VANCOUVER HEARS NEW B.C. PREMIER

SOVIET NOW OFFICIALLY RECOGNIZED BY UNITED STATES

British Columbia Must Live Within Income and Reduction Of Interest Rates Is Essential

Pattullo and Entire Cabinet Appear at Public Meeting in Support of Sloan and Wismer—Reiterates Pledges Made in General Campaign

VANCOUVER, Nov. 18: (CP)—"We must live within our income and we must have a review of interest charges because we cannot keep on paying them indefinitely," declared Premier T. D. Pattullo to a capacity audience in the Vancouver Hotel last night as he and his entire cabinet appeared at a public meeting in support of Hon. Gordon Sloan, attorney general, and Gordon Wismer, candidates for Vancouver Centre in the deferred election on November 27.

"Many think that 'work and wages' was merely a slogan on which to get elected," the Premier continued. "O no! We are going to endeavor to go through with it. I wonder if the people realize that we are in the midst of the greatest evulsion of all ages. Where it is necessary for this government to create a precedent, it will be created. I pointed out during the campaign that Canada has spent billions on railways and war and asked: 'In that case, why hesitate to spend a few hundred millions to pull us out of our present conditions?' He still held the same view, the Premier declared.

Mr. Pattullo expressed the opinion that none of the provinces could solve the difficulties without co-operation and he would go to Ottawa to sit in a conference with goodwill to see what solution could be reached.

"It is important," declared the Premier, "that British Columbia speak with a strong voice in the deferred elections in Victoria and Vancouver and inform Eastern Canada that the province is solidly behind any representations we make to Ottawa."

Mr. Pattullo repeated the promise that the one percent tax would be taken off lower scale salaries and that the nuisance taxes, including the meal tax, would be abolished.

COMMISSIONER'S REPORT

Much interest seems to have been taken in the report of the city commissioner published in the Daily News yesterday. It was an encouraging report in that it indicates we are on the way toward again becoming solvent within a reasonable time. Given a few years of careful administration, the credit of the city will be restored.

The commissioner will need the support of the citizens if he is to continue to make a success of his work. He seems to have had that support pretty well since he came here. Taxes have been paid better than was expected although, naturally, there was a falling off just as was the case in other cities.

Of course there had to be criticism and that came chiefly in regard to the commissioner's high school policy. Many disagreed with him there and the criticism was voiced plainly. It must be remembered, however, that the action of the late government in withdrawing support from the municipalities had made necessary economies which to many seemed oppressive.

Now we are glad to know that the city is in such condition that it can weather the storm and, given a couple more years of management such as we are getting now, we shall be pretty well re-established as a flourishing community.

RECOGNIZING RUSSIA

The United States has recognized Russia. It is the consummation of a movement that has been discussed and pressed for some time. It is possible that the strained relations between Japan and Russia may be improved by this act of President Roosevelt.

The delay in extending recognition seems to have been caused by the dislike of the people of the United States for the Soviet form of government and more particularly to the intense propaganda which has been carried on from Moscow to try to convert the rest of the world to their viewpoint. It is possible also that the refusal of Russia to recognize the debts incurred prior to the revolution may have been a factor. The religious question also prejudiced the people of most nations against the Soviet. Even people and nations who were not themselves religious objected to the display of intolerance shown by the Russian administration.

Ease Pain, Headache in Few Minutes

For Quick Relief Say ASPIRIN—When You Buy

Now comes amazingly quick relief from headaches, rheumatism, neuralgia, neuralgia... the fastest safe relief, it is said, yet discovered.

These results are due to a scientific discovery by which an Aspirin Tablet begins to dissolve, or disintegrate, in the amazing space of two seconds after touching moisture. And hence to start "taking hold" of pain a few minutes after taking.

The illustration of the glass, here, tells the story. An Aspirin Tablet starts to disintegrate almost instantly you swallow it. And this is ready to go to work almost instantly.

When you buy, though, be on guard against substitutes. To be sure you get ASPIRIN'S quick relief, be sure the name Bayer in the form of a cross is on every tablet of Aspirin.

Officers Elected and Resolutions Passed at Annual Meeting of Fishermen—New Director of Experimental Station Here—Delegates to Seattle

Resolutions on matters of interest to the various classes of fishermen were passed at the annual general meeting of the Northern British Columbia Fishermen's Association which was held. The meeting elected the following officers for the year: chairman, S. Bjornsen; secretary, Jack Roberts; executive—J. Knudsen, N. Serheniuk, J. Deane, J. Menara, S. Schjold, S. Bjornsen and J. Roberts. Among the resolutions passed by the meeting were the following:

That the government be requested to place a telephone line from the lighthouse to Parry Pass, North Island.

That the government be requested to erect a light with a red sector to clear the rocks on the west of the harbor at Seven Mile Point.

That a vote of thanks be extended to Mrs. George Smith for her medical aid to the fishermen during the past season at North Island.

That a free harbor be maintained at Seven Mile Point and that no leases be granted there.

That the exorbitant price of gasoline be protested and that steps be taken to combat same.

That the City of Prince Rupert be asked to complete the road to the fishermen's floats and also that a light be installed on the railroad tracks approaching the floats.

or two weeks' duration to Gardner Canal and elsewhere in that region, geese, ducks, mountain goat, deer, grizzly bear, or what-have-you, being the objective of the party of huntsmen which includes James Boyd, Cyril Orme, Jim Bacon, Martin Skog and Jack Boddie in addition to Skipper R. Gammon and Tom Watts.

"Stonewall" Jackson moved his floating home during the past week from Shawatians Passage to Cow Bay. His general idea is to spend the dark days of winter closer to the bright lights. He will probably go commuting again next spring.

Dr. Neal Carter, chemist from the staff of the Biological Station at Nanaimo, Vancouver Island, arrived in Prince Rupert on the Princess Adelaide yesterday afternoon from the south to assume his new duties as director of the Prince Rupert Fisheries Experimental Station in succession to D. B. Finn, who has been transferred to take charge of the Halifax station. Mr. Finn will be leaving Prince Rupert in December for Cambridge University, England, where he will spend three or four months engaged in special work before assuming his new duties on the Atlantic Coast. During his term of employment at the Nanaimo Biological Station, Dr. Carter has, through his sincerity and sterling character, won the esteem of all of his associates. He is an excellent chemist and research man and has established a splendid reputation among the scientific men of the coast with whom he has come in contact. He enters upon his wider field of activities well qualified for the position.

The new launch recently purchased in Prince Rupert by Jens Larson of Alice Arm has been named Anna H. and has been placed in service as the mail carrier between Anyox and Alice Arm. It is a trim craft 34 feet in length with a beam of 9½ feet and is equipped with a 15 h.p. Finnoy semi-diesel engine. The Anna H. has two commodious cabins and is equipped with electric light. She was built recently in Prince Rupert.

Capt. George Fritz and Capt. Dan Larsen, representing the Canadian Halibut Vessel Owners' Association, and George Anderson, secretary of the Deep Sea Fishermen's Union, left Prince Rupert during a public hearing of the International Fisheries Commission on Thursday of next week at which views of the industry are to be heard in connection with proposed new conservation regulations. Capt. Fritz and Capt. Larsen sailed last night on the Princess Adelaide. Mr. Anderson leaving Tuesday afternoon on the Catala. It is understood, although not definitely announced, that a similar public hearing may be held by the Commission later in Prince Rupert.

In spite of the rather turbulent weather conditions, a number of extended bird hunting trips to more remote points down the coast have been undertaken by local nimrods of late but no very marked success has attended any of their efforts. Some of the parties have had a rather rough time of it from the weather standpoint but everyone seems to have come through well and, if they did not get much game, they at least gained some experience. With winter coming to the north, larger numbers of geese and ducks are now to be seen winging their way southwards. The exceptionally wet weather has somewhat dampened the spirits of the deer hunters and there have not been so many huntsmen in the woods of late. It has certainly been rather unpleasant for that sort of thing.

The Gammon & Watt seineboat Bertha G. left on Thursday morning for a hunting trip of ten days

GRIT DANCE FINE EVENT

Liberal Party at Queen Charlotte
Attracts Guests From All
Island Points

QUEEN CHARLOTTE CITY, Nov. 18.—One of the most enjoyable and successful affairs ever held on the Queen Charlotte Islands, rivaling the event which took place two years ago when the Lieutenant Governor of British Columbia was a visitor here, was the Liberal dance held last Saturday night in Miller's Hall. A seven-piece orchestra provided splendid music and the hall was crowded to capacity. Mrs. C. M. Macintyre and Miss M. Stevens had charge of the affair, the expenses of which were defrayed by some Liberal contributors. People of all political complexions were in attendance and a fine feeling of good fellowship and sportsmanship prevailed.

Guests included the following from Island points other than Queen Charlotte and Skidegate:

Port Clements—A. L. Mallory, Mr. and Mrs. R. T. Ward, S. Piper, Mrs. E. S. Richardson, Mrs. Brown, M. Herman, J. Donroe, Mrs. J. R. Williams and L. Dyson.

Tiell—Mr. and Mrs. F. R. Richardson, E. E. Wiggins, E. S. Richardson and James Denholme.

Lawn Hill—Mr. and Mrs. G. Ross, Mr. Peterson, Mr. and Mrs. C. A. Moses, Miss Molitor and B. Molitor. Sandspit—Mrs. A. Woods and Miss I. Woods.
