Three days ago, the British despatches told of riots in the British Pub. May 13 Dated April 18, 1911. House of Commons. Fists were shaken by honorable gentlemen in | Skeena Land District - District of Coast Range ! the faces of other honorable gentlemen. For the first time in history a British Prime Minister was howled down by an Opposition the first time in his career, the Speaker of the House had occasion to use his prerogative to adjourn the House on his own responsibility, to avoid disorders.

Yesterday the despatches told of another state of affairs. They told of a House that was of one mind. They told of a Premier reading Pub. April 29th, 1911 from a manuscript a speech of grave import, and being followed by the Leader of the Opposition who endorsed all the Premier said. There was not a dissentient voice in the House. It was a thrilling anti- following described lands: climax to the scenes of the previous days.

The explanation is simple. The question which rent the House west, thence 80 chains north, thence 80 chains to a point where indignities were plentiful, was a domestic one. The question of the shearing of the power of the House of Lords, deeply Pub. May 13. Francis S. Preston, Agent Pub. The question of resenting German aggression in Morocco is different. It may be that the ordinary British subject is less affected thence east 80 chains, thence north 80 by final result of German intrusion in Morocco than in the passage Dated Apr 1 20, 1911 JOHN ROBERT PACE of the Peers Veto Bill in its original form; it may be that the lesser feelings are swallowed up in the revival of old hates; the fact that Britain is ready to sink all differences in the face of German aggres- to apply for permission to purchase the following lands: sion is very significant.

CANADA'S GREAT WHEAT CROP

Last year out of the total three and a half billions of wheat pro duced in the world Canada grew practically one hundred and fifty million bushels. The exact figures were 149,990,000 bushels. She was seventh on the list of wheat producing countries of the world, the order of precedence being: Russia, United States, British India France, Hungary, Italy and Canada.

This year if the crop estimates are realised, Canada will spring to fourth place in the list of wheat producing countries, coming behind Russia, United States and India.

In view of the great rapidity of the increase of the wheat crop in Canada, it is obvious that our statesmen should be looking out for entrance to the world's markets. To continue to pour our increasing crop into the British market, will break the price of wheat. This apply for perm ssion to purchase the following Pub. TAVE You Been Getting Poor on the Money You Have "Saved" by Using Cheap Printing?

The business man who seeks cheapness as the First consideration in buying his printing, never really pays much attention to other elements in the transaction - except, perhaps, the matter of getting it done Quickly.

The money SAVED by buying CHEAP printing is money on which you have paid an absolutely ruinous premium! It will make you poor if you persist in saving enough of it.
