Dr. W. T. Kergin Tells of Clinic at
Rochester and Call Made at
World's Fair

The clinic at Rochester established by the Mayo Brothers was the pioneer institution of its kind but today there are clinics in all the large cities where just as good work is being done with the result that the clinic at Rochester has suffered considerably, according to Dr. W. T. Kergin in an address to the Rotary Club at its luncheon in the Commodore Cafe yesterday. This competition, combined with the depression has resulted in a reduction in the number of patients at Rochester to about a third to one-half of the number there were a few years ago.

Dr. Kergin said he had been making periodical visits to Rochester during the past 25 years. At the (Continued on Page Four)

Staich and Spencer were in the employ of the United Empire mine. The rowboat in which they were crossing the river was attached to a cable. The river was very high at the time.

Brooke Hart, San Jose Youth, Murdered After Kidnapping; Confessed Abductors Are Held

SAN JOSE, Cal., Nov. 17:—United States Department of Justice special operatives and local police announced yesterday that Brooke Hart, 22-year old son of Alexander J. Hart, wealthy San Jose store owner, who was kidnapped on Thursday of last week, had been murdered and that two abductors, who had confessed, were under arrest on kidnapping and murder charges. One of the men was arrested Wednesday night as a result of police intercepting a telephone call from a garage to the Hart home in regard to ransom posting. This man, in confessing, implicated the second who was arrested yesterday.

The men told of seizing young Hart as he left his father's store, forcing him to drive into the country where he was murdered and the body thrown over a bridge into a river. The body has not yet been found. Hart's father fell into a faint on receiving the news. The mother has been in a state of collapse ever since the kidnapping.

Under the laws of California state, the offense of kidnapping carries the death penalty.

Presentation Made To Bride-Elect at Party Wednesday

Director and members of the cast of the play "The Little Clodhopper," which was staged recently in First United Church, enjoyed a bridge party on Wednesday evening at the home of Mrs. Elmer Thompson, the affair proving delightful for all present. Games were also played during the evening and refreshments served. Mrs. G. V. Wilkinson was the prize winner at bridge.

One of the interesting features of the evening's proceedings was the presentation to Miss Victoria Krievsky, who was one of the popular members of the cast of the play, of a beautiful silver bonbon dish. The presentation was made by the director, Mrs. John Manson, in view of Miss Krievsky's forthcoming marriage to Hawthorne Dunn which will take place on December 1.

The President and Litvinoff have resumed their interrupted conversations and it has been authoritatively stated that distinct progress has been made towards the recognition of the Soviet by United States and that an official announcement might be made by tonight. THE DULL DAYS

This is the season of the year when we are apt to experience a good many dull days which tend to have a depressing effect on the individual. This may extend itself to the community unless we are careful. That is where the value of amusements comes in. We do not have to be affected by the weather, by the long nights and sunless days. By keeping our minds on something else we forget all about weather. Rainy days and storm have no terrors for us.

People who devote part of their spare time to studies of some kind may find the long evenings a decided benefit to them. Happy is he who at the coming of spring can look back and feel that the winter has been profitably spent.

AIR SERVICE ACROSS ATLANTIC

The announcement published yesterday that a trans-Atlantic air service is to be established between Britain and this continent is one of outstanding importance. The failure of the airships has compelled those interested in air travel to turn their whole attention to heavier than air machines and these have been developed to such a point that they are as safe as railway trains or automobiles. The probability is that they will in the near future be able to land and take off much easier than they do now and using a much smaller area. In any event it seems that yesterday's announcement may be an historic event.

RETURNED TO FOLD

Brig. Gen. Sutherland Brown, Col. Goodland and F. J. Crowhurst of Victoria are to be congratulated on their reconversion to Conservatism after having strayed from the fold for a brief period. They seem to have seen the light as a result of the recent action of the B. C. electors in discarding most of the independents. At any rate they are back where they really belong now and while they cannot expect to be elected they can be defeated with honor.

BAZAAR IS FINE EVENT

St. Andrew's Woman's Auxiliary Scores Usual Success at Annual Affair Yesterday

The Woman's Auxiliary of St. Andrew's Anglican Cathedral held its annual bazaar yesterday and the event was, as usual, a complete success both socially and financially. The affair was opened at 3 o'clock by Bishop G. A. Rix and continued into the evening, supper being served to a large gathering.

Mrs. J. C. McLennan was convener of the tea room. The tea tables presented a particularly attractive appearance, scarlet flowers and scattered petals being used to pretty effect in the decorations. Mrs. G. A. Rix, Mrs. C. H. Orme, Mrs. J. H. Pillsbury and Mrs. W. T. Tobey poured and serveurs were Mrs. F. A. MacCallum, Mrs. J. G. Johns, Mrs. A. E. Parlow, Mrs. J. P. Cade, Mrs. A. L. Holtby, Mrs. J. A. Hinton and Mrs. H. G. Kennedy.

In charge of the bazaar stalls were the following: White Elephant—Mrs. C. V. Evitt and Mrs. J. W. Nicholls. Grab Bag—Miss Rosie Cox. Home Cooking—Mrs. Robert Bartlett and Mrs. G. A. Woodland.

CITY HAS NO FLOATING DEBT

valued by a competent builder and the city engineer for insurance purposes. It was found that some buildings were insured for double their value and others were under-insured. All buildings and contents are now covered by a blanket policy in the same companies as heretofore but at a greatly reduced rate. The three fire trucks are also covered for the first time for public liability. Application will be made for a general reduction in fire rates to which I believe the city is entitled on the ground of general efficiency in the water and fire departments.

Urges Home Buying

"I have consistently urged home buying on the part of the citizens of Prince Rupert and the marketing in the city of food products from the interior and at a meeting in August of the Boards of Trade of Central B.C. in Smithers I urged the members present to organize the farmers with a view to supplying the Prince Rupert market. A meeting was called later in the year of delegates of the Farmers' Institutes and a committee of the Boards of Trade from Terrace to Prince George. An agent was appointed in Prince Rupert to dispose of this year's produce and organized efforts will be made in 1934 to more fully supply Prince Rupert with products grown in Central B.C.

"Under an amendment to the Municipal Act of 1933, by-laws have been passed extending the period of redemption for property sold for taxes in 1932 for one year and for property sold in 1933 for two years.

"Fishing is, and will remain for the immediate future, the mainstay of the city, but as times improve a united effort must be made to create more shipping and more industries in Prince Rupert. We cannot prosper without more dinner pails. As far as possible our city obligations will be met so that capitalists will not hesitate to invest here.

"May I express my thanks and appreciation for the help that I have received from all the organizations and the citizens of Prince Rupert, and especially for the cooperation of the head of each department and of all the members of the staff of the city organization."

In connection with the restoring of the local line of the Canadian National Railways following high water troubles one of the principal jobs is to repair bridge foundations which have become loosened by the raging torrents. Piles are being re-driven in at least three bridges. Slides along the line between Woodcock and Kwinitsa are also being cleared and repairs made elsewhere on the track.

TWO FILMS BOTH GOOD

Western Thriller and Mystery Comedy Being Shown at Capitol This Wee-End

"Sunset Pass" a fast-moving Zane Grey story starring Randolph Scott, Tom Keene, Kathleen Burke, Harry Carey and Kent Taylor, and "The Crooked Circle," a lively comedy mystery with Ben Lyon, Zasu Pitts, James Gleason and Irene Purcell in the leading roles, are the principal features of a double bill picture program being presented this week-end at the Capitol Theatre here.

"Sunset Pass" is the story of a gentlemen's association deputy who discovers that the men he is supposed to track down and apprehend is the brother of the girl he loves. The film, which follows the original story closely, is replete with thrilling incidents including a raging prairie fire, a mad stampede of an enormous herd of cattle and plenty of hard riding and breathless gun fighting.

The story of "The Crooked Circle" deals with the conflict of a club of amateur criminologists when they cross an organization of crooks. The crooks take possession of a haunted house and many weird events take place, all the apparently supernatural doings eventually turning out to have perfectly natural origin. It is an elaborately mounted picture.

Mrs. James Denholme, who recently underwent a major operation in the Prince Rupert General Hospital, sails tonight by the ss. Prince John on her return to her home at Tiel, Queen Charlotte Islands.

Individualism in the economic field must give way to co-operation. Conscious or not we must be the instruments to bring about a new social order. Liberal democracy has a duty, namely, to re-educate itself to cope with the new historical hour, or perish.

LOCAL MAN VISITS EAST

(Continued from Page 1)

time of his first visit the town had from 2,500 to 3,000 inhabitants. The father of the present Mayo Brothers was a good country doctor. His sons worked hard and obtained good results and soon attracted attention. Their offices were downtown over some stores. Then they built a quarter of a million dollar clinic and in ten years had outgrown it and a three million dollar building was erected. Large hotels also went up in the city.

In telling of the visit to the World's Fair at Chicago, Dr. Kergin described the big tiresome crowd and the buildings which were almost ugly by daylight although rather startling at night. The cost of getting the grounds under way was said to be \$30,000,000 and it was carried out by private initiative without help from the city or state. It was expected that, by the time it closed, it would have paid its way. The city had benefitted temporarily not only through the ordinary visitors but through the numerous conventions held there.

One of the exhibits that interested Dr. Kergin was the "Man from Germany" in the science exhibit. This was an effort to educate the public in regard to itself by building a man, covering it with a transparent skin and illuminating the interior so that the details of the anatomy might be studied. The whole of the science exhibit was intensely interesting and a great deal of time could have been spent there had it not been for the crowds.

At Cleveland the doctor attended a convention of 5,000 members of his profession but, just at that time, one of the big football matches was being played and he found that their convention was wholly eclipsed by the interest taken in the football players. It was a lesson in humility.

ECONOMIC RECONSTRUCTION

Editor, Daily News:—

We have natural resources and abundant labor, capital, machines, agricultural fields all inoperative for lack of markets, for lack of purchasing power. We are face to face with a vicious circle common to the rest of the world. All we lack is a co-ordinating power to set the parts in motion.

Thanks to the wisdom and foresightedness of true democratic minds whose vision has been fruitful in providing for the establishment of an industrial council, after so many years of gloom and groping in the dark, we at last breathe an atmosphere of action.

Man has not exhausted his organizing capacity. After having created these wonderful plants, shops, mines, mills, etc., which are today only partially operated, and this for exclusively selfish motives, with utter disregard to social welfare, is it impossible for man's organizing capacity and administrative power to operate them for social needs?

Man must first of all have the courage to face his conscience and overcome his hypocrisy and greed. Industrial feudalism must cease in order to save society. Wealth is a social product like the cultural heritage. Society must organize industry on a basis of social function. In other words industry must be operated on behalf of national welfare, though allowing a legitimate remuneration to capital.

It is inconceivable that the present state of affairs should last any longer. Some one may think that, after electing a new government, there remains nothing else to be done. Let no one deceive himself. We are turning one of the corners of history and only the mobilization of the best there is in the nation can overcome this oppressive situation. There is a whole education to be made on the new principles of ruling modern society. Rugged in-
