PROVINCIAL MINISTERS RESPOND TO LEADERS CALL

WILL HAVE ANOTHER TRY TO GET PAPERS SIGNED

The City Council's Settlement of the G.T.P. Assessment Has Been Held Up Since June 8—Mayor to Go to Victoria to Get McBride's Signature

After waiting since the 8th of June for Hon. Richard McBride to put his signature to the papers, the city council's settlement of the G. T. P. assessment seems likely soon to go through. At the meeting of the city council last night Mayor Manson suggested that as Premier McBride would be in Victoria probably this week it would be no doubt a delicate matter if a member of the council went to Victoria to see the Premier with the object of obtaining the hasty ratification of the Legislature on the settlement made between the G. T. P. and this city. It was decided to send the Mayor to Victoria to see Mr. McBride and request him to hurry necessary ratification so that people here may vote on it as soon as possible.

McBride will Forget
 It would be a wise move for Mayor to go to Victoria," said Alderman Smith. Mr. McBride will have several important matters to attend to when he returns and will likely forget all about the people of Prince Rupert.

Alderman Hilditch endorsed his colleague's views. Alderman Newton said he knew that many things were being held back in the city pending the final settlement of the agreement and urged the necessity of clinching the matter.

When the Mayor will go was not decided. It will likely be this week.

NO PLACE LIKE HOME But You Must Have Good Furniture for Comfort

With new homes being built all over the city the necessity of furniture to put in them will arise. One of the greatest bonafide sales of furniture commenced in the city today when Mr. George Tite, proprietor of the up-to-date furniture store on Third avenue, began to offer some startling bargains. Many of the goods offered are being sacrificed at less than the manufacturer's cost. The features of Mr. Tite's half page advertisement on another page of this issue are worth the close attention of those desiring to furnish a home.

A NEW TARIFF ON U.S. COAL

Reduction of \$3 per Ton on Coal at Calgary—Will Relieve Coal Shortage.

(Canadian Press Despatch)
 Winnipeg, Aug. 1.—The new coal tariff which will affect all coal carried west from Port Arthur and Fort William will go into effect in a few days. There will be no change in the rate to Winnipeg. In portions of the West directly affected by the coal strike which normally get coal from the western mines there will be a very material reduction. To Calgary the reduction will be \$3 per ton, further west the greater will be the reduction. It is stated also that large quantities of coal will be obtained for the West from Montana.

Sir William Mackenzie says a few cars of Montana coal will be brought in and tested. If the test proves satisfactory large quantities of the coal will be imported. Investigations are being made with reference to the possibilities of securing retas on coal from Indiana and Illinois if the strike is not settled.

DEATH RESULT OF FOOLING

Corporal Dixon, Winnipeg Young Man, Brought on His Own Death by Foolishness.

(Canadian Press Despatch)
 Winnipeg, Aug. 1.—After fooling his companions with a cry of drowning and giving them the "Ha, Ha," when they swam to his assistance, Corporal Dixon of Strathcona's Horse, got into real difficulty and was drowned in the Red river in full view of his companions, who, believing his cries for assistance were another hoax refused to go to his aid. The body was recovered later.

VETO BILL WAITS

Will Come Before Commons Again in a Week

(Canadian Press Despatch)
 London, Aug. 1.—The political crisis over the veto bill has undergone a slight modification. The House has decided to postpone the re-appearance of the bill before the House of Commons until August 7th.

City Clerk Woods was granted a two weeks' leave of absence commencing August 14th. He made application for a month.

WORKMEN FIND TRACES OF PRIMITIVE DWELLERS

Over on Digby Island, the Workmen Find Skulls, Stone Tools and Remains of an Old Camp Fire Fifteen Feet Below Surface of the Ground—Has Been There Thousands of Years

That Prince Rupert harbor was inhabited by races of mankind, thousands of years ago is abundantly demonstrated by the discovery over on Digby Island at the Quarantine Station, of traces of human life fifteen feet below the level of the present soil.

Skull, teeth, stone hammer heads a stone ball like a garden bowl, and even the ashes of dead camp fires which flickered their last rays of warmth thousands of years ago, have been uncovered by the picks and shovels of the workmen.

These interesting archaeological discoveries lack only the presence of a skilled student to tell approximately how long it is they have lain there. Through strata after strata can be traced the succession of centuries, telling how drop by drop the clouds have deposited their tiny grains of sand and earth, and the processes of decay have caused the timber and grass to form an earth covering for the remains.

One of the most interesting discoveries shown to a News reporter by Mr. P. W. Anderson, the contractor for the quarantine station, was the remains of an

old fireplace, more than ten feet below the level of the ground. It was opened out by the picks of the workmen as they dug down to the hard pan of the island in finding a strong foundation for the stately concrete buildings which are to be built there.

The scooped out hollow in the ground could be plainly traced in the strata, and in the centre were the charred remains of the fire-coals. For several feet all around were clam shells, not left by Nature, but by the hands of primitive man. This was indicated by the fact that all the shells were hollow side up, plainly telling the tale of how early savages gathered round the "clam bakes" in the dawn of mankind's history, just as the modern picnicker does.

A stone ball perfectly rounded like a cannon ball, and a rounded stone hammer head, belong to a later date. The shells, and the workmen have unearthed several, are in good preservation. To a layman, they appear to be narrower in the forehead, than the typical Haida head.

FELL FROM A CHURCH STEEPLE

Terrible Fate of J. Henza at Vancouver—Scaffold at Mount Pleasant Church Broke.

(Canadian Press Despatch)
 Vancouver, Aug. 1.—J. Henza, a painter, was killed instantly this morning by falling from Mount Pleasant church steeple, a distance of sixty feet when the scaffolding gave way.

Henza's partner, Frank Shepard fell to the ground also fracturing his thigh.

Ald. Douglas' Request

ROGERS AND COCHRANE TO MAKE GREAT SACRIFICE

Manitoba's Minister of Public Works and Ontario's Minister of Mines Will Enter Federal Politics--Hon. Mr McBride Will Think it Over Some More and Write Later--Harry Senkler, K.C., to Contest Vancouver Against Mr. G. H. Cowan

(Canadian Press Despatch)
 Ottawa, Aug. 1.—The political campaign started in real earnest today. The party chieftains were busy holding conferences and arranging plans, and a few important announcements were made in consequence.

Enter Federal Arena

Hon. Robert Rogers, Minister of Public Works for Manitoba, Hon. Frank Cochrane, Minister of Mines for Ontario, and Hon. Richard McBride, Premier of British Columbia were closeted with Mr. Borden for a long time. It resulted in the announcement that Hon. Mr. Rogers and Hon. Mr. Cochrane will enter the Federal arena. Mr. McBride reserved his reply until he gets home.

Provincial Leaders

Hon. Mr. Rogers will contest one of the western seats, and will lead the campaign for the Conservatives in Manitoba. Hon.

Mr. Cochrane will lead the campaign for the Conservatives in Ontario, commencing with a monster picnic on Saturday at Toronto.

The Leading Tours

Neither Sir Wilfrid nor Mr. Borden have yet arranged their itinerary. It is understood, however, that Sir Wilfrid will devote himself to campaigning in Ontario and Quebec, while Mr. Borden will spend three weeks in Ontario, then a few meetings in Quebec, and wind up in the coast provinces.

Renegade Sifton

Clifford Sifton it is rumored, will direct the campaign generally for the Conservatives, who are hoping for gains in the lower provinces, and counting on Bourassa dividing Quebec.

Cautious Dick

Ottawa, Aug. 1.—Premier McBride was closeted with Mr. Borden and other prominent Conservatives yesterday. Later it was announced that strong efforts were being made to have the B. C. Premier stand for a Dominion seat and throw himself into the campaign. It is believed that Mr. McBride would give no definite answer until after his return home.

Vancouver, Aug. 1.—Although no formal announcement has been made it is believed that George Cowan, the late member of the Federal Parliament, will be the choice of the Conservatives again in this city for the forthcoming elections and that Harry Senkler, K. C., the president of the Liberal Association, will be the choice of the Liberals. The latter will nominate the candidate on Thursday night and the Conservatives after the arrival home of Mr. Cowan who will reach the city at the end of the week.

SHERIFF DIES FROM A FALL

Sheriff Ritchie of St. John, N. B., Meets Death from Accident.

(Canadian Press Despatch)
 St. John, N. B., Aug. 1.—Robert Rankin Ritchie, sheriff of the county and city of St. John, died last night as the result of a fall on Sunday in which he fractured his skull. He was a son of the late Sir William Ritchie, formerly Chief Justice of Canada.

Going to Victoria

Mayor Manson will leave on Friday per the S.S. Prince Rupert for Victoria where he will wait on Premier McBride to request the Government to ratify the G. T. P. assessment agreement.

COAL DUTIES ARE REPEALED

COAL MINERS DECIDE TO TAKE REFERENDUM VOTE

Will Decide Whether or Not to Accept the Settlement of Bigger Pay but Open Shop Proposed by the Conciliation Board

(Canadian Press Despatch)
 Prince, B. C., Aug. 1.—After a session of the executive of the district 18 held here last night the following resolution was adopted: "It has been sent to the various districts in the district:

shall accept the report of Dr. Gordon as a basis to enter into negotiations."

An officer will visit all the camps and explain advantages or disadvantages of the recommendations of the majority report and after the Conciliation Board returns are compared with late agreements. The election is to take place August 4th.

Word has been received here that the Corbin mine will shut down next Monday for an indefinite period. This will necessitate the stopping of trains on Eastern B. C. lines running from MacGillivray to Corbin and will close one of the most prosperous mines in the whole district.

GERMAN LINERS TO ENTER PACIFIC TRADE

Hamburg-Amerika Line of Steamships Preparing for Time When Panama Canal and G.T.P. are Completed

By the time the Panama Canal and the Grand Trunk Pacific are completed in two years' time, a new competitor will have entered the Pacific transportation field. The Hamburg-Amerika line of German steamers is already planning to build a fleet to sail from New York to Japan via the Pacific ports. They will sail through the Panama Canal, and call at San Francisco, Portland, Prince

Rupert and other of the leading Pacific ports on their way before taking the shortest route across the ocean. The new line will be able to bring settlers direct from Germany to the northern Pacific points, whence they will find easy approach into the interior. The company is said to be already engaged in purchasing waterfront property in Portland with a view to constructing docks. They have

already a trade on the Pacific Coast with the Comos steamers which they control, and with the great impetus which will be given to trade on the Pacific Coast with the joint completion of the Panama Canal and the Grand Trunk Pacific, they are planning great developments to their fleet for Northern Pacific waters.

HAMILTON INSANE ASYLUM IS DESTROYED BY FIRE

Inmates Fought Desperately When Efforts Were Made to Rescue Them—Many Had to be Knocked Unconscious—All were Saved After Terrible Experience

(Canadian Press Despatch)
 Hamilton, Aug. 1.—A terrible fire broke out in the Provincial Asylum here at two o'clock this morning, and completely destroyed a large portion of the main building. The fire is still burning, but is under control.

Some terrible scenes were witnessed during the first hour of the fire. Alarmed by the cries of the attendants on duty through the night, the staff of the hospital set to work to save the unfortunate patients. Many fled in terror, but others in the midst of the alarm refused to move from the burning building.

desperately and in terror against their would be rescuers, it was necessary for the guards to knock them senseless and then carry them to safety.

In one portion of the asylum, a large number of dangerous criminal lunatics are confined, many of them being murderers. Great precautions had to be taken to prevent any of them escaping during the panic in the darkness. The whole of the fire brigade and the police were called to the rescue, and did good work. The blaze destroyed the main staircase, cutting off all escape but the firemen by the use of life nets managed to save every person in the building.

WHAT IS RECIPROCITY?

The Reciprocity Bill is a proposal between Canada and the United States to reciprocally abolish taxes on the food products which are exchanged across the border between the two countries.

It will mean a reduction in the high cost of living, and make food more plentiful.

It will enable the people of British Columbia to enjoy the early fruits of the Pacific States free of duty.

It will enable the fruit growers of British Columbia to market their later matured fruits in the markets of the United States at a time when they will bring the highest prices.

It will open the markets of the United States to the lumber of British Columbia.

It will open the markets of the United States to the fisheries of Northern British Columbia.

It will bring twenty thousand fishermen and their families to Prince Rupert.

It will bring prosperity to Prince Rupert.

The United States Congress has carried the bill.

All that is now required is that Canada carries the bill.

Sir Wilfrid Laurier is appealing to the people of Canada to endorse reciprocity at the polls.

To secure prosperity for British Columbia support Sir Wilfrid Laurier and reciprocity.

The mutual abolition of taxes on food is the only issue in the present campaign.

THE HAND OF THE MACHINE

The News prints the following letter without comment. No comment is needed. It shows how the machine works to eliminate free competition of citizens for civic work. The thin trick by which the Board of Works shuffles out of the obligation of soliciting tenders in the open market for the hauling of crushed rock is quite apparent.

The letter was addressed by the City Clerk, apparently at the instance of the Board of Works, to a local contractor:

July 25, 1911

Dear Sir,—I enclose herewith cheque for \$17.50 in payment of your account for hauling rock crusher, etc. As I explained to you a week ago, the Board of Works together with the City Engineer, consider the charge of \$15.00 an extortionate one, and after considering the same for a week or so, the Board decided to pass the account for payment, and it instructed me when paying this account to inform you, you were to receive no more work from the City.

I hear from various sources that you are complaining because you were not asked to tender on the hauling of the crushed rock, and I mention this fact so that you will understand why you were not asked to tender, that is, I was simply carrying out instructions given to me by the Board of Works.

A REMINISCENCE OF SHERLOCK HOLMES

THE ADVENTURE OF THE RED CIRCLE

BY ARTHUR CONAN DOYLE

Copyright, 1911, by the Century Syndicate

The landlady drew an envelope from her bag; from it she shook out two burnt matches and a cigarette-end upon the table.

"They were on his tray this morning. I brought them because I had heard that you can read great things out of small ones."

Holmes shrugged his shoulders. "There is nothing here," said he. "The matches have, of course, been used to light cigarettes. That is obvious from the shortness of the burnt end. Half the match is consumed in lighting a pipe or a cigar. But, dear me! this cigarette stub is certainly remarkable. The gentleman was bearded and moustached, you say?"

"Yes, sir."

"I don't understand that. I should say that only a clean-shaven man could have smoked this. Why, Watson, even your modest moustache would have been singed."

"A holder?" I suggested.

"No, no; the end is matted. I suppose there could not be two people in your rooms, Mrs. Warren?"

"No, sir. He eats so little that I often wonder it can keep life in one."

"Well, I think we must wait for a little more material. After all, you have nothing to complain of. You have received your rent, and he is not a troublesome lodger, though he is certainly an unusual one. He pays you well, and if he chooses to lie concealed it is no direct business of yours. We have no excuse for an intrusion upon his privacy until we have some reason to think that there is a guilty reason for it. I've taken up the matter, and I won't lose sight of it. Report to me if anything fresh occurs, and rely upon my assistance if it should be needed."

"There are certainly some points of interest in this case, Watson," he remarked, when the landlady had left us. "It may, of course, be trivial—individual eccentricity, or it may be very much deeper than appears on the surface. The first thing that strikes one is the obvious possibility that the person now in the rooms may be entirely different from the one who engaged them."

"Why should you think so?"

"Well, apart from this cigarette-end, was it not suggestive that the only time the lodger went out was immediately after his taking the rooms? He came back—or someone came back—when all witnesses were out of the way. We have no proof that the person who came back was the person who went out. Then, again, the man who took the rooms spoke English well. This other, however, prints 'match' when it should have been 'matches.' I can imagine that the word was taken out of a dictionary, which would give the noun but not the plural. The laconic style may be to conceal the absence of knowledge of English. Yes, Watson, there are good reasons to suspect that there has been a substitution of lodgers."

"But for what possible end?"

"Ah! there lies our problem. There is one rather obvious line of investigation." He took down the great book in which, day by day, he filed the all agony columns of the various London journals. "Dear me!" said he, turning over the pages, "what a chorus of groans, cries, and bleatings! What a rag-bag of singular happenings! But surely the most valuable hunting-ground that ever was given to the student of the unusual! This person is alone,

and cannot be approached by letter without a breach of that absolute secrecy which is desired. How is any news or any message to reach him without? Obviously by advertisement through a newspaper. There seems no other way, and fortunately we need concern ourselves with the one paper only. Here are the Daily Gazette extracts of the last fortnight. 'Lady with a black boar at Prince's Skating Club'—that we may pass. 'Surely Jimmy will not break his mother's heart'—that appears to be irrelevant. 'If the lady who fainted in the Brixton bus'—she does not interest me. 'Every day my heart longs'—Bleat, Wilson—unmitigated bleat! Ah! this is a little more possible. Listen to this: 'Be patient. Will find some means of communication. Meanwhile, this column,—G.' That is two days after Mrs. Warren's lodger arrived. It sounds plausible, does it not? The mysterious one could understand English, even if he could not print it. Let us see if we can pick up the trace again. Yes, here we are—three days later. 'Am making successful arrangements. Patience and prudence. The clouds will pass.—G.' Nothing for a week after that. Then come something much more definite: 'The path is clearing. If I chance signal message remember code agreed—two A, two B, and so on. You will hear soon.—G.' That was in yesterday's paper, and there is nothing in today's. It's all very appropriate to Mrs. Warren's lodger. If we wait a little, Watson, I don't doubt that the affair will grow more intelligible."

THE COSY CORNER

DEVOTED PRINCIPALLY TO THE INTERESTS OF WOMEN

This is a little section of the paper, which from day to day will be devoted to subjects of special interest to women. Any and all of the ladies of Prince Rupert are invited to contribute to its columns, and to take part in its discussions. Suggestions and criticisms are invited by the editor. The hope is expressed that "The Cosy Corner" will fill a social need.

PRACTICAL HOUSEHOLD HINTS

If your rugs curl at the edges they can be made to lie flat by dampening the curled edge and pressing with a hot iron on the wrong side.

Newspapers will be found very helpful to pack around the freezer to exclude the air, and they are not so unwieldy as the customary carpet.

To bleach white garments use one tablespoon of borax to one gallon of water. Saturate the clothes and dry in the sun. Repeat the process if necessary.

To remove stains from iodine on linen put some liquid ammonia into a saucer and place the stained part of the linen in it. Rub well and the stain will vanish.

To whiten a doorstep mix a little quicklime with half a pint of skim-milk. Having first washed the doorstep, paint it over with the mixture; the rain will not wash it off.

Sunshine is one of the best health givers, so let it freely into your home. People who are too careful of curtains and carpets often exclude the sun and let in sickness and sorrow.

To set delicate colors in embroidered handkerchiefs, soak them before washing for ten minutes in a pail of water, in which a dessert-spoonful of turpentine has been stirred.

Cool bedroom slippers for hot weather can be made of straw soles, with caps of shirred ribbon stitched over the toes. Narrow ribbon bands about the ankle hold the slippers secure.

COOKING RECIPES

Maple Custard

Beat five eggs until they are very light. Add to them three cupfuls milk that has been boiled and allowed to cool, a cupful of grated or crushed maple sugar, and a pinch of salt. Stir them all together until thoroughly mixed, and strain into custard cups. Put these in a pan and cook in the oven until firm and lightly brown. Cool them in the refrigerator, and just before serving turn them out of the cups and sprinkle them with chopped blanched almonds.

Cherry Jelly

It is not generally known that jelly can be made from the half or two-thirds ripe cherries, and a jelly that is beautiful in color and delicious in taste. Wash one gallon of partly ripe cherries, but do not pit. Cook slowly for 20 minutes. Strain through jelly bag and add one cup sugar for each cup juice. Boil for five minutes, and a firm, crimson jelly will be the result.

Mrs. Alex M. Manson will not receive on Wednesday.

THE GOOD OLD WORLD

I saw a new world in my dream,
Where all the folks alike did seem:
There was no Child, there was no Mother
There was no Change, there was no Other.

For everything was Same, the Same
There was no praise, there was no blame;
There was neither Need nor Help for it;
There was nothing fitting or unfit.

Nobody laughed, nobody wept;
No one grew weary, so no one slept:
There was nobody born, and nobody wed;
This world was a world of the living-dead.

I longed to hear the Time-Clock strike
In the world where people were all alike;
I hated Same, I hated Forever;
I longed to say Neither, or even Never.

I long's to mend, I long'd to make;
I long'd to give, I long'd to take;
I long'd for change, whatever came after.

I long's for crying, I long'd for laughter.

At last I heard the Time-Clock boom,
And woke from my dream in my little room;
With a smile on her lips my Mother was nigh,
And I heard the Baby crow and cry.

And I thought to myself, How nice it is
For me to live in a world like this,
Where things can happen and clocks can strike,
And none of the people are made alike.

Where Love wants this, and Pain wants that,
Where all our hearts want tit for tat
In the jumbles we make with our heads and our hands,
In a world that nobody understands
But with work and hope, and the right to call
Upon Him who sees it and knows us all.

Milwaukee, Wis., July 31.—Jack Dillon, the Indianapolis middleweight, has signed a contract for a tour through Australia, New Zealand, France and England under the auspices of Hugh McIntosh. Jim Flynn said he had been signed for the same tour.

Dode Brinker, the fast Vancouver centre fielder will forsake baseball forever next fall, if he follows his present intentions. Dode is "prepping" himself to become an attorney-at-law. He expects to hang out his shingle in Seattle.

At a meeting of the provincial senior lacrosse league held recently the unfinished match of June 22 between the V. A. C. and Westminster teams was thrown out and will be played over on the local grounds on August 9. The teams only played three quarters on June 22, the score at the end of the third period standing 9-2 in favor of the V. A. C. boys.

Philadelphia, July 31.—Carl Morris thinks he is the real heavy-weight champion; at least that is what Harry Edwards is led to believe. Edwards has been dickering with Morris to bring him to Philadelphia to show his wares. Morris is willing to come, but thinks he should be paid. He only wants \$15,000 for the first six-round bout to be staged here, and in which the plan was to have Jim Flynn as his opponent. He also agrees to show here three times, provided he is paid \$40,000 for the eighteen rounds, receives \$1,000 as training expenses and three round-trip tickets from Tulsa, Oklahoma.

The Waseda baseball team, from Japan, plays a pretty and intelligent game. They were defeated by the Victors the other day, 4 to 0, in a fast and brilliant contest. It is fair to state that the Victors are just as much professionals as the regular Seattle league club. They are classed as semi-pros, simply because the members do not play day after day. Waseda is the only club in the world that has two players who wear glasses. Their pitcher is one of them and their right fielder the other. The right fielder uses two pairs of glasses when facing the sun, and he can land anything that comes his way.

President Graham of the Pacific Coast League, has emphatically denied that the Sacramento club will be transferred to San Diego. He is quoted as saying that Seattle may be added. The Coast League magnates have a kindly way of telling what they "may do" with Seattle, but it may have been observed that they do not get started. President Dugdale has always professed loyalty to the Northwestern League, and if he has experienced a change of heart it has been within a short time. He is at present in Victoria, so it is impossible to quote him. If Seattle wanted to join the Coast League there are many obstacles. Spokane or Vancouver could stop the play, and I know that they would. The only thing left would be outlaw ball for the Coast League and Dugdale, which is not to their liking. If Dugdale joined the Coast League, the Northwestern League directors would put another club in Seattle. There is the situation.

WHISKERS VS. WINE RACE

Old Vintage Reward for Longest Hirsute Appendage on October 10th—Betting in Favor of News Printer.

Everything grows prolifically in British Columbia. Effulgent and succulent skunk cabbage thrives bountifully in B. C.; towns and cities grow like mushrooms; trees grow big and strong, delicate children shipped in from other provinces develop into muscular citizens, but nothing grows with greater rapidity or to better advantage than an hirsute appendage or chin whiskers.

Down in the vaults of a local hotel is a case of good old vintage said to have been bottled when Vancouver, the explorer and navigator called in here for provisions. Either Ben Self, a local chef, or L. J. Baarlaer of the Daily News staff will win that case of wine. Whichever one has the longest chin decorations on the 10th day of October in the year of our Lord 1911 will get it.

At the present running it looks as if that delightful beverage will come to the News office. Both men are cultivating their chin weeds as if they were growing roses for the Portland rose show. Ben is trying a preparation of sauerkraut and weiner paste to aid the growth, while the News printer is massaging the territory round his organs of osculation with gasoline and machine oil.

Half the boys in town are having lots of fun over these, yet infant growths. It requires courage to grow whiskers these days.

A FAREWELL BANQUET

Pleasant Little Affair After the Show was Over Last Night

After the performance was over in the Empress Theatre last night, the members of the May Roberts Company and the members of the Prince Rupert Orchestra were guests at a complimentary banquet in the Exchange Grill. Manager Frank Stevens of the Empress Theatre was the host, and a very enjoyable time was spent. Farewells were uttered by the members of the company, who all declared that Prince Rupert was one of the best places they had ever struck, and many kind things were said about the splendid services the orchestra had rendered during the week.

Hit a Candidate

The names of several Prince Rupert gentlemen have been mentioned as nominees for the Conservative party in Comox-Atlin. One of these was hit by a ball at the indoor ball game the other night. Someone in apology remarked that it was impossible to throw a ball these days without hitting a Conservative nominee.

"NEWS" MAN IN TRAIN WRECK

Mr. W. D. Black had Narrow Escape from Accident on the Oregonian Express Three Days Ago.

Fate made an overture last Saturday to spoil the holiday of Mr. W. D. Black, of the mechanical staff of the Daily News. He was travelling on the Oregonian Express running out of Seattle when it collided with another train at Burlington, Wash. Happily nobody was hurt though there were some very near escapes. It took several hours to clear away the wreckage. Mr. Black left here last week on a few weeks' holiday.

ACCIDENTALLY DROWNED

Verdict of Jury on Death of George Litchenauer

After a short deliberation last night the jury empanelled to inquire into the cause of the death of George Litchenauer who was found dead near his shack last Friday morning, returned a verdict of accidentally drowned.

Dr. Eggert swore that according to his deductions made from the autopsy he held on deceased, death was due to drowning. He described the condition of the lungs, etc., in his body. The position, condition, and other incidents were explained by Thomas Collins, who found the body.

"What condition was the ground near where the body lay and where there any rocks near it," asked Jurymen J. J. Sloan.

"There were rocks near the body, but the ground was smooth."

Frank Pollock, formerly a partner with deceased said he last saw Litchenauer alive on Wednesday night about 11.15 when he was about to go across the harbor to his shack. In the estimation of witness the cause of death was by falling into the water when the old man tried to step from his big boat to a little skiff, which he used to get in to shore after he anchored the big boat. This theory the jury considered was logical. Pollock explained the feat of transferring to the skiff was a difficult one even in daylight.

The jury were: Peter Black, foreman, J. J. Sloan, G. C. Emmerman, G. W. Nickerson, Numa Demers, and J. McRae.

Government Agent McMullin acted as coroner and Constable William Godson represented the Provincial Police.

Another Tory Nominee

There's another Conservative nominee for Comox-Atlin. The members of the party in the south end of the constituency have nominated Mr. T. E. Bate, of Cumberland, a general merchant. The local forces avow they are in ignorance of the matter.

HELP FOR BUSY MEN

A Little Service that May Prove a Time and Money Saver

There are lots of business men who appreciate the value of a neat correspondence, who have not enough work to keep a competent stenographer permanently. But it would be an economy for them to have their dictation turned into letters by a public stenographer, instead of laboring over a type writer themselves.

This is the theory on which Miss Grant has opened an office in the Continental Trust building as a public stenographer. She merits success in her new enterprise.

Over one hundred round trippers came in on the S.S. Princess May yesterday afternoon from the south. She also brought forty people booked to here and a big consignment of mail and freight. She will be back from the north southbound on Friday morning.

TO BE MARRIED A THIRD TIME

Young Actress Takes no Chances with Millionaire Bridegroom.

New York, July 31.—Thomas Franklin Manville, Jr., son of millionaire "asbestos king," and his chorus girl bride, who was Miss Florence Huber, of Williamsport, Pa., will get married for the third time soon.

"Linnie and I have a red seal on the New York certificate, and a gold one on the New Jersey license; now we want a blue one, and we'll get that in Connecticut," explained the youthful Mrs. Manville. She is four years older than "Linnie," who is 19.

There is method in their marrying madness. Papa Manville has threatened to have the ceremonies annulled. The couple believe that by marrying often enough, in different states, they will discourage him.

Wants a Sidewalk

Mr. A. J. Prudhomme of the Savoy Hotel, wrote to the council asking that a plank sidewalk along Fifth and Fraser streets be constructed. The request goes up to the streets committee.

Would Sell a Lot

If the city would like to buy a cheap lot adjoining the electric light plant, the Prince Rupert agencies would sell one for \$2,100. The light committee will deal with the matter.

It's Badly Needed

The streets committee will consider the petition of Frank Evans, and nineteen others for a solid useful sidewalk on Second avenue between Seventh and Eighth streets. The present one is useless.

Beware of the Dog

A little while ago there were too many rats in the city, now Alderman Douglas claims there are too many dogs. He clamored for an official dog catcher. The Mayor said the appointment "involved considerable expense."

Alderman Kirkpatrick suggested a discarded piano box as a receptacle for stray canines. Alderman Douglas stood by his idea to reduce the number of dogs. Then Alderman Smith sent the matter to the ever busy street committee.

Good Idea

Alderman Newton found a scoundrel in Alderman Clayton to a motion asking that the Board of Works furnish full details of the proposed Hydro-Electric scheme for the edification of the people before the money by-law is to be voted on. This motion was lost and an amendment that the matter be dealt with by a committee of the whole was carried. Alderman Hilditch moved the amendment and found a scoundrel in Alderman Douglas.
