very severe warning is issued to all contractors to differentiate carefully between their own plant and that of the public works department which may be left near their contracts. Supt. of Works MacNeil states that all city rails bear a private mark.
Case Today
Before Magistrate Carss this morning S. H. Watson appeared in connection with the matter of the steel rails missed from city stock by the Superintendent of Works, and traced to Watson's contract. The rails were marked and so recognised. Fish plates and spikes were also included in the material appropriated.
The sum and substance of the case was given by City Solicitor Peters who said that the investigation of the Superintendent of Works left no doubt as to the identity of the rails, etc., City Solicitor Peters stated that Mr. Watson had explained the matter, admitting without dispute that he had taken the rails without authority knowing them to be city property. Mr. Watson, however, had thought that as he was engaged on a city contract he might take the rails and use them temporarily, paying if necessary for the use of them or purchasing them outright.
Injudicious Action
Mr. Watson saw now that his action had been a most injudicious one. He was prepared to admit himself wrong, pay any expenses necessary, and be more careful in future. On these considerations the case was allowed to drop.

WORKMAN KILLED AT GOVERNMENT WHARF

J. Stussi Fell From a Crane a Distance of Thirty Feet and Never Recovered Consciousness—Was Employed by Westholme Lumber Company

J. Stussi, an employee of the Westholme Lumber Co., died at the general hospital at 12.30 today from injuries received at his work this morning. Deceased was engaged at or on a crane at the wharf at the Westholme Co.'s yards, and the first accounts of the accident are to the effect that Stussi was engaged on the crane and fell from it to the ground.
Legs and Ribs Broken
That he was seriously hurt was realised at once, and he was rushed to the hospital where Dr. Kergin did everything possible to save his life. Within an hour of his arrival in the ward, however, Stussi was dead. The Westholme Lumber Co.'s Office at noon stated in reply to enquiries as to how the accident happened that they did not know. Enquiry of the hospital five minutes later elicited the fact that the man had been dead fifteen minutes. The accident happened a little after eleven o'clock.
How Accident Happened
Investigation shows that the unfortunate man was up in the air thirty feet on the pile placing crane at the time of the accident. He lost his balance and fell to the ground, striking a pile of lumber with great force. His injuries included a broken thigh, a broken hip, and internal injuries. He was unconscious when picked up, and died without regaining consciousness. He was rushed into the hospital, arriving there within five minutes of the accident.
New Stretcher Used
Only a day or two ago Managing Secretary Wright of the General Hospital had placed one of the new stretchers at the Westholme Lumber Co.'s premises, and no time was lost in having the injured man conveyed with a fair degree of comfort to the hospital. The Pony Express car was used as an ambulance.
It may be your turn next. It matters not how up-to-date and efficient the fire fighting apparatus is, if you are not insured you are not fully protected as much as is humanly possible. See the Mack Realty & Insurance Co. Their Policies stand for the promptest possible settlement of claim.

SIX PERISH IN TRAIN WRECK

Collision on Oregon Trunk Line Near Dalles Kills Several

(Canadian Press Despatch)
Dalles, Oregon, July 12.—So far six fatalities have marked the death list of the wreck on the Harriman Oregon Trunk Line last night. Other deaths are feared among those who are seriously injured.

THE TWELFTH IN TORONTO

Orange Lodges Celebrated the Day With Procession Talk-fest and a Picnic.

(Canadian Press Despatch)
Toronto, July 12.—Great celebrations were carried out in honor of the day by the Orangemen of this city. All the Provincial Grand Masters were present, and a gigantic parade through the principal streets was held. It is estimated that over seven thousand Orangemen, most of them in fancy uniforms took part. There were a large number of bands, mounted men, carriages and decorated floats in the procession.
The procession finished up in front of the Parliament buildings where speeches were undigled in. Among the principal speakers were Dr. Sprouls, Mayor Geary and Controller Hocken. This afternoon a gigantic picnic and sports will be held at Exhibition Park.

THE LAST ROLL CALL

British Army Veteran Drops Dead on a Seattle Street
Seattle, July 12.—George Wilkinson, a veteran of the British Army who has lived for some time in Seattle, dropped down dead on the street here today.

TERRIBLE WINDSTORM VISITS HAMILTON, ONT.

The Roof Off the General Hospital, Demolished a Wing of the Boy's Home, Wrecked Athletic Club's Grand Stand and Killed a Man Named H. Garfield

(Canadian Press Despatch)
Hamilton, July 12.—A terrific storm accompanied by lightning visited here last night with disastrous consequences. Coming from the mountains by Burlington the storm unroofed the Hospital, blew down the grand stand of the Athletic field, and destroyed a large number of plate windows in the city.
Wrecked Boys' Home
The gale completely wrecked a wing of the Boys' Home. It threw the electric and telephone wires, and the death of a man named H. Garfield, who was electrocuted by a live wire which the gale blew down upon him.
Patients Alarmed
A panic was narrowly averted in the hospital among the patients, who feared when the roof was blown down that the building would collapse and kill them. Fortunately the crowds had left the athletic field before the gale arrived, or a great loss of life would have occurred.
Look out for the special films that will be shown at the Phoenix Theatre next Wednesday. Good vaudeville and pictures tonight.

DOUKHOBORS AT NELSON ARE IN TROUBLE AGAIN

This Time They Have Conscientious Objection to Giving the Census Enumerator Any Information—Are Probably Afraid it is a Scheme to Give Them Military Service

(Canadian Press Despatch)
Nelson, July 12.—The troubles which the authorities on the prairies had with the Doukhobors is likely to be repeated here over the taking of the census. A strong colony of them exists on the lower Arrow Lake, where they are engaged in the fruit and jam industry.
Will Not Tell Anything
When the census enumerators called to take the census, they were met with a sullen, obstinate refusal to give any information, or even allow the colony to be numbered. Reason and argument have proved of no avail, so the enumerators have returned to procure a strong body of men to enforce the law in the colony and make the men give the required information.
Will Arrest Them
It is reported that the Doukhobors number over one thousand. Preparations are being made to arrest and imprison all who refuse information. It is supposed that the reluctance to speak is not so much a conscientious objection to tell their business as a fear that the authorities are numbering them in order to select some for military service.

"The newspaper, with the law, should assume the accused innocent until proven guilty; should be the friend, not the enemy of the general public; the defender, not the invader of private life and the assailant of personal character. It should be, as it were, a keeper of the public conscience."—Henry Watterson.

DAILY EDITION.

WEDNESDAY, JULY 12

CANADA'S WELCOME TO SIR WILFRID

The princely reception accorded Sir Wilfrid Laurier at Montreal on Monday, after his return from Great Britain, was a well deserved one. There is little a country can do to express its appreciation of a great man's services. Even an illuminated St. Lawrence, and decorated streets, flattering though they may be to the natural vanity of most men, mean little as pageantry to one whose years have been spent in public life and public ceremony. As compared with the gorgeous pageantry of Empire the Premier had witnessed and taken part in at London, it is quite possible that the Montreal affair looked rather shabby-genteel. It would be only the sincerity that lay behind this dumb way of showing appreciation to a national leader, that would appeal to Sir Wilfrid's heart. For the Montreal welcome, was fortified by the gratitude and admiration of the whole Dominion.

Sir Wilfrid Laurier's work for Canada has been a great one, requiring in exceptional degree rare qualities of intellect and spirit. Above all it required a rich display of that talent of talents—tact. With two races in the Dominion, speaking different tongues, and with different national ideals, Sir Wilfrid has stood between them, holding each by the hand, enjoying the confidence of each, and leading each to understand the other better. It is one of the highest tributes to Sir Wilfrid, that the British-Canadian finds it hard to think of him as being a French-Canadian.

The service that Sir Wilfrid Laurier has rendered the people of Canada in bringing the two races together, is one that cannot be estimated by any of our standards of measurement. All we can say is that had he not been at the helm of Canada during the past fifteen years—it is fifteen years ago yesterday since he came to power—the history of Canada might have been vastly different.

And the work which Sir Wilfrid Laurier has performed in fusing the two races of Canada together, has been duplicated by him in his work of consolidating the Imperial sentiment, and binding Canada more closely to the Motherland. It was his act in despatching British troops to South Africa that galvanized the Imperial spirit into life ten years ago; it was his magnetic personality and eloquent voice more than any other that dominated the deliberations of the recent Imperial Conference of Premiers.

In returning to Canada to the sweltering heat of Parliament Hill in July, it is to continue the work of cementing the nations. This time it is to establish the strongest bonds of peace—commercial bonds—with the great nation to the south of our international boundary. That Canada will, if called on, endorse the great prosperity-making and peace-ensuring project of her great Premier, is beyond question. The Canadian people are behind their great leader in his work of bringing peace and prosperity to Canada.

JOTTINGS

The Poet Sabine is dead, this is the sad news that comes from Toronto. While he lived, the Poet Sabine, ensured that no political meeting in the Queen City was dull. As a poet he was worse than Austin, but his eager personality, his ludicrous interjections, and his heckling in rhyme were features of every political campaign.

A pleasing incident is recorded from Peterboro. As Dr. John Clifford, the British Baptist laid the corner stone of the new Murray Street Baptist Church, the chimes from St. John's Anglican church rang out, "The Church's One Foundation." "I accept it as a prophecy of the union of all the churches in the time to come," said the preacher.

The opponents of reciprocity are getting hard up for arguments. At Mr. R. L. Borden's meeting at Lacombe, the organisers had a Mormon from Utah on hand to utter a cryptic message against reciprocity. The press reports add "The Mormon farmer was not taken seriously by the audience, and his pronouncement and demeanor did not bear evidence of any large amount of sanity." The fact remains, however, that in the opinion of the promoters of the meeting, the cryptic one from Utah was considered competent to lead them.

THE EVENING CORSET

Very Comfortable Yet Preserves
a Pretty Contour

New evening corsets that fit and include the figure like an armor are said to be extremely comfortable. Made of silk-woven jersey cloth as pliable as a glove, and as strong as satin, they are cut very low above the belt. Aside from the front steel and the support for the back lacing, they are practically boneless; only one bone is placed at each side, over the hips. The corset lengthens to the knees shaping into a leg, open on the inside; an elastic strap set half-way between thigh and knee holds it about the leg; the lacing bones reach to the lower edge, curving with the body. This corset aims to preserve the slender silhouette, nothing being worn over it except the trifle of lace and ribbon that serves for a cache-corset. Instead of the usual narrow colored ribbons used for service, and in the adornment of this garment, wide ribbons are worn, banding it and drawing it into the shemec of decoration of the soft, transparent corsage.

= THE COSY CORNER =

DEVOTED PRINCIPALLY TO THE INTERESTS OF WOMEN

This is a little section of the paper, which from day to day will be devoted to subjects of special interest to women. Any and all of the ladies of Prince Rupert are invited to contribute to its columns, and to take part in its discussions. Suggestions and criticisms are invited by the editor. The hope is expressed that "The Cosy Corner" will fill a social need.

GRACEFUL SUMMER HAT

The smart chapeau shown in the sketch is of navy blue straw, trimmed with a shaded blue and white feather, and is designed to be worn with a toilet of navy blue voile veiled with ruby red chiffon, edged with gold and blue fringe.

NEED NOT GROW OLD

Not Only is It Unnecessary but Also Unfashionable

"Careful studies and measurements have shown that our time of actual maturity and arrest of growth in physical character, such as height, weight and chest girth, is much later than formerly supposed. Instead of reaching, as was at one time confidently stated, our full height at 18, our full strength at 23, and our full chest girth at 25, as a matter of fact we continue to increase slowly, it is true, in all these respects, until 35, 38 and even 40 years of age.

"By living a healthful, active, happy life and keeping up all our interests, we can grow and develop and adjust ourselves and feel that we are growing until we are one day suddenly dead, without ever realizing in any distressing or painful way that we are growing old at all.

"Already old age has gone out of fashion. The civilized, educated man or woman of seventy is younger than the savage of forty or the peasant of fifty. What with steady spread of regular vacations and country or suburban homes and walking clubs and golf and gardens and automobiles and travel of all sorts, those who would have been considered old once are now only seventy or seventy-five years young.

"Not only is there no definite period in adult life or later life when these so-called senile changes begin, but there is no period at which they become accelerated or start to progress at a more rapid rate than before. In fact, the extraordinary paradox exists, that what we term old age is the time of life in which we are growing old least rapidly. The only thing that makes it appear otherwise is that we have been steadily growing old all our lives long and the thousand imperceptible accumulations have mounted to a

pitch which we can recognize."—Hampton's.

HAREM SKIRT CAUSES DEATH

Lover Shoots Woman Dead for Wearing It on the Street

A trouser skirt caused a terrible tragedy at Bucharest the other day.

A pretty young girl named Vassilix Monroi appeared in the street wearing the much-decried garment. It was her first venture and she did it in a spirit of defiance after a heated discussion on the subject with Ignal Jovanescu, her fiancé.

Unfortunately for the girl, she met the young man, and when he beheld her he was so overcome with rage and indignation that he shot her through the head.

The murderer, who was arrested, declared that he did not regret his deed, as he could never have married a woman who deliberately opposed him, while, on the other hand, to live without his sweetheart was impossible. He hopes to be sentenced to death.

ITEMS OF SPORT

The destruction of the Hamilton Jockey Club's fine grand stand by fire will not interfere with the club's August meeting scheduled for August 12 to 19. None of the other buildings were damaged and a temporary stand will be ready by the appointed time. This will be replaced for next season by a larger and finer structure than the old one.

Although the Gittins bills, designed to make less stringent the anti-race track gambling laws, are pending in the Legislature, hundreds of telegrams have been received by Governor Dix during the last few days urging him to approve the measure. The bills are in a position in the Senate where they can be taken up for consideration at any time.

The troubles which have been going on in the Royals management came to a climax when, after the team's defeat a crowd of about three hundred fans followed the Montreal manager off the field, making a hostile demonstration with hoots and yells, but doing no actual violence. McCafferty's management has been much criticized almost since the opening of the season, and the criticisms have grown as the season advanced. In fact, so severe were the newspaper remarks that recently President Lichtenstein wrote the official scorer, who is a baseball reporter, demanding that he either cease criticizing or resign as scorer. By the next day the scorer's resignation was in Lichtenstein's hands, while all passes issued to members of the newspaper's staff were turned in with an intimation that nothing of that sort could be regarded as a bribe to cover up deficient work by the management.

Of the performance of all athletes at the Winnipeg Scottish Sports that of John McEachern of the Y. M. C. A. stood out above all others. He was a competitor only in the field events, and won throwing the hammer, putting the shot and throwing the weight, and was second at tossing the caber. In throwing the weight he established a new mark for Manitoba, when he threw the missile 33 feet 1 inch, beating the previous best of Duncan Gillismade in the Canadian champion-ship in Winnipeg two years ago. He won the individual championship, taking the Hotelkeepers' championship cup.

The swimming championships of the British Empire were decided at the Crystal Palace, in connection with the Festival of Empire sports. As was the case with the track athletics, the competition was open to the selected representatives of the United Kingdom, Australasia, South Africa and Canada. Only two swimming events were on the program, 100 yards and one mile. In the short race the Canadian representative, Gordon Johnstone of Ottawa, was third. The mile race was won by Canada, George Hodgson of Montreal, covering the distance in 25 minutes 27 3-5 seconds.

LLOYD-GEORGE CAPTURES THE CITY OF BIRMINGHAM

At the Hall Where He Was Stoned and Hooted Ten Years Ago, Seventy Thousand People Sought to Hear Him Last Week—Crowds Flocked Even to Catch a Glimpse of Him

Birmingham, England, For an hour and forty minutes on Saturday afternoon the Chancellor of the Exchequer addressed a great meeting at Birmingham Town Hall on his National Insurance Bill.

A Great Contrast

The visit created an interest and excitement seldom equalled in the Midland capital's turbulent political history. Strangely different on Saturday was the reception given to the Chancellor to that accorded to him when, during the Boer War he visited the same building.

Had Mr. Chamberlain himself been billed to speak in the town hall on Saturday afternoon, the desire to hear him could scarcely have been greater. Applications for tickets numbered 70,000—a figure unprecedented in local history. The hall at a pinch accommodates comfortably some 3,000.

Throngs to See Him

From twelve o'clock the queues began to assemble, until at 1.30—an hour before the time for beginning—a solid phalanx of ticket-holders six deep surrounded the smoke and dust begrimed hall. In the square were thousands more,

anxious for a glance at the Chancellor, even if they were unable to hear him expound his scheme.

When the most popular statesman of the day drove up to the hall from New-street Station he was loudly cheered by the enormous crowd which had gathered outside, and when he came on the platform he was met with a tremendous outburst of welcome, the whole audience rising and cheering for several minutes.

Some Notable Phrases

Here are some of the most notable phrases of the speech:

I devoted three years' continuous labour and thought to these proposals, and hope to see the scheme an Act of Parliament within the next three months. I am told that if it took three years in preparation it ought to take more than three months to pass it, but if it took three years to build a house it need not take three years in which to make up your mind as to whether it should be bought.

I am asked: "How can they afford 4d. a week?" I reply, "They pay more now to the pawnbroker. They insure now, but in a most costly and heart-

INDOOR BASEBALL TEAMS KEEPING IN KEEN FORM

Establishment of League Now Means Addition of Several New and Strong Teams to List—Tonight the Young Business Men Meet to Complete the "Pen-Pushers" Team

Lively interest is continually growing in indoor baseball. Last night the boys of the Baptist Brotherhood engaged in a keen practice match, and from the zest they showed in the game there can be no doubt that they will prove formidable opponents. On almost every night in the week now one or other of the teams may be found occupying the "Diamond" after the evening's rinking. As the players get more and more accustomed to the conditions of light and space at disposal play becomes more and more scientific, and already a fine sprinkling of "star" players is beginning to scintillate amongst the teams.

Challenges from several new teams now being formed are in the air all over, and proposals to start several more teams are being eagerly talked over by the live young men. It is believed that ten good going teams of well

balanced merit can be enlisted in the league now being instituted. Enthusiasts declare that the formation of the League will bring into being very quickly even more teams, for there can be no doubt that in this indoor baseball game the young men of Prince Rupert have discovered a much-wanted field for their energy after hours.

Tonight the postponed meeting of those interested in the starting of the League will be held. Although there is also a city council meeting on, it is hoped that the Mayor will be able to fulfil his promise to preside. The establishment of the "Pen-pushers" or "Quill Drivers" team is one of the main aims of tonight's meeting, and as many young business office men in the city are too busy to allow themselves to be styled "enervates of the pen" are expected to throng the meeting and get the team going in good shape.

ROYAL AND MAY IN KEEN RIVALRY

Men Prepared to Back Their Respective Boats with a Month's Pay on Even Terms.

Between the officers and crews of the two C. P. R. steamers the Princess May and Princess Royal there exists a great deal of rivalry, due principally to the fact that the steamers are now fighting out a strenuous duel as to which of them is entitled to the honors of being called the fleetest of the two. About four or five days ago the Royal crew claimed that she had broken the May's former record by several hours.

Later, however, the May got in hers and the officers very kindly and thoughtfully remanded everyone who jollied them at being beaten by the Royal, that they had just made the trip at least 1 hour and 35 minutes faster than the other vessel.

Before the Skagway trade for this year is at a close it is expected that the rivalry between the men will become as intense as that which existed a short time ago between the Princess Victoria and the Princess Charlotte. The men of each vessel are prepared to back their ship with a month's pay on even terms. The two steamers are pretty evenly matched for speed and naturally each ship's crew thinks that their craft has the best of the other.

FELL DEAD AT PICNIC

Toronto Man Dropped Down After Running a Few Yards

(Canadian Press Despatch) Toronto, July 12.—William McLean, an electrician employed at the Toronto City Hall met his death yesterday afternoon at a picnic. He had entered a race for married men, but after running a few yards, dropped down dead on the track.

McLean, who was well known, had been prostrated by the heat last week, and this is supposed to have had something to do with his sudden death. The tragedy cast a gloom over the picnic.

ELECTED OFFICERS

Local Scandinavian Society had Meeting Last Night

The Scandinavian Society of Prince Rupert held its semi-annual meeting last night in Carpenters' Union Hall. As principal officers for the term ending December 31 were elected: Mr. A. Aakerberg, president, and Mr. John Dybhavn, secretary. Next meeting will be held in the Carpenters' Hall, July 25th at 8 p.m.

Latest Wireless Messages

Everyone in Rupert can receive these. Here is one: Scott, Froud & Co. just received two new shipments of Ladies' American Shoes. Did you catch that?

INVESTOR'S EYES ON RUPERT

Mr. Frank Scott, Treasurer of G. T. P. Says Great Things are Expected of this City.

"In Montreal, in all the chief cities of the East, throughout the West I have found a wonderful interest in Prince Rupert," volunteered Mr. Frank Scott of Montreal, keeper of the official purse for the Grand Trunk and Grand Trunk Pacific railroads, who with his wife arrived here today on the S.S. Prince Rupert.

"But," interjected the interviewer from the News, "it is alleged there is a good deal of trepidation amongst investors in the East regarding this city owing to an imaginary unrest here." "Nonsense!" said Mr. Scott, "when the Hydro-Electric Company advertised their stock they did considerable business. I came within an ace of investing money in the company myself."

Continuing Mr. Scott and his wife expressed themselves as delightfully surprised with the progress made in the laying out of the city.

Something New

A big range of "Queen Quality" and Uty & Dunn's shoes have just arrived at Scott, Froud & Co.'s. They are all snappy models and always give satisfaction.

The weather is reported clear down the coast, except at Trible where it is overcast. Triangle reports speaking to the steamer Northwestern at midnight last night. The vessel was then at latitude 59.44 and longitude 126.146, southbound.

Mrs. J. C. McLennan and son were passengers by the Princess Beatrice yesterday on the way south for a few weeks' stay in Vancouver and Victoria.

BOMBARDED WITH ROCKS

Westholme Co.'s Gang of Men Imperilled This Morning by Shot Fired on First Avenue.

Apparently without any warning or proper precautions having been taken for the protection of those in the neighborhood, a shot was fired by a station gang on First avenue with perilous and spectacular effect this morning.

A pretty heavy charge had been loaded, and evidently the blanketting used was too light. A number of workmen employed by the Westholme Lumber Co. were endangered. Rocks and large pieces of the blanketting material were flung over 500 feet in all directions falling in a heavy shower around the men.

Two of the men were working high on a scaffold at the time and pieces of rock weighing several pounds struck the boards of the scaffold. Very slightly heavier stones might have brought the structure down and hurt the men.

A complaint has accordingly been laid before Chief Vickers by the Westholme Lumber Co. and the Chief is investigating the matter. The men on the station gang say that they called "fire" and that the shot was properly blanketted.

The "Limit"

Oh, Say! Isn't that a swell line of shoes that Scott, Froud & Co. have just got in? Have you seen them?
