DEFAULTING WOULD BE SERIOUS

Premier Bennett, when defending the loan to the C. P. R. recently, said if the big company had defaulted on its bonds it would have been a serious thing for Canada. Undoubtedly it would be a much more serious thing if a province defaulted, so, following out his own argument, Premier Bennett will be bound to lend the province of British Columbia money enough to enable it to carry on, much as he may dislike doing so.

TOO MUCH OR TOO LITTLE

After the legislature had been in session a few weeks and nothing had been done of a spectacular nature by the government, complaint was made that the Premier was not attempting to fulfil his promises. He was not doing enough. Now that he is taking effective steps to insure action along the lines he suggested on the hustings, he is being blamed for doing too much.

People who expected the Premier to be just an ordinary politician are being grievously disappointed. It is now dawning upon them that he has both courage and brains and administrative ability.

TAKING CARS TO INTERIOR

Prince Rupert people are hardly likely to take as final the decision of the railway company that it will not carry cars to Hazelton for less than forty dollars. As that is the only way out for people who wish to drive beyond the immediate locality it seems to be not only an unreasonable decision but an injurious, destructive decision.

We all appreciate the action of the management of the railway company in keeping the local shipyard busy. It is the logical thing for them to use their own shipyard in preference to taking work to rival yards. We appreciate the fact that they are for the first time doing the right thing in this direction. For that reason most people will hesitate at making the kind of protest that seems to be coming to them in regard to the auto rates. About all that can be done is to keep the matter alive and appeal again and again to the good sense of the management who seem to take a jaundiced view of the situation.

EXPANSION IN MINING

Active Year on Properties in Immediate Vicinity of Smithers Is Expected

New Developments

Babine Gold, Glacier Gulch and Omineca Silver King Important

A substantial expansion in the scope of mining activities in the district immediately adjacent to Smithers is anticipated this season, says B. F. Messner, well known mining operator of the interior town, who has been in town for a couple of days on business. Mr. Messner, who arrived Wednesday morning by train from the interior, sailed last night on the Prince George for Vancouver where he expects to spend about ten days on business in connection with the Omineca Silver King Mines Ltd. of which he is manager. He will also pay a visit to the Bridge River mining area, where he has interests, before returning to Smithers.

The Babine Gold on Dome Mountain, the Glacier Gulch on Hudson Bay Mountain and the Omineca Silver King in the Babine Range are expected to be the principal operating properties in the Smithers section this year.

Glacier Gulch Optioned

W. R. Wilson & Sons optioned the Glacier Gulch gold property a few weeks ago from Grover Lovell, Stuart Campbell and Wesley Banta. Camp buildings are being erected and the plan is to continue the present tunnel into the ore.

W. R. Wilson & Sons also have the Babine Gold property on the Babine slope of Dome Mountain. Development is to be continued on a larger scale with the installation of new and heavier machinery which may be taken in now that road facilities have been improved.

Quite extensive work is to be undertaken this year in continuation of the development of the Omineca Silver King Mines Ltd. silver-gold-lead property with Mr. Messner again in personal charge.

Somewhat further removed from Smithers but still of importance to the entire district is the Bob Creek property south of Houston, the gold showings of which have attracted great attention during the past year or so. McPherson & Crawford, who have done considerable

work on the big ore dyke, are reported to have refinanced the property with a view to installing a mill and bringing the mine into production. It promises to materialize into a major operation.

Important Industry
Mr. Messner expects mining to play as time goes on a more and more important part in the development of the interior country, a development from which Prince Rupert cannot but benefit. What mining has done during the past year for the Cariboo and Bridge River districts it may do at any time for the central interior. Indeed, Mr. Messner believes mining to be the most important potential industry for this district. He urges the importance of keeping it ever to the fore and losing no opportunity to boost it and encourage support for it.

USK MINE LOOKS WELL

Columario Said to be Sure Winner And Stock is Advancing Rapidly

Columario Mine is surely a winner, according to a visitor from Usk who was in the city this week. This man, who had been employed at the mine for some time, stated that there was now no doubt of the success of the mine. Some forty-five men are employed there now. A mill is being erected on the property and a tramway is to be installed, connecting the mine with the railway.

The stock of Columario has been steadily advancing in value. When reorganization took place it was selling at 32c and today it is worth about 87c.

The town of Usk is taking great pride in the mine and residents express the opinion that the place will soon be looked on as an important mining centre.

*"Mother Says
Give Me the Tin
with the Gold Cow"*

EVEN the children know the fresh creamy flavor of Borden's St. Charles Milk—in the tin with the Gold Cow Label.

Particular cooks find it the most economical way to put "creaminess" in soups, creamed vegetables, puddings and cakes. They know definitely there is no other way to put such good flavor in cooking at so low a cost.

Borden's St. Charles is fresh, full-cream milk evaporated to double richness. From this smooth, concentrated milk you can work up favorite recipes to much finer flavor.

Try the St. Charles way to better cooking. You will never be without it again when you see for yourself the delightful food it will help you to prepare.

It's better and you can prove it!

3 Tests Prove It Better

Try this: Open a can of St. Charles Evaporated Milk. Note the creamy color—the pleasant odor—the rich, creamy, smooth consistency—the pure, fresh flavor!

Try this: Make cream sauce with St. Charles Evaporated Milk—or a dish of mashed potatoes. Taste—and see how the pure, fresh, Borden flavor gives greater deliciousness!

Try this: To-day, have a cup of coffee with St. Charles Evaporated Milk to "cream" it. See how smoothly St. Charles blends in. Taste its fresh-flavored richness!

Guide to Correspondents

The Daily News welcomes correspondence on live topics of the day or any other subject of public interest, but letters must be brief and to the point. The long-winded correspondent has no place in modern journalism.
Every letter must be signed by the writer, not necessarily for publication but as a matter of good faith and courtesy. All unsigned documents go to the waste paper basket. Letters of a caustic character must have the signature appended for publication.
Letter should be written on one side of the paper only. Correspondents must avoid personalities and the language should be such as would be allowed in the ordinary rules of debate.

MUSICAL ROMANCE

Ramon Novarro and Jeanette MacDonald Co-Starred in "Cat and Fiddle"

High romance and luring melody are deftly combined in "The Cat and the Fiddle," which is the weekend feature at the Capitol Theatre. Ramon Novarro and Jeanette MacDonald are the stars and they are said to make an ideal pair of lovers. The story in its romantic and dramatic aspects is strong and absorbing entertainment.

From the moment that devil-may-care Novarro, escaping from an irate restaurateur, pops into a taxicab that happens to be occupied by Miss MacDonald, the picture hits a fast romantic pace. Frank Morgan is the suave producer who also falls in love with Miss MacDonald. Charles Butterworth is Novarro's faithful but none-too-bright friend. Jean Hersholt is Novarro's professor and confidant. Vivienne Segal's lovely voice and seductive personality is also featured.

The musical numbers sung by the co-stars and by Miss Segal are already hits and include such selections as "The Night Was Made For Love," "She Didn't Say Yes," "One Moment Alone," "The Love Parade," "A New Love Is Old" and "Try to Forget."

Three Speakers At Rotary Club

S. C. Thomson, Reid McLennan And Verge Moore Tell of Some of Early Experiences

There were three speakers at the Rotary Club luncheon yesterday—S. C. Thomson, Reid McLennan and V. S. Moore.

Mr. Thomson told of experiences in the South African War, of various incidents in an eventful life including a few years spent overseas in the Great War and his final return and settling in Prince Rupert. Reid McLennan gave an interesting description of life at the Royal Military College, Kingston, where he spent two years prior to his final year at the University of British Columbia leading to his career in law.

V. S. Moore, whose father settled years ago on the famous Cherokee Strip, told of horse and cattle ranching in Alberta, followed by the more prosaic ranching in Terrace and electrical engineering at Anxox and Premier prior to entering the garage business.

Harry Rochester and Thomas Trotter, former members of the club, were welcomed back to membership in the club after having been out of affiliation for some time.

YOUR LIVER'S MAKING YOU FEEL OUT OF SORTS

Wake up your Liver Bile —No Calomel needed

When you feel blue, depressed, sour on the world, that's your liver which isn't pouring its daily two pounds of liquid bile into your bowels. Digestion and elimination are being slowed up, food is accumulating and decaying inside you and making you feel wretched. More bowel-movers like salts, oil, mineral water, laxative candy or chewing gum, or roughage, don't go far enough. You need a liver stimulant. Carter's Little Liver Pills is the best one. Safe. Purely vegetable. Bore. Ask for them by name. Refuse substitutes. 25c. at all druggists.
