UNEMPLOYMENT INSURANCE SCHEME

THIRTY-SEVEN STATES OPPOSE EIGHTEENTH AMENDMENT

Sixteen Million Persons Will Be Covered by New Legislation For Workless In Great Britain

Number of Those Without Jobs in Old Land Decreased By Half Million in Last Six Months—Cheering Surplus Will Meet Contingencies of Coming Winter

LONDON, Nov. 9: (CP)—Sixteen million persons will be covered by a gigantic new unemployment insurance scheme which is to be instituted by the British government. A measure for revising and co-ordinating previous plans with important additions has been introduced in the House of Commons by Sir Henry Betterton, minister of labor. It is the most widely embracing of any social scheme ever introduced at Westminster and adds four million persons to those workers who now come within the scope of unemployment insurance provisions.

At present there are somewhat more than two million people on unemployment registers of the country, this being a decrease of half a million in the last twelve months. A questioner in the House of Commons elicited the further cheering news that the unemployment insurance fund will show a surplus on account during the current fiscal year of more than £6,250,000 which will meet winter contingencies and allow something towards the deficit of £115,000,000 caused when the fund got out of hand and the dole was created.

Wet Vote Decisive

Aggregate For Nation Shows Three To One Popular Vote Against Prohibition

WASHINGTON, D.C., Nov. 9.—The State of Kentucky on Tuesday voted two to one in favor of repeal of the Eighteenth Amendment, being the thirty-seventh state in the union to vote against the national prohibition law, overthrow of which is now assured. Although the voting took place on Tuesday, Kentucky did not count its votes until yesterday.

Taking into account the results in Kentucky, the total popular vote for the country in the repeal referendums has been \$3,914,000 for repeal and 4,911,000 against or almost three to one for repeal. North and South Carolina are the only two states which voted against repeal.

As a result of election day violence, no less than 13 deaths were recorded in Kentucky with at least 40 persons injured.

Ex-Mayor C. H. Orme was the speaker today at the regular weekly luncheon of the Prince Rupert Rotary Club in the Commodore Cafe. President John Dybhavn was in the chair. Mr. Orme gave a National Fish Week talk which had been postponed from last week.

FOUND AND DOLLAR BOTH ABOVE PAR

NEW YORK, Nov. 9: (CP)—The Canadian dollar, which closed at par with the American on the local foreign exchange yesterday, was at one-sixteenth cent premium today. The British pound sterling was quoted at \$5.05 today. Yesterday it closed at \$4.95 1/4.

URGES ALL BACK FISH INDUSTRY

H. Orme Speaks of Value of Fisheries to City in Address To Rotary Club

In an address to the Rotary Club at its regular weekly luncheon in the Commodore Cafe today Ex-Mayor C. H. Orme strongly urged that the people of Prince Rupert be a unit behind the fishing industry. If the fishermen secured adequate return for their efforts it affected the whole community favorably. The city was now down to bedrock and the fishing industry was its main bet.

In opening, Mr. Orme spoke of the value of "National Fish Week" in advertising the fisheries of the country. In some sections fish was hardly ever eaten. To show the value of the industry, the speaker quoted from government statistics to show that in 1930 the fisheries of the Dominion brought in \$47,000,000. In the following years this was considerably reduced. In 1930 the value in the province was \$23,000,000 and in the Prince Rupert district \$13,000,000.

Throughout Canada the industry employed 75,000 people. In B. C. 14,000 were employed. In 1930 the investment in the fisheries amounted to \$64,000,000. Turning then to local conditions, Mr. Orme said the game was a hard one in which only a real-sized man could engage, especially of recent years. Not only were the buyers and the cold storage plant depending on the industry but the railway depended on it for its existence. In the past few years there had been no stability in any business, the speaker said, and especially in the fish business but he was glad to say that the outlook was better now than it had been for some time.

New Armament For English 'Planes

That certainly is a business-like looking gun. It fires a high explosive shell and is mounted on the new British flying boats. This is the first time any recoil gun has been mounted on an aeroplane. The gun has an accurate range of 1,500 yards and fires 100 pound and a-half shells a minute.

PAYROLLS INCREASE

Index of Returning Better Times Indicated by Compensation Board Official

An index of returning better times in the province was given by Dr. G. B. Murphy of Vancouver, medical officer of the Workmen's Compensation Board of British Columbia, who, in addressing the Prince Rupert Gyro Club at luncheon Wednesday, stated that for 1933 audited payrolls in British Columbia were expected to amount to \$135,000,000 as compared with \$112,000,000 in 1932; \$190,000,000 in 1929; \$183,500,000 in 1928 and \$177,000,000 in 1930.

Dr. Murphy was speaking on the subject of "The Workmen's Compensation Act of British Columbia."

TAKE OVER NEXT WEEK

Government to Change Wednesday—Hart, Finance Minister; Pearson, Mines and Labor

VICTORIA, Nov. 9: (CP)—The new Liberal administration will be sworn in next Wednesday at noon a few minutes after Premier S. F. Tolmie and his cabinet resign.

It is unlikely that Premier-elect T. D. Pattullo will give any indication of the personnel of his cabinet until he presents the list to the Lieutenant Governor for his approval.

John Hart of Victoria now seems a strong possibility as minister of finance with G. S. Pearson of Nanaimo taking over the portfolios of mines and labor for both of which he is eminently fitted.

To the Electors of Skeena

Please accept my sincere appreciation for the generous support given me on November 2nd.

I earnestly hope that time may justify your confidence and that we can get together in this district irrespective of party affiliations, and work for the benefit of all.

W.C.B. WORK RESTORING DESCRIBED OLD GRANT

Dr. G. B. Murphy, Medical Officer Of Compensation Board, Interesting Speaker

Many Benefits

Much Information Conveyed as to Functions and Operation of Important Legislation

Much interesting information in regard to the nature, functions, operation and history of the Workmen's Compensation Act of British Columbia was conveyed to members and guests of the Prince Rupert Gyro Club yesterday afternoon when Dr. G. B. Murphy, medical officer of the Workmen's Compensation Board, was the speaker before a luncheon of the local service organization in the Boston Cafe. Past President William Cruickshank occupied the chair in the absence of President T. W. Brown and guests included J. R. Drysdale of Premier, David Watt of Vancouver and T. N. LePage, A. S. Nickerson, J. J. Little, G. A. Woodland, Dr. W. S. Kergin, Dr. C. H. Hankinson and Peter Sunderland.

The present Compensation Act, Dr. Murphy explained, had come into effect in 1917 and, during the sixteen and three-quarter years it had been in operation, approximately \$45,000,000 had been paid out, \$36,000,000 of this being in actual compensation to workmen and dependents and \$9,000,000 in medical aid including hospital, medical, nursing and dental service, artificial appliances, etc. Approximately 450,000 claims had been handled of which 3,500 had been fatal. The largest total expenditure in any single year had been over four and a half million dollars in 1929, the second largest in 1928 and the third largest in 1930.

Under the benefits of the Act a widow received \$35 per month until her death or re-marriage and each child \$7.50 per month until attaining sixteen years of age. It could be easily seen, therefore, where the fatal case of a man with a large family would be very costly to the board.

Benefits of Act

Under the original Workmen's Compensation Act, which was in existence from 1902 until 1917, nothing was paid to an injured workman during the first two weeks. Then a maximum of \$10 per week up to a total compensation of \$1500 was paid. Under the present Act the rate of compensation was at first 55 1/2% of average earnings but had been increased until it was now 62 1/2%. Present rates of payment were eight to ten times greater than under the old scheme. Dr. Murphy gave examples of where some very heavy claims had been paid in cases of disabilities ranging over a number of years, one case mentioned having totalled \$10,000 and another \$18,000.

Claims, the speaker stated, were usually adjusted and checks issued in from three to six days from the receipt of all the necessary documents. When there were delays, they were usually due to lack of adequate information which should be supplied either by the workman, employer or doctor.

The cost of administration of the Act, Dr. Murphy informed his listeners, was approximately 2 1/2% of the assessments collected and was the only money which was not directly returned to the workman either in compensation for loss of

ENGLISH PICTURES

Regular habitues of the theatre find it difficult to adjust themselves to the change which has taken place through the increasing number of British pictures and the recent improvement in those pictures. People had become so inured to Hollywood and the American dialects and voices that they had almost forgotten the dialects and voices of British people.

Take as an example the picture shown this week, "Good Companions." It was an excellent picture and the general local verdict was very favorable to it. But there were a number of people who found it difficult to follow the Yorkshire dialect and who sometimes lost the thread of the play through inability to understand some of the conversation.

That these pictures are appreciated is made clear by the attendance and by the enthusiastic expressions of those who attend. The Capitol management is to be congratulated on trying to fill a demand for wholesome pictures although sometimes we think greater care might be exercised in the choice of week-end offerings which are always seen by a large number of children at the Saturday afternoon matinees.

DISAPPOINTING FALL

The monthly report of the National City Bank of New York, reviewing the financial situation, referred to the disappointing autumn, disappointing because the expected flurry in business did not come. October instead of being unusually busy, fell flat. It evidently has been the failure of business conditions to improve that has made it necessary for President Roosevelt to resort to inflation in order to raise the price of commodities.

There is one thing of which we may be sure and that is that every day we are getting near the day when conditions will be showing a definite upward trend. We are safe in saying that conditions in Canada are better than they were a year ago. A number of businessmen in Prince Rupert say conditions are better here than they were last year. There is every reason to be confident that better times are not far away.

SATURDAY HOLIDAY

Editor, Daily News:—

In reply to the editorial in the Daily News on Wednesday, November 8, in reference to stores closing on "Remembrance Day" wherein E. F. Jones, city solicitor, explained that it was not compulsory for retail stores to observe the holiday unless they so wished, I wish to state that, before the Retail Merchants' Association of this city inserted in our local papers that all retail stores in this city must observe the holiday on "Remembrance Day," the association was advised that such was the case and advertised accordingly. Since the advice given by Mr. Jones created considerable misunderstanding regarding the interpretation of the Act, further advice was sought. The following wire was received today from Geo. R. Matthews, Secretary B. C. Board Retail Merchants' Association of Canada:

"November 11th by Act of Parliament declared Remembrance Day but this does not control retail establishments. Provincial governments place own interpretation on Act. British Columbia under weekly Half Holiday Act declared Remembrance Day statutory holiday. Regardless of legal opinion police have no choice and must prosecute if a complaint is made. All stores governed by Weekly Half Holiday Act must close on Remembrance Day." This reply should adjust the interpretation given by Mr. Jones.

Thanking you, Mr. Editor, for the space, DOUG FRIZZELL, Secretary, Retail Merchants' Association.

P.S.—For Mr. Jones' information this is covered by Weekly Half Holiday Act, Chap. 273, R. S. B. C. Sec. 14, amended 1932, Chap. 60, Sec. 4.

REMEMBRANCE DAY

Editor, Daily News:—

One gathers there is some discussion as to the closing of stores on Remembrance Day. To enforce the closing legally there would appear to be need for a city bylaw making it operative. Surely this is not a matter that requires a law. The soldiers volunteered in the first place, knowing, or at any rate believing, that their country would at least honor them for their willingness to do "their bit." Is it too much to expect that, even in the present generation, their sacrifice should be recognized by the observance of the day as a Remembrance Day?

Presumably there are a few who fear they might lose some business. How could they if all respect the memory of the dead by closing? The profiteers during the war are remembered with scorn and hatred. Are there still some who would make money at the expense of the dead or their living disabled comrades?

Unless, and until, Prince Rupert learns to look at things in a broad light, there can be little hope for our progress. 1914-1919.

The factory system began to exist in Canada in the 60's and 70's of the last century.

WHIFFLETS From the Waterfront

The Armour Salvage Co.'s power tug Winnemac, with Capt. Paul Armour in command, brought in a small boom of logs yesterday morning from the Monteith logging camp in Denise Arm and continued on to the McAfee and Sunbury box factory at Georgetown with it yesterday afternoon, returning to port during the night.

John Quiner, for years a resident of Ketchikan where he has been engaged in salmon trolling, having formerly been in the lighthouse service of the United States government, arrived in the city at the first of the week from the "First City." He recently sold his fishing boat and it is his intention to make his future home here with his sister, Mrs. Peter Black. Mr. Quiner, who is the youngest of Mrs. Black's brothers, is one of the real soughs of the north. He went to Juneau in 1895, was at Circle City, Alaska, in '95 and '97 was at Dawson when the Gold Rush commenced.

The Ketchikan halibut boat Mars, Capt. L. P. Sjog, was in port this morning with 16,000 pounds of black cod which is being shipped through to the United States markets by the Canadian Fish & Cold Storage Co.

Some question having arisen as to just when some of the fish the vessel brought in had been caught in relation to the close season, the Seattle halibut schooner Electra was still being held in port here today. There was a report this afternoon that the vessel might soon be granted a clearance by the authorities but there was no official confirmation of this and she was still here early this afternoon.

Miss Blanche Harle is sailing tonight on the Prince George for a brief trip to Vancouver.

W. C. B. WORK DESCRIBED

(Continued from page one)

time or for hospital and medical service. Under the old Act this "wastage" amounted to 60% or, in other words, a direct profit was made out of the disability and suffering of injured workmen.

In the course of his address, Dr. Murphy made reference to some of the "safety first" regulations which had been drawn up by the Board and to some of the educational work which was being carried on.

The speaker also explained the constitution of the Board and the jurisdiction and duties of the members and its officers all of which were clearly defined under the Act. The Act, as at present framed, the speaker considered to be a good one. There were, of course, improvements that might be made and none were better aware of possible improvements than those who were connected with the administration. It should be remembered, however, that changes in regard to compensations, benefits, etc. could only be made by legislative action.

Importance of Returns
Dr. Murphy urged the importance of returns being made of all injuries, even those which appeared at first to be quite trivial. The Act provided definitely for the "out-lawing" of claims after a certain time had elapsed following an accident. There had been regrettable cases in the past where no compensation could be given for unexpected disabilities and losses arising out of accidents and injuries which had at first appeared unimportant and had not been reported at the time.
