> WASHINGTON, March 6:-President Roosevelt took hold of affairs of state without losing any time after his inauguration Saturday. Last night he issued a proclamation taking absolute command by the government of the nation's gold supply, declaring a national holiday on banking until Thursday and calling a meeting of Congress in extraordinary session that day to deal with the financial situation.

> The proclamation prohibits the hoarding of coin or currency, places an embargo on gold and silver exports and prohibits the earmarking of American gold by foreign nations.

In order that the business of the country may proceed, the proclamation authorizes the issuance of clearinghouse certificates and provides national regulations for this.

The president blames the present condition on recent foreign inroads on the gold supply and all gold or silver currency or bullion exports are expressly forbidden.

Provision is made for the banks receiving deposits in trust and checks may be drawn against these.

The action of the president is interpreted by some financial authorities as a temporary suspension of the gold standard.

Emergency legislation is being prepared to present to Congress Thursday, Secretary of the Treasury Woodin said today that the payrolls of the United States must be met. If necessary restrictions would be placed upon the banks in issuing cash would be lifted to permit payment of wage accounts.

The Secretary was emphatic in the assertion that the action of the President did not take the United States off the gold standard and most financial authorities here agree with him.

HEAD OFFICE - MONTREAL

THE inherent strength of life assurance has been tested and proved during the past three years of general business recession, and the invaluable service it renders the public in times of emergency fully demonstrated.

THE Sun Life of Canada, during this period-probably the most trying in human experience-has maintained its record of progress, and has been of especial service to its great body of policyholders throughout the world.

TTS assurances in force have increased since 1929 by \$465,000,000; assets by \$43,000,000. Its policyholders now number nearly a million.

Policy reserves have been valued by the full net level premium method, on bases more exacting than those required by the Insurance Act of the Dominion of Canada.

Applications for new assurances were received by the Company during 1932 at an average rate of more than \$1,000,000 for every working day.

During 1932 the Company paid to policyholders and beneficiaries more than \$360,000 for every working day.

Income from renewal premiums was the largest ever received in a single year.

Cash in repayment or reduction of policy loans exceeded that of any previous year. Revivals of lapsed policies exceeded those of any previous year, with one exception. The net amount of policy proceeds left with the Company at interest substantially increased.
