Three Sailors Already Rescued From Capsized Japanese Naval Vessel More Believed Alive

Hull is Docked

Steel Coffin Is Being Cut Open In Hope of Extricating Further Survivors

SASEBO, Japan, March 14: (CP)—Ten additional members of the crew of the torpedo boat Tomozuru, which capsized off here on Monday, have been rescued and sixty-six bodies were recovered. Hope is abandoned for any more of the 196 men who were on board being still alive.

SASEBO, Japan March 14 (Canadian Press)—With three sailors rescued of 13 who had been trapped in the hull of the capsized torpedo boat Tomozuru, rescue workers were cutting doggedly at the steel walls of the vessel last night in the hope of finding more members of the crew alive. They were spurred on in their work by a story from the rescued men that eight of their companions were still alive in the engine room.

The three rescued men escaped through a hatch under water to reach the surface.

The floating coffin, still bottom up as it was when a cruiser found it off the coast, was shoved into dry dock, its masts and funnels in the cutaway where keels ordinarily go.

The Tomozuru ran into a terrific storm during manoeuvres and it is believed her heavy armament caused her to turn turtle.

The cruiser Tatsuta located her bottom up and towed her five hours to port when it was discovered that some members of the crew were still alive.

APPEAL IS PROCEEDING

Ex-Mayor C. H. Orme Seeking Reduction From Court of Valuation of Fulton Street Corner

Hearing of Ex-Mayor C. H. Orme's appeal against an assessment of \$13,380 placed by the city on the southwest double corner of Third Avenue and Fulton Street is continuing before Judge W. E. Fisher in County Court today, having resumed this morning after being in progress all day yesterday.

Mr. Orme is appealing only on the valuation placed on the land and not on the assessment of the building which was reduced by the court of revision from \$5700 to \$5000. The case turns on the interpretation of the term "actual value" under the Municipal Act.

The first witness called yesterday was City Treasurer D. J. Matheson who approved the assessment roll as it now stands. G. H. Arnold, called as an expert witness as to land values, valued the double corner in question at \$7500.

John Dybhavn testified for the city as an expert witness. He declared that there had been no relation in recent years between price paid and actual values of property. City Engineer F. N. Good gave technical evidence.

The city was continuing to present evidence today in support of the assessment. Thomas McClymont and Max Heilbronner being among the witnesses.

Government Is To Be Responsible For Its Work and Wages Plan

Premier Pattullo Tells Legislature He Does Not Intend to Neglect This Pledge—McGeer Rises to Defence of Advisory Council Proposal

VICTORIA, March 14: (CP)—This government will not hesitate to be responsible for everything it does and for everything it has pledged itself to, including "work and wages," declared Premier T. D. Pattullo in the Legislature yesterday, speaking in the debate on the bill providing for the establishment of an economic advisory council. The bill later received second reading.

"The point of this new council is this," said the Premier. "Before proper judgment can be exercised, a person must know the facts and I believe the proposed council can do much to co-ordinate the large amount of information which we already have. Members of the government have not time to do this work but it must be handled by some one properly equipped."

Mr. Pattullo is back in the House again, apparently in good shape, after a brief sojourn in St. Joseph's Hospital suffering from a recurrence of nasal infection.

G. G. McGeer K.C., Liberal member for Vancouver-Burrard, replied to C. C. F. criticism that the economic measure had no teeth in it, stating that the final provision of the bill empowered the Lieutenant Governor-in-council to implement recommendations of the economic board.

AUSTRALIA DID IT

In view of the proposal of the British Columbia Government to refund the entire debt at a lower rate of interest, it may be pointed out that in Australia the internal debt was refunded on a basis which reduced the interest charges by twenty-two and a half percent.

The Australian financial troubles commenced earlier than did those in this country. Donald Marvin tells about it in his monthly letter written for the Royal Bank of Canada. Prices in that country began to decline in 1926. The public debt was a large one, the interest charges on which were about 28,000,000 pounds sterling. The country was unable to balance its budget and for the year 1930-1931 the deficit was over twenty million pounds or approximately one hundred million dollars. These deficits were financed by means of treasury bills, which were discounted by the banks, the rate being six percent at first but as confidence was restored the rate fell to as low as two and one-half percent.

Last year the deficit dropped to four million pounds after providing for the sinking fund and in the past few months business has improved to such an extent that the government has been able to reduce taxes and tariffs and even refund taxes already paid to the amount of about seven million pounds.

The writer of the article suggests that in the depression it was the monetary system which gave way and the monetary policy of Australia will constitute a precedent for other countries when the next decline in prices commences.

AFTER POLICE DOGS

The Victoria City Council is asking for special powers to discriminate between various breeds of dogs. The powers are particularly designed to put greater restraint upon police dogs which it is said are a danger to human life and limb and also a danger to other dogs of less predatory type. The legislation which has been accepted by the legislative committee of the Legislature gives the city power to prohibit police dogs in the city or to deal with them in any other way that may be desired in order to protect citizens and less savage breeds.

There have been some complaints in Prince Rupert of police dogs interfering with pedestrians but as a rule these canines are as well behaved as their neighbors.

COMMUNITY BILLIARDS HALL HERE ARE CLOSE

Project Being Considered By Gyro Club Committee, No Definite Action Being Taken

H. N. Brocklesby, chairman of the club activities committee of the Gyro Club, reported to that organization at its regular monthly business luncheon yesterday that the committee was going into the project for the establishment in Prince Rupert of a community hall which could be used for basketball and badminton playing and various other purposes. The general idea was that such a hall might form the nucleus of a gymnasium project which has long been the ambition of local service organizations. However, there was much information yet to be gathered with a view to determining the feasibility of such an undertaking and Mr. Brocklesby hoped to have a more complete report to make to the club in the near future.

T. N. LePage and H. S. Meadows were initiated as members of the club at yesterday's luncheon, the initiation ceremony being impressively conducted by Rev. W. D. Grant Hollingworth. N. L. Freeman and C. E. Starr, members of the club who have been spending the winter in the south, were welcomed back by President W. H. Tobey who was in the chair.

Other club business was disposed of.

FRANK DIBB BOARD HEAD

Library Directors Have Inaugural Session—Mrs. G. H. Arnold Chairman of Book Committee

The new Prince Rupert Public Library board held its inaugural meeting last night when Frank Dibb was chosen chairman and Thomas B. Black was re-appointed as secretary. The book committee for the year consists of Mrs. G. H. Arnold, chairman, W. H. Tobey and R. L. McLennan.

The chairman extended a welcome to the new members of the board. Those present were Mrs. Arnold, Mr. Dibb, Mr. Tobey, Mr. McLennan, Mr. Black and Miss A. D. Cruikshank, the librarian.

A letter from S. J. Jabour, chairman of the library patrons committee, informed the board that organization of the drive for funds for new books was proceeding. It was decided to send letters of appreciation to various organizations taking part in the drive.

A communication from the deputy provincial secretary stated that at present it did not appear as if it would be possible to reinstate library grants.

Decision was made to spend \$50 for new books in the duplicate pay section.

Librarian's Report

The report of the librarian showed a total of 5099 books loaned during the month of February—3534 fiction, 615 non-fiction, 63 duplicate pay and 887 juvenile. The average per day for the twenty days the library was open was 254.9 books. Eighteen new borrowers were listed during the month with fifteen cancelled, making the total number of library users 3782 or three more than the previous month.

During the month 75 new books had been acquired by gift while 51 had been discarded, making a total of 8797 books on the shelves—24 more than in the month previous.

WATERFRONT STORY HERE

Novel and Exciting Drama Presented on Screen of Capitol This Mid-Week

An inside story of the waterfront of a great port with its loves, its hates, its hideous struggles and its beautiful calmness shattered by a conflict of human contraband, "I Cover the Waterfront," a stirring talking picture drama, comes as the feature attraction to the screen of the Capitol Theatre here this mid-week.

Ben Lyon has the role of a reporter who aids federal men in running down a gang of pseudo-fishermen, headed by Ernest Torrence, whose real racket is smuggling Chinese into the country. After hordes of undesirable aliens have been landed under the very noses of the authorities, the mystery is finally solved. The Chinese are put inside sharks delivered to a fertilizer factory. With Lyon, Claudette Colbert, as the daughter of Torrence, provides the romantic interest in the novel picture. Hobart Cavanaugh, Harry Beresford and Purnell Pratt also have important parts.
