Pacific Coast Bootleggers See Chance For Profitable Business in Smuggling From United States in Competition Against Highly-Taxed Beverage Here

VANCOUVER, Dec. 19:-The Pacific Coast rum running boot now appears to be on the other foot as far as this coast is concerned. Whereas the illicit liquor used to travel from Canada to the United States, the abolition of the dry laws in Uncle Sam's country make it appear that it may now be profitable to attempt to smuggle liquor from the United States in the opposite direc- ,

tion to compete with the highly-taxed legal beverage in Canada. DEATH OF According to word which has been received here the federal government is preparing to take special precautions to prevent rum-running on the Pacific Coast from United States into Canada.

When a traveler shows us his samples the thing we most want to know is how good the articles are.

Of course we want our prices to be as low as anyone else's but we want to sell gifts which will never cause our customers or us any trouble in the future.

We would rather lose an odd sale than have people say our goods are not right.

People will always find us glad to do our best to make right any disappointing article as it is well known no store can help making a little mistake once in a while.

People will find our prices on the whole very reasonable this year even if silver has gone up a little for some of our goods were purchased before the raise and many of our gold articles were in before the advance.
