ALBERTA GIRL, ON WEDDING EVE, SLAIN AT LIQUOR PARTY

Edmonton Man Under Arrest on Charge of Killing Bride-Elect

Tragedy Which Cost Life of Alma Armstrong of Pigeon Lake Occurred at Pre-Nuptial Celebration—Thomas Higginson Held

EDMONTON, Aug. 25: (CP)—Thomas W. Higginson, aged 48, of Edmonton has been charged with murder as a result of a shooting yesterday which caused the death of Alma Armstrong, aged 20, of Pigeon Lake near here. The slain girl was to have been married today. The tragedy occurred at a drinking party, the police allege.

German Crowd Honor Old Soldier

Thousands of German troops and citizens crowded around the Marshals Tower on site of the historic battle of Tannenberg, to hear Chancellor Adolf Hitler deliver the funeral oration just before the burial of late German President Paul von Hindenburg, whose fame as a soldier was based on the strategy which won the overwhelming victory in Tannenberg marshes during the World War. Remains of the old soldier and statesman were buried in the Tannenberg memorial.

Fleet of Planes On Way South Following Four-Day Stay Here

Hopped Off Just Before Noon on Their Way Back to San Diego After Expedition to Western Alaska—Weather Favorable For Flight

Twelve United States Navy flying boats, which had been here since last Tuesday following an expedition to Western Alaska, took to the air again shortly before noon today, hopping off for Vancouver on the next stage of their return flight to their base at San Diego. Going in advance to scout weather, three planes started off at 11:30, the remaining nine taking off about ten minutes later. Shortly following the planes, the mine sweepers Sandpiper and Avocet, two of several convoy units for the aerial expedition, also sailed, the former for Astoria and the latter for Portland.

YOUTH HAS ITS VOICE

Harold Winch, Youngest Parliamentarian in Canada, Delivers Address in Support of C. F. Principles

Urges Socialism

Capitalistic System Tottering and Must be Replaced by New Social Order, Giving Better Distribution

A fair-sized audience in the Moose Hall last night heard an interesting address in support of Cooperative Commonwealth Federation doctrines by Harold Winch, M. L. A. for Vancouver East, youngest Parliamentarian in the Dominion of Canada. Mr. Winch, despite his youth, proved himself to be quite at home on the platform. His address, while along typically Socialistic lines, developed some new ideas and was ably delivered. Einar Larsen presided.

In opening, Mr. Winch stated that he had been travelling considerably of late in British Columbia and through the prairie provinces and he had found that this district too had been suffering from the depression in spite of all the fine things that Premier Pattullo might say in regard to it.

Tracing the development of the "cultural being called man" along somewhat academic lines, Mr. Winch stated, through the industrial revolution, controlling of the forces of nature and development of machinery, man had solved one great problem of bringing into being in plenty all the essentials of life and comfort. Now, however, the capitalistic system had outlived its usefulness and had broken down despite the efforts of the political mechanics to patch it up. The great problem now was to build up a system of distribution that would put the goods which could be produced in such abundance into the hands of the people who needed them.

This could be done only under a new order of society. The aim of the C. F. was to bring about such a new scientifically planned socialistic order of society which would provide production for use, security of tenure of farms and homes and socialization of health services, currency and banking and all the things necessary to human welfare.

Patching Up Capitalism After declaring that both Mackenzie King and Bennett had failed in the federal field to patch up the old capitalistic plan and make it run again, Mr. Winch devoted Continued on Page 2

thing this morning with the airmen in their cockpits waiting for the fog to lift before starting off. Immediately the atmosphere to the southward was completely cleared, the machines rose, making an impressive spectacle in the brilliant sunshine. It is expected they will reach Vancouver in about five hours after leaving here. Flying conditions all along the coast were reported highly favorable.

TURN OVER NEXT WEEK

Mill on Columario Mine Near Usk To Start Operating Within Few Days

By the middle of next week, the mill, which has been under construction for the past few months on the Columario mine near Usk, will go into operation, it is stated by John Willman, manager of the mine, who is in town on business. A crusher from San Francisco went from here to Usk on yesterday's way freight.

Mr. Willman arrived in the city from the interior on Thursday night's train and returned to Usk last evening.

NEW YORK, Aug. 25: (CP)—Bar silver closed at 49 5/8c on the local metal market today, unchanged from yesterday but down 1/8c from the prevailing price of the last

NO FISH SALE

No boats being in with catches, there was no sale of halibut on the local Fish Exchange this morning.

Robert Boddie and William McLean, who have been on a two weeks' trip to Vancouver, returned home from the south on the ss. Prince Rupert yesterday.

REID McLENNAN IS RETURNING OFFICER FOR SKEENA RIDING

OTTAWA, Aug. 25: (CP)—Newly appointed federal constituency returning officers announced today include Reid L. McLennan of Prince Rupert for Skeena.

STEVENS ADAMANT

But Colleagues Think Probe Will Be Useless With Him Presiding

FERNIE, August 25 (Canadian Press)—Reports to the contrary notwithstanding, the price spreads committee of the House of Commons will continue to function with its course being directed by its appointed chairman, himself, Hon. H. H. Stevens, minister of Trade and Commerce and M.P. for Kootenay East, said in an address here before his constituents.

Colleagues See Differently OTTAWA, August 25—In spite of Hon. H. H. Stevens' defiant insistence in a speech at Fernie that the price spreads investigation will proceed under his leadership, colleagues say the inquiry's usefulness will be wrecked if it continues with him as chairman and believe a conference with Premier R. B. Bennett will change his mind.

Train Service To Change Very Soon

Will Revert to Fall and Winter Schedule a Week From Tomorrow, September 2

Train service on the local line of the Canadian National Railways will revert to fall and winter schedule as from September 2, a week from tomorrow, when there will be three trains a week in either direction. The service, practically the same as that of last winter, provides for trains leaving here for the east on Mondays, Wednesdays and Fridays at 5:30 p.m. and arriving Tuesdays, Thursdays and Saturdays at 10:15 p.m.

OTTAWA MAN NAMED NEW MINERALOGIST FOR THIS PROVINCE

VICTORIA, Aug. 25: (CP)—Dr. John Fortune Walker of Ottawa of the Geological Survey of Canada has been appointed provincial mineralogist for British Columbia to succeed J. D. Galloway, who resigned recently. He is a graduate of the University of British Columbia.

Mr. Sims, who was accompanied from here by Oscar Landry, local superintendent, will make an inspection of lines in Northern British Columbia and the Yukon.

New Low Rate of Interest

TORONTO, Aug. 25: (CP)—With interest at 2 1/2%, an all time low for any Canadian province, Premier Mitchell Hepburn today announced the sale of \$47,500,000 worth of bonds.

CARNIVAL SUCCEEDS

Total Attendance Far Exceeded Expectations and Financial Result Satisfactory

With another splendid entertainment by the Home Gas Optimists who also provided music for the big dance which followed, the Fair Board's Carnival came to a successful close last night. The crowd last night was possibly not as large as on the two preceding evenings but the total attendance unquestionably exceeded the most hopeful expectations. Weather being so auspicious, the sports and outside attractions were also well patronized and the effort of the Fair Board to recoup its financial reverses of the previous year or so was undoubtedly to a large extent successful.

It was also indicated that the annual exhibition and carnival here is a feature which is both popular and desirable. Many are hoping that the full exhibition will be revived next year.

MEMBER IS IMPRESSED

G. W. McPhee, M.P. For Yorkton, Sees Great Future in Store For Central Interior

Greatly impressed with industrial potentialities of the central interior from the standpoint of agriculture, timbering and mining is G. W. McPhee K.C., Liberal M.P. for Yorkton, Sask., who, with Mrs. McPhee and two sons and daughter, is in the city this week-end after having spent two weeks at Lake Kathlyn as the guests of Olof Hanson M. P. and Mrs. Hanson. "If we could only envision the future twenty-five years from now, I am sure it would be a wonderful picture. Blessed as it is with a great bounty of natural resources, there cannot but be great development in store for it," says Mr. McPhee.

"Mr. Hanson had been telling me about your land of home-makers out here," remarked Mr. McPhee, "so I came out to see and I have found it a country in which one is making no mistake in establishing his home."

Mr. McPhee has long been prominent in public life and is an experienced parliamentarian. A barrister by calling, he first entered public life in 1910 as a member of the Legislative Assembly of Prince Edward Island. He has been M. P. for Yorkton ever since the seat was created in 1925.

F. M. Dockrill of Telkwa, who has been here this week attending the convention of the Associated Boards of Trade of Central British Columbia, left by last evening's train on his return to the interior. Word received from Vancouver is to the effect that Mrs. Dockrill is doing nicely following an operation which was performed on Monday of this week.

WATERFRONT WHIFFS

Halibut Fishing to Continue For Some Time Yet— Catch is Well Ahead of Last Year—Repairs to Be Made at Government Wharf

With the closing down of the Area No. 2 grounds to fishing for the 1934 season on Sunday last, the large majority of the smaller vessels of the Prince Rupert halibut fleet have now tied up, leaving in operation only the larger boats in the more remote Area No. 3. Area No. 2 was closed down with the exhausting of the quota limit for the season set at 21,700,000 pounds by the International Fisheries Commission but early in August there was still some ten million pounds left of the season's allowance for Area No. 3 with the possibility that this might not be exhausted for possibly a couple of months, this depending, of course, entirely on the intensity of fishing. Meantime, it will, no doubt, be well into the fall before the season's halibut catch ceases coming into Prince Rupert.

After having spent the summer at the Prince Rupert Fisheries Experimental Station of the scientific staff of which he is a member, Orville F. Denstedt leaves on the Princess Louise next Tuesday afternoon on his return to Montreal where he will resume his studies at McGill University leading to his Ph. D. degree.

Halibut landings at the port of Prince Rupert for the 1934 season up to and including yesterday totalled 11,407,865 pounds or more than one million pounds ahead of last year's 10,300,100 pounds at the corresponding date. American landings had reached a total of 5,917,500 pounds as compared with 5,551,100 pounds last year while the production of Canadian boats was 5,490,265 pounds in comparison with 4,749,000 pounds a year ago. Landings for the week ending yesterday totalled 569,000 pounds of which 290,200 pounds was from Canadian boats and 278,800 pounds from American. The high price of the week for Canadian fish was 6.2c and 6c received by the Bayview for 4,000 pounds and the low 4.5c and 3.5c received by the R. W. for 10,000 pounds. For American fish the high price of the week was 6.8c and 4c paid the Sirius for 13,000 pounds and the low 5c and 3.5c which the Radio received for 40,000 pounds.

Already Booked Full

Although it is more than two weeks before the time for the trip, Union steamer Catala is already booked full for the special round trip single-fare excursion voyage she will run to Vancouver, leaving here for the south on September 18, and, indeed, there is a substantial waiting list. Anyox and Stewart people will join Prince Rupert travellers in making the trip. The excursionists may return on the voy-

ages arriving here from the south either September 23 or 30.

The provincial police cruiser P. M. L. 8 left on Thursday morning for a patrol trip to Kitimaat. The vessel is due back Sunday night or Monday morning.

Work is about to start of putting in thirty-two new fender piles along the front of the government wharf. The job will be carried out by the public works department by day labor under the direction of Superintendent E. J. Fitzpatrick.

C. P. R. steamer Princess Adelaide, Capt. S. K. Gray, arrived in port at 5:30 yesterday afternoon from Vancouver and waypoints and sailed at 10 p.m. on her return south.

Sea Serpent Seen

From Squadare, trolling harbor of Stephens Island, emanate more than one report of "sea serpents" being seen, several of the boys insisting that they have been seeing things of late and that they have not been imaginary either, nor have they been induced by the spirit of fiesta which has been in the air these last few days. One fisherman reports having seen such a serpent skimming its undulating and writhing length along the surface of the sea while, near the same locality, another of the boys declares that he saw what he believed to be two of the marine monsters at play, one rearing itself fully six feet above the water and distinctly showing a serpent head with eyes and all. It was blackish in color and possibly eleven or twelve inches thick.

The week has been one of unusual interest along the front with the British cruiser H. M. S. Danae and the United States Navy air and surface craft leading the show. The Danae, which had arrived a week ago yesterday afternoon, left on Thursday morning and, with the departure of the twelve American flying boats and their tenders for Vancouver today, the excitement is over and business getting back to normal again. Naturally, all roads led to the waterfront during the week, many townsfolk finding their way out to Seal Cove where the

American planes were moored during their four-day visit here.

Having been delayed by having had to load canned salmon at Skeena River cannery points, Union steamer Cardena, Capt. Ernest Georgan, arrived in port at 1:35 this morning from the south and, after discharging a couple of carloads of freight, sailed a few hours later on her return to Vancouver and waypoints. The vessel had a capacity list of passengers, consisting largely of members of cannery crews bound for Vancouver, and 10,500 cases of canned salmon.

Enroute south from Ketchikan to Seattle, the palatial yacht Taconite, having on board her owner William E. Boeing, Seattle aircraft manufacturer, and party, who have been cruising in district waters for several weeks, was here last night southbound.

Bringing back a large number of local, Anyox and Stewart passengers who have been on a special two weeks' excursion trip to Vancouver, C. N. R. steamer Prince Rupert, Capt. Neil McLean, arrived in port at 10:30 a.m. yesterday from the south and sailed at 3 o'clock in the afternoon for Anyox and Stewart whence she will return here this evening southbound.

Pilot Jack McConnachie of Anyox hopped off at 10:30 Friday morning for Ketchikan, having as a passenger aboard his Eastman flying boat Mr. Einstoss of New York, head of the Atlantic and Pacific Packing Co., American co-operative fish marketing concern, who came in Thursday night for a brief business visit here. Pilot McConnachie was back at 3:30 yesterday afternoon from Ketchikan to resume sight-seeing flights with his plane in connection with Carnival Week. He has been doing good business during the past couple of days, the short flights over the city proving very popular.

SPECTACLE OF JUNGLE

Exciting Animal Scenes and Breath Taking Thrills in "Tarzan and His Mate"

Struggles between man and beast on land and in the water are blended into a powerful drama of conflict in "Tarzan and His Mate," jungle adventure thriller, continuing adventures of Johnny Weissmuller and Maureen O'Sullivan in Darkest Africa, which is the end of the week feature offering on the screen of the Capitol Theatre here. In the picture Weissmuller is photographed under water as he fights with a crocodile to the death. Herds of elephants are shown charging a safari of several hundred natives. Man-eating lions attack jungle explorers, and herds of apes, wildebeests, zebras and other jungle beasts are shown in action. Human drama is injected into the primitive romance by a strong supporting cast which includes such notable players as Neil Hamilton, Paul Cavanaugh, Forrester Harvey and Doris Lloyd. A tender love story is woven through the jungle thrills providing a concentration of sympathetic interest on Weissmuller and Miss O'Sullivan that make each of their dangers seem vividly real.
