Secret Forts Guard France On German Border

France's answer to Hitlerism, the threat of monarchical restoration in Germany, and the possibility of a new German invasion is a vast system of military defences which is nearing completion along the Franco-German border after two years of labor and at a reported cost of more than \$300,000,000. At the top is an artist's conception of the secret, underground forts being constructed in the Alsace-Lorraine sector, said by travelers to resemble great white ant hills. The forts are reported so strongly constructed as to resist the heaviest of air bombs. Map shows the frontier and on left are marching German soliders, the ostensible French reason for the building of forts

As a result of making personal appearances at the court of revision conducted throughout the day yesterday by Government Agent Norman A. Watt, registrar of voters, no less than 175 persons had their names added to the list of voters for Prince Rupert riding in the forthcoming provincial election. This indicates the healthy interest that is being manifested in the political situation locally. While the list has not yet been completely tabulated, the number of voters is believed to be larger than it was in 1928.

NATIONAL EMPLOYMENT WORK

Now that the federal government is apparently considering the possibility of putting the unemployed men of the country to work on national undertakings and paying them real wages, we think their attention should again be drawn to the desirability of building a railway outlet to the westward from the Peace River country.

With the two railways co-operating in various parts of the country, they might well co-operate in connection with this line. Possibly an arrangement might be made for the C. P. R. to use this section of the line into Prince Rupert in order that they may help to make the road pay its way and also relieve the congestion in the Vancouver yards.

The western outlet for the Peace is one of the most pressing problems of the day as it would enable the farmers of that huge region to market their produce at a profit instead of a loss. Also the line would pass through a country that has great possibilities. It would tap the Omameca properties of the Consolidated Mining and Smelting Company which are now being developed and which will need an outlet. These considerations should have weight with the Bennett government in influencing its decision as to what public works to initiate to care for the unemployed.

SLEEPING SICKNESS

Newspapers in Canada and England have been discussing the question of sleeping sickness and the statement is made that many cases have followed closely on vaccination. Some papers have charged that members of the medical profession have been concealing the truth in regard to the close relationship between sleeping sickness and vaccination. A few years ago questions were asked in the House of Commons in England and even at that time it was shown that a number of cases of sleeping sickness had followed vaccination. The medical associations, it is claimed, know that there is grave danger of sleeping sickness following vaccination but have continued vaccination.

We do not think the members of the medical associations would mislead the people in regard to this subject but undoubtedly those who always have objected to vaccination will find their hands strengthened by the fear that the operation may be followed by sleeping sickness. It seems that many members of the medical profession have of recent years changed their minds in regard to vaccination.

Delicious, nourishing breakfasts! Cool lunches! Easily digested suppers for children! Puffed Grains give extra crispness and energy, because "shot from guns". Now that there is not much business doing let us all play some games—badminton, for instance.

Let us take our little rackets And we'll all take off our jackets. And pound the little pill. We can keep the fat from forming. If we play both night and morning. And avoid being ill.

If every person walked the straight and narrow path, what would there be to talk about?

There was a good attendance at the meeting of interested persons. Business included the presentation of reports and statements covering last season's activities as well as the election of officers.

It was decided to hold another meeting on October 2 when entries will be received and definite decision made as to whether bridge will be played in addition to whist and cribbage.

Officers were elected as follows: President, A. A. McEwen; Vice-President, Louis Richardson; Secretary-Treasurer, J. E. Jack; Auditors—G. W. Rudderham and J. A. Frew.

Girl Kills Bear With Shotgun

When a girl shoots a bear, that's something. When the girl is pretty, that's even better. But when the pretty girl uses a shotgun, that makes it a story. That is what Miss Crichton did. Shot and killed a bear with a shotgun near Chappleau, Ont., when Mr. Bruhn came too near the house. Above is seen Miss Crichton with prize.

SPORT CHAT

There was quite a crowd of fight fans at the Moose Hall last night watching the final work-out of the boys for the coming fight. Opinions as to the two principals in the main bout seem equally divided. Nira Gurvich, who shows considerable improvement is determined to win as it means that he could then issue a challenge to Benny Windle to fight for the championship of Northern British Columbia. Gurvich is a cautious fighter. He doesn't take any chances and packs quite a wallop in his right mitt that, combined with a longer reach and about six inches more height than his opponent, gives him quite an advantage.

Bagshaw is in splendid condition and, although giving away about ten pounds, is going to be a tough nut for Gurvich to crack. He is a natural two-handed fighter and can stand a lot of punishment. Unless one of them lands a lucky blow and scores a knockout, this bout should be the most interesting seen in Rupert for many a day. Both boys are in first class condition and both are determined to win.

KINGFISH EASILY DEFEATS SHARKEY IN CHICAGO BOUT

Mr. Watt informed the delegation that the representations which had been made would be forwarded to the government. There were some two hundred men or more in the parade.

Grizzly Bears Are Gradually Disappearing

WASHINGTON, Sept. 19.—The grizzly bear, mighty monarch of the rocky mountains, is going the way of the buffalo. Although the same may not be true in Canada, figures for the United States point toward the ultimate disappearance of the grizzly. Each year the ranks are thinned. The latest census gives the grizzly population of America's national forests at 864 compared with 747 the year before. The report states "extinction of the species seems near."

In Alaska, however, they continue to thrive. The census there estimates the population of grizzlies and the big brown bear increased from 3,000 to 4,500 from 1931 to 1932.

Rev. Father Godfrey, O. M. I., from Anxox, and Rev. Father Champagne, O. M. I., from Stewart, were among arrivals in the city on the Catala this afternoon from the north.

Beer and Herring Popular Together

Heavy Demand For Dried Herring Since Legislation of Beer

SAINT JOHN, N.B., Sept. 19—It isn't only breweries that are reflecting legalization of beer in the United States. So is the herring industry.

Coincident with the sale of beer there has arisen in New Brunswick a sharp demand for smoked herring. Supplies in most districts have diminished and the new demand is mirrored in scenes along the smoked herring stands on Grand Manan, where old fish houses are being reconitioned, boats painted and repaired, stocks of salt and wood renewed and residents are optimistic.

And here's why. Prices for boneless herring in the United States since legalization of beer have jumped from four cents a pound to 12 cents. Fishermen are hopeful the demand will last.

MUSSALLEM CANDIDATE

Former Resident of Rupert in Election Fight—Jones to be Opposed by C. C. F.

Provincial election nominations in various parts of the province, as reported last night to the Daily News by Canadian Press, included that of Reeve Solomon Mussallem of Maple Ridge in the Fraser Valley as an independent candidate in Dewdney riding. Mr. Mussallem was a well known business man in Prince Rupert in the early days but for years has been located at Port Haney.

Ald. Owen L. Jones of Kelowna has been selected Co-operative Commonwealth Federation candidate for South Okanagan and will run against Hon. J. W. Jones, minister of finance, who has announced that he will seek re-election as an independent. Dr. Allen Harris is the Liberal candidate.

Hon. William Savage, who was appointed minister of public works in Premier Tolmie's cabinet last week, announced yesterday in Victoria that he would seek election to the House as a Tolmie Unionist in Point Grey, Vancouver. Mr. Savage is a Vancouver barrister.

Captain Agnes Coxson, commanding officer of the Salvation Army, who has been in the Prince Rupert General Hospital the past ten days with an attack of influenza, will sail tomorrow on the Princess Louise for a month's rest at the Salvation Army headquarters in Wrangell, Alaska. She will be a guest at the home of Staff-Captain and Mrs. Acton and will return to her duties in Prince Rupert about the end of October if her health has improved. A Salvationist from Vancouver will arrive some time this week to assist Lieutenant Milley during the absence of the captain.

NEGLECT OF COMMON CONSTIPATION IS A SERIOUS MATTER

Prevent This Condition With Kellogg's ALL-BRAN

The first question your doctor asks is whether you are constipated or not. He knows that this condition may cause headaches, loss of appetite and energy, sleeplessness. It is often the starting point of serious disease.

You can prevent and relieve common constipation so easily. Just eat a delicious cereal once a day. Laboratory tests show that Kellogg's ALL-BRAN provides "bulk" to exercise the intestines, and vitamin B to further aid regular habits. ALL-BRAN is also a rich source of blood-building iron.

The "bulk" in ALL-BRAN is much like that found in leafy vegetables. Within the body, it forms a soft mass. Gently, it clears out the intestinal wastes.

Isn't this "cereal way" safer and far more pleasant than taking patent medicines—so often harmful? Two tablespoonfuls of ALL-BRAN daily are usually sufficient. With each meal in serious cases. If not relieved this way, see your doctor.

Enjoy ALL-BRAN as a cereal, or use in cooking. Get the red-and-green package at your grocer's. Made by Kellogg in London, Ont.

Screen Actress Is Talkie Fan

Colleen Moore Likes Nothing Better Than Couple of Hours in Theatre

SYDNEY, N.S., Sept. 19—Like the postman who goes for a walk on his day off, Colleen Moore of the films likes nothing better than to take in a good talkie when she has a couple of hours to spend.

The petite screen actress made her preference known as she arrived in Sydney with a yacht party. The yacht had been chartered only a short time ago and Miss Moore came ashore and headed for a theatre to see her favourite Bebe Daniels in her latest "My favorite actress," Miss Moore remarked to newspapermen, "I found her waiting in line for the box-office, just like any fan."
