Amy Johnson Disappointed

With Aviation in Canada;

TORONTO, Sept. 22: (CP)-If weather conditions

across the Atlantic Ocean do not prove satisfactory

within the next week or ten days, Capt. James A.

Mollison, famous British aviator, and his wife, Mrs.

Amy Johnson Mollison, will probably abandon hope

of using a Canadian hopping off place for a long dis-

tance flight across the Atlantic Ocean, Mrs. Mollison

"I am frankly disappointed about the stage avia-

tion has reached in Canada," Mrs. Mollison said.

"Canada is far behind other countries as regards

landing facilities—in fact in almost every way. Civi-

lization follows transport and where would we be if

we were all riding around on donkeys?"

told a joint service club gathering here yesterday.

May Cancel Distance Trip

#### ANNIE BESANT

The death this week of Annie Besant, the world's most active and most versatile woman, draws attention to her and her work throughout the world. Thousands of columns of newspaper articles will be written about her this week and most of them will be appreciative.

No one suspected when the young girl, Annie Wood, married the vicar of Sibsey that the bride would become a world figure. Everything was against it with the exception of her parentage, which was English on one side and Irish on the other. Apparently she set out to undertake the duties of motherhood and parson's wife with excellent intentions, but there was something stirring within her that rebelled against it. She disagreed with her husband and the tenets that he preached and, going to the opposite extreme, joined the society of free-thinkers, allied herself with Bradlaugh in his crusade against all established forms of religion and became for the time being the most notorious woman in England.

That was simply a phase of her development. While she abjured the established Christian religion she soon began to be interested in Christian work such as children's aid. In India she took up the cause of education and when the college which she founded in Benares was absorbed by the Hindu University she was honored by being given the

honorary degree of Doctor of Letters. Annie Besant advocated dominion status for India, quarrelled with Gandhi, studied Hindu philosophy and finally became a Theosophist. She took two young boys under her care and educated and trained the elder to become the vehicle for the reincarnation of the new Messiah and named him Krishnamurti. Failure seemed to have followed this effort for Krishnumurti not many years ago stated that he did not agree with his adopted mother's

views. There never will be and never could be another woman like Annie Besant. The world would not want many. She Editor, Daily News:stirred up the slumbering mental activities of millions of At the Liberal meeting the other people through her lectures, her writings, her espousal of night, the main criticism levelled unpopular causes and through her magnetic personality. at Mr. Pattullo, as shown by the She was a tireless worker, ate no meat, drank no alcoholic questions asked, was that the Lib- of valuable mining property known as drinks, did not use tobacco in any form but otherwise was erals and Conservatives had not wining Division, Province of Briquite human and was up to the minute in adaptation of the done enough towards the building the Columbia. newest inventions and contrivances. In her later years she used the airplane to enable her to keep speaking engage-

ments. When she spoke, thousands flocked to hear her. If the doctrine of reincarnation which Madame Besant believed, is true, we may look for her return to the earth before many years for her soul is much too active to remain quiescent long. At any rate many of the chords which she struck here will go on resounding until the end of all time.

# A Brief Synopsis of Liberal Policy

EREWITH is a brief synopsis of policy as laid down by the Liberal Party of British Columbia, in convention held in October, 1932.

Many matters of interest, not specifically set out, will require consideration. The principles enunciated are indicative of the Liberal viewpoint, and are broad enough to meet every question within provincial jurisdiction.

The Liberal Party exists as an official organization for the purpose of formulating and furthering measures that will make for the wellbeing of each individual member of society, and the welfare of society as a whole.

Innumerable questions, both of public and personal character, can be properly treated only through the agency of government.

Government is not an ordinary business, but carries responsibility to meet every problem arising from our complex social and economic conditions, in order that not merely a few, but all of our people may live in reasonable comfort.

The Liberal Party pledges immediate action under the best available advice and closest study.

T. D. PATTULLO.

August, 1933.

1.-Profitable and permanent Employment is the most important question facing our people. There should be co-operation between the national, provincial and municipal authorities and the Canadian banking system to establish the necessary credit to carry out a broad programme of constructive and useful wage-distributing public enterprise, and to further the health, education and well-being of all our people.

An Economic Council should be established, the membership of which shall consist of representatives of the various avenues of endeavour, such as health, education, agriculture, labour and the industries. This council will be appointed by the government on recommendation of the interests involved, and will act in an advisory capacity to the government.

Amongst other things the council will study industrial and social effort in the province and suggest means to correlate these efforts. It will familiarize itself with intra, inter-provincial and foreign trade, and will co-operate with the other provinces and the Dominion. It will also study such questions as production and consumption, and the marketing of our products, the number of hours of work per day and days of work per week, the standard of wages and commodity prices. These questions are of national as well as provincial concern, and British Columbia can take the lead in urging co-operation with the other provinces and the Dominion as a whole.

National Unemployment Insurance should be established upon a contributory basis.

2.—Our Financial position must be reviewed. Current expenditure must be kept within current revenue. While maintaining the credit of the province, effort must be made to reduce capital charges. We cannot continue to pay exorbitant rates of interest for money.

3.—The Taxation Structure must be revised with a view to reduction wherever possible, including exemption in the lower scale of wages and salaries.

Edward Walters, who has been

paying a visit here with his par-

4.—The health of each of us is important to the whole community, and a measure of State Health Insurance should be made effective, not only to preserve health, but to reduce costs both to the average citizen and to industry.

5.—A general and effective review must be made of the Educational problem, rejecting any proposed organization that involves a caste system. We must facilitate the intellectual growth of each individual member of society in order to equip him for his daily tasks, and for the enjoyment of such cultural pursuits as may be in keeping with our social customs.

Triangular disagreements between the school boards, municipal councils and the department of education must be adjusted, and our whole system placed upon a sound financial basis.

6.—The financial position of our Municipalities is of increasing concern. An equitable adjustment must be made as between the province and the municipalities, and the municipalities placed in a sound financial position.

7.-An effort should be made to settle our Agricultura! Lands in order that more of our citizens may be self-supporting. Agriculture as a whole must be put upon a sound and profitable basis, and made capable of sustaining and directing itself, in line with all other national, basic Industries.

8.-Continuous effort should be put forth to assist industry in Marketing its products, in timber, agriculture, fishing, mining and, in fact, every operation where it appears that useful service wan be rendered.

9.—Our highways must be kept in good condition, both for the benefit of settlers and the tourist traffic, and expanded as circumstances warrant. In this connection a Highway Board should be established to make for continuity of policy and to inspire confidence in impartial treatment. 10.-A Public Utilities Commission should be

established.

11 .- A National Central Bank should be estab-

12.—Social Services, such as Mothers' Pensions, Old Age Pensions, etc., must be maintained. Abuses of administration should not be allowed. and injustice through mere technicalities should not be permitted.

13.—The Peace River must be given access to the Coast.

14.—In order that the utmost Freedom of Action by Members of the Legislature may be assured in respect of questions before the House, it is Liberal policy that a government shall be considered to be defeated only upon a straight want-of-confidence motion.

15.—The Dominion Government will be asked to place the Province of British Columbia upon a basis of equality with the other provinces, and to this end request will be made for a Royal Commission to ascertain the extent to which the Province of British Columbia has not been given Equality of Treatment with the Other Provinces of the Dominion.

16.—There shall be a permanent Voters' List to ensure that all eligible voters are enrolled.

17.—The Leader of the Liberal Party is given a free mandate to choose for his associates in government, men of character, ability and standing, having regard solely to the public interest.

LIVES"

# Strong Shoes

The season when bad weather may be expected has arrived and young and old need boots and shoes suited to the occasion. We have been preparing for the fall and have been laying in a stock of Leckies' and other makes of shoes which

will resist rain, sleet or slush and keep the feet dry, thus avoiding unnecessary colds.

The surprising thing about these shoes is the price. They were purchased in quantities at low rates and we are taking a very small margin of profit so the price to the public is far below anything hitherto offered for fall and winter wear.

Come in and Look Them Over and Compare Prices.

Great English Actor, Week-End Feature at Capitol

actor, who is always popular with Prince Rupert audiences, is to be seen here again this week-end at the Capitol Theatre in "The King's Vacation." He is surrounded with a fine cast and lavish settings and the story is said to be one of the best of his screen career. The plot itself is a happy combination of light comedy and heavy drama.

Mrs. Florence Arliss, the star's wife, supports him in one of the principal roles, other outstanding members of the cast including Dick Powell, Patricia Ellis, Dudley Digges, O. P. Heggie and Marjorie Gateson.

"The King's Vacation" is the story of a man who gave up his wife and child, his happiness in fact, when called unexpectedly to his country's throne and who, when son, Invercess; Mrs. V. C. Grant peacefully deposed after eighteen years of pomp and power, leaves his queen consort and returns to the scenes of his earlier happiness. What he finds has taken place there and the changes he observes in the people he knew and loved eighteen years befor, give Mr. Arliss a rare opportunity to display his talents for both kindly humor and depth of feeling. His daughter's affair with the ambitious mechanic and his own mature romance with the deserted queen are parallel love stories of unusual charm and power.

#### SPORT CHAT

Boxing fans of Prince Rupert have been looking forward with considerable interest to the return engagement of Billy Bagshaw and Nina Gurvich at the Moose Hall tonight and the expectation is that there will be a bumper audience on hand to witnes this headline event as well as an interesting card of preliminaries. Bagshaw, who al-Rupert; S. F. M. Moodie, Victoria; ready has a victory over Gurvich to his credit, is reported to be in first class condition and is confident by good fielding, prevented the All Howard and daughter, Kennecott, that he will be able to repeat. He LOOK OVER YOUR Alaska; Mr. and Mrs. A. Y. Wil- has been trained by his backer,

> Gurvich, although suffering from slight cold, has shown considerable improvement under Tommy Morgan's training and realizes that to remain a drawing card in the local ring, particularly since it has been intimated that the winner of tonight's bout is to be matched with Benny Windle for the championship of Northern British Columbia. It was announced this morning that Prince Rupert-Overcast, light the bout had been changed from ten southeast wind; barometer, 29.48; three-minute rounds, as originally arranged, to ten two-minute rounds
