Government Expects to Get Bulk of Legislative Program Before Parliament Early Next Week—New Trade Treaties

OTTAWA, Jan. 26:—Hardly was the centuries-old ceremonial in connection with the opening yesterday by Lord Bessborough, Governor General, of the fifth session of the Seventeenth Parliament of Canada completed than Premier R. B. Bennett announced that, in line with the government's plan to expedite business and get the session over as speedily as possible, the main estimates would probably be presented today with the government hoping to get the bulk of the more important legislative program before the House by early next week.

Has Bad Turn

LORD BADEN-POWELL
LONDON, Jan. 26:—Lord Robert Baden-Powell, founder of the Boy Scouts, who has been ill, took a slight turn for the worse yesterday.

In addition to the Dominion-wide program of public works with a view to relieving unemployment and stimulating economic recovery and other important legislative plans, the speech from the Throne yesterday foreshadowed new trade agreements with a view to bringing about expansion of Canada-Empire trade. Amendments to the Bank Act, it was intimated, would include provision for the establishment of a central bank.

No time is being wasted in getting down to the real business of what is generally expected to be a very important session and, possibly, the last one before the next general election.

Artificial Halibut Hatching Is Being Worked Upon Now By Commission Fish Expert

SEWARD, Alaska, Jan. 26: (CP)—Working on an experiment never before successfully completed, Richard Van Cleve, scientist for the International Fisheries Commission, declared that live halibut eggs had been put under incubation in a small hatchery here and he had hopes of producing young halibut.

A portable hatchery was set up here a month ago by an expedition sponsored by the commission.

Mr. Van Cleve said that tentative findings by the commission had also disclosed that halibut, instead of decreasing, were apparently increasing in numbers.

Mr. Van Cleve is a son-in-law of Mr. and Mrs. J. H. Pillsbury of this city. His wife is at present visiting here.

How Milk Pickets Curb Delivery

Increasing vandalism and mob violence marked efforts of pickets to establish a blockade around Chicago in enforcing a general milk strike that caused an acute shortage in the Windy City. Above is shown one of six milk trucks seized by pickets and sunk in the Chicago river as one answer of the strikers to proposed price cuts. Below are pickets with steel-toothed drags on a highway near the Illinois-Wisconsin state line, part of the blockade thrown around Chicago to prevent milk deliveries.

Chief Executive Gets Tired of Senatorial Delay on Gold Bill

Vote in Upper House on Dollar Devaluation Measure is Expected Today—Victory For Administration With Defeat of Silver Amendment is Expected

WASHINGTON, D.C., Jan. 26:—President Franklin D. Roosevelt has intimated that he is tired of continued efforts in the Senate to interfere with the passage of his gold bill and dollar devaluation measure. The latest move on the part of the obstructionists has been an amendment to provide for the setting up of a board of control on the proposed stabilization fund.

With administration forces gathering themselves together with a view to getting the measure through without delay, a vote was being expected in the Senate by today. Majority Leader Robinson threatened yesterday, if the bill was not passed today, to hold the Senate in session over Saturday. Passage of the president's bill with defeat of the Wheeler silver amendment is predicted freely by political observers.

Yesterday was devoted largely to Republican criticism of the president's currency program. Senator Hastings of Tennessee describing the gold bill as more dangerous even than the Bryan silver plan.

DAILY EDITION  Friday, Jan. 26, 1934

OUR DEMOCRACY

While we like democracy better than any other system of government that has yet been devised, we all have to admit that it has many weaknesses and is not by any means an ideal form of government. Take our own city as an instance. Here in Prince Rupert we had an election in the autumn from which we have not yet fully recovered. Now we are to endure another election probably during the coming summer or before. A member for the Federal Parliament has to be elected and the contest is likely to be a hot one, with probably three candidates in the field. This will unsettle business, cause a certain amount of ill-feeling and result in nothing in particular. The affairs of state will still carry on no matter who is elected. In the city things are different. The commissioner carries on his work quietly and efficiently without causing any of those annual disturbances in the form of elections. In spite of the unpleasant adjuncts of the democratic system it should be possible to treat an election much like we should a football match between rival teams. The difficulty is that the game of politics is tainted with professionalism. Drop into a party meeting on either side and it is usual to find a large number of those present are men who are getting something from the government or who expect to get something. They are not actuated by motives of public interest but by self-interest. That is one reason for the springing into life of the various new groups and parties who hope by changing the method to rid the country of the selfish hangers on. At a time like this it is incumbent on those who wish to see good government to take a prominent part in the activities of the various political parties in order that the work of organization and administration of party groups be not left with those who are using the parties for their own personal benefit. That is the only way to save the old parties and the present system from sure destruction.

BASKETBALL LAST NIGHT

C. N. R. A. Took Measure of Kaiens In Exciting Senior League Contest

Senior League—C. N. R. A., 39; Kaiens, 34.
Intermediate League—High School, 20; Merchants, 22.
Ladies' League—Cardinals, 11; Comets, 9.
Junior League—Flashes, 5; Seythians, 9.

It being Burns' night last night the basketball attendance was not what might be called large although the hoop squads put on some good games.

Seythians defeated Flashes in a low scoring hard checking Junior League game 9-5.

In the Ladies' League the Cardinals and Comets staged a grand struggle and, up until two minutes before the final gun went, it was a tie score and then Sue Boddie sank the winning shot.

Lindsay scored ten points for the Merchants and that is why the Students lost in the Intermediate League. Armstrong had his eye cut in a questionable collision with Moxley.

Hungerford's men were lucky to beat the Kaiens in the Senior League. It was a close exciting contest. It was hammer and tongs right from the start with the Kaiens playing the better floor game although Conductor Johnson kept his train crew in hand most of the way. Eight minutes before time the score was tied 12-12 and then Bullet Scott sank three to put his crew ahead four points at the interval 18-14.

Four minutes of the second half was gone when C. N. R. A. tied the score. The Kaiens tied it up again with seven minutes left to play and it was still tied at five minutes to play. Smith sank a penalty and a field goal and Santerbane converted another to put the game on ice.

Four out of six games were played in last night's Billiard League fixture between Canadian Legion and Empress, the veterans, as a result, taking an aggregate lead of 747 to 703. One more game between John May and Ellis Morris was played in the fixture from Tuesday night of Grotto vs. Elks, Morris winning 200 to 172, leaving the Grotto still in the lead 972 to 859 with one more game of George Howe, Grotto, vs. William Stuart, Elks, yet to be played.

Individual scores were as follows in the Legion vs. Empress match last night:

Games remaining to be played are as follows: Alex Murray, Canadian Legion, vs. W. E. Willisroft, Empress, and M. M. Lamb vs. J. Sutherland.

SPORT CHAT

Leaving the idle Chicago Hawks in the third notch, the New York Rangers and Detroit Red Wings were sharing first place honors in the American Division of the National Hockey League as a result of Tuesday night's play when the former defeated the Ottawa Senators and the latter the Boston Bruins, both by decisive scores of 5 to 2 and 3 to 1 respectively. The Toronto Maple Leafs further increased their unquestioned supremacy in the International Division, where the first place issue, at least, has long since assumed the appearance of a walk-away, as a result of an 8 to 4 victory over the Montreal Maroons in the big-scoring spree so far this season.

BURNS IS HONORED

Splendid Banquet Held at Presbyterian Church to Celebrate Memory of Scotia's Bard

The "Immortal Memory" of Robert Burns was fittingly honored last night in the social hall of First Presbyterian Church when a large gathering sat down at the annual banquet of the Women's Auxiliary of that church held in observance of the one hundred and seventy-fifth anniversary of the birth of Auld Scotia's national bard. A splendid dinner, including The Hagliss wi' a' the honors, was served by the ladies after which an excellent program of music and speeches was presented, the feature address of the evening being that on "The Immortal Memory" which was delivered impressively by Thomas McClymont.

There was much enthusiasm during the dinner when The Hagliss was borne around the tables by Murdo McLeod, being piped into the hall in the ancient ceremonial manner by Piper Sam Leslie. W. M. Brown, in his well known style, recited "The Address to a Hagliss."

Rev. W. D. Grant Hollingworth, the pastor, was in the chair and other speakers, besides Mr. McClymont, included City Commissioner W. J. Alder, who responded to the toast to "Our City" which was proposed by Dr. L. W. Kergin; Ex-Mayor Cyril H. Orme, proposing the toast "Brethren A" which was responded to by H. N. Brocklesby, and Mrs. Joseph T. Mandy, who responded to the toast to "The Lassies" which was proposed by W. M. Blackstock.

There were vocal solos by Mrs. William Millar, Mrs. J. H. McLeod and J. Melville, with Mrs. E. J. Smith, Miss Maizie Macdonald and Mrs. J. S. Black as accompanists, while selections by a Scottish orchestra consisting of John Bremner, J. B. MacKay and James Watt, as usual, proved very popular.

The proceedings opened with the Toast to the King and the singing of the National Anthem, closing with the community singing of "Auld Lang Syne."

THAT DEPRESSED FEELING IS LARGELY LIVER

Wake up your Liver Bile—Without Calomel

You are "feeling punk" simply because your liver is "going dead" daily two ounces of liquid bile into your bowels. Digestion and elimination are both hampered, and your entire system is being poisoned.

What you need is a liver stimulant. Something that goes further than salts, mineral water, oil, laxative candy or chewing gum or roughage which only move the bowels—ignoring the real cause of trouble, your liver.

Take Carter's Little Liver Pills. Purely vegetable. No harsh calomel (mercury) salt. Safe. Ask for them by name. Refuse substitutes. 25c. at all druggists. 52

NEW FEE IMPOSED

Chimney Fires Will Now Cost \$5 Unless Sweeping Has Been Done Within Year Previous

City Commissioner W. J. Alder announced this morning that a bylaw was to be prepared authorizing the fire department to impose a fee of \$5 for runs to chimney fires, this fee to be applicable unless it can be shown that the chimney, in which such a fire occurs has been swept within a year prior to the call.

It is pointed out that in Victoria there is a charge of \$10 for such a call, in Vancouver \$15 and in Seattle and Portland \$25 to \$50.

The commissioner has been actuated in his decision to impose the fee by the excessive number of chimney fires there have been here of late, in 1933 alone there having been 49 such calls out of a total for the year of 104.

GREAT VALUE OF SALMON OLD FAIRY TALE HERE

When Canned It Is Almost as Good As Cod Liver Oil, Providing Vitamins, Iodine, Bone And Tissue

Best Is Thrown Away

H. L. Brocklesby Explains in Lecture How Fish Fills Almost Every Need of Human Body

The value of canned salmon as a food, particularly for growing children, was emphasized yesterday afternoon in an address to the Rotary Club at its regular weekly luncheon in the Commodore Cafe, John Dyb-havn presiding. Salmon contains the proteins essential for the replacement of tissue. It contains an abundance of vitamin D, in the oils and the bony part of the fish provides the calcium-phosphate which is necessary for development of the bones, particularly the teeth. There is also an iodine content which is valuable and which greatly exceeds the iodine content of butter and eggs.

The vitamin D, in the oil of canned salmon is about 90% of that contained in cod liver oil. As the amount of vitamin in the salmon depends upon the amount of oil it is very desirable to retain the oil when using the fish. A large proportion of the desirable elements are found in the skin so that not only the oil but the skin should be retained as food. The person who throws away the bone, the skin and the oil is throwing away all the most valuable part of the fish.

Mr. Brocklesby told of the variations in characteristics of species in nature and particularly in salmon which enabled them to tell approximately where the fish was caught, and how long it was out of the water before being canned. The variations largely corresponded to the differences in climate and the nature of food. Not only was there a difference between each species of salmon but a difference between salmon taken in the Skeena River and those taken in the Fraser. They were now working on the halibut with a view to ascertaining exactly how long halibut had been out of the water when sold at the dock. This was done through a study of the enzymes of the fish. Decomposition set in directly the fish were out of the water and continued steadily, the speed of decomposition varying with the temperature.

The beloved fairy tale fantasy "Alice in Wonderland," with Alice, the Cheshire Cat, the Garden Frog, the White Knight, Humpty Dumpty, King of Hearts, the Mock Turtle, the Mad Hatter, Tweedledee and Tweedledum, the March Hare and all the other funny people, will come to life on the screen of the Capitol Theatre here this week-end in the talking picturization of the famous story. The cast which portrays the immortal story is, indeed, a notable one with Charlotte Henry, from Brooklyn, N.Y., who was selected for the part after a five months' search, in the title role and others including such first rank stars as Richard Arlen (The Cheshire Cat), Rosco Ates (The Fish), Gary Cooper (The White Knight), Louise Fazenda (The White Queen), W. C. Fields (Humpty Dumpty), Skeets Gallagher (The White Rabbit), Cary Grant (The Mock Turtle), Edward Everett Horton (The Mad Hatter), Roscoe Karns (Tweedledee), Baby LeRoy (Joker), Lucien Littlefield (Father William's Son), Mae Marsh (The Sheep), Polly Moran (The Dodo Bird), Jack Oakie (Tweedledum), Edna May Oliver (The Red Queen), May Robson (The Queen of Hearts), Charlie Ruggles (The March Hare), Jackie Searl (Dormouse), Allison Skipworth (The Duchess), Ned Sparks (The Caterpillar) and Ford Sterling (The White King).

In addition to "Alice in Wonderland," one of the best double picture bills that has ever been presented here includes an exciting Zane Grey Western "Life in the Raw" with plenty of excitement and featuring George O'Brien, Claire Trevor and Greta Nissen.
